JAR LIDS

With Carbon Filter Technology
to reduce odors while
fermenting your own
foods at home

JAR LIDS

Reduces unwanted odors while fermenting your favorite vegetables!

- Works with any wide mouth Mason canning jar
- Releases fermentation gases in a controlled manner throughout the fermentation process
- Facilitates the removal of sulfur gases
- Prevents environmental oxygen and other gases from entering the container during fermentation
- Releases pressure build-up and prevents the jar from breaking
- Prevents mold growth in the container due to environmental contamination
- BPA and BPS-free (metal canning lids may contain BPA)
- Reusable, easy to clean covers
- Simple to use
- Patent pending technology
