

The aroma of catnip stimulates most cats into an energetic and playful mood, so it's useful for attracting cats to toys or scratchers. After your cat has had her fun, she will settle down for a blissful catnap!

Dr. Mercola's Organic Catnip is grown, processed and packaged in accordance with the National Organic Standards. So you know it's high quality and free of harsh chemicals.

When it comes to catnip, it's all about the aroma, so freshness is very important. When you open a package of Organic Catnip, you'll be pleased with the fresh potent scent - and so will your cat. In order to maintain freshness, Organic Catnip has been carefully packaged in a resealable bag.

DIRECTIONS FOR USE:

1. To release the Organic Catnip oils and boost aroma, gently rub between your fingers.
2. Use a little or a lot - experiment to find the amount that's right for your cat. Sprinkle on her Dr. Mercola's Cat Scratcher, toys and beds to encourage use.
3. The scent of Organic Catnip will eventually fade over time. When your cat loses interest in her Dr. Mercola's Cat Scratcher or other favorite toy, you'll know it's time to add fresh Organic Catnip.
4. To maintain freshness, store unused Organic Catnip in the refrigerator with bag tightly sealed.

INGREDIENTS:

Organic *Nepeta cataria* (Catnip) Flower, Leaf and Stem*.

CAUTIONS: KEEP OUT OF REACH OF CHILDREN AND PETS.

If signs of irritation occur, discontinue use and contact your veterinarian. Not intended for human use.
