“Either way, whether it's 250,000 or 440,000, medical errors still claim more lives than COVID-19 has, and it does so on an annual basis.” Imagine the full theatrical news-coverage treatment like they've done for COVID-19, but for deaths from medical errors: emergency updates, dramatic music, war-room style maps charting-out hot-spots, “this just in” cuts to some location or other, a parade of government or pharma experts, impassioned Cuomos ranting about not risking their mother to pharma, Bill Gates spasmodically gesticulating about locking things down until we get medical errors under control, Anderson Cooper and Sanjay Gupta going back and forth in their best concerned voices, subtly showcasing their professional ability to modulate their terror, letting just enough slip through to do their part in spreading that virus of fear....

Propaganda can be that sensational, but it also hides in the simple editorial choice of which facts to include, or what comparisons to make. A March, 2020 Vox.com piece announced that “The coronavirus has now killed more people in the US than the 9/11 terror attacks.” The comparison to 9/11 was telling: by equating the two in terms of the type and severity of response, a virus was thus surreptitiously co-opted to the cause of tyranny, since 9/11 lead to an out-of-control surveillance state, suspension of civil liberties, and a series of military invasions. An invisible virus was being auditioned as the next terrorist; “homeland security” was being replace by “biosecurity.” A section header in the article tipped that hand: “Should the US focus more on global health than terrorism?”

Why no articles about conventional medicine in the United States killing more people than all the casualties from all the wars in the entire history of the country? Propaganda takes many forms. Sometimes it hits you over the head. But more often, it's hiding in plain sight, often in something as simple as the choice of a comparison.

Good morning David. Yes, the lies in the statistics will continue, the path of the venom of the snake is marked by the tragedy that is being imposed to continue building a new world order of obedience, submission and loss of rights and freedoms. The established medical system kills by errors, kills by promoting the consumption of opiates, kills by excess of unnecessary antibiotics. Health institutions kill for being accomplices and directors of junk food promotion. The media bribed by large corporations kill to align minds in consuming products that promote disease. The blockade, fear and lies will kill many more people than those who die from COVID-19.

The pathologies that interact in a social and environmental context characterized by deep social inequity must be controlled. These conditions exacerbate the impact of these diseases and therefore we must consider Covid-19 not as a pandemic, but as a syndemic. In the case of covid-19, it interacts with a variety of pre-existing pathologies, due to life habits contrary to a healthy life, in impoverished, low-income and ethnic minority communities.

Clearly, if we really want to end this phony pandemic whose effects have been devastating to people, health, the economy, or future infectious diseases, we have to address the underlying conditions that make a syndemic possible. Independent, skilled, well-prepared leaders with a democratic spirit are needed.

Annually around 57 million people die in the world. The main cause of death in the world is non-communicable diseases. Cardiovascular diseases (cancer, diabetes, respiratory disorders ...) are responsible for the death of 36 million people each year. Virtually all deaths are due to these pathologies, which are often linked to aging and poor lifestyle habits. Ischemic heart disease appears first: 8.7 million, after heart attack: 6.2 million. Third and fourth place Respiratory infections: 3.1 million and Chronic Obstructive Pulmonary Disease (COPD): 3.1 million.

The global death rate from COVID-19 is not even in the top ten causes. COVID is lower than deaths from traffic accidents, lower than diarrhea. Even compared to other respiratory infections, COVID is now a minority. In this supposed second wave the rate is much lower.

joshmitteldorf.scienceblog.com/files/2020/07/Top-ten-causes-of-death-1.. In the world there are still 155 million children under 5 years of age affected by chronic child malnutrition. Hunger causes 45% of deaths in children under 5 years of age.

How many of these deaths would be avoided with a healthy diet rich in vitamins, minerals and phytochemicals. How many children, people with pathologies and diseases caused by blockades, will die from the terrible crisis of COVID-19, while metabolic diseases from a bad diet, which implies overfeeding accompanied by malnutrition, by a disastrous regulation of the responsible agencies, commanded by the agri-food industry and the Pharmaceutical Mafia, will be reflected in the figures for deaths from COVID-19. Some children will not reach adults..

Nearly 500,000 babies died within one month of their birth because of air pollution in the last year alone, according to the State of Global Air 2020 report. "Nearly two-thirds of the newborn deaths were associated with indoor air pollution, particularly where solid fuels such as charcoal, wood and animal dung are used for cooking. The damages done by air pollution also linger in children who survive past one month old, Beate Ritz, an epidemiology professor at UCLA who was not involved with the study, told the Guardian". childrenshealthdefense.org/defender/air-pollution-kills-babies/ (10/22/20)

Good Morning Guillermo, your powerful research and post vividly underscores the facts of life and death. Yes, people have tragically suffered and died from this COVID event too; but on top of that we have experienced with this particular disease something more like hype or a marketing campaign.

That extreme promotion of the pandemic narratives has then facilitated another anomaly, the worldwide shutdowns, curtailment of freedoms and newly instated social mores affecting healthy and sick alike. When considered with the telling statistics you and Dr. Mercola have provided, we have to ask why.

Shakespeare could have written a play about this. I suggest he could have called it, though it is no joke for the victims, "A Comedy of Errors" or a risible ruse to confuse the credulous scary naive unwary. The patron saints of Big pHARMa, King Billy and his Gog globalist crowd must be Joseph Goebbels and Machiavelli but their god surely is the father of the lie, the original serpent and manslayer. What theatre. What will the final curtain bring? How will or even will the King of Eternity help and if so, when? Shall Gods will on earth be done?

Maybe there needs to be a Kickstarter Campaign to make the following into a national billboard project to knock some holes into the Wall of Silence? {"Why no articles about conventional medicine in the United States killing more people than all the casualties from all the wars in the entire history of the country?"} Perfect observation - {" Propaganda takes many forms. Sometimes it hits you over the head. But more often, it's hiding in plain sight, often in something as simple as the choice of a comparison."} So much of the official information has little to no context or understandable comparison. So much is in plain site as to CY their A's.

One somewhat truthful information buried under a mountain of Bull Spit. 250,000 to 440,000 Americans die each year from preventable medical errors, of a Institutional Medical Malpractice System doping people creating an unhealthy population who can not survive a whoopsie, definitely not an outright wrong medical like substance. Here in the Hicksville backwoods it has long been a practice among those who care that if one has been exposed to someone else who is sick, too assume you may be contagious and to avoid those susceptible, especially the older or chronically ill folks. It would be unthinkable to move flu or otherwise sick people into nursing homes - nuf said, about that.

If only 6% of the total COVID-19-related deaths in the U.S. had COVID-19 & COVID-19 alone, the most powerful reason the population could be ripe for a pandemic only because so many are sick from their Medical Malpractice System. The most obscene in all this is how even in 'good times' real health building practices and treatments are labeled as disinformation, false. Yet even one of their own experts admits, 99% of us will be just fine. Great, as we face another shut down when the total affects of the first farce haven't begun to play out yet.

Gui, wonderful your statistics showing the many other malady's & death rates compared to this Sales Dog Disease Pitch. More deaths from diarrhea? One wonders if more people die from tripping over their own feet at this point. So far I have met one person who had this Covid-19 and that was a result of having to go into a Health Care facility for physical injury. In other words, caught due to the medical system.

Hi simsadw, if you're going to psycho-analyze me, at least get it accurate. I'm okay with dedicated professionals making mistakes; we're all human. I'm even grudgingly accepting that some of those mistakes are lethal, but on this precondition: patients have to be fully informed of not only the specific risks of their procedure, but of the kind of generalized information about the medico-pharma world that is always getting suppressed: the track records on drugs, vaccine trials, unnecessary procedures, alternative healthy options... and there must be full freedom of choice: no mandates on medical interventions, period. If a patient makes a fully informed decision and accepts responsibility for that decision, then so be it. But right at this moment, this very article and hundreds or thousands of others like it are being suppressed or censored and people are getting a very skewed picture of how to care for themselves, and, yes, that kind of pisses me off.

Researchers at the Kyoto Prefectural University of Medicine in Japan revealed that the new coronavirus remains active on the skin for nine hours. "This study shows that (coronavirus) may have a higher risk of contact transmission than influenza virus, because the former is much more stable on human skin than the former," the study authors wrote in the online version. October 3 in the journal *Clinical Infectious Diseases*. "These findings support the hypothesis that proper hand hygiene is important for preventing the spread of the coronavirus," the publication adds.

Dr. Steven

The Wall Street Journal is reporting that France and Germany are reinstating "lockdowns" (man, I hate that term) in response to "surging" cases--despite the facts reported here, regarding the actual mortality and recovery rates associated with this virus. This nonstop media drumbeat of "surges," without the context provided in so many fact-checked, scientifically verified articles like we read on Mercola.com, seems to be an attempt to justify endless limitations and restrictions on human life as we knew it which is sucking the joy out of life and providing governors, mayors, prime ministers and other governmental "leaders" the opportunity to act as dictators.

Yes, there is a virus but if, as Dr. Birx admitted, 99 percent of the population will be "Fine," then we need to ask hard questions as to why, in the history of viruses, this ONE is being used to impose worldwide restriction on humanity and WHY the mainstream media is complicit in biased reporting and "sins of omission" in censoring valid alternative views. The Great Barrington Declaration, by three world-renowned epidemiologists which strongly argues against lockdowns, has tens of thousands of signatures from health professionals, scientists, and the public, but is largely ignored or dismissed (with the help of interviews with Fauci) by "Big Media."

My only conclusion is that the Technocratic "reset" described in an earlier article is real and pervasive, "infecting" the media and abetting unprecedented and UNNECESSARY assaults on civil liberties. This is a spiritual crisis and we need prophetic voices, like Dr. Mercola, to speak the truth--and this always comes with a cost; prophets are not popular with those in power. Ultimately, I do believe collective humanity will fight back and prevail but things will get worse before they get better.

Yes, Dr. Steven, the events that are coming for Europe can be depressing depressing - Spain is already on the alert with confinement of cities and municipalities. The false PCR tests are causing a great alarm. Part of Europe may go to a second blockade with deserted streets in big cities, empty schools, beaches without bathers, forests without hikers, and people out with masks. This is not done for the flu, because it is done for COVID-19? Both diseases will probably be around humanity for a long time and people will be more vulnerable to the disease if preventive medicine, nutrition, exercise, social life is not carried out, so that the consequences of COVID-19 are less worrisome and hospitals will not be saturated

Professor John Ioannidis is Professor of Medicine, of Health Research and Policy and of Biomedical Data Science, at Stanford University School of Medicine: "If we had not known about a new virus out there, and had not checked individuals with PCR tests, the number of total deaths due to "influenza-like illness" would not seem unusual this year. At most, we might have casually noted that flu this season seems to be a bit worse than average." Great Barrington Declaration. FOCUSED PROTECTION.

"As immunity builds in the population, the risk of infection to all – including the vulnerable – falls. We know that all populations will eventually reach herd immunity – i.e. the point at which the rate of new infections is stable – and that this can be assisted by (but is not dependent upon) a vaccine. Our goal should therefore be to minimize mortality and social harm until we reach herd immunity. The most compassionate approach that balances the risks and benefits of reaching herd immunity, is to allow those who are at minimal risk of death to live their lives normally to build up immunity to the virus through natural infection, while better protecting those who are at highest risk. We call this Focused Protection. <https://gbdeclaration.org/>

Gui, thanks for the reflection and wisdom from Dr. Ioannidis, another "expert" voice being ignored by Big Media. I cannot imagine the devastation on Spain and Italy (the country from which my mom's family came), so vibrant in social life and community. I was reading about extended curfews in Spain that hit at the very time people gather to eat and enjoy life. Problematic PCR tests being used to suppress normative human activities and inclinations? Our only hope is a "great awakening" to common sense before the forces that profit from social control get the upper hand permanently.

Guillermou.....A respectful response to > "if we really want to end this phony pandemic whose effects have been devastating to people, health, the economy, or future infectious diseases".....we all must work together in getting this information to the people "on the streets" ...In addition to other modes such as email and texting. I find the biggest challenge being the audience. They seem simply disinterested, distrusting of any new revealing information, or just lack the critical thinking skills necessary. Regardless, each morning I awake, walk yo my den and print these articles on my HP printer and mail them to people that have a more far-reaching audience than I do. Everyone must do whatever they can, but "do something", they must.

Guillermou

Thanks, JDFree, yes, people need self-knowledge, a broad perspective of reality and the development of critical thinking. Reliable, well-documented sources of information such as the excellent reports of Dr Mercola should be sought. Awakening means that the individual is living life responsibly towards others, but without impairing the right to freedom. It means seeing the truth. It is the first step in devising a strategy to face the imposed reality. Not waking up means living in a state of conformity, accepting official statements and orders, following those orders, fitting in, acting normally, adapting, behaving according to stimulus-response. Knowing reality and sharing it with others is the bridge for unity in the fight against deception.

Out of fear, a person may not feel free and prevented from exercising their right. Due to physical force, a detainee is not in a position to exercise his right to freedom of movement. The police action that is observed in the COVID is a reduction of freedoms not to guarantee security, but to reduce the breath of health by tax means.

We also need true leaders, away from the dominance of a corrupt technocracy, from the imposition of dogmas denied by true science. The participation and collaboration of citizens in the definition of public policies constitutes a great value to prevent and fight against corruption, society constituted as one more agent in the fight against corruption is a great contribution that requires the commitment of the administration to facilitate this collaboration. The right of access to truthful information is not fulfilled by the media. This fundamental right would imply that it affects the protection and position in the legal system, to prevent the many limits of legality from being continuously violated. Citizens must be educated with democratic principles and conscientiously review all aspects that are undermining their freedoms and rights.

Hi JDFree and Gui, good job, you are doing your part to put the truth of this matter out there, as is Dr.M. This dilemma bothers me greatly. I wish we all were standing together on this, but we're not. I have read that many of the people we are trying to wake up - either don't want to wake up or can't due to the "strong delusion" they have upon them. They bow down to and defend the madness and lies, and do not want to hear the truth and choose to be part of the lie. Still, we all need show and share our love of the truth. Praying is always a good, ego free way to achieve what is seemingly impossible .. God bless.

Hi JDFree, we are the lucky ones to have posters like Glu, Dr. S, Dar, and all the others that share their wisdom with us. And, of course, our host, Dr Joseph Mercola. I have something to share that you may be able to use to rock some of those sheeple awake. Here is my take on what follows: Corruption and politics have always gone hand and hand. It's usually been behind closed doors and out of sight. But a proposed new law has changed all that. The proposal hides nothing; it requires the falsification of medical records; it requires doctors and schools to hide children's vaccine administrations from their parents; it prevents parents from knowing when their offspring are having a toxic reaction to a vaccine; it removes the basic right of the parent, as overseer, to protect any child over ten years of age; it requires that parents are to be keep in the dark about their own children's health issues.

While it may be obvious that no moral person would vote for such an unethical bill, it should be noted that there was only one dissenting vote upon the bill's first reading! **PREDATORY VACCINE BILL REMOVES PARENTAL RIGHTS** Urgent action is needed before November 10, 2020 to stop a predatory bill! The Council of the District of Columbia (D.C. Council) is moving quickly to pass dangerous legislation that would remove parents from their children's healthcare decision-making Under B23-0171, children 11 and older would be able to give consent for doctors and other vaccine administrators to vaccinate them without their parents' knowledge or consent. (This includes the impending coronavirus vaccine that's being brought to market at warp speed that has serious safety concerns.) The bill would also require insurance companies, vaccine administrators and schools to conceal from parents that the child has been vaccinated. More can be found at: "Stand for Health Freedom".

Start digging to the root of this noxious tree of pain; Endless war, toxic industries, counterfeit foods and ineffective drugs are not here by informed consent....

Posted On 10/29/2020

Guillermou

Yes, Randall, what the squid also hides from us is the news of independent scientists who warn of the loss of work, business and money, which will lead to a loss of rights and freedoms. The recipe of institutions based on false diagnoses threatens freedom by imposing measures that threaten people's health, such as the use of masks, while they lead them on the path of alms, living on social assistance and rescue until the money runs out or until the end of the crisis is declared. A crisis that will never end because vaccines will bring more diseases, suffering and false pandemics.

Unfortunately, politics has become the exercise of power and that power is in the hands of the technocrats associated with a government, and this has led to a phase that is weighed down by corruption, unscientific opinions, arbitrary points of view, partisanship and interests. personal. The technocratic solution would be to dispense with the people and give power to the experts. It has become a maneuver for the distribution of power and corruption.

The technocratic empire has also become apparent during the pandemic. The censorship and manipulation of medical information is a fundamental part of the social engineering of this system. The medical technocracy has lied to us about several factors, starting with the risk of death from COVID-19. The average mortality rate worldwide could be less than 0.26% as indicated by Dr. Mercola if the patients did not have previous pathologies. We live in the cognitive dissonance that we face today, when what they say does not correspond with facts or logical thinking. They have been wrong about initial risk assessment, testing, preventive measures, wearing masks, and social distancing. They have mixed the "cases" or positive tests with the real disease, lies, misinformation, errors of omission, which do not express what the true science says, excellently represented by the reports of Dr. Mercola.

Good morning Stanley. A whole dynasty that causes disease and death. The ID2020 surveillance project, which proposes global digitization with biometric data and blockchain technology of all people, is an aim to control the humanity of the computer magnate Bill Gates, in this case associated with the historic Rockefeller financial dynasty. ID2020 ("Digital Identity 2020") founded between 2017 and 2018 by The Rockefeller Foundation, Microsoft and Gavi "The Vaccine Alliance". Together with these founding partners were associated the Hyperledger corporations, dedicated to blockchain technology; IRespond and Simprints, organizations dedicated to the use of biometric data for digital identity; the ICC, the United Nations International Computing Center; among other.

We have Bill Gates, as the main financier of the WHO together with the most important world laboratories, he is at the same time in charge, together with the historic and powerful Rockefeller Foundation, of laying the foundations for the registration and biometric control of the global population, all this to continue promoting disease and death, as stated that the world will only "return to normal when all the people on the planet have been vaccinated."

Population reduction is one of the goals of the elite within the WEF, the Rockefellers, the Rothschilds, the Morgens, and a few more. The goal: fewer people (a small elite) can live longer and better with the reduced and limited resources that Mother Earth generously offers. This atmosphere of panic and fear overcomes any sense of reality. People should think more about causes. Thinking about Event 201, the simulation of the coronavirus, the Wuhan Military Games, the closure of the high security biological warfare laboratory at Fort Detrick, Maryland... .this and much more should be an eye opener for many. The power of propaganda will not silence the truth for long. A corrupt power destabilizes countries and people, destroys economies, destroys jobs, increases inequalities, hunger and misery. This will be the legacy of institutions, corrupt corporations, and narcissistic and evil characters like Bill Gates.

And even the known figures do not include the premature death toll due to vaccine side-effects, the extent of which is very thoroughly covered up, and can only be estimated, based on the few indicators we have, such as the Harvard Pilgrim automated adverse event reporting system, which found medical history consistent with vaccine injury following about 1 in 39 vaccine doses, and among about 1 in 11 subjects within a 4 year period. That is over 200 times the "1 in 10,000" vaccine injury rate that is taken from the official US adverse event reporting system (VAERS) and bandied about by vaccine propagandists, including regulatory agencies. [digital.ahrq.gov/sites/default/files/docs/publication/r18hs017045-laza..](https://www.digital.ahrq.gov/sites/default/files/docs/publication/r18hs017045-laza..)

IF the rate of serious events is under-reported by a factor on the order of 200, the MMR vaccine would be causing over twice the death and disability rates as measles, mumps, and rubella combined did just prior to introduction of the vaccines for the diseases. But the figures, though they could be readily available due to said automated reporting system, are covered up. Why? It does not take a genius to figure that one out.

Children now get on the order of 70 vaccine doses by the time they reach adulthood. And as best we can tell, the frequency of injuries that are serious enough for medical attention to be sought (i.e., appear in medical history) is about 1 in 39 doses. What do those numbers tell us? The elephant in the room is how chronically ill children and young adults are in the US, a very high percentage having chronic health issues; issues which are very profitable for pharmaceutical companies, but are breaking down the school systems for lack of funds to deal with all the mentally and physically ill kids. How ironic that the very systems of indoctrination that prime people to accept this insane state of affairs are hit hardest. childrenshealthdefense.org/news/april-2020-injured-kids-society-costs/

Thanks balhawk, Realistic information very well described. A large portion of deaths from COVID-19 are due to metabolic comorbidities and cardiovascular disease. Yes, children are vaccinated and fed with junk food with promotion of the agri-food industries and the media, with the complicity of health institutions, we already have a nation with a potential for diseases, which, especially in adulthood, cause illnesses and deaths. A flu or any viral or bacteriological infection will cause a great risk of death. "The greatest crisis that America faces today is the chronic disease epidemic in America's children". For American kids born in 1986, only 12.8% had chronic diseases. That number has grown to 54% among the vaccine generation (those born after 1986) in lockstep with the expanding vaccine schedule. Here are 10 facts every parent needs to know about vaccinations.

1. Children have never been sicker than today.
2. A growing body of peer-reviewed animal and human studies link childhood chronic illness epidemics to vaccines—
3. Vaccine manufacturers and healthcare providers cannot be held liable for vaccine injuries.
4. Vaccines CAN and DO cause injuries. The message that vaccine injuries are rare is not supported by facts and anecdotal evidence.
5. Post-licensure vaccine safety surveillance is failing the American people and children around the world.
6. None of the vaccines on the U.S. CDC recommended childhood vaccine schedule were tested against an inert saline placebo in clinical trials.
7. HHS has ignored its statutory obligations to study vaccine injuries and improve vaccine safety.
8. Vaccines are neither completely safe nor effective and the concept of "herd immunity" is a myth.
9. CDC Vaccine-Researcher-Turned-Whistleblower Dr. William Thompson, Ph.D.
10. Conflicts of interest undermine children's health.

Right, Gui. It is quite possible that vaccines are - either directly or indirectly - the MAIN cause of premature death in children, teens, and young adults, considering the increases concurrent with children being vaccinated earlier and more often with mental illness, suicides, and behavioral disorders - which it stands to reason can predispose people to crime and reckless behaviors that cause accidents. If our governments TRULY cared about public health, we would see comparisons of death rates due to ALL causes among vaccinated and unvaccinated children. I would expect the findings to be very eye-opening.

My solution is fairly simple. Test for vitamin D and supplement where necessary until the serum level is OPTIMIZED (not just "normal"). Initially, test every summer and winter to determine seasonal fluctuations. Then, just get on with your life, knowing you are likely protected--at least much more so than any of the current vaccines... and without the risks.

My husband once had a supervisor who would handle any crisis that came up in this manner. He would ask the employee reporting it... "Have you ever seen anything like this before? If so, what did you do to correct it? Did it work? Do you think it might work if we tried it again?" With this in mind, maybe we should consider homeopathy as a therapy or prophylactic measure. However, the drawback with both vitamin D and homeopathy is, that, taking it would require individual responsibility. For example, I understand that the British health service discontinued the practice of making calcium supplements available free to older women, not because they had proven ineffective at limiting bone loss, but because women did not take them. This is one of the problems with govt-controlled socialized medicine. When people do not directly pay out-of-pocket, or where medical benefits are literally free to certain individuals, they have no value and compliance is poor.

This is also a problem with public education. I think if more families has some \$skin\$ in the game, they would monitor and encourage their children's progress more closely and wan to make sure they were getting their money's worth. We also see this routinely with food boxes. People discard so many foods because they are too lazy to cook from scratch or they "do not like it". I am always excited to take organic foods off their hands. Many people reject "health" foods or refuse to go online to watch a video and learn how to cook from scratch with new and unfamiliar foods.

hi Almond ~ it is not the patient/doctor relationship that dictates compliance but the efficacy of the manipulated drug product ~ commercial considerations are the criterion not the health of the patient ~ drugs are brought to the market that have been modified and transformed by drug trials that are set up to DECEIVE the restrictions that are legal requirements ~ this applies to so called socialized medicine as well as capitalist medicine ~ the Pharma Corporations are the same in the USA and the UK

Yes, Almond, while the "health" institutions promoted by corporate interests of the agri-food industry and their friends with the pharmaceutical industry, do not defend a healthy diet with educational programs and prevent the propaganda of junk food, deaths from COVID-19, flu, etc., will be mainly due to previous pathologies. Family education for children to avoid metabolic diseases from childhood is vital for health in adulthood.

In Spain, counterproductive lockdowns between cities are already being carried out, despite the fact that deaths are much lower than what caused the saturation of hospitals in April-May. The highest accumulated incidences were presented by the groups under 60 years of age, with the group with the highest incidence being those between 15 and 29 years of age.

Previously, the COVID-19 patients, 72.3% of the cases had at least one symptom of the disease and 64.6% had one or more diseases and risk factors. Since May 11, those affected are younger and the proportion of those who had symptoms of the disease has decreased to 56%, and in terms of diseases and risk factors present in the cases, a decrease is also observed, since that 9% had cardiovascular disease, 4% diabetes and 2.6% respiratory disease. The "harvest effect" must also be considered. This is how the advance in the number of deaths is called when the disease fundamentally affects the most vulnerable people due to their comorbidity or pre-existing conditions, that is, mortality increases at a specific time at the expense of the death of people whose death, in the absence of that phenomenon or disease, presumably, would have also occurred at a relatively near time due to their situation of fragility or vulnerability. It is infrequent that, at the beginning of an epidemic outbreak, an epidemic or a pandemic, the fatality figures are higher and subsequently decline.

Posted On 10/29/2020

Vitamin D is also essential to avoid many pathologies. As reported by Dr. Mercola, a lack of vitamin D is a common factor among people with a more severe coronavirus that require hospitalization. Now this is also confirmed by a new study published in the Journal of Clinical Endocrinology & Metabolism of the Endocrine Society. The research reveals that 80% of 216 infected patients at the Marqués de Valdecilla University Hospital, in Santander, suffered from a deficiency of this vitamin, with men having lower levels than women.

Regarding the main contribution of the published report, the expert states that "it has shown the extremely high prevalence of vitamin D deficiency in these patients. We have long been aware that there is a higher incidence than we thought in the general population and , above all, in certain groups such as people with obesity, diabetes or the elderly. However, now we also have to add other types of patients such as those who suffer from Covid-19 ", says Escalada, who assures that " 80% of prevalence is a brutal percentage. "

While the truths of science that lead to health are not defended by doctors, scientists and people of good will, and are silenced by the Pharmaceutical Mafia, because it has powerful friends in the government and the media, diseases of any cause will be enhanced. The conflict of interests is brutal and lobbyists act as a cog to achieve the objectives of the BigMoney industries.

Hi Almond, Thank goodness the British women stopped taking supplements! Appreciate the references but calcium is now getting better known, in excess, to be a bad actor causing oxidative stress, not ever a solution for bone health! Dr Thomas Levy wrote his book "Death by Calcium" in 2014 or thereabouts, and gave a great presentation - forbidden healing found one in 2017, on this topic. Here's a link to Dr Levy's outline: www.deathbycalcium.com and here's another quick outline: www.food4healthybones.com/blog/death-calcium-stepping-away-calcium-sup..

I was a child born just after the war, the labour government introduced the NHS. They also introduced free vitamins, cod liver oil and weekly checks on children to make sure they were thriving. This was voluntary but most people took this up. I loved my daily dose of cod liver oil. My children also had this but Margaret Thatcher stopped it. Children also had free school milk, she stopped that also, which is why we called her "Thatcher the milk snatcher"

Mask wearing has become a social statement of caring. Most masks are medically useless and made more so as many have started using them as a fashion statement with designer products coming out. They are not sterile to start with, made with poor filter material, and used repetitively without cleaning or replacement making for a dangerous situation. Topping off with the fact that most have no concept on safely handling the mask and the necessity to do so with clean hands. Bottom line is that consistently wearing a mask is probably much more dangerous than not wearing one at all. Unfortunately that option is not open for most of us.

What I continue to find interesting is that in spite of all the hullabaloo about covid 19, I know no one personally who has had any complications from it, nor do most of my associates - many have said they've 'heard' of someone, who knows someone, who knew someone... But of all that supposedly tested positive, no one has been ill or died in our group, nor do we have first-hand knowledge of anyone who has. Yet we have these 'statistics' - purposely inflated to keep us in fear. I'm not saying covid 19 isn't real - I think it is a real bio-weapon, a designer virus that devastates those already struggling with comorbidities, especially the elderly - that's part of the diabolical plan-demic - eliminate the 'non-essential useless eaters.' I would think that with all these numbers here in the USA, we would personally be seeing more of what is being 'reported.' Hence, I call B.S. on it all. Let's get back to living. We're all going to die eventually, living in fear and being locked down is NOT living, and ultimately serves to harm our immune system, making us more susceptible to whatever comes our way, right? OK, that's my rant. Thanks for giving me a place to have my say.

antieM, yes, well I do know many who have been in intensive care, and some who died. But I still believe that those in jeopardy because of their poor health need to isolate themselves. They shouldn't expect young people to lose very important events in their lives. In my western state because we have a young population, and lower obesity rates we have a low death rate also. 1/20 of NY last I looked. We do have a very high number of cases. I frankly do not understand why some people want government to have a heavy hand on them. Our American motto was once "Give me freedom or give me death". Blue state governors give no freedom, only death!

Thanks for your input mpk3149. I'm a senior citizen living in a western state that unfortunately went blue with our last election. I have even asked business owners and managers in my area (that are open for business) about how many actual covid cases they know of, and they also have said they've pretty much had the same experience as me - they know some folks that tested positive but did not get any kind of severe illness, and don't know anyone personally who has died. I'm terribly sorry to hear that you do. My main point is that the numbers are severely inflated, and the b.s. of masks and isolation are far worse on us, mentally, physically, and emotionally, than the virus.

The most ironic part of things like flu, covid, etc. is that viruses are in reality exosomes created by the individual immune system in response to a toxic environment. "Viruses" are NOT contagious. Virology is a massive lie.

Finally someone calling it what it is about viruses. I agree. A good book to research this on is by Dawn Lester and David Parker entitled " What Really Makes You Ill - why everything you thought you knew about disease is wrong". In the 150 years or so of so called modern medicine why has not one study shown a virus to be infectious and cause a disease? Because they do not cause disease.

I had shingles on my shoulder when I was 10. I asked my sister to kiss it to make it better and sure enough several days later she had chickenpox. Contagion DOES exist, no matter how healthy you are. In fact, this is how the person who first discovered that washing the hands of the doctors reduces childbed fever in birthing mothers. No matter how healthy you are, if a doctor who just performed an autopsy with bare hands and then shoved them in the privates of a birthing mother, this is a recipe for disaster. Contagion does exist, therefore sanitation and good hygiene work. If contagion did not exist, then sanitation and good hygiene would be irrelevant.

Prior to the "covid-19" narrative/event, doing an internet search for "3rd leading cause of death", articles to this Johns Hopkins study outlining the massive failures of the U.S. medical system would return as top search results. Now, with the corporate media's massive & continual pumping of numbers (unverified) related to deaths supposedly from "covid-19", that same search returns most solely propaganda related to that "covid-19" narrative. The completely broken & failing medical industry is seemingly off the hook for their role in being one of the largest killers of people. Interestingly, in that JH study, one of the conclusions was that the available reporting methodologies regarding causes of death in that medical industry, is highly-flawed.

It states: "The annual list of the most common causes of death in the United States, compiled by the Centers for Disease Control and Prevention (CDC), informs public awareness and national research priorities each year. The list is created using death certificates filled out by physicians, funeral directors, medical examiners, and coroners. However, a major limitation of the death certificate is that it relies on assigning an International Classification of Disease (ICD) code to the cause of death. As a result, causes of death not associated with an ICD code, such as human and system factors, are not captured.

The science of safety has matured to describe how communication breakdowns, diagnostic errors, poor judgment, and inadequate skill can directly result in patient harm and death." This is significant. And simply being ignored/glossed over. Even beyond the detrimental failings of the medical industry in directly causing deaths, it shows that "causes of death" as recorded on death certificates is highly-erroneous, across all causes. "Causes of death" are largely judgement calls, and/or mere presumptions, determined via "communication breakdowns, diagnostic errors, poor judgment, and inadequate skill."

Petrarch was a 14th-century Italian scholar and poet. He is largely credited with coining the phrase "Dark Ages" to describe his era in the Middle Ages. He saw the age as one greatly lacking information, accurate records, short on knowledge, logic, reasoning, culture, etc. An abandonment of the knowledge developed by many Classical Greek & Roman Thinkers prior. It was also a time of vast wealth concentration. The Church controlling much of that wealth, and thus controlling most of the available information & records. That Church had the money, power and resources to dictate & promulgate their version of "facts" & "history".

The world in current era is again seeing a vast concentration of wealth. And again, with that vast concentration of wealth comes control of most of the sources of information. There are a relatively few people that currently possess that vast money, power & resources to dictate & promulgate their version of "facts" & "history". One simply has to deeply research & analyze SEC filings to see that the same Cartel of Elite own the largest percentages of the largest "competing" corporations, in most every single industry, via large share holdings. Those controlling the largest media co's, are similarly controlling the largest pharma co's, insurance co's, hospitals, clinics, medical equipment mfg's, tech co's, and so on. Ownership of those media and tech co's more easily allow them to widely disseminate & promulgate their version of "reality". This is no conspiracy theory.

This is all easily provable, via info that can still be accessed publicly (though corporate America is pushing the SEC, for one, to start excluding those ownership filings). Given this, I say that we are currently living in the Dark Ages of the 21st Century. Mere propaganda is supplanting genuine fact & knowledge. More verifiable info is being controlled & concealed. Greatly inhibiting the public's ability to more thoroughly analyze facts.

This whole thing is all about MONEY which is why the powers that be suppress anything cheap that works because they want to sell billions of doses of vaccine that cost hundreds to thousands of dollars! Successive 'new waves of cv-19' will be brought about as 5G is brought online AND the gigahertz broadcast radiation is incrementally raised in strength and intensity, as one brings the frog to boil in increasingly warmer water. This is the actual evil plan. It has been in the pipeline since even before the first generation of cellphone technology. So, yes, there is a bio-engineered cold virus of sorts (a radiologically activated exosome cytokine reaction within the body exhibiting 'flu symptoms') but it is in reality more of the body's reaction to millimeter wave radio frequency, or 'radiation sickness' if you will. Why? Who would do such evil to their fellow man on the Earth? Who wants such extensive control over Mankind? Have you ever read the Bible? It is clearly enough laid out there. They are the technocratic movers and shakers, the central bank financiers, the so-called royal families, and the so-called 'religious leaders' enbloc - the Bilderberg, Club of Rome, Davos and Bohemian Grove people enbloc luciferians. "By ventilating COVID-19-negative patients, the hospital artificially inflated the case load and death rate. Disturbingly, financial incentives appear to have been at play. According to Olszewski, the hospital received \$29,000 [from Medicare] extra for a COVID-19 patient receiving ventilation, over and above other treatments."

It appears that the criminal elite are using COVID-19's contribution to healthcare inflation as a tool for hastening their long-planned elimination of Medicare and Social Security. Medicare is ordered to pay for COVID treatment even when there is no evidence that COVID has anything to do with a patient's ailment. Doctors are incentivized to declare all deaths as COVID-caused or related in the expectation of receiving guaranteed payment from Medicare. This is probably one major reason that the Medicare premium charged to Social Security recipients is being raised 6% (estimate) for 2021, which is far higher than the official rate of inflation. The Medicare premium is deducted from the recipient's SS total amount, which is being raised only 1.3% (the official rate of inflation) for 2021. Over the years, the premium will eventually eat away all the SS amount because healthcare inflation outpaces official inflation every year. The Medicare premium is mandated and SS recipients cannot opt out of it.

I also think that many of these are not "errors" at all but deliberate attempts to swindle people for money. Adverse Drug Reactions	106,000
Medical Error	98,000
Bedsore	115,000
Infections	88,000
Malnutrition	108,000
Outpatients	199,000
Unnecessary Procedures	37,000
Surgery Related	32,000
Total	783,000 at a cost of \$282 Billion

I cannot vouch for these figures but it seems reasonable.

LOCKDOWN JUDICIAL REVIEW - Simon Dolan Court case (UK). We believe that the Govt has acted illegally and disproportionately over the COVID 19 lockdown and we are taking action. By forcing people to stay at home, and forcing businesses to close, they are, we believe, in contravention of basic Human Rights offered under English Law, that of the right to enjoy your property peacefully. The lockdown has and will lead to devastating economic impact (massive unemployment, tax increases, closure of businesses, reduced tax receipts etc) It has, and will lead to far more deaths from suicide, undiagnosed conditions, untreated conditions - indeed far more than would have been potentially saved by the lockdown.

What we wish to achieve in bringing this case, is simply the freedom of individuals - the freedom to visit friends, freedom to earn a living, to socialise, in essence, the freedom of choice. That, of course, includes the freedom to stay inside - should you choose. 200,000 PATIENTS DIE EACH YEAR IN US HOSPITALS FROM MEDICAL MISTAKES How Many Die from Medical Mistakes in U.S. Hospitals? An updated estimate says it could be at least 210,000 patients a year, more than twice the number in a frequently quoted Institute of Medicine report By Marshall Allen, ProPublica on September 20, 2013 It seems that every time researchers estimate how often a medical mistake contributes to a hospital patient's death, the numbers come out worse. In 1999, the Institute of Medicine published the famous "To Err Is Human" report, which dropped a bombshell on the medical community by reporting that up to 98,000 people a year die because of mistakes in hospitals.

The number was initially disputed, but is now widely accepted by doctors and hospital officials 2014 and quoted ubiquitously in the media. In 2010, the Office of Inspector General for Health and Human Services said that bad hospital care contributed to the deaths of 180,000 patients in Medicare alone in a given year. Now comes a study in the current issue of the Journal of Patient Safety that says the numbers may be much higher 2014 between 210,000 and 440,000 patients each year who go to the hospital for care suffer some type of preventable harm that contributes to their death, the study says. That would make medical errors the third-leading cause of death in America, behind heart disease, which is the first, and cancer, which is second. The new estimates were developed by John T. James, a toxicologist at NASA's space center in Houston who runs an advocacy organization called Patient Safety America. James has also written a book about the death of his 19-year-old son after what James maintains was negligent hospital care. **TRUTH WAS MURDERED IN AMERICA & LIES HAVE TAKEN ITS PLACE!**

Listerine kills covid too. This "pandemic" which we all know is fake is to sell us on a vaccine.... what if birth control is in the vaccine? Population control is a huge concern, and people don't want to do it themselves. I went to a party where lots of heavy hitters were and that's all they talked about - how to curb birth rate. So Fauci invented this germ that would only kill the weak and sick amongst us, they could inflate the numbers of dying too, close down all community, keep us from openly talking... scare us to death... and then we would flock to this vaccine, which hidden in it is birth control.

Xactly, the industry developed a while back, the understanding, from accidentally creating paradoxical vaccines, how to use aborted fetal tissue, to create vaccines that create an immune response to fetal tissue, basically a vaccine that teaches mommy's immune system to kill her own unborn child. They've already started using this bioweapon on the human population.

I found this last night in the article: www.sfaw.org/newswire/2014/11/13/bill-gates-and-the-anti-fertility-age.. "The Bill & Melinda Gates Foundation has been funding the distribution of tetanus vaccine in Africa by UNICEF, which is the agency that provided Kenya with the vaccine reportedly laced with Human Chorionic Gonadatropin (HCG). That is the same Bill Gates who said: "The world today has 6.8 billion people. That's heading up to about nine billion. Now if we do a really great job on new vaccines, health care, reproductive health services, we could lower that by perhaps ten or fifteen percent." Huh? lower the population with vaccines? Sometimes Bill Gates has a slip of the tongue like Biden does...

It went on to say "These vaccines, it seems, have been administered only to young women of child-bearing age – a million thus far, with more than a million more planned in that nation alone. " and "Other philanthropists such as those behind the Rockefeller Foundation have long been suspected of using vaccinations to cause infertility in places such as Nicaragua." and more "It is shocking to realize how many high-ranking U.S. officials have come from the Rockefeller Foundation or other Rockefeller-linked organizations and the extent to which such hidden elements in America sought to reduce global population, fearing that a large population would consume valuable natural resources and upset the balance of power (and their wealth).

"The Brazilian government [for example] was shocked to find that an estimated 44 percent of all Brazilian women aged between 14 and 55 had been permanently sterilized. Most of the older women had been sterilized when the program began in the mid-1970s." Well, this is it. This entire article is shocking, and the real reason the government hates Trump, he is not in on their plan, and they'll be damned to give up the plan when it is in this stage. Biden will win because of stealing the electio

GREAT BARRINGTON DECLARATION vs who? The John Snow Memorandum? Finally tripped over the rebuttal published in the Economist (October 21st edition) where the opposing declaration has been compared. Of course, no US-based media outlet would touch this hot topic. Here's a link to this article about Controlling the pandemic: www.economist.com/science-and-technology/2020/10/21/should-covid-be-le..

So following those statistics we could question logically if the vaccine would end up being the worlds greatest medical error ever. Don't get me wrong I'm not against vaccines. My father was in the military I've lived all over the world and get a needle in my arm and every country. I assume some of those vaccines actually protected me. This vaccine I fear is not going to be tested enough. I don't get a flu shot ever. And now that I'm an adult I like to choose what goes into my body

1961stephen, you want to read the link that Gui provided right here:

childrenshealthdefense.org/protecting-our-future/facts-you-can-use/10-.. Also becoming better known that there's a bell curve of human detoxification rates. Estimates are that about 10% of the population is in the "slow to detox" group, the most susceptible to vaccinations. This detoxing ability can easily be tested in advance of any jab, (like on the first day of birth, in place of the hep-B shot) but no one wants to cut into profit margins to provide advance testing.

Did you get this correctly? "They" are aware of potential issues for 10% of the population, (it doesn't mean this is a given, that these people will react, just greater possibility of their reacting badly) but the current vaccine industry is too greedy to avoid this potential from occurring. As if being exempt from legal ramifications is not bad enough...do you catch the scale of this corporate greed? And this does not include the CDC childhood vaccination schedule that was taken from thin air, availability of the kids and their parents, no one has ever tested this for excess toxicity at one time! There's enough greed and graft in the current program to go to the moon and back several times.

Rockefeller Medicine has distorted and perverted the ancient craft of medical therapeutics ~ by hijacking the American Medical Association {AMA} the Rockefellers used patenting laws to allow them to own proprietary formulas that could be dispensed by the licensed practitioners who would PUSH these DRUGS onto the captive market that uses allopathic treatments ~ by endowing the medical faculties and writing the medical textbooks the Rockefellers transformed a "snake oil" empire into a conventional medical empire ~ a simple commercial strategy of CAPTURING the market by CONTROLLING the way medicine is perceived ~ this "wrong turn" ideology has hijacked our world and made most of humanity hostage to the robber barons and their manipulations

Yes, Stanley, it all starts with John D. Rockefeller, who was an oil magnate, a robber baron, America's first billionaire, and a born monopolist. The Flexner Report, which gave rise to modern medicine of disease and death, picked up on the need to modernize and centralize our medical institutions. They mocked and demonized homeopathy and natural medicines; and even the doctors were jailed. The minds of other doctors and scientists were manipulated, Rockefeller donated more than \$ 100 million to universities and hospitals, and founded a philanthropic group called the "General Education Board" (GEB). The Universities were directed to instruct students in the medicine of large pharmaceutical corporations, a medicine based on patents and exclusion from Natural Medicine. hi Gui ~ Flexner was a Rockefeller pawn and the proud and ancient therapeutic traditions was subverted in order to COMMERCIALIZE Modern Medicine making it "Managed" and a cash cow for Rockefeller's Pharmaceutical Empire

Yes Stanley, "Rockefeller Medicine has distorted and perverted the ancient craft of medical therapeutics" In Dr. Mercola's article yesterday he included a video of the Corbett Report, in it the very same process of how Rockefeller did this is covered. Look about halfway through the video. articles.mercola.com/sites/articles/archive/2020/10/28/the-great-reset.. Yes Gui "it all starts with John D. Rockefeller"

Dear Cindy Lou 1 Please stop with your amateur (or even professionally mislead) psychologizing about the nature and intent of another poster, in this case the article's author, Dr Mercola and focus on the facts that he is sharing with a credulous and crazy ass public ready to scuttle their health and their welfare for cheap consolation and Big Media social engineering. the truth in all its forms and with all its power to hurt or heal is what need to come out and there are many who really really will hurt financially when it does. This was a huge problem before the pandemic. Death by medical error. Even with all the latest technology if you have a team with members who might be sleep deprived, over scheduled, basically just going through the motions. Connect that with patients who do not speak up for themselves when confronted with questioning a doctor or nurse, or not having a advocate with them to point out mistakes that are being made. I could not believe the time restraints that are placed on nurses and their care. It is basically a recipe to fail. Human/medical error. Doctors are more protected when they make mistakes. Our nation is governed by insurance lobbyists. Take good care of yourselves all and avoid hospitals like the plague.

Why are doctors sleep deprived and overscheduled? I have been only once in an American hospital and these people barely had any work and whatever work they did for me was messed up. They seemed annoyed to be working. These people are extremely well paid for minimal work. Where did you get that they are sleep deprived and overscheduled? This is true only in socialized medicine, not in a capitalist society. What you are saying is not my experience in America.

Vladimir you are fortunate to have only been in an American hospital once. Do you have any friends who are dedicated, hard working nurses with years of experience? I spent 20 years helping my parents navigate surgeries and treatments in the final years of their life. These were in part diseases that stemmed from poor medical advice/treatment from earlier years. One can never assume how things will turn out from a hospital stay. A good friend had an emergency blood clot issue after flying to England. She said though she didn't have a private room, the care was topnotch and the cost was 1/4 of what it would have been where she lives. She presented her hospital bill to her employers medical billing to be reimbursed and their reaction was pleasant surprise, if not a little embarrassed. We have to stop using labels that divide people like socialist, when all we really want is a fair value for our dollar and trustworthy medical advice/treatment. Like I said many times before, your best health insurance is too take preventative care of yourself. Stay well.

There is a major effort to program the population. Just turn on CBS news in the morning and within the first 10 seconds-or less, you will hear the word coronavirus. Next will be all the fawning over braindead Biden.. and of course lots Trump bashing.- Dead silence about the Hunter Biden Laptop..And then how the magic Vaccine will save us all.. and they cant wait. We are never going back to any kind of normal My housemate watches this fear porn religiously, is constantly angry, and very hard to be around anymore.

Think about this - what if the intent of the vaccine is to inject us all (especially colored people as they are more apt to get the virus and young people as they scare easier) with birth control?

OO wrote "Think about this - what if the intent of the vaccine is to inject us all (especially colored people as they are more apt to get the virus and young people as they scare easier) with birth control?" I agree OO...but I think it is much more sinister than that. 1. Add to this list mRNA a virus making protein permanently installed into your DNA. 2. A nano-digi-hydrogel-tattoo to permanently track you. 3. Diploid fetal cells that will grow and cause cancers somewhere in your body later on. 4. Mercury, Aluminum, MSG, Formaldehyde, that will support the negative effects of all of the above.....and I think these are the main reasons for this PUSH for a Covid Vaccine. Then it would be easy to control a world full of sterile, very SICK and dying people. Cull the herd and turn more Elite millionaires into billionaires and trillionaires in the process. Then usher in this NWO Technocracy.

Thank you for your daily articles. Today's was great especially that about my idiot governor , Cuomo. You might have not heard the latest thing he did. Over two months ago he opened up the conjugal visits for prisoners at our two maximum prison . He allowed busses from New York city to come to Elmira prisons to have conjugal visits. Now we have over 500 cases covid which put our community in a orange zone. School closed along with rest. ,bars and barber shops. He blames us for not wearing masks and social distancing.
