“The elderly and those with underlying health problems appear to be most vulnerable and protecting such populations should have been a priority. Lockdowns for healthy young people are far more questionable”.

The vulnerable were not protected and the healthy young were locked down. The real elephant in the room is not the lack of definitive answers to questions raised but that neither governments, nor official media appear to be asking them! Shutting down a nation's economy on the strength of little or no real scientific identification nor source of a virus is a very big step indeed. Wilful ignorance by officialdom won't wash any more and restrictions seem to be not for health reasons but as part of some political agenda.

Recent events suggest preplanned world domination and population control by (1) altering human biochemistry (glyphosate, chemtrails, heavy metals) (2) limiting personal contact, facial and social communication (face masks, social distancing and self isolating) (3) dispensing with the least productive members of society, such as the elderly and immuno-compromised (confinement in care homes and hospitals, use of ventilators, banning of an effective drug and natural therapies) (4) divide and rule tactics to incite racial tension (police killing a black citizen) (5) further weakening of the human immune system and reducing fertility by unnecessary and enforced emf expansion and closure of retail businesses (Smart meters, corporate surveillance, 5G, boom in Internet sales)d (6) further medical terrorism and surveillance (contact tracing, enforced vaccination). These events are real. No time for naivety.

hi there Cabochon ~ a recipe for DISASTER is being ushered into the evolutionary Pathway by Godless sociopaths that "know not what they do" - the "root of all evil" has become the dominant pursuer of Human Culture - Mammon has intensified in the "human fleshpits" that see venality as the apex of human endeavour - greedheads are the final evolution - the final prize of human civilization - resources are wasted on projects that reflect technological advance but guarantee atavistic decline for human values - the inability of the Masses to differentiate between the wood and the trees has created a Modern Babel where languages amount to nothing but the noise of competing egos - either we live on our knees or we die on our feet? - Hobson's Choice

While COVID was still largely confined to China, it did occur to me that by targeting the sick and elderly, this virus was doing a service to China's goal of reducing the population, along with getting rid of the "unproductive" population. I considered the possibility that this was a planned event.

Cabochon, I'm sure people try to shut you up by shouting "conspiracy theorist!" Here's the thing though--everything you list is actually happening. Maybe it's just a coincidental "perfect storm," maybe it's a highly coordinated master plan... maybe it's something in between. But one thing has been clearly exposed: there is a vast body of people who have deemed that we're not allowed to think about these things, to penetrate pass the official narrative, to even hypothesize and speculate... they are not willing to do so, and therefore, they will put their energies into policing their fellow citizens to do likewise, rather than question the oft-times colossally incongruous and unscientific stories we're being spoon fed.

Many real epidemiologists ("Real" as in Sweden) and emergency renowned workers around the world, kept warning us about the madness we are experimenting, however nobody would listen to them, especially if there is a billionaire, non medical specialist, who has to decide about serious medical problems. And yet, the shoeple were amazed that Sweden dares, not to follow the scare tactics? It was not difficult for any of our medical doctors to guess that those preventative measures would cause more deaths and economic collapse than the real cause, but most of them dared not talk about, simply to not be deprived from their licenses. People who tried to warn us, were called "insane". You can see it in the following video that has double numbers of thumbs down than the thumbs up:

Cabochon: Let me also praise your comment. Apart from everything else, it seems to me that all these authorities are guilty of practicing medicine without a license. All these lockdowns, forced quarantines of healthy people, masks, and social distancing are sold as health emergency measures. These people are not health practitioners, hence practicing medicine without a license; peanuts compared to abuse of power and ignoring the consent of the governed. I would like to say, that a reason China jumped on a virus as a cause is to cover up the 5G and super air pollution causes, as Dr. Zach Bush pointed out. Call a pandemic, lock everything down, and all protests can be quashed. Once the lockdowns occurred, air pollution levels decreased, and so did the illness. Now reopen, air pollution increases once again; and cases rise.

Dr. Steven

Drs. Ioannidis and Levitt along with Dr. Scott Atlas and others, have been lone "expert" voices speaking sensible truth about this virus and how best to respond--all are ignored by mainstream media, however, which continues its hyperbolic, fear-inducing biased reporting. The question is why? Clearly history shows how fear can be used as a tool to manipulate the masses. Fear-induced conformity, like "mask shaming," stifles honest debate and sharing of other perspectives with the nefarious goal of social control.

Sweden stands alone and firm as the most sensible approach to this virus. While CNN, the NY Times, and network media, continue their biased reporting and hype the fear, we continue to sacrifice our civil liberties and are apparently being "trained" to accept this unscientific social control as permanent, "until we have a vaccine" (Gates). Thank goodness for Dr. Mercola and the prominent experts cited who speak out as voices of truth and reason in crowd of "madness"; my worry is, with major media outlets "all in" with their biased reporting, how can these alternative views get to the wider public?

If you do some googling you will find a lot of the media is funded by the Bill and Melinda Gates Foundation in many instances. You don't bite the hand that feeds you. Quote from article on the Gates Foundation: "The foundation spends most of its money on global health with sizable sums going to global development & efforts to improve public schools In order to keep its tax-exempt status the foundation has to give away about \$3 billion a year. Stacy Palmer, editor of the Chronicle of Philanthropy, says the foundation's influence goes far beyond that. Taking Over? "They're influencing governments in lots of different ways – and corporations, and really everybody else in society, and it's not just about writing checks," she says.

It's about setting agendas, framing debates, advocating the foundation's point of view and taking action. Palmer says the foundation has changed the perception of what a private organization can do." Google: Bilderberg Group ...Bill Gates, Henry Kissinger, Jared Kushner, Eric Schmidt - this is how one member describes it: "To say we were striving for a one-world government is exaggerated, but not wholly unfair," he said. "Those of us in Bilderberg felt we couldn't go on forever fighting one another for nothing and killing people and rendering millions homeless. So we felt that a single community throughout the world would be a good thing."

Other British politicians who accepted invitations: Conservatives Alec Douglas-Home and Peter Carrington – who chaired the committee between 1977 and 1980 and between 1990 and 1998 respectively – Margaret Thatcher, David Owen, Tony Blair, Peter Mandelson, Ed Balls, Ken Clarke, George Osborne. Princes Philip and Charles have been. Randyfast, I'm staunchly in the George Carlin Party. I catch ad hominem from all sides for exposing weaknesses to all arguments. The only weakness I can expose here is the learned helplessness we seem to be acquiring in the quest to be happy, healthy, almost wealthy and wise. The vast majority of ad hominem attacks I get lately are that links I provide are conspiracy theory links debunked already. Even when I use CDC, WHO and govt links. Reminds me of Cheney and Rumsfeld selling the 2003 Iraq war as hard as they could. We know exactly where those weapons of mass destruction are. They are somewhere north, east, south and west of Bagdad. We know exactly what we are doing with this disease. We know it's crafty and invisible and able to infect and kill anyone. Anyone we say it kills. it feels like even Judas goats loose cred at some point on the ramps in the slaughterhouse.

One of the signers of the U.S. Declaration of Independence was Dr. Benjamin Rush, a renowned medical practitioner of his day. His signature appears right above a more famous Benjamin, a certain Mr. Franklin. Dr. Rush unsuccessfully tried to get protections against medical tyranny enshrined into the U.S. Constitution. He said, "Unless we put medical freedom into the Constitution, the time will come when medicine will organize into an undercover dictatorship to restrict the art of healing to one class of man, and deny equal privileges to others. The Constitution of this Republic should make a special privilege for medical freedom as well as religious freedom." This strikes me as being an astonishing level of prescience, uncanny in its accuracy. I wonder if he had anything to say about just how many people would've been completely oblivious to this state of affairs, even as they lived under that "dictatorship."

The U.S was already decades-deep in a chronic disease epidemic due to deadly diets, environmental contaminants, financial poverty and a bogus pharmacare system; pre-existing co-morbidities. The country and much of the world was already made stupid by a monopoly-designed media, so it was a 9/11 redo to scare the low-IQ public into submission to mass "patriotic" correctness. This mega-distraction coved a crashing economy and another upward transfer of wealth. Unlike most of the issues surrounding this, you actually do have a control group, the UK. The huge spike in deaths occurred after lockdown was imposed in the UK and these deaths are referred to in independent media as 'lockdown' deaths. These are the people who died: - resident in care homes, where, because of lockdown, medical facilities were limited or withdrawn and family visits and contact were denied, - elderly and ill patients who were long-term resident in hospitals who were sent to care homes to 'free-up' beds - people who died at home of heart attacks and strokes and similar because they didn't go to A&E, -

people who were no longer receiving allopathic treatments, which as we know are long-term and cause significant health problems if suddenly stopped - DNARs - people who had conditions which were not diagnosed because as with the above cases, hospitals in the UK were only dealing with COVID, although they had set up 'Nightingale' hospitals supposedly dedicated to these patients, these were hardly used, he only one that was in London had 51 patients in total, - people who had significant and life-threatening stress-related conditions who were too afraid to go into hospital because of the Media hype - suicides - domestic violence and murder - excessive use of alcohol and drug use in lockdown

You can find all the stats/graphs relating to these and a host more information here:

www.ukcolumn.org/.../lockdown-deaths-not-covid-deaths This article also discusses that deaths in Sweden which did occur in their care homes were due to poor staffing levels, overcrowding and bad decisions, something Sweden has been troubled with for many years. Also to be considered is the long-term effect of the poor quality food consumed, lack of exercise and D3, living continuously at home, cooped up in often toxic environments (building materials, furnishings, flame retardants....), excessive computer and phone use in a confined space, stress..

OK - so the so called defensive measures against mass disease are in the spotlight - how can these measures be seen as effective? - the media certainly doesn't think so - they reinforce the behavioral conditioning "day in and day out" - reports of bullshit tests that supposedly detect a virus that has never been completely isolated and lists deaths through symptoms that are commonly shared with colds/ flu and pneumonia as COVID for which a BOUNTY is offered to the hospitals as a reward

Bill Gates a hard boiled SALESMAN runs this commercial propaganda machine of "new normality" /universal mandatory vaccination/ Gestapo tattoos/ an education system that conditions SLAVERY as the cultural agenda for the Masses - is this what a million years of evolution finally becomes?? - the Death of Progress??

So Sweden has one of highest death rate per capita and sacrificed country old and vulnerable people and we call this success story? More than 5,500 people have died with Covid-19 in this country of just 10 million. It is one of the highest death rates relative to population size in Europe, and by far the worst among the Nordic nations. Unlike Sweden, the rest all chose to lock down early in the pandemic. There has been also a blow to the Swedish image of being this humanitarian superpower in the world with high-quality state health and elderly care. Also many people voluntarily worked from home and most Swedes follow social distancing. And the Swedish economy will still shrink by about 5% this year. That's less than other countries hit hard by Covid-19 but still similar to the rest of Scandinavia. Sweden's unemployment rate of 9% remains the highest in the Nordics. Also counting on herd immunity is somewhat illusive when only 6% of the population there is known to have antibodies, according to Swedish Public Health Agency. So Sweden strategy has led to death, grief and suffering and on top of that there are no indications that the Swedish economy has fared better than in many other countries.

Posted On 07/26/2020

You are sadly slamming Sweden's management of COVID-19 in exactly the way that it is portrayed in the newspapers and the BBC. Contrary to what they want you to believe Sweden actually managed it very well (yes they admitted that they did not manage the care homes well, but the same happened in most European countries including the UK). Sweden never had a full lockdown, schools have been open throughout, their economy will not be decimated as in the UK, and people won't be losing their jobs in the millions as in the UK. Currently deaths and hospitalisations in Sweden are minimal and all of that WITHOUT a lockdown. A major success story!

"Sweden ripped the metaphorical band-aid off quickly and got the epidemic over and done with in a short amount of time, while the rest of the world has chosen to try to peel the band-aid off slowly. At present that means Sweden has one of the highest total death rates in the world. But Covid is over in Sweden. People have gone back to their normal lives and barely anyone is getting infected anymore. I am willing to bet that the countries that have shut down completely will see rates spike when they open up. If that is the case, then there won't have been any point in shutting down in the first place, because all those countries are going to end up with the same number of dead at the end of the day anyway. Shutting down completely in order to decrease the total number of deaths only makes sense if you are willing to stay shut down until a vaccine is available. That could take years. No country is willing to wait that long.

Covid has at present killed less than 6,000 in Sweden. It is very unlikely that the number of dead will go above 7,000 [UK >40k]. In an average year 700 people die of influenza in Sweden. Does that mean Covid is ten times worse than influenza? No, because influenza has been around for centuries while Covid is completely new." www.spectator.co.uk/article/how-dangerous-is-covid-a-swedish-doctor-s-..

Don't know if Sweden got this right or not, as apparently no country did a good job of protecting their seniors in "care homes" or nursing homes. Aside from an aging immune system, it seems something in aging bodies makes them far more receptive to this virus. Let me count the ways: flu shots, proton pump inhibitors, H2 blockers (acid blockers), ace inhibitors...and this list goes on. The True Pandemic is cancer, with a nearly invisible 1.7 million Americans dying from this each year. We do not close down the economy or schools for this rapidly spreading illness.

The same plan that put Irish farmers into disease ridden poor houses as they starved to death. They starved not because they were bad farmers who made a massive mistake monocropping potatoes. They starved as their absentee landlords took all their produce and shipped to England via Liverpool. The logs of ships and the ports show that the Irish had plenty of food and shipped it out at the point of Brit guns. How many generations was this covered up? How many generations will the truth about cv1984 be covered up? Now do we all understand the real logic behind internet censorship?

I would add to what you said about the deaths in Sweden that if you break it down by age, you discover that only about 4% of the deaths were from people below 60 years of age. 96% of the deaths were above 60 years of age with the most affected groups being 70-79 and 80 and above. As well with 70% of those deaths being with seniors in care facilities. Pity Sweden did not successfully implement its strategy of protecting seniors and immuno compromised across all cities and not just in Malmo. But even with that failure they are still ahead of the curve.

Easy to talk,difficult to control and take positive measures due the opinions,politician opposition,the press against the govern. Brazil is in the same dilemma. The population about 208 milion. The supreme court and the Congress controll the govern and the people are mainted in home prision,meanwhile governs and mayors use funds for others purposes. Covid in Brazil is corruption by politicians.

Rflick replies to StanleyBecker "So your real motivation Mr. Becker is religious! I would guess your religious beliefs would save humanity if we would only give up our freedom of thought and and follow you. Name-calling, false equivalence, capital letters, exaggeration, profanity, bullying, and volume of posts do not make for a strong or convincing argument. This cite is a home for cultists."

It sounds like you're making an authoritative citation based on your own ideology. I am not religious but I do prefer Mr. Becker's world perspective. It is apparent from the study of even the most basic living single celled creature that biological life on earth did not create itself; either a creator or God as creator exists and caused the creation. I agree that our world is largely run on and by greed (which translates roughly to 'love of money') and the social systems and interpersonal interactions arising therefrom.

As to your own ideology, I hope the word you're looking for in your last sentence was "site" not cite.....using 'cite' implies that the ideas contained your previous statements in the post are a 'home for cultists'. Giving the point you were probably trying to make, it seems ironic to me.

Another key fact about Sweden's death total is only 4% of the deaths is in the under 60 years of age categories. As well, of the 96% above 60 who passed away, 70% of those deaths were attributed to senior care facilities where they failed in implementing the stated standard of care. Meaning when people started to show symptoms, rather than take the ill person to the hospital to be treated, they left them in the care facility to die!

We live in 'frightful' and not fearful times. Our fears are used and monetized against us. As we are corraled into making decisions that will affect our lives forever. Who can we believe, and who can we trust? The writing is on the wall; the evidence during this pandemic has become crystal clear. We can no longer trust the duplicitous collusion between our governments and BIG business. We must bravely believe in ourselves and our body's natural ability to heal itself. Albeit, given the right foods and mindset, we can and will overcome anything and everything in our way. Truth, knowledge, and NOT propaganda will set us free!

Robert F. Kennedy Jr. reports on the Children's Health Defense web site that Covid-19 deaths are 90.2% higher than they should be. The CDC changed the rules Feb. 1st, 2020 in private, and without open discussion among qualified professionals that are free from conflicts of interest. Following the guidelines from prior to Feb. 1, Colorado's death count would and should be 176. And the total for the USA should be 14,365. It is a hoax !!!!!!!!!!!!!!!!!!!!!!! childrenshealthdefense.org/news/if-covid-fatalities-were-90-2-lower-ho..

I looked at the death statistics in Arlington County, VA today. The number of reported COVID deaths is 286 and a fatality rate of 0.054 percent, assuming they were lab confirmed and not death by it looks like COVID. And now the County Board has passed an emergency ordinance to limit the number of people at corners to be named to three, punishable by a \$100 fine for non-compliance. It seems that as the death rate has plummeted, the desperation of the willing tools of the plandemic has heightened and the fear propaganda is being ratcheted up. Given that the majority of folks I see at stores are wearing masks, it tells me that these zombies do not read anything other than MSM propaganda and no curiosity to do independent research. You would think that all the contradictory information about do/do not wear masks would lead them to question the practice. It's funny that the WHO is now recommending that anyone exercising should not wear a mask. I guess then no one should wear one if they are walking; because they last time I checked, walking is exercise. These knuckleheads are incapable of a coherent story, yet people don't question.

Sweden did not panic over the virus. They used common sense and good for them. Many Americans are just frightened out of their wits over nothing serious. Politicians should endorse ditching the masks and open the schools already.

Stan, yes, the hospitals are empty....at least empty from covid. We do an average of 120 surgeries per day, everyday with sick AF patients coming from far and wide. ALL are tested for the damn covid, only less than a dozen show up positive and they were asymptomatic. This is the biggest fakery ever on planet earth. Control. Control. Control. Rflick, as a surgical RN, masks are worn in a DRASTICALLY different way than the general public is wearing them. Masks are an additional barrier to prevent gross contamination to both the surgical team and patient. We all know they are little more than a sacred cow when it comes to airborne pathogens. During normal cases we wear a simple mask. N95 ONLY used for active TB and active Covid as they are DREADFULLY uncomfortable. NO ONE, NOT ONE PERSON in the general public wears an N95 properly that I have witnessed, Additionally, we use a brand new mask for each and every surgical case, sometimes we even get a new one in the middle of a case if it becomes soiled. Lastly, the mask is just ONE part in infection control measures. All operating rooms are cooled and very much climate controlled relating to humidity. As well as constant air exchanges. You absolutely CANNOT compare a climate controlled situation to going to your local grocery store with a mask. So please don't. Not even remotely the same scenario.

I was trained in Public Health and cannot believe how our political, media, companies and other talking heads here continue push forth the mask narrative, when it is very clear from statements made by scientists, epidemiologists, etc. that this virus cannot survive high temps and humidity, does not last long on surfaces, etc., while having acknowledged that masks aren't protective. I have decided NOT to shop Walmart and will buy local UNTIL such policies are lifted. We have treatments, prophylactics, etc. Get rid of the masks and let our God-created immune systems do their jobs! Keep up your outstanding work!

I don't think you can compare Sweden to the US or Brazil or Peru and their handling of the pandemic. First of all Sweden is a country with fewer population, secondly culturally the Swedes are more disciplined, educated and does not have the amount of very poor people as the other countries mentioned. In the US and in Brazil, they did exactly like the Swedes: : very few restrictions and look at the results! In Peru, President Vizcarra implemented immediate quarantine that people could or would not comply with! Look at the results.

Australia total deaths out of 25 million.... 139... we are in lockdown, we usually lose about 1,000 people to flu every year, Now in the middle of Winter, no flu numbers, they have disappeared, may be they have renamed it CORONA. We are in our 2nd wave..getting ready for the 3rd and 4th. on and on for years to come...they have an agenda. We lose 4,000 people a day world wide to the deadliest infectious diseases, TUBERCULOSIS, about 1.5 million a year, yet, that does not get a mention. they want to destroy the world, no more going back

Posted On 07/25/2020

premia, flu numbers have gone down because of social distancing and hand washing. I predicted this might happen, and thank our WA government for doing the right thing early. We have today 9 cases, no deaths and no hospitalisations. We should keep it up all winter. I think doctors know the difference between flu and Covid - they have quite different symptoms.

Posted On 07/25/2020

Hello pearl, I read that article last night and it is obvious the CDC had their plan in place to boost the infection and death numbers by abandoning the medical standard that has served well for 17 years.

Everyone reading these comments should read the article themselves at this link:

childrenshealthdefense.org/news/if-covid-fatalities-were-90-2-lower-ho..

You asked what to do about it, I recommend everyone write to your Governor, State Legislators, US Congress members, newspapers, public health officials and all in your contacts to demand the return to the industry standard, Medical Examiners' and Coroners' Handbook on Death Registration and Fetal Death Reporting, Revision 2003, demand every labeled COVID19 death be re-examined with autopsies, and re-labeled according to the Revision 2003 handbook, demand Congress investigate the CDC for crimes against the people of this nation, bring criminal charges as appropriate, which will include jail time. The CDC needs to be shut down and restarted with new rigid rules against corruption, include increased oversight, with no ties to the medical mafia, and no profits from vaccine patents.

After reading the article, you will realize that the COVID19 deaths are in reality slightly less than 10% of what they are, (140,000 deaths should really be 13,720), significantly less mortal than pneumonia and even the flu. The CDC's published document on May 20 COVID19 Pandemic Planning Scenarios says the case fatality rate is 0.4%, and you can calculate the infection fatality rate at 0.26%, even using the inflated mortality figures. The Physicians for Informed Consent compared the 0.26% IFR to the 1918-1919 flu pandemic at 2.25%, 1957 - 1960 flu pandemic at 0.28%, and three others flu seasons at no higher than 0.14% IFR. Take the COVID19 IFR of 0.26% multiplied by 9.8% and you get the true IFR of 0.025% when using the Revision 2003 handbook. We have all been lied to.

Posted On 07/25/2020

When I read it, I couldn't believe the extent the CDC has manipulated the data. I knew they padded the fatalities and was quite sure the case numbers were highly inflated, but changing standards to fit their need to fear monger. I am writing to my state and federal representatives, but is anyone here able to put together a petition we can work at promoting? This really is a crime against the American people and you are right about the CDC. I watched another video today.....NewsBreak 81: CONFIRMED: COVID-19 Plandemic a Known, Live "Training & Simulation Exercise" under WHO www.youtube.com/watch . This one shows that this was planned and Fauci was in on it. I knew he was, but this proves it. I can't imagine this kind of evil. Problem is, this is probably not the last virus they plan to infect us with.

We know that the people we elect to represent and govern us, ignore our requests and needs, and have sold themselves to the monied interest. We have let them get away with this for too long. It is time we remind them that they have taken an oath of office to uphold and defend our US and state Constitutions. If they are not willing to defend and protect our liberties, then they should signify by resigning, and we will find suitable replacements.

Just saw a news article today that said the lock downs didn't save any lives. What caused more people to die in the US is obesity, diabetes, poverty. Versus Sweden who are slimmer and eat a lot of Salmon, rich in Vitamin D. So trying to save us from ourselves hasn't work and is still not working. Admit defeat, end the lockdown and let us get back to some semblance of normalcy.

Anders Tegnell, Sweden's state epidemiologist, told Swedish radio on Wednesday that "if we were to encounter the same disease again knowing exactly what we know about it today, I think we would settle on doing something in between what Sweden did and what the rest of the world has done." In other words, Sweden's laissez-faire attitude to hindering the spread of the virus has resulted in people getting killed, and had they been stricter in putting emergency measures in place to stop people gathering or to improve social distancing –as the UK did– more people would be alive today. That is, in Tegnell's revised opinion.

Posted On 07/24/2020

The first question I ask myself when reading scientific conclusions is: who is funding the study and what is their agenda? I find it difficult to believe that children can bring various childhood diseases as well as cold and flu home to infect siblings, parents and older adults but not the supposedly highly contagious COVID-19. Why? It doesn't seem logical. As a Stanford grad with an MS in engineering, the conclusion that masks have no effect is not an obvious one. A mask is like a sieve or filter which can trap particles and alter the airflow from one side of the mask to the other.

Supposedly a mask can trap larger water droplets like spit when talking or shouting as well as when sneezing or coughing. And air velocity from a cough can be greatly lessened after passing through a filter/mask, which should reduce how far viral particles are spread. Breathing normally through a mask may not impact viral transmission either breathing out or in if the virus is smaller than the mask openings and a mask has no antiviral properties. And coughing, sneezing, or breathing hard when exercising may force some of the exhaled breath around the mask in sideways, up or down directions but that still reduces the force of air and aerosols in the forward direction even if the mask cannot trap the aerosols physically.

So to understand the conclusion of why masks do not work to reduce the spread of a virus, one could set up an experiment to simulate viral distribution with and without masks, and with different mask designs, when a person breathes normally, exercises hard, coughs, sneezes etc to understand when masks work or the conclusion of why they don't. I hear youth now have COVID-19 parties to see who gets infected first. Like Russian roulette. One danger of youth thinking they are immune or will be mildly infected. I'll wear a mask. When I see other mask wearers, at least they're socially conscious.

It is tragic beyond belief what is rapidly and irrevocably happening. The false narrative about Floyd to entice a hate group that FORCES businesses to spread a racist terrorist agenda. A planned pandemic by the evil AF deep state to precipitate fear and obedience and roll up our sleeves, begging for a deadly cocktail stab. Unfortunately, very intelligent people are taking it hook line and sinker. Where will it stop ?? The compulsory mask wearing is funny as they just DO NOT WORK the way the general public wears them and all the absolute stupid rules around the requirements. And if people believe in this fear doctrine so dam much, then why be so scared if I don't vaccinate and wear a dam mask. NEVER understood that concept. The only herd immunity is natural acquired, not by a vaccine. And if I mixed the ingredients in the standard vaccine shot and gave it to a kid to drink, I would be arrested. But hey let some uneducated white coat stab you rite into your blood stream and it's considered health, WTF ?????????? How are we gonna stop this?????????

Its in newspapers billboards, TV, internet , even comic booksand on and on. Now if Covid was a useful item.and could be bought and sold ,most earth would have one.. What a gimmick!!! Proof the Advertising is a unique and very useful Propaganda Tool..most effective...just like the Big Lie (en.wikipedia.org/.../Big_lie)... The expression was coined by Adolf Hitler, when he dictated his 1925 book Mein Kampf and how true it is today Now there will be many who say : "Robb you are crazy!! " maybe so.....but Think about all the questionable 'supposed 'facts'...flimsy statistis, false deaths ,paid Doctors and hospitals to "deem Death by Covid." Humm. I start to see thru all the 'Smoke-N-Mirrors'..and think the deaths in elder houses and OldFolksHomes are mostly ASSUMPTIONS by staff and Doctors....as that is all it takes to sign out a Death Certificate..no tests...just what a Doctors OPINION is ...and we all know what Opinions are. I say.the person died from a Flu...My Opinion. And if the dead was tested .how accurate is a test for Covid?? even that is mostly and assumption... IDK.but too many holes in this scam to be convincing enough to shut down earth so They can fine tune the New World...and YOU!!!!

Want to move to Sweden! Being muzzled and locked down, losing one's job for the only purpose of sinking the economy to get rid of a sitting president is wrong. It appears in the US some have kept their voice, in one state for example, there is a mask mandate exclusion for people of color, and more recently in DC for law makers and federal employees. What does that say to the rest of us? Data has been wrong from the beginning, and manipulated to increase fear. Furthermore, in the state of madness the rest of the world has carbon copied the US way to handle the crisis and we ended up with a fear pandemic. Now that it is not even an epidemic anymore mask restrictions are worse than ever. It is very wrong.
