

Louise_B

Shows why all these footballers are dropping like flies on the pitch. And all for a disease with a 99.8% survival rate and an average age of death of 84. It seems the evidence is building and the cries getting louder but yet they're becoming more tyrannical about forcing the 'vaccine' on us. As in Austria where they are actually going to make it the law that you have to have it. And that's in Europe, not some despotic Middle Eastern country. I feel sick when I think about that.

Yes, we have that young and healthy athletes around the world are suddenly beginning to suffer from heart conditions, breathing difficulties, nervous system disorders, among other serious chronic diseases. Some athletes are collapsing on the field of play, never to wake up again. German newspaper Berliner Zeitung has published a report seeking to answer why an "unusually large number of professional and amateur soccer players have collapsed recently." Headlined 'Puzzling heart diseases in football,' the report begins by highlighting the case of FC Barcelona's Sergio Agüero, the 33-year-old striker who recently had to be withdrawn from a match after 41 minutes suffering from dizziness and breathing difficulties. The article lists a large number of recent cases of footballers who have had heart problems or collapsed on the field, in some cases leading to death. That list is republished here: www.blacklistednews.com/article/81156/german-newspaper-highlights-unus..

Another interesting hypothesis as to why these heart, strokes and footballers dropping like flies strangerinajewishworld.com/.../dr-andreas-noack . Interestingly, a UK Scientist has been analysing the VAERS database by Covid vaccine batch numbers his page is on Facebook (Pharmaceutical Research) and you can find his files on the page. Basically he's found patterns in toxicity and death with an estimation that everyone has a 1:200 chance of being jabbed with a toxic vaccine. He states he thinks that the majority are just saline and that toxic batches range from 1,000, 2000, 3000 and 4000 in toxicity reflected in the number of deaths each batch causes.

Yes, the spike protein is toxic in and of itself, and also according to the research, binding to cells like ace2 is not necessary to cause the harm shown from the spike protein, instead involving activation of CD147 receptor signalling without any direct infection/binding of the cells themselves! HERE, THE SPIKE PROTEIN CAUSING THE HEART PROBLEMS THROUGH CD147 RECEPTOR SIGNALLING AND NOT ACE2, including the cytokine storm:

academic.oup.com/eurheartj/article/42/Supplement_1/ehab724.3383/639156..

CD147 (also known as Basigin or EMMPRIN) is expressed on many cell types - endothelial cells, leukocytes, keratinocytes, platelets, hematopoietic, and others. The CD147 receptor is involved with the other known main reported negative effects such as blood clotting, involved with cancer and a tumor's malignant progression, invasiveness, and metastasis www.ncbi.nlm.nih.gov/.../PMC4227170 , and the changes of women's cycle. The spike protein is also involved with reduction in the mRNA expression of ACE2 and type I interferons www.frontiersin.org/.../full , can make the blood brain barrier leaky, and wreaking havoc in the DNA repair mechanism of cells, suppressing DNA repair among some of the many research papers I've posted in comments before.

In fact, the S1 subunit of the SARS-CoV-2 Spike protein ALONE was enough to induce the very same COVID-19-like symptoms including severe inflammation of the lungs and cytokine storm-- EVEN WITHOUT THE PRESENCE OF INTACT VIRUS - it produces biochemically, immunologically and histologically evident COVID-19 like Acute lung injury (ALI), including the "cytokine storm".

scitechdaily.com/sars-cov-2-spike-protein-alone-may-cause-covid-19-lun.. Full study: journals.physiology.org/.../ajplung.00223.2021

Posted On 11/30/2021

In the female reproductive tract, the CD147 receptor was found in ovary, uterus, placenta, and fetal membranes. The distribution and expression of CD147 in endometrium have been reported to be associated with the changes of women's cycle. academic.oup.com/.../2661526
www.sciencedirect.com/science/article/abs/pii/S0015028214001459

So the spike protein is showing to be PRODUCING all the exact same symptoms of the very illness it is supposed to be protecting the people from, including the cytokine storm along with heart inflammation, blood clotting and other negative effects can occur due to the spike protein alone (along with the added effects of Lipid Nanoparticles which are also highly inflammatory). Deborah Conrad as an example started seeing a surprising number of hospital patients WHO HAD RECENTLY RECEIVED A COVID SHOT AND WERE NOW TESTING POSITIVE FOR COVID-19 SHORTLY AFTER VACCINATION.

CONRAD ALSO SAW A DRAMATIC RISE IN SEVERAL DIFFERENT HEALTH PROBLEMS AS THE COVID JABS WERE ROLLED OUT. One of the most surprising problems has been a sudden rise in cancers among vaccinated patients whose cancer had gone into remission before the jab. Other conditions that have dramatically risen among vaccinated patients include heart attacks, strokes, blood clots, etc...see 1:19 mentioning covid-19 diagnosis a week after vaccination thehighwire.com/.../episode-233-the-vaers-scandal

CD147 is a novel receptor on platelets, which activates platelets. Platelet expressed CD147 leads to NF- κ B-dependent cytokine release from monocytes demonstrating a direct link between platelets, CD147, and inflammation. Coincubation of platelets with monocytes induced EMMPRIN (CD147)-mediated nuclear factor kappaB activation in monocytes with increased MMP-9, interleukin-6, and tumor necrosis factor-alpha secretion (according to ELISA) by monocytes.
pubmed.ncbi.nlm.nih.gov/18048771

Posted On 11/30/2021

datadragon

The full-length S1 subunit of the SARS-CoV-2 spike protein ALONE, without infectious virus, is capable of inducing systemic damage to microendothelial cells in mice with an analogous pattern of complement activation and increased expression of cytokines and concomitant thrombosis / hypercoagulability state (blood clotting). This disease pattern strongly resembles the extrapulmonary manifestations of severe human COVID-19 and suggests that the latter may not represent systemic infectious virus. Therefore, prevention of the CNS disease so common in severe COVID-19 may require neutralization/removal of the circulating pseudovirions (such as S1 spike).

www.ncbi.nlm.nih.gov/.../PMC7758180 (full-length S1 subunit of the SARS-CoV-2 spike protein not infectious virus)

Here we study the effect of isolated SARS-CoV-2 spike protein S1 subunit as potential pro-inflammatory inflammagen sui generis. We investigate the potential of this inflammagen to directly interact with platelets and fibrin(ogen) to cause fibrin(ogen) protein changes and blood hypercoagulation (clotting)... We conclude that the spike protein may have pathological effects directly, without being taken up by cells. www.medrxiv.org/.../2021.03.05.21252960v1.full

It was a research team lead by Dr. Barney Graham from the Vaccine Research Center at the NIH National Institute of Allergy and Infectious Diseases who created an engineered form of the spike protein that was said to be unable to make the shape change required to effectively bind to cells like ACE2 making the spike protein "safe" for vaccination, however that new research is showing that the spike protein ALONE, without the presence of infectious virus, can cause the heart inflammation and also interaction with endothelial cells through a non-infective mechanism involving activation of CD147 receptor signalling... even without any direct infection of the cells themselves!

Louise B - I do also. Especially when there are so many therapies that could knock this thing out in no time. It's utterly ridiculous to me to put the body through so much for so little.

Steve - I wonder about 6 degrees of separation right now. How many of us know someone dead or injured by the vaccine? A man my age (a runner) died two days after his vax. What is it about athletes? You give them the covid shot and what happens? Well, one, they go and work out - so that stress causes them to collapse and die? I don't even get it!

Posted On 11/30/2021

rensmith23zohomail.com

Less than that for healthy, young athletes.

Posted On 11/30/2021

Why athletes who can be in excellent health? Exercise appears to have different effects on NLRP3 inflammasome (inflammation). In the case of chronic exercise with high intensity such as what occurs in many athletics/sports, a significant INCREASE in expression of gene, NLRP3 and serum levels of IL-1 β , IL-18 cytokines were observed. Chronic exercise with moderate intensity however significantly reduced the expression of NLRP3 gene and subsequent serum levels of IL-1 β , IL-18 cytokines. So there are differences in intensive vs light exercise with intensive pouring additional fuel on the fire of inflammation. www.ncbi.nlm.nih.gov/.../PMC6524053

NLRP3 activation is also linked to heart attacks and strokes. Neutrophils (which are increased with IL-1b after NLRP3 activation) can play an especially pernicious role in the destabilization of plaques. "They bind to the smooth muscle cells that underlie the vessel wall, and are activated. Activation results in the release of chromosomal DNA and its associated histones, which are highly charged and cytotoxic. Free histones kill nearby cells -- in the case of atherosclerosis, smooth muscle cells,"

Histones cause the death of these cells by inducing the formation of pores in their membranes. This allows extracellular fluids to pour into the cells and causes them to burst. Loss of these cells in turn destabilizes plaques, as the latter are no longer supported by underlying smooth muscle cells. Once this happens, the plaque can induce clotting and obstruct blood flow, and may precipitate a heart attack or a stroke www.sciencedaily.com/.../190501131403.htm the multi-center CANTOS trial found that heart attacks and strokes could be reduced by giving a drug (canakinumab) that decreases inflammation by targeting the immune cell interleukin-1 beta (increased with NLRP3 activation). www.sciencedaily.com/.../190514104110.htm

Very recently Dr. Andreas Noack, whose PhD thesis was on forms of graphene, believes it is graphene hydroxide (GHO), not graphene oxide (GO), which form nano razorblades in the body. Hours after publishing his statements/video he was dead. His arrest in Germany, in the middle of a Youtube talk was 'filmed' as his camera was still running. Essentially, the GHO forms sheets that are 0.1nm thick and 50 nm long. These sheets become nano razors, cutting into the blood vessels and get into all parts of the body. Every little nick then forms a small clot to heal the nick. This leads to bigger clots and eventually heart attacks and strokes. Athletes are dying because their blood is flowing very quickly as they exercise, accelerating the damage. He states that it is like russian roulette as some injections hit veins and produce more acute conditions.

Dr Noack says that there is no biological degradation process and that the GHO is very stable. The two links below are the same video (in case one gets deleted), and have english subtitles. About 19 minutes long. God will judge whoever designed this hideous substance to be injected into humans and of course now small children. I have suggested a theory to be circulated to a group of patriot scientists in an attempt to neutralize/extract this insidious substance from the body. In the meantime, many of the others detrimental effects of the jab can be addressed by nutrients that strengthen the immune system. Vit C, B, D, K2, Zinc, NAC, Quercetin etc. For the lungs you can also use nebulized H₂O₂, Iodine and Budesonide the last being advised under a Doc's supervision. A friend has put together a comprehensive list in a PDF (w/source info). If you are interested please PM me.

jedikitty

There is this video, a little difficult to watch because it's translated from German, but definitely worth the effort. Dr. Andreas Noack explains what's in these death shots and his explanation makes complete sense when it comes to all these vaxxed athletes dropping like flies. The "razor blades" circulating in their blood are causing horrific damage to their veins and hearts. And, of course, since they all work their bodies extra hard in very physical sports that requires a lot of running, the damage progresses very, very fast. Here is the link: odysee.com/@I-Rabbi-T:3/Stefan-Reich---Graphene-razor-blades-found-in-..

Austria under National Socialism describes the period of Austrian history from 12 March 1938 when Austria was annexed by Nazi Germany (the event is commonly known as Anschluss) until the end of World War II in 1945. Austrians were generally enthusiastic supporters of union with Germany.[1] Throughout World War Two, 950,000 Austrians fought for Nazi Germany's armed forces. Once there is vile fascism in a country, like Austria, who supported the evil of the ***, there is clearly an underlying fascist government in charge. Hopefully the people will rise up and publicly hang their dictators.

Reality shock, see t.me/.../565 A German Doctor in Carbon applications, says that injecting jabs containing GO/GHO is exposing the body to loads of one Carbon atom thick, tough, nano-scale, razor blades, and jabbing people with this a murder! GO = Graphene Oxide. GHO = Graphene Hydroxide (acidic), a Graphene sheet with OH tails. It's not surprising that loads of blood clots are forming with all those many blades slicing up blood vessels, and cells! Athletes/sportsmen die faster because their higher blood flow speeds up the damage. The horrible truth is that the jabs turn the blood of jabbed people into a chainsaw with extremely sharp saw teeth of GO/GHO!

Sumarin for Vaccine Remorse (Pine Needle Tea) Zinc and NAC with the D3 made all the difference to my energy levels (but not yet my sleep.) NAC is a precursor to Glutathione which lightens the load on the liver. I have not had the jab or shots but I did have Covid (November 2019-June 2020) and I am still recovering. I think I was susceptible because I had just moved house and was under considerable stress. Strangely, I was the fittest I had been in years. (I am 57). Started with a bad "cold" which cleared up and then two weeks later the worst hives ever, top to toe for eight months all day, every day. In addition to all the other symptoms listed elsewhere, heart pain, vertigo, falls, dizziness, depression...etc.etc...

Thank you to all those who have wished me well. I tell my story not to whinge, but to assure others YOU CAN GET BETTER. When I took myself in hand and started taking supplements properly again, I slowly started to become well. Now I am working long days as a writer and designer (self-employed) and though still tired a lot of the time, the change in my mental state is tremendous. I feel positive for the first time in years. We will beat this thing, and we shall all emerge from this terrible time, stronger, wiser, and more connected with each other. The source of the light grows ever nearer. The Solstice this year is very important - let us make a ring of light and love around the world on that day and through the Christmas season. For when light appears, darkness cannot. Light, love, and blessings. Namaste. PS. Just to clarify: Sumarin is the drug made from the active ingredient of Pine Needle Tea and has been used in Romania and other places to treat the symptoms of viruses.

Dear friend, It is lovely what you taking but please, add Lyzine. They will take out virus from the body. Lyzine shout be taken each hour by one tablet, 4 hours in row.(For example, if you take one tablet at 8 am, next one at 9 am, than at 10 am and 11 am). Do this 3 days. It is advised by naturopath doctor. I wish you all the best in recovery.

Posted On 11/30/2021

The main biological characteristics of the traditional remedies in this research (decoction and capsules) include anti-inflammatory, antioxidant, antiviral, mucolytic, bronchodilator, antitussive, immunomodulatory and anti-SARS-CoV activities. The present study demonstrated that treatment with natural decoction and capsules significantly decreased the length of hospital stay, accelerated clinical improvement, and alleviated symptoms such as fever, dry cough, anorexia, muscle pain, and runny nose. These herbal formulations can be considered as a possible medicine-based natural remedy for COVID-19 patients. In particular, medicinal herbs have anti-fever, bronchodilator and anti-asthma characteristics, strengthen the body and invigorate the lungs. They have been used commonly for thousands of years to treat various infections. Between them

- 1.- Licorice. B-Glycyrrhizic acid is a potent anti-inflammatory compound in licorice that controls inflammation by inhibiting glucocorticoid accumulation and ROS production by neutrophils as strong mediators of tissue inflammation. A molecular coupling study has shown that glycyrrhizic acid has a high binding affinity of -8.0 Kcal / mol and potent inhibitors of M pro SARS-CoV2
- 2.- N. sativa. Several in silico studies have shown that some chemical constituents of N sativa, such as thymoquinone, thymohydroquinone, hederagenin, α -hederin, and nigellidin, have an affinity for SARS-CoV-2 enzymes and proteins and can potentially inhibit replication and binding of the virus to the host. cell receptors
3. - Zinnia multiflora. It reduces the gene expression of inflammatory cytokines (IL-4, IL-17, TGF- β) and increased anti-inflammatory cytokines (IFN- γ) in pulmonary function tests in pulmonary disorders.
- 4.- M. chamomilla. According to various studies in folk medicine from different countries, chamomile is used to treat respiratory diseases such as flu, colds and coughs.

Guillermou

5. *P. granatum* (pomegranate). Polyphenols from extracts of pomegranate peel, punicalin and punicalagin had potential inhibitors of internalization of the SARS-CoV-2 virus by significant interactions with protein targets, including the peak glycoprotein of SARS-CoV-2, the angiotensin converting enzyme 2, furin. and serine protease 2 transmembrane 6. Chinese rhubarb. The anthraquinone glycosides emodin and kaempferol in Chinese rhubarb significantly reduced SARS-CoV symptoms by inhibiting 3a channels. In addition, with the blocking of the peak protein of SARS-CoV and the angiotensin converting enzyme 2 (ACE-2).

7. *F. carica* or fig tree. It hampers the NF- κ B / IL-6 / STAT3 inflammatory pathway in cell and animal models. 8. *Urtica dioica* (nettle). Nettle extract significantly prevented serum eosinophilia, leukocyte and lymphocyte levels and effectively suppressed inflammatory cells in the asthmatic rat model. Furthermore, allergen-generated lipid peroxidation was significantly reduced in lung tissue. Lectins (plant agglutinins) isolated from nettle possess antiviral effects with the ability to bind to the glucans of the coronavirus envelope, since the peak protein of SARS-CoV contains 12 N-glycosylation sites. 9, *Althaea officinalis* (common marshmallow). Marshmallow polysaccharides, which contain the highest proportion of the uronic acid component, showed a cough-suppressing activity. In addition, the combination of extracts of *Zingiber officinale* and *A. officinalis* decreased the severity of cough induced by acute bronchitis. In one study In a double-blind clinical trial, the effect of marshmallow on cough associated with angiotensin-converting enzyme inhibitors was evaluated.

Hubby and I both had covid in November 2020. Luckily not complications at that time, just extreme fatigue and nausea. We were like bedridden for 2 days. I was drinking about 25 000mg vitamin C in Elderberry juice, also Zinc, Quercetin, Vit D2 and K2, Magnesium, Selenium, Olive Leaf Extract, B vits. Two days I was totally out of action, managed to go to work on the Sunday, was off on Monday and booked off sick on Tuesday. Went to work on the Wednesday, still felt weak and nauseous. Went to a doctor on Thursday who wrote me off sick for a day with a diagnosis of gastro. Because I did not have typical covid symptoms, she did not bother to take a PCR test. All the time at work, I did not infect any of the 40 residents or the 10 staff I had contact with. I took a blood test in February and had an antibody count much higher than the max 250 which confirms that I had covid. Minimum is 70.

I am now stocked up on pine needle extract and dried pine needles. I have read that star anise and fennel contain shikimic acid which is apparently used by the nwo as a preventative med. So I have that in my arsenal. Have made an alcohol concoct of many herbs including licorice, wormwood, star anise, fennel, dandelion, echinacea, and boiled elderberries. Hope that this will all help when Germany mandates this evil shot. Is NAC better to use than glutathione? The boss is putting heavy pressure on me to get the shot. I have just heard on the news that Germany is mandating the shot. I am dreading this. It is horrible, horrible, horrible.

innovativest

I am indignant how the science is failing. Today 'The Guardian' publishes that Scientists in South Africa have begun work to assess how well Covid vaccines hold up against the Omicron variant. Why don't they check the effect of the virus in people????? Some South African doctors are experiencing growing evidence that Omicron only provokes mild symptoms. It is the natural evolution of a virus among us. There is again a divorce between 'researchers' and clinical doctors. Media hypes 'researchers' messages and hides doctors results

Posted On 11/30/2021

rrealrose

Yes, initial reports from the S.A. doctor who noticed repeating symptoms were, ready for this? - a scratchy throat and runny nose. Add muscle aches to this, and it appears the Netherlands had this a week or so earlier than South Africa's announcement. This may already be across certain EU countries.

Posted On 11/30/2021

Guillermou

Yes, The president of the South African Medical Association and one of the discoverers of the omicron variant of the coronavirus, Dr. Angelique Coetzee, has asked not to spread "unnecessary panic" about this new modality, whose symptoms are, according to the data that she shuffles in these moments, "very weak." "What we are seeing in South Africa and, remember, I am at the epicenter, it is very weak. For us they are mild cases," she told the BBC network. The expert assured that "so far no patient affected by the omicron has been hospitalized. And we have not found serious effects.

In an interview with the Italian newspaper La Repubblica published this Monday, the South African doctor said that patients who have been detected the new coronavirus mutation have mild symptoms that disappear after two or five days. These consist of "tiredness, headache and itchy throat", typical of a mild cold and that do not coincide with those caused by the previous variant, the delta. All the patients "are doing very well and none have presented problems worthy of mention," the expert insisted. www.bbc.com/.../uk-59450988 ~ www.indiatvnews.com/news/world/south-african-doctor-angelique-coetzee-.. ~ www.lavozdegalicia.es/noticia/sociedad/2021/11/29/sudafrica-afirma-pan..

caws

Did you know that despite the fact that Africans have taken their "Sunday Sunday" pills for decades to prevent malaria and river blindness [Hydroxychloroquine & Ivermecton] and it was available over the counter for 10 cents; the government of SA recently Burned TWO TONS of HQ to deny the people access? The protection that has kept them safe is no longer available and now people are getting sick so Big Pharma & Gates can push the vaccines on them. The good news is even though the "African strain is highly contagious it is very mild ; which is how viruses have always mutated. Only once nearly everybody has had it & has natural immunity will it be contained.

I really worry for those in USA who have natural immunity and are still being pressured to get the shot which is insanity. My theory about why some of the jabbed get thrombocytopenia , myocarditis and heart attacks [among other horrible side effects] is three fold. First I think the allergy to PEG needs to be taken way more seriously [there is a test but it costs \$500 and hard to find] and second; nobody seems to notice that the CDC has directed that it is not necessary to aspirate when administering an IM shot!!! This means that it can go directly into blood stream and be fatal. If you give a vaccine to a horse and accidentally get it in the vein the animal can die right in front of you. Third there has been a whistle blower that has said there are three versions of UPC codes on the vaccines that contain numbers 01,02,and 03. The first one is given to all the politicians on camera [no aspiration ever] and is 01 which is straight saline. 02 is mNRA and 03 is mNRA with the adenovirus.

Posted On 11/30/2021

thinkinmama

Fox News showed the part of the interview with the SA doctor stating symptoms were very mild. Yet on every other news channel they were trying to put fear in everyone saying there's still so much unknown and to "be prepared for the worst". Not one mention of the very mild symptoms. So aggravating!!!

Posted On 11/30/2021

mammywitch1

Of course the reaction of people to the Omicron variant will be mild--the virus cannot live without a 'host'--and if the host dies, so does the virus, UNLESS it is passed on to others (which would explain why the Omicron variant would be more 'contagious.')

Amazing how little critical thinking there is loose in the "scientific" and "medical" and "pharmaceutical" world today, isn't it?

GUI, she also said that "this might not be the case in 2 weeks time". The cynic in me might think she is being used to front a jabbing assault on Africa since data there shows very low covid cases, combined with very low jab uptake. These data speak for themselves methinks.

A lot of South Africans have immigrated to Europe, mainly Britain, Netherlands and Germany. So we can expect this little virus to be a stowaway when these folk travel back and forth from their new homes to their old homelands and back. Due to many South Africans having been infected with malaria, I think that they are fairly immune to this new little virus. Apparently many Africans have a different immune response. Don't know the details.

Yes, Stan, Bhakdi is the co-author of Corona: False Alarm? , a massive bestseller in Germany that was published in English Thai-German microbiologist Dr. Sucharit Bhakdi made the warning during an interview with Fox News host Laura Ingraham on December 2. Bhakdi also criticized social distancing and mask-wearing mandates in her appearance on The Ingraham Angle news program. The health expert called the statement by Dr. Anthony Fauci, director of the National Institute of Allergy and Infectious Diseases (NIAID), that 75 percent of Americans would need to be vaccinated to achieve herd immunity as "utter nonsense."

The NIAID director made the remarks during a live appearance on The Story with Martha McCallum. Bhakdi commented: "Someone who says this has no inkling of the fundamentals of immunology." Bhakdi said Fauci's comments were "very, very surprising" for someone in the same position as the NIAID director, and expressed his willingness to "challenge him anywhere in the world at any time." www.americanthinker.com/blog/2020/12/rekieved_scientist_tells_laura_in.. .-----

In an interview with The New American, German microbiologist Sucharit Bhakdi explained how coronavirus vaccines affect the body at the cellular level. He warned that these vaccines are destined to cause a global catastrophe and decimate the human population. During the interview, Bhakdi emphasized the dangers associated with the new vaccines. For one thing, vaccines can't really do what the manufacturers say they can. According to Bhakdi, it is practically impossible to prevent infection, even after vaccination. Dr. Bhakdi uses visual aids to explain how coronavirus vaccines affect the body at the cellular level, the battle with the immune system, and the outcome.

He says that anyone who receives a vaccine is helping to decimate the world's population. Dr. Bhakdi "It is our duty to aggressively inform people of the dangers to which they are putting themselves and their loved ones by this' vaccination." "Gene-based vaccines are an absolute danger to humanity and its use today violates the Nuremberg Codex, so all those who are propagating its use must appear in court. " Much of his research focused on what is called the complement system. When activated, the complement system ends up working in such a way that it destroys rather than helps your cells. COVID injections are in your bloodstream for at least a week and will leak to any organ.

And when those organ cells start producing the spike protein on their own, the killer lymphocytes will also seek out and destroy them in that organ, creating further damage and subsequent clotting. What we are witnessing is one of the most fascinating experiments that could lead to a massive autoimmune disease. God knows when it will happen. And what this will lead to, God knows. "In an interview Bhakdi said: the COVID-19 vaccine is' downright dangerous' and will send you 'to your doom www.brighteon.com/7a11d611-3d09-4ad7-ad9e-ec16cfb53d59

Interesting information. Also. Related to Dr. Jessica Rose and other doctors and prion diseases. Professor Byram Bridle mentioned that the spike protein was associated with Lewy body formation, which is linked to prion diseases. He expressed concern that the vaccines could cause prion diseases such as dementia, Alzheimer's and Creutzfeldt-Jakob disease (CJD). There is no question that mRNA vaccines are causing prion diseases. People did not have these diseases before the injection and they suddenly develop them after the injection. There is no other explanation for this. None of the "fact-checkers" can explain the cause of the excessive fees. Prion diseases are incurable and always fatal

Various links to Jessica Rose's article on COVID vaccines and prion diseases. Stephanie Seneff on prion disease and COVID vaccines. Bart Classen who relates vaccines and prion diseases. SARS-CoV-2 causes brain inflammation and induces Lewy body formation in macaques

Another question a bit off topic, so the variants are spreading country to country like the new omicron, how the heck if only vaccinated people get to fly is it being spread/ yes exactly the vaccinated are pushing the mutations and spreading, although the narrative on bias media says its the untaxed spreading. The Virologist who invited the MRNA was the first to speak out and say NO to using this vaccine during a pandemic as the virus will try to outsmart this genetically modified vaccine

Posted On 11/30/2021

pipblanc

Good point! It makes a nonsense of the travel restrictions. I was recently with my mother for a short time and she had just had her Booster (she didn't know which one !?!). Two days later I felt dreadful, sweats, chills, fevers, insomnia etc. etc. Then, suddenly felt better. Was she "shedding"? And because in all likelihood I have had Covid I could throw off the bug? Or was it the array of supplements that I have outlined that protected me? Just thinking... Namaste.

Posted On 11/30/2021

big47846

The "variant" hoax is a LIE! There was NO virus until people that were ignorant enough to get the poison jab started to get reactions from poisons in the jabs like graphene oxide, hydra's, stainless steel sphere's, mRNA that programs the body to produce spike proteins which they shed. Anyone within 8 feet of them can acquire them from their breath, or touch anything that they touched. Remember that the poison jabs are BIO-WEAPON'S designed to do that! My suggestion: wear latex gloves in any public setting and stay at least 8 feet from everyone.

Posted On 11/30/2021

stanleybecker

yes big - the victims of coerced vaccinations of the deadly poisonous MRNA can now transmit the spike protein that their DNA has been instructed to manufacture - vaccinated humans are DEADLY to the unvaccinated

Posted On 11/30/2021

lovestosing6

Mehlinda - I woke up thinking about the variants and how, historically, variants should be getting weaker. But MSM always shouts - it's deadlier and spread faster. Why always that narrative first? Because when they do let go another bioweapon, the gen pop will be ready and waiting for the one ... I almost feel like they're let down when the latest greatest variant ends up being a dud. But they keep on alert, expecting the deadliest/spreads faster variant to come. I wonder which letter that will be under? Q? X? Z? It should be one of those letters that's more uncommon ... to really seal the deal. Pfft!

Posted On 11/30/2021

juststeve

Mehlinda, this is a reason I love this site, you have made a very important point. When people across the spectrum can express concerns without being bogged down by the official social dictates of the Divide & Conquer Crowd, the very things they do not want us to think about, consider, much less talk about can no longer hide. As stated forever by those concerned about the old run of the mill vaccines have expressed why do the unvaccinated have to be vaccinated to protect the vaccinated? In Covid context as posted yesterday the following expressed on another site was - Why do the Protected Need to be Protected from the Unprotected by forcing the Unprotected to take the Protection that didn't Protect the Protected?

lovestosing6, why come out of the gates with we have a new variant & it spreads faster & it's deadlier? Kennedy shows how this is Fraudci's MO. It deflects & distracts while he buys time to create more misdirection to just keep pushing toxic programs. Just like he will claim there are no studies because he won't allow them, or if there are studies it's under his or his minions thumb to present the picture he wants.

Posted On 11/30/2021

mammywitch1

YES!!! Outsmarting the genetically modified vaccine (which is really NOT a vaccine) is EXACTLY what the virus will do IN ORDER TO SURVIVE! What I don't understand is how the heck do these idiots NOT SEE THIS???

Posted On 11/30/2021

lovestosing6

Juststeve - so true! And looking at Fauci's MO for AZT and how many people we've lost 35+million over thirty-five years - nothing's changed. He got away with then, and he's getting away with it now.

11-21-21 or thereabouts: Dr. Andreas Noacks on razor like effects of graphene nanoparticles in blood www.bitchute.com/.../lszzcH0Bkn0E 11-25-21 or thereabouts: Wife announces his death after a "brutal attack" www.bitchute.com/.../TPZwCxnVVw5W On 11-22-21 I realized that the shots were causing what I believe to be subclinical autoimmune myocarditis in everyone who has received the shots. A couple of days later I realized the shots also cause what I strongly suspect to be Hodgkin's lymphoma in everyone who has been vaxed. On 11-30-21 I listened to the above linked videos. I would bet money the graphene particle effects are intimately connected to the phenomena described in this article/video. I am positive if the cardiac problems were only caused by the effects of spike and spike antibodies, certain vaxed individuals would not have exhibited what I believe to be the autoimmune myocarditis and the lymphoma.

Posted On 11/30/2021

solitairecat

I wonder if it is the graphene that attacks and kills the unborn babies in the mother's womb? There were reports of them being bloodied, like they had been attacked. My daughter-in-law was vaccinated in the first trimester of her pregnancy and suffered a molar pregnancy, where all that remains of the fetus are abnormal cells. There is so much being covered up.

Posted On 11/30/2021

otis101

armtalker, links to very powerful videos. Dr. Andreas Noack exposes the graphene hydroxide that are indestructible very small razor blades and are being injected with the shots. They do not show up in autopsies or petri dishes. He says that Dr. Szekeres, President of the Austrian Medical Board, is a doctor who doesn't understand chemistry, or is a criminal, or he is a mass murderer. With a country wide "vaccine" mandate Dr. Szereres wonders whether people should be tied up before being vaccinated.

Dr. Noack asks, "Are the doctors in Austria so incompetent that they don't understand the basic chemistry medicine is based on?" A few days after the Noack video was released he was murdered.

The 2nd video link is his pregnant wife talking about his death. My ex wife is a medical doctor in Austria. With an IQ of 150+ I never considered her incompetent. Have not had contact with her in decades. Wish I could just call her and ask wtf is going on in Austria. More details from his wife about the murder. www.henrymakow.com/.../dr-andreas-noack-murdered.html

The reason only some experience varying and different symptoms post vaccination and some do not is in a word LOTS. The Pfizer whistleblower has said that the lot numbers are not manufactured with the same formulary. As time goes by, more and more people will start seeing these issues but for now the lots doing the damage are fewer. The goal is to depopulate billions of people from the planet but not in a completely obvious way. We'll start to see more and more mysterious deaths from all causes as immune systems shut down along with dramatically increased infertility. The very fact that these serious issues are being completely ignored, covered up, censored, and lied about tells you all you need to know about the agenda.

Posted On 11/30/2021

Exactly!

Posted On 11/30/2021

lordbasil

The very first thing to realize is where modern medicine in the United States is going. The second is the stacked deck. Because the deck is stacked against us by the FDA and other legal means. Including forced jabs for anyone in normal working environments. Given choices, intelligent people, are very cautious about taking an experimental treatment with unknown side effects. Got bad news. Only about 5% of the population make decisions based on intelligent data. These are the people that think for themselves. The rest? They appear to be insecure and ignorant of the possible side effects the jabs will do to them.

Most people are simple minded and take the "trust" route when it comes to people with multiple educational degrees and doctor titles. After all, with all that education, would these "professionals" deceive the rest of us? As a person that worked for 41 years in production of a daily newspaper the answer is "yes" these professionals will and do exactly that. They do in league with the pharmacy industry deceive. My favorite story about professionals. In the old days of 1980s I worked for a Real Estate Company for extra money and in the process learned a lot about sales. One Company used the slogan "We are the neighborhood professionals". A Madam 6 blocks down the road with a good sense of humor had a sign in her window. "We also are your neighborhood professionals."

So what do "professionals" do? First sign is they use language as a barrier. So you get all these fancy names for whatever drugs they are prescribing. If it is a mystery then the general public will not question it. Most of which come from either the Latin or the Greek. The General Public is the victim. First rule of sales. Convince someone. Then they will provide whatever justification is needed for whatever decision they have been sold on. Even if it is illogical. In reporting, there are a number of questions important to the justification of whatever view one has. Be aware. Lies.

Posted On 11/30/2021

lordbasil

Any one who lies will not answer basic questions. Who, What, Where, How, When are the questions required of any article. Whenever a "pro" lies they likely will use terms the general public has no knowledge of. This basic principle of professions covers an enormous number of professional fields. If you want justice, answer those basic questions in simple language that anyone can understand. The second thing to ask. Follow the money.

Because there lies the motivation for what these "professionals" are doing to us. If someone in authority has a compromised situation in which they are conflicted financially then it is only common sense to go after them for that compromise. When judges are compromised then the only way is to expose that compromise with details of that situation in an open public way. In the past, the media did that. Now they are bought and paid for. In the long run, it will cost many lives if that does not change. The United States is basically sleeping. Will that tiger wake up? I do not think so. But it might happen if the current people in government continue down a path that disrupts that sleep.

Posted On 11/30/2021

Country_Me

It's mind boggling to me the people that won't even take time to listen to the scientists and doctors that are speaking out against the jabs! They only trust the ones they hear from the major news media and even sadder to me is the so called Independent channels that have clearly been a voice against the main stream news media are now listening and believing what they hear from them. I know there are many well respected, well known scientist and doctors speaking out against these jabs with factual data on their side but considering how hard it is to get some of those people to listen to even one of them, I wonder which one would be the best to pass on to these pro jab people?

If I could only get them to listen to just one talking in one video against these jabs and the bad effects from them, which one should I tell them to listen to?? They really don't seem to care about our freedoms. Some people here are very intelligent and have many great resources so hopefully they will pass on to me which one they think is the best, most informative, with the most data on the bad effects of the jabs? Thanking in advance anyone that responds. I am so tired of hearing people that have full confidence in the scientists and doctors that are on Big Pharma's side not to mention that is on the governments side.

Posted On 11/30/2021

moony77

Hi, I've found that during this whole agenda, facts don't matter. At the same time, we can broach some subjects that we can agree on; such as the perpetual revolving doors of pharma, banking and military with the government. This truth alone is more than enough to linger in ones mind and heart. Too much truth and facts is too much for many people to psychologically handle during this pandemic of fear! We must keep an open heart and compassion for how difficult reality is for some of these ppl. It's a very hard pill to swallow and must be broached with love, patience and compassion ♥

Posted On 11/30/2021

Country_Me

moony77 Thanks for your reply! I do agree with most of what you said, however, when I hear people actually belittling people that don't take the jab, hateful comments that they deserve to be isolated, etc. I don't have much love or compassion for them. Respect goes both ways IMO. If they can at least be respectful to people having the choice of getting the jab or not then I can have lots of love and compassion for them.

caws

75 years of fluoridation and 100 years of amalgam fillings plus all the persistent lead arsenate, DDT and pesticides & chemtrails will do that to a person.

Posted On 11/30/2021

thinkinmama

caws - there's a lot to be said about all the toxins dumbing people down. The "smart" people I know who haven't gotten the jab are healthy like us, eat organic Whole Foods, don't take prescription drugs, take a natural approach to health. A few years back I was having a lot of health issues, super low energy, small fiber neuropathy, chronic pain. Dr suggested I be tested for heavy metals. Mercury was crazy high! Had a biological dentist remove all amalgam fillings and went through IV chelation therapy. I no longer have any of the previous symptoms. We also use a Berkey filter and have been fluoride free for at least 10 years. Most people I know who got the jab aren't very health conscious. They're the same people who want an easy fix of a prescription drug and not willing to give up junk food and try a healthy diet and exercise.

Important for us to try help and comfort those who regret being “vaxxed”. Re Dr Mercola’s “Jab Remorse” recommendations, my own version posted yesterday on the same topic - (distilled from mercola.com and other trusted but highly censored sources) I have passed on to those who are regretting their decision as well as to those who have yet to make a decision but are under pressure to accept the injection.

Protocol re spike protein clearance :- (1) NAC (n-acetyl-cysteine), precursor to glutathione. (2) Dandelion tincture between meals for liver support. (3) Proteolytic enzymes between meals, which are normally taken with meals to help digest dietary proteins but taken on empty stomach may help break down unwanted proteins. (4) A supplement programme similar to protection against viral infection: D3+K2, magnesium threonate, iodine, melatonin, vitamin A, vit C and bioflavonoids, Zinc + ionophore e.g. quercetin, B vitamin complex, lysine to counteract herpes if activated.

Herbal remedies including andrographis, licorice and dandelion. (5) Switch off Wi-Fi at night to allow full detox and allow natural, detox enzymes to work properly (6) Optimize sleep especially before midnight. Get early to bed to realize full detox potential. (7) Daylight in the morning, enhances sleep cycle and circadian rhythm. (8) Adequate filtered water intake with clean, fresh, unprocessed diet, low in sugar and refined carbs, high in Sulphur and magnesium sources. Grass fed, outdoor raised meat and poultry, avoiding farmed fish and factory farm produce.

Charitas, or love or compassion, as St.Paul wrote, is the most important virtue. Whatever a person's vaccine status, everyone deserves compassion currently. Everyone. Sorry, I forgot the Enzymes which are great. Namaste.

Posted On 11/30/2021

armtalker

Dietrich Klinghardt told us about a paper establishing that dandelion tincture blocked the ACE 2 receptors so the spike proteins could not attach. He is also suggesting protein digesting enzymes to digest the spike PROTEIN. Sounds pretty logical to me. of course the enzymes must be taken on an empty stomach with plenty of WATER. He reminded us that the original Wobenzyme used to contain mostly bromelain, papain and the bioflavonoid rutin. He says they leave out the rutin these days, but you could surely get it separately and add it.

A chiro named Edward Group III said on this year's TTAC meet that UREA will degrade the vax mRNA. He did not cite his source, but my muscle testing says he is correct. He reminded us that we each make lots of UREA every day; we just usually call it URINE. I know of two supplement sources of CARBAMIDE, which is another NAME FOR UREA. Either search carbamide online to find them, or call around to every chiropractor you can find until you find one who carries a produce that contains CARBAMIDE. You will find some one who does. I would hope people would also add selenium the enhance glutathione production.

For Stanley and everyone: Here's a clear warning from Dr. Jane Ruby about the booster shots: Stew Peters With Dr. jane Ruby - BOOSTER DANGER: 10 Times More Potent Than First Shots - www.bitchute.com/.../OTLdT05ORWiy Dr Jessica Rose was recently on the Stew Peters show, hosted for a bit by Dr. Jane Ruby. They discuss some of Dr. Rose's findings, "signals" from the CDC's VAERS reporting system. This is especially directed towards those with cancers and existing autoimmune conditions, an important topic that has been repeatedly ignored, overlooked or swept under the carpet by the CDC and FDA working in concert with eachother. And the children!! Dr.Jane Ruby: "Ticking Time Bomb - Expert Says Bioweapons Injections Are DESTROYING IMMUNE SYSTEMS" - www.bitchute.com/.../PH6bgCApUHxq

Posted On 11/30/2021

Guillermou

Yes, Rose more jab more weaker immune system. Doctors in Alberta, Canada say that the Wuhan coronavirus vaccines may have caused short-term jumps in deaths and hospitalizations, possibly because the vaccines cause immunosuppression. Dr. Christy Reich, who works as a family physician, shared the compiled graphics from Alberta Health Services (AHS) with a group of physicians concerned about vaccination mandates and safety. Dr. Christy Reich, who works as a GP, said she shared charts compiled from information from Alberta Health Services (AHS) with a group of doctors who care about the mandates and safety of the jab . Together, they determined that the graphs "showed an initial increase in COVID cases, hospitalizations and deaths within the first two to three weeks after receiving the first dose of the vaccine (COVID-19)."

"After the second dose, you see a small initial increase in cases, but then a rise in cases again in two to six months," Reich said, according to a Western Standard report. Reich said all members of the medical group came to the "same conclusion" after comparing notes on the charts, which can be viewed on the Alberta government's COVID statistics page. www.globalresearch.ca/canadian-docs-say-govt-data-point-spike-covid-ca.. In an Oct. 11 video broadcast of the Stew Peters Show, Ruby told viewers that a Delta Airlines flight attendant along with two separate whistleblowers said that earlier this month a recently vaccinated pilot flying from Los Angeles died during a commercial flight, prompting the co-pilot to make an emergency landing. According to Ruby, the copilot told the flight attendant that the now-deceased captain had "completed his second shot" just "several days before" the tragic event. Ruby added that this is just one of many suspicious events that have occurred since vaccine mandates for airlines have become nearly ubiquitous, claiming that in-flight death is not an anomaly, but part of a larger crisis that is "much bigger than people think.." www.lifesitenews.com/news/delta-airlines-pilot-dies-mid-flight-days-af..

Posted On 11/30/2021

Real, with mRNA therapy, each injection induces a stronger immune (autoimmune) response and the benefits from the injections are less and less with each consecutive shot. Prior to the vaccine rollout you could go to any gene therapy company's website and read their disclosure statement that went something like this: "mRNA gene therapy is recommended only for those with life threatening conditions or conditions that dramatically reduce both quality and life expectancy. There is no guarantee it will work. There are very few cases where the treatment is one and done. Follow-up treatments are the norm and the time between each follow-up treatment is usually less and less. Eventually there is no improvement and the side effects become worse than the cure."

I was reading these gene therapy company's home pages and FAQ pages back in Mar 2020 trying to learn more about the technology knowing that these new vaccines would be mRNA based. Nothing I read gave me any confidence in these vaccines. These companies had been working on their mRNA therapies for at least 10 years and not a single one stood out. All of them basically said the same thing that mRNA was a last resort for when everything else has failed to work. Cancer patients were given as an example. You are going to die from cancer and none of the cancer treatments have worked. So you have nothing to lose by trying mRNA gene therapy to battle the cancer. Fast forward to Nov 2021, and these same gene therapy companies have taken down all their warnings and disclosure statements. GO FIGURE!

Hi JamNjim, Was aware that each booster will be less effective, as can be seen in the measles boosters. However, this is a financial bailout! Moderna was on the edge of losing their investors, their product (to replace chemo for cancer) was stuck never making it through animal trials. And Pfizer had been losing money, as in return on investments, for the past 10 years. Somewhere else, it mentioned their first mRNA shot was for dogs, dating back to the early 1990's.

Here's how Dr Fauci works: his well-worn path or M.O. is to take pharma products that were shelved or cannot possibly make it through safety approvals, and re-purposes these for emergency use authorization. Explains how he has been keeping Big Pharma raking in Federal dollars, either printed or taxpayer dollars, released by the US Govt due to "emergency measures taken" - done during his faked "plandemics" 4 already have occurred since 1984 or thereabouts.

Suggest you want to read the new book by RFK Jr. "The Real Dr Fauci" Asap, because your "go figure" is all laid out for all to see in that book. (Am slowly working through the kindle version, reading on my computer!). The last chapter explains all the recent prior pandemics in detail. For some reason, I got to watch him in a press conference with Obama, calling out his warning about Zika virus, and how the southern states need to be prepared to kill all mosquitoes. (and thereby damage their aquatic and land environments for generations to come). It failed, it wasn't even from mosquitoes, but can you imagine?

Comment on the Post Injury Graph by State. Remember to divide the red bar by 1,000. The reported injuries are a low % of the vaxed, just like the risk of death. We know the red bar is under reported. So maybe the reported injuries should be divided by 500 to 100. My guess is the at risk for Covid or also equally more at risk for vaccine injuries. Going farther with this logic, emphasis should be on improving health / metabolic fitness and work your way down with the least risky medicines first.

Juststeve, the problem is that law were passed in the early 1960s, that allow the media to lie so it's shameful, but it's legal. People need to demand that this is changed.

Posted On 11/30/2021

Catryna

Here is proof that those COVID death shots are increasing the chance of coronary problems. Many of the ingredients in those shots we are not allowed to know because they're patented. But, I do know that they include PEG and/or polysorbate 80. These are two substances that are also added to food and I've had personal experience with them. I thought I was going to have a heart attack when I ingested them. Really makes you think.

Posted On 11/30/2021

Mehlinda

What kind of foods do think they may be in Catryna? Meat? dairy?

Posted On 11/30/2021

tallulah3

What did you eat? I want to avoid those foods

Posted On 11/30/2021

moony77

Mehlinda, I know I saw polysorbate 80 in pickles! I looked up what polysorbate 80 is, and it crosses the BBB! Blood brain barrier. Best to read all food labels, to say the least. God only knows what they're feeding our poor animals 🙏

Posted On 11/30/2021

brodiebrock12

anything in a can or box be suspect of first and foremost. Know where your veggies-protein are grown-raised and how they were grown-raised. All you have to do is read and ask questions. The closer to nature the better. Avoid all processed foods and don't be one of those who justify why you eat such stuff. The mirror never lies...look into it and ask who is in control of your life and your decisions. Not easy, but was never meant to be.

Posted On 11/30/2021

Randyfast

Mehlinda; Those, as well as many other toxins can be found in most processed "foods".

Posted On 11/30/2021

Catryna

Mehlinda, Polysorbate 80 is commonly used in many foods such as ice cream, frozen custard, ice milk sherberts, whipped toppings and other frozen desserts. In my case it was cream, 3 years ago.

Posted On 11/30/2021

Catryna

tallulah3, Just read the labels on everything you buy, to be on the safe side. I didn't read the label, because I thought my daughter had before she bought it. After a week of adding the offending cream to my coffee each morning, I ended up in bed with terrible body pain. A few days later it was affecting my heart. That's when I realized that the only thing that had changed in my diet was the cream, so checked the ingredient panel and found Polysorbate 80. I read up on it and realized that was the problem and threw it out. Here is a link you may find valuable. vaccinechoicecanada.com/health-risks/anaphylaxis-allergies-asthma/poly..

I recommend CELERY STALKS - 5 raw ones every day. It's proven to lower blood pressure by its impact on the endothelial lining of blood vessels. It dilates them, thus promoting blood flow and better circulation. Another option is adopting a vegan diet. A documentary called "Game Changers" documents how an adoption of a vegan lifestyle has eliminated blood pressure medicine and completely removed heart attack risk from people's lives. Alternatively, if a vegan diet is not feasible, I imagine complete elimination of sugar can help because that raises cardiac risk when combined with fats.

Posted On 11/30/2021

thinkinmama

Celery juice is great! We drink it occasionally and I juiced lots when my husband was so sick with COVID. The first couple days I was sick I did a juice fast and it helped tremendously!

Posted On 11/30/2021

Randyfast

I put celery in my fruit smoothies. They add a lot of flavour.

Posted On 11/30/2021

Liberty11

Celery is great as natural source of mineral salts. Vegan diet is unsustainable, no intake of healthy fats, Vitamin D, B12, first class proteins, only depletes health. I've not tried a vegan diet, but was vegetarian (no red meat) for several years, and became seriously anemic. I eat grass fed beef, lamb, 2 to 3 times weekly which is sufficient for me.

So sad to see, and now six or so months on from the jab rollout, in my small town in regional New South Wales (Australia), injuries are emerging. Quite a few cases of heart issues, blood clots, neurological damage. A co-worker who has completed chemo for bowel cancer (told by her oncologist she must have the jab), has now experienced three fainting spells, last one was rushed to hospital. Doctor has referred her to heart specialist for further testing, but cannot get a consult until March. My anger and frustration is quickly turning to GRIEF.

I don't think there will be many discussions as this commentator suggests. When try to discuss subject have been talked over and yelled at. They say that non vaxed are "selfish". Where are they getting this false info that if they are vaccinated they can't give it to anyone but the non-vaccinated can spread it. It seems like what I hear is the other way around. Anyone can spread it the couple days before getting ill, but then when ill, most people are staying home.

Who would go out and be around others when feel like that? They speak nonsense, and they say look at the science. Who is spouting this crazy science? Is it CNN; because I don't watch that channel. Can't stand it so don't. There is no way to talk to them and tell about the oxygen problems with the blood cells or the cardiac symptoms or even deaths. There are neurological issues too but don't mention it or you may find crazy person facing you.

They even notice there have been a lot of strokes in older people recently, but that couldn't possible be connected. I quoted some figures of people who had died and said my info was from the CDC referring to VAERS. I was told "VAERS - SMAERS - I don't want to hear that". She had never heard the word before but made it quite clear she wasn't going to listen or allow me to say anything. I don't know why, but it is impossible to talk about this. Some you can coexist with because there is an unwritten rule that you don't discuss this subject.

Posted On 11/30/2021

catladyjan

I could care less if anyone calls me selfish because I refuse to take shots.....my answers is yup, that's right, I selfishly choose to live and not get injured because if I croaked or got injured YOU sure as heck wouldn't do anything to help me....so bug off!

I've been following the articles about the risk of the COVID jab but I haven't seen anything about the risk of blood transfusion from a vaccinated person. Has there been any information about that? I know that there are other people that have this concern.

Posted On 11/30/2021

har7873

Aside from all the rampantly falsified factual premises that underlie the COVID-19 vaccine mandates, consider the premise that we surrendered our medical autonomy by social interdependence:

The statistical probability of having a vehicular accident when driving a white car is about 12% less than when driving a black car. The absolute (not relative) reduction of risk of contracting COVID-19 is about 1% less for vaccinated persons than for non-vaccinated persons. On what reasoned basis has the government failed to prohibit us from driving black cars, and failed to mandate that we all drive white cars?

#lovestosign6 ... the connector to athletes may be the graphene in the 'death wish mixture', read the link and post by #Jackie1965 of the German Dr(s) plural, since that link points to another German Dr that was suicided. The Dr was trying to bring attention to the graphene in all the mixtures and that it acts like little razor blades circulating through the body, cutting and slicing tissue. Now, an athlete's circulatory system is on high, the cutting and slicing is also on high. Comparing that to an everyday person where the amount of 'damage' has time to scar over or if you want to call it heal; but the athlete's ratio of damage does not have the healing time needed, hence bad things happen.

When we look at the COVID case statistics worldwide, it seems clear that COVID is no longer a pandemic disease - it is endemic. Was it ever pandemic? Germany provides an interesting insight - where the last three months show a frightening statistical "wave" of cases - while a closer look reveals that in the same time period, deaths per case have suddenly dropped off if a cliff, falling from 2 percent to 0.2 percent in September, October, and November. What changed? On the other hand, it appears that vaccine damage is on a steady rise as confusion emerges from variants, vaccine competitors, and boosters, although many are - like the proverbial frog in the soup pot - unaware. Is the apparent damage actually a rise in damage - or a rise in our awareness?

pipblanc: Thank you for your very uplifting comment, no whining detected at all! I will not take the jab and feel that the reason that I have been very healthy throughout this madness, is the knowledge & supplements I have received from Dr Mercola. Question: do you think that Pine Needle Tea & other treatments would help someone (my partner) to be rid of the toxins in the shot now some 8 months on? Thx.

Posted On 11/30/2021

pipblanc

Yes - Pine Needle Tea, Nettles, NAC and Liver Tonics. Nettles are great for cleaning the blood. Greens in abundance. Magnesium, and ZINC - the key to my recovery. It helps reboot the mitochondria (at least that is what it feels like!) Zinging Zinc. "Zinc also causes mitochondrial and non-mitochondrial ROS generation, which may work synergistically to induce oxidative stress. Zinc-induced mPTP opening is another facet of mitochondrial dysfunction, resulting in MMP loss, mitochondrial swelling, and release of apoptosis-promoting factors."

www.ncbi.nlm.nih.gov/pmc/articles/PMC8145363/#:~:text=Zinc%20also%20ca..

And Zapping for blood detox (Bob Beck), Parasites (Hulda Clark). (I believe that parasites are involved: see this comment by me copied from the Artemisa Post here: Parasites...I have been wondering since the beginning of this "scourge" about the parasite connection. This would explain why Ivermectin is effective. Is it possible that those who have a heavy parasite load are more susceptible to the virus and, indeed, the vaccines?) I find zapping: Hulda Clark and Bob Beck is effective when I remember to do it! Love your comment below on serendipitous herbs - I too find that when I need some herbs they seem to emerge in my consciousness either on my walks (when I am well enough) or simply in my brain. I had terrible hives after one dose of Clarithromycin some years ago, I day of Nettle Tea cured the rash and the Latin name for Nettle - Urtica and Rash - Urticaria. (Quercetin, of course!) I love Dandelions too and Milk Thistle. Namaste.

Is not the reason that there are different outcomes for recipients is that not everyone is getting the same jab?

Posted On 11/30/2021

stanleybecker

or logically "not everyone is the same"

Posted On 11/30/2021

cmeshine

Good point. Maybe Dr Mercola can write up an article about the “hot lots”, about the differently colored caps on the same brand vaxes given out and about the “accidental” adult doses given to those children. In a Twitter “space” (essentially chat room) full of nurses, one night a speaker told the room about the vaccines being different doses and some that were actually placebos. She said some are only 30% full dose, some 10% and some simply saline. No speculation was given as to why this is so. Other “conspiracy theorists” surmise that we’ve all been palantiered (social credit scores) and perhaps the different doses given depend on how we behave. Salines for the ones who are likely to persuade others to take the shots. They’ll have no side effects. Low doses for the cash cows that will make billions for big pharma and full doses for the dissidents. We really need some whistle blowers to come out if any of this is true.

Posted On 11/30/2021

big47846

I saw a video that had showed a study that was done on lot numbers. The video said that their research showed that if the lot number ended with number 1, it was saline. If it ended in number 2 it was half strength., and if it ended in number 3 it was full strength. It was also noted that the 2 and 3 were sent to red states. Statistics show that they have the highest death rates from the jabs also.

Posted On 11/30/2021

lovestosing6

I was asking the same question. I think Dr. Tenpenny is a great resource if you want to look up the 20 mechanisms of injury (MOI .. it's 20+ by now) which will also help explain. But we've had two doctors come forward who looked under a microscope at the differences in the vax's. I hope more come forward! Big47846 - GOT A LINK? I really want to see that! That would qualify what the German doctor's findings were! Red states though? Ugh! And can you see this right on the bottle? Wouldn't it be weird if they asked for your voter registration - or had you looked up before you even walked in? NOTHING would surprise me. Probably same for any church affiliations. Hmm... another great premise for a sci fi novel!

Cmeshine - that's pretty wild. I wonder if they look at your job history, college, how you will benefit society. My SO's 2nd Moderna shot put him in pain for 24 hours - but then you hear of others who felt like they had covid much longer - and how would we know anything? They could even be looking at your voter history!! So, I'm sure by now I'd be getting the one with the black cap and creepy crawlies inside. Yeesh!

Practically every country, especially the English-speaking countries, has recently issued strong condemnation against "misinformation" to counter the increasing flood of protests against "vaccination" which, according to them, "works". Especially social workers, newsreporters, community leaders, and other "experts" trumpet their "scientific truth". Countries, where relatively few people read English publications, lack real information in their own language and are even more subject to the relentless mantra of "fighting evil misinformation". Pitiful.
