

Guillermou

The bias of the reports of the HPV vaccine and the relations with Cochranes, with the INIH, CDC, the WHO, etc., and the Bill Gates Foundation, including the revolving doors, is another example of the domain of the large Pharmaceutical corporations and ultra-wealthy philanthropists and their foundations are increasingly influential in decision-making and are setting the global health and agriculture agenda in countries, extending their tentacles in developing countries.

As Dr. Mercola reported, the prevalence of HPV was higher in the vaccinated group compared to the unvaccinated group. This is related to the need to prevent sexually transmitted diseases by increasing preventive measures, such as the use of condoms, dealing with drugs and a healthy diet that increases the potential of the immune system. In the year 2017, 2.3 million of the main sexually transmitted diseases were registered in the USA. The protests against Gardasil occur, fortunately, in many countries. In Dublin The protest against the HPV vaccine was carried out in July and the young people injured with Gardasil participated, along with citizens concerned about the side effects of the vaccine.

Angela Collins said: "We're here to show the stark reality of what the injuries and severe side effects are that the HPV vaccine can have. Simon Harris and the government are trying to force all of our children, very soon including our boys, to receive the vaccine but will not allow us, the victims and their families of the vaccine to have a voice and be heard of how dangerous it is " About 300 Irish women are diagnosed with cervical cancer each year, but there are at least 450 girls who were healthy before and are now very sick. Every 100,000 people who receive Gardasil will have 2,500 serious adverse events, and yet the rate of cervical cancer in Ireland is around 8 per 100,000 women,

Hey Gui, Another solution searching for a problem. The reality is not solutions for our health, it's Big Pharma's solution for a need to feed Cancerous Levels of Profit at our expense. Practices like these are rarely reported in Mainstream Media & a main reason the trust is broken. Research twisted and turned for desired results at our expense is why the public doesn't trust good science, good research when we need too. How can we know the difference between solid information and Trojan Horse studies, when the Fox is running the Media and sneaking in and hiding among our public watchdogs?

There is a growing mountain of evidence never reported, just old rehashed Dr. Wakefeild stories never updated or corrected & there is a growing belligerence to promote sickness sold in a multitude of products and "services." Did you know people have underarm sweat and now praises from Heaven, we can get a prescription! (Probably more poisonous than the aluminum in antiperspirants, that's why your shirt stays dry. Yay...) Vaccines along with too many areas of Modern Life need to be revisited and a major reboot in a new and actual healthy direction.

[an add on - underarm sweat, a normal human necessary function is now being promoted as a health issue in need of a prescription, the reference is a sarcasm to highlight Big Pharma playing on peoples insecurity's to feed Pharma's Cancerous thirst for profits, a prescription with most likely side affects that will require further med's.]

Posted On 12/08/2018

Hi Gui, This is another catastrophe in the making as there are now mass HPV vaccination plans for the USA. The American Cancer Society has set an aggressive goal to achieve an 80 percent vaccination rate among american children with two doses HPV vaccine by 2026 and the FDA approved the use of Gardasil 9 for men and women between the ages of 27 and 45. Merck did not even have to supply any new trials or data to get the vaccine approved for adults, in spite of the fact that the FDA denied their request for 10 years on the older Gardasil vaccine.

A reading of the package insert reveals that Gardasil 9 has more than DOUBLE the amount of toxic aluminum adjuvants as the previous Gardasil vaccine! And for regular gardasil, the vaccine formulation contained only half the amount of Merck's adjuvant amorphous aluminum hydroxyphosphate sulfate (AAHS) in the controlled trial compared to the marketed Gardasil. (Protocol V501-018 was the only controlled trial in the target age group of 9-15-year-olds. This Protocol is the basis for the only long-term safety and effectiveness research in this population.) yet none of that is generally known. vaccineimpact.com/2018/public-petitions-fda-to-investigate-gardasil-va..

Approximately 60% of women who did not receive the HPV vaccine had been pregnant at least once, whereas only 35% of women who were exposed to the vaccine had conceived. Results suggest that females who received the HPV shot were less likely to have ever been pregnant than women in the same age group who did not receive the shot. If 100% of females in this study had received the HPV vaccine, data suggest the number of women having ever conceived would have fallen by 2 million. www.collective-evolution.com/2018/12/02/a-strong-association-has-been-..

Aluminum adjuvant harm proof continues, does this not appear to be autism symptoms?:

Hi guys, Learned from my bff years back, that she met parents of one of the first girls who died from the original Gardasil vaccine at age 13 (in the initial 25 count). This was their only child, bright, honors student and athlete. And this story is being repeated weekly and monthly on the internet, even several young, athletic boys have died shortly after receiving their shots. This firing across the board, of the health authority panel just happened in Italy: news.vice.com/en_us/article/3k95bk/italy-anti-vaxx-grillo-higher-health.. Can only suspect we will be seeing more uprisings (beyond numerous activists in Ireland), as it protects nearly nobody and the strains caused from dealing with an injured child rips families apart, often robbing them and the victimized child of hopes and dreams. Will human beings or single-sighted, corporate money survive?

JUST, DATA and ROSE, interesting contributions against the fight against vaccines and the pharmaceutical mafia. Yes, Just, authentic trolling horses, based on the betrayal of health. Big Pharma spreads fear and increases the insecurity of people to pandemics, to feed the thirst for profit, has bought doctors, academics, journals, professional and patient organizations, university departments, journalists, regulators and politicians. These are the methods of the mafia.

Gøtzsche's book, *Deadly Medicines and Organized Crime: How Big Pharma has Corrupted Healthcare*. Gøtzsche even quotes a former vice-president of Pfizer as saying, 'It's scary how many similarities there are between his industry and the mob. The mob makes obscene amounts of money, as does this industry. The side effects of organized crime are killings and deaths, and the side effects are the same in this industry. The mob bribes politicians and others, and the drug industry.' The characteristics of organized crime include fraud, federal drug crimes, bribery, embezzlement, obstruction of obstruction of law enforcement, manipulation of witnesses and political corruption.

Yes, JUST, pharmaceutical recipes that create deaths and feed diseases. Top leading medical journals. The British Medical Journal and The Lancet have shown that even correctly prescribed medications are the fourth leading cause of death.

papers.ssrn.com/.../papers.cfm .---- Tatsiana Singh, AMP, PA-C, from the Indiana State University Sycamore Center for Health, "If you look at these numbers, medical errors would easily qualify for number 3 cause of death in the United States, and these numbers, in my opinion, are gross underestimates, because the majority of the studies that are available at this point are based on the review of medical charts. " www.mdmag.com/conference-coverage/aapa-2017/medical-errors-the-third-l.. www.bmj.com/.../bmj.i2139

Posted On 12/08/2018

Guillermou

A recent Johns Hopkins study states that more than 250,000 people in the US they die every year because of medical errors. Other reports claim the numbers to be as high as 440,000. Medical errors are the third leading cause of death after heart disease and cancer. A tragic story in this link. Vaccines should be included as a medical error www.cnbc.com/2018/02/22/medical-errors-third-leading-cause-of-death-in..

The total number of iatrogenic deaths shown in the following table is 783,936.
www.sustainablemedicine.org/un-sustainable-medicine/death-by-medicine-..

Yes, DATA the Gardasil 9 is a real pump for the health of people. A medical professional who reads the entire leaflet and recommends the use of Gardasil 9 does not care about the health and well-being of his patients. According to the FDA, a serious adverse event: death, life in danger, hospitalization, permanent disability or damage, congenital anomaly / birth defect, or by the requirement to intervene to prevent permanent deterioration. This link informs about the prospect of Gardasil 9, with the percentage of serious adverse events were collected during the follow-up (up to 48 months): sanevax.org/fda-approved-gardasil-9-malfeasance-or-stupidity/..----

ROSE, important reaction of the Italian Minister of Health. The Ministry of Health of Japan withdrew its recommendation for the HPV vaccine. Epidemiological studies, which try to rule out confounding factors, have shown that the incidence of chronic fatigue syndrome is substantially higher between 250-725 out of 100,000. Japan organized a symposium entitled "Problems with the HPV vaccine," with reports that HPV vaccines are causing severe brain and immune system, sensory and motor dysfunction, including skin involvement and bone pain. ; and postural orthostatic tachycardia syndrome (POTS) and complex regional pain syndrome (CRPS).

Posted On 12/08/2018

Guillermou

In Japan, young women and girls who suffer from severe generalized chronic pain, following vaccination with Gardasil de Merck or Cervarix of GSK, have organized and are talking. The issues are discussed at public hearings, in which scientific presentations have been made by independent medical experts who validated women's suffering with documented evidence of the serious nature of the pain associated with the HPV vaccine.

Japan Leading the World in Exposing Fraud with Gardasil HPV Vaccine Injuries and Deaths

healthimpactnews.com/2018/japan-leading-the-world-in-exposing-fraud-wi.. (December 2018).---

Denmark's skepticism is supported by a series of case reports. Approximately 1,300 women have been referred to five specialized centers in Denmark with symptoms of CRPS or POTS. In particular, the Syncope Unit at the Frederiksberg Hospital in Denmark reported 250 women and girls reporting these chronic symptoms within two months of vaccination. France sent a similar request to politicians who demand more research on the safety of HPV vaccines with hundreds of thousands of signatures, including those of more than 700 doctors and 300 pregnant women. In early 2015, the United Kingdom established the Daughters' Association HPV Vaccine Injured (AHVID)

The Medical Association of the United States and other countries have created medical gods, incapable of curing diseases. The support in the pharmaceutical mafia and the corruption of the institutions, linked to Big Pharma. The basis on which medical health is now based, is absent from the logic of potentiation of the immune system with the support of traditional medicines. As Einstein has said, "A foolish faith in authority is the worst enemy of truth." Physicians should be required to spend a year of their training five years of learning about nutrition, and alternative therapies.

Thanks gui, I wrote a long reply but the website did not post it.

Can only hope the EU follows the lead set by the Japanese and we can see vaccine failures start to wither on the vine!

The US FDA has set a horrid precedent of foot dragging, taking about 8 years to remove Vioxx from the market AFTER it was determined Vioxx was causing premature heart attacks in men; so for about 60k men, it induced the very same condition it was touted to prevent. The US CDC has big conflicts of interest, as they are also in charge of ordering and distributing flu shots, using a heavy fear campaign to keep people getting their shots each year...yet this actually reduces the effectiveness of the shots over time, leaving people who comply more readily open to getting the flu! So the pressure needs to come from elsewhere, these US agencies may as well be acting as marketing arms for Big Pharma. As such, these 2 agencies do not handle drug failure well, if at all.

It beggars belief how this vaccine is being pushed by some governments, including the Australian government. They refuse to listen to people like me who have been trying to warn them for years about the dangers of this vaccine, and the fact that it's pretty much useless. I used to be proud of my university education - but this vaccine was invented at the university I attended, and they keep bragging about it in their quarterly alumni magazine. I have written to the editors of this magazine giving them the evidence, but they didn't bother to reply. I no longer have any pride in having studied at this university. It is clearly like so many - willing to overlook fraudulent research for the sake of funding by pharmaceutical corporations!

Posted On 12/07/2018

thatgirlinnewyork

In a career I've long since left, I worked on the go-to-market proposition for this vaccine. We focus grouped parents, pediatricians, then parents talking with pediatricians about vaccine uptake. What began as a discussion about genital warts, transmission, and the likelihood that certain aero types would become life-threatening became a strategy about how the only way to sell it was to call all warts HPV, and all HPV Cancer—in bold, scary languageL just how everyone likes to make important healthcare decisions!

Nowhere in sight is language about transmission, safe sex practices and HPV doesn't always mean cancer; that wouldn't scare parents, sell vaccines or compel public health departments to mandate them. This is all beside the fact that half off all research is suppressed, never available for public scrutiny.

America is lulled into a false sense of security about this vaccine, all vaccines. When I hear parents shaming other parents when they question keeping to an insane pediatric vaccine schedule, I like to ask them how they walk about, long "unprotected" by so many jabs. One of my friend's teen daughters, a bright, healthy athlete, was felled by the HPV jab. She spent three months in the hospital, having to drop out of school, and continues to battle painful autoimmune symptoms a few years hence. There were other girls in her school who didn't tolerate it so well, either. We owe young people far more responsible oversight than this.

Do the chemistry or find someone to help you figure it out. You will want to check valences, molecular sizes, etc. to a least guess at the chelating effect of NDF+. You will not get a conclusive answer, but should discover whether NDF+ is "worth a try" an might possibly remove gandolinium. It has broad detox properties. You will lose other minerals at the same time and suffer detox effects, so it will be important to take breaks, during which you replenish minerals, maybe 2 weeks on and 2 weeks off. Then, continue. Slow and steady over many months. it is foolhardy to rush the process, overload the emunctories and try to use heroic doses that push your body too hard. I have seen some amazing recoveries with this remedy. The chemistry of it's potential is fascinating. I seem to recall that Dr. Timothy Ray was the founder of the Bioray company. (I think I got his name right?) If possible, you might try to go through the switchboard and see whether you can talk with him and ask questions. If he is still active, leave a message for him to call you back. Have questions, paper and pencil ready.

Yes, gadolinium is showing it can be toxic even in patients with normal kidney function, in vivo clinical exposure to GBCAs results in gadolinium incorporation into body tissues such as bone matrix or brain tissues like other heavy metals do, and is a well-known blocker of many types of voltage-gated calcium channels at very low concentrations, it can inhibit physiological processes such as contractions of smooth, skeletal, and cardiac muscles; transmission of nerve impulses; and blood coagulation. It also inhibits the activity of certain enzymes, some dehydrogenases and kinases, and glutathione S-transferases. Gadolinium may increase the expression of some cytokines, inhibit mitochondrial function, and induce oxidative stress. www.sciencedirect.com/.../S1742706116306201 and gadoliniumtoxicity.com/2016/01/08/toxicity-of-gadolinium-deposition-fr..

“N-acetylcysteine (NAC) protects rats with chronic renal failure from gadolinium-chelate nephrotoxicity”. www.ncbi.nlm.nih.gov/.../22815709 . Magnesium neutralizes toxins and assists the cell and the body to excrete heavy metals. Magnesium and NAC both help with glutathione synthesis which helps detoxify metals and protects against damage from things like cigarette smoke, emf/radiation, and other toxins. A lack of magnesium for example specifically allows aluminum especially to stay in the body and accumulate into the brain. www.ncbi.nlm.nih.gov/.../1467159 As Dr. Carolyn Dean explains, “Research indicates that ample magnesium will protect brain cells from the damaging effects of aluminum, beryllium, cadmium, lead, mercury and nickel. We also know that low levels of brain magnesium contribute to the deposition of heavy metals in the brain. It appears that the metals compete with magnesium for entry into the brain cells. If magnesium is low, metals gain access much more readily.

Posted On 12/08/2018

Guillermou

D. Mercola describes the three pillars of detoxification of heavy metals are: 1. Clean and clear the gastrointestinal tract of metals and toxins with herbs that support healthy liver and kidney function: dandelion, milk thistle, rod gold, etc. 2. optimize glutathione, good promoters: milk thistle, undenatured whey protein, sulfur foods: cabbage and allium. NAC (acetylcysteine), α -lipoic acid, which regulates the Nrf2 route, methylation: vitamins B6, B9, B12, SAME, and biotin, selenium, vitamins D, C and E and exercise. and 3 regulate the Nrf2 route.

articles.mercola.com/sites/articles/archive/2016/06/19/heavy-metal-det..

Diet Nrf2 activates transcription factors, proteins that binds to DNA and induces the expression of particular genes, in the case of Nrf2, these are potent antioxidants like NAD, quinone oxidoreductase 1 and glutathione S-transferases, and many others, are contemplated in these links, as well as the recommended foods .: www.lifevantage.com/blog/boost-your-nrf2-activation-with-these-foods/...
www.mygenefood.com/activating-nrf2-pathway-nutrition-need-know/.----

The full-spectrum and low-infrared EMF sauna together with R-lipoic acid are excellent for removing heavy metals. Minerals such as magnesium, zinc, selenium, potassium and iodine are also essential for detoxification. Myers' book, "Limitless Energy: How to Detox Toxic Metals to End Exhaustion and Chronic Fatigue" is interesting to complement Dr. Mercola's next link

The Prof. Peter Gøtzsche case is a new "Andrew Wakefield case", as I see it. Please sign in and spread this information, www.ipetitions.com/petition/letter-to-danish-minister-of-health-agains.. I think that this article: ebm.bmj.com/.../165 The critic of the lack of safety study of the HPV-vaccine is the main reason why Prof. Peter Gøtzsche is dismissed from his job at the Rigshospitalet in Copenhagen. By the way the Minister of Health of Denmark Ellen Trane Nørby has close contact to the medical industry, why she has invested money in Novo-Nordisk www.avisen.dk/sundhedsminister-investerer-privat-formue-i-medicina_426..

Posted On 12/08/2018

Guillermou

Yes. The tactics of the pharmaceutical industry are well described in Peter C Gøtzsche's book "Medicines that kill and organized crime." "It is frightening to see the similarities that exist between the pharmaceutical industry and the mafia; the side effects of organized crime are homicides and deaths, the same as those of the pharmaceutical industry, the politicians bribes of the mafia and others, just like the industry ... ". The systematic bias favors the products that are made by the company to finance the research. Explanations include the selection of an appropriate comparator for the product that is being investigated and publication bias. www.bmj.com/.../1167

The pharmaceutical sector is characterized by oligopolistic competition, making great propaganda pressure on the medicines and vaccines that they manufacture, even if they are poisons for health. A mafia association between the big pharmaceutical corporations and the government, which also requires a high vaccination compliance rate. In the manufacture of vaccines, billions are spent with taxpayers' money, it is a mafia supported by flagrant conflicts of interest, and the blatant disregard for public safety, without any of the participants feeling the slightest shame thus.

Pharmaceutical companies declare up to seven times more benefits in tax havens according to a report issued by Oxfam (an international confederation formed by 17 national non-governmental organizations that carry out humanitarian work in 90 countries). The conclusions are that companies obtain a profit margin of 31% in countries called "tax havens", 7% in developed countries and an even lower 5% in developing countries. These strategies make pharmacists obtain great benefits at the expense of burdening the tax obligations on citizens. www.oxfamamerica.org/press/abbott-johnson-johnson-merck-and-pfizer-dep..

This is a major dilemma for parents and people without much money. In many places, the laws prevent a child from being enrolled in school if vaccinations are refused. This is considered "parental neglect" if parents do not provide what the state believes is appropriate medical care--even if the child is healthy and thriving. The next step is for Children's Services to remove the child from an "unfit" home. At that time, the child will probably be vaccinated. So far (?), most of these children have been returned to their parents sometime after being vaccinated.

You must be smarter and sneakier to beat the system. I truly believe there is a time for deceit if the life and welfare of your child is at risk. There are doctors who are against vaccines and will sign a statement saying your child has been vaccinated. There are also doctors who will not even bother to see you, but will sign for cash. Like many things in these illegal areas, it depends on your relationship, the words you choose and how you approach your doctor. You should not be seeing a doctor who does not respect your wishes--that is the first place to start making changes.

It's the Hegelian Dialectic - many times over! This has got to be one of the most evil; most criminal campaigns ever! How many more people have to have their lives destroyed by these monsters? Humanity's time is just about up!

I was shocked at the number of states where this vaccine is mandatory! So far, old age has been a blessing in knowing that I have been spared so many vaccines. However, there seems to be no end to govt intrusion into all areas of our lives. I hope that living in an isolated rural area will help remove me from harms way. These are usually the last areas to come under strict govt control. It is still a matter of economics. Allocating significant resources to control a few isolated individuals is not cost-effective.

I tried to counter a talk show host by presenting facts, but he and the audience were so brain-washed by claims made by medical "experts" that they would not consider the evidence of vaccine injuries and lives lost. Lost in so many ways. I cannot imagine that poor girl spending the rest of her life in bed and in a darkened quiet room. I pray for her recovery and , maybe, finding a wise healer to help her.

We have an even bigger problem than the medical issues. The elephant in the room is the fact that people are so easily misled about many things and do not do their own thinking and research. They are content to let someone else make all of their decisions as long as they are promised that they will be taken care of and absolved of all personal responsibility. The reality is that, ultimately, you are still responsible for yourself and your family. People who profit off of your misery do not have your best interests at heart.

This is affecting all areas as our lives as our rights are slowly being chiseled away at. It has been said, stated in the news, that illegal drug money is being laundered through investment in highly profitable pharmaceutical companies. If this is true, it would only stand to reason that a business expansion plan for the cartels would be to get new users hooked on pharmaceutical drugs as well as illegal drugs and expand their consumer base by also getting govt reimbursement in many cases. And govt mandates. This is evil!

Guillermou

Yes Randy. The Medical Association of the United States and other countries have created medical gods, incapable of curing diseases. The support in the pharmaceutical mafia and the corruption of the institutions, linked to Big Pharma. The basis on which medical health is now based, is absent from the logic of potentiation of the immune system with the support of traditional medicines. Chinese and Ayurvedic medicine have been in use for more than 3,000 years, while modern medicine has only been around for a little over 100 years. We are talking about thousands of years of proven and effective therapies that work in harmony with the human body, without dangerous side effects.

Hippocrates, the father of medicine declared: "Let food be your medicine and medicine be your food." As Einstein has said, "A foolish faith in authority is the worst enemy of truth." The holistic medical power the ability to self-cure with the help of food, sun, air, water from the springs.

The reality of today is that allopathic medicine is only interested in money and the power to control the fate of our health. The story centers on The Rockefellers joining forces with the Carnegie Foundation to create a 'fund for education. Carnegie and Rockefeller began to inject hundreds of millions of dollars into the medical schools that were teaching intensive drug medicine. without any emphasis on natural medicine. Thus, alternative medicines were mistreated and modern doctors created without knowledge of nutrition, detoxification, well-being or disease prevention.

The Fraud, Lies, Deception and Illusion will continue! Here are two articles, just from today that illustrate this FACT: vancouver.sun.com/news/local-news/flu-policy-goes-into-effect-at-vancou.. Also; I've said from the day Turdo announced that "they" would be legalizing marijuana, that Big Pharma would take it over. When it comes to such matters, I'm usually right! www.puffpuffpost.com/the-marriage-between-sandoz-canada-inc-and-tilray..

What's in your investment portfolio???)

Posted On 12/08/2018

wendyb.

I wonder how many people write direct to Merck, the source of the problem, expressing their disgust?
Would seem to make more sense than us trying to educate uniformed doctors.

Posted On 12/08/2018

CaddyB

Wendyb, do you really think that would help? Merck is interested in profit; your letter would go to the circular file. It certainly wouldn't be reported to the CDC or any other governmental oversight group.

Posted On 12/08/2018

Almond

I bet if you try that, you will get a noncommittal form letter thanking you for your interest and touting their latest vaccine products. Sort of like when you contact your congressperson and get an irrelevant form letter in reply.

Over several years now the corporate leaning Supreme Court justices have made decisions that allow any amount of unaccounted for money to buy our politicians and legislators. You may have heard of Citizen's United, or phrases like 'money is speech' & 'corporations are people'. The pharmaceutical industry is one of the three largest buying the people who govern and make law. This is the real root of issues like this and others not looking out for the best interests of citizens health. Its all about profit, and on the present SCOTUS, especially the seat that was stolen and the last appointed, there is not much hope in the foreseeable future for change. Vote for your life and the lives of your families and next generations.

This is a slap in the face to the many, often religious teens, committed to abstinence. Yes, it does still happen. This is govt, essentially telling young people, "We consider you a ward of the state because we know better than you, that you cannot be responsible for yourself." Even if we assume that the vaccine is 100% safe, which it is not, it gives a false sense of security. At best, it may only prevent 3-4 strains of HPV out of a total of about 18. Further, it does not prevent other STDs. This is like playing Russian Roulette if a person believes it is safe to proceed with having unprotected sex.

The truth is that there ain't no free lunch. Abstinence still has it's benefits, esp. for young people. This is not the world I grew up in where the worst thing that could happen to you was facing the humiliation of going down to county health to get an injection for a sexually transmitted disease. I recall an esp. moronic member of my class telling everyone it was his third trip to county health. It does not make sense to inject things deep into your body past all natural immune barriers. Esp. when such substances are know to include "filth" and toxins.

I believe that I am one of the vaccine injured. After I received an egg-based vaccine, I developed an allergy to eggs which has made my life and diet challenging. However, there is no way to actually prove this cause and effect afterwards. I suppose I should just be grateful it was nothing worse.

Sometimes, I get very angry when I realize I was born incredibly strong and in excellent health. Except for the physical stress of hard work and some injuries along the way (you can heal from those), every major health challenge I have faced is the direct result of someone else's greed. Vaccines, medical errors, toxic exposures, altered food and environmental exposures. Many accidents were not my fault, either, and were caused by drunks, druggies, illegals and other people's irresponsible lifestyles and behavior.

Posted On 12/08/2018

sunshinedaydream

Yes Almond I am in total agreement with you. The mindset is to obey than to think critically and self determine ones own path.

I've also read that the whole peanut allergy came about due to peanut oil being used in vaccines. Without proper reports and research, the madness will continue

As a Specialized Kinesiologist, I have tested hundreds of clients over the years. One of the things I have found proof of throughout this process is that the metals remain particularly in the brain (metals are used as stabilizers in vaccines....mercury used to be one of them. As far as I know, mercury is no longer used to stabilize the vaccine's activity) . But because the joints are magnetic as well, all of the nerve channels suffer the effects of vaccines. The nervous system reacts as a whole when 'blocked' or disrupted in these unnatural ways, such as with vaccines. There is nothing more unnatural than a vaccine which overrides the body's most highly evolved processes of the immune system. The use of Thuja occidentalis is an excellent approach for eliminating the metal from the brain. But also, interestingly, CELANTRO is renowned for removing heavy metals from the body as well. Detox is the KEY for anyone who has had vaccines. Deep lymphatic cleansing has proven to me to remove ALL of these residues, including the biochemical wastes as well. One more note is the power of breathing exercises. I have also witnessed that the use of the CLEANSING BREATH, a dynamic breathing exercise, similar to panting, will recharge/restore and rejuvenate the nervous system like nothing else. I'm obviously a believer in the natural approach and have spent 4+ decades in study, research and the practical application of these methods I discuss here and these all have been components in the healing process that must be activated by the return to balance. Balance is key and most people are sorely out of balance on many levels. Get the body back to an alkaline ph (free and clear of toxicity overall) and the healing event will 'spark' and naturally occur. But, as mentioned, there are proactive methods in which to facilitate this activation and the key to that is breath work. I've used these techniques with even very young children with excellent results!

"One Less" - one less fully functioning vibrant human. I remember the ad campaigns when this vaccine hit the market. It just seemed suspect to me. The slogan "one less" sounded absolutely nefarious. Glad I listened to my intuition and not the white coats or propaganda. I feel bad for the people harmed by this vaccine. Perhaps massive detoxing would help? Colonics, infra-red saunas, heavy metal detox protocols, clean diet, juice fasting. I brought myself back from the brink of being poisoned by anesthesia from a surgery doing the above.

Its_All_Light

We need a group of really top notch lawyers to take this issue on board and take the pharma companies and those responsible in government to court, similar to what happened with the recent Glyphosate case. Ensure it gets aired on mainstream TV, because sadly, most will not pay attention unless it's 'on the news'. I don't know how this could happen, with the mainstream media being owned by the same corrupt individuals who are behind big pharma, but a way has to be found.

Posted On 12/08/2018

katguy

I hope this will happen. Unfortunately they planned for it. This was why the pharmacy blackmailed the government back in '84 and made them exempt from all vaccine related lawsuits.

After a local teen died from early onset ALS, one of our news channels did a feature saying that a national group of mothers had formed, who had lost daughters to early ALS. It makes me wonder how many of the girls had been given this vaccine.

Posted On 12/08/2018

Liz Smith

For years now I have worried about the daughters of relatives and friends of mine about this dangerous vaccine. From the first signs which came very early in the programme i have warned all my contacts of the dangers of this and sent the written evidence about the failures, the horrors that have occurred to all these daughters. At the time of the deaths of some of these girls the whole programme should have been stopped immediately, as not only deaths were evident it was obvious that not enough research was done. NOW they say they are putting the vaccine into young boys. Sadly from evidence of my relatives in Australia it seems their feelings about this vaccination have been over-ruled and the child given the medication. Two countries in the world have BANNED this treatment so someone somewhere has got some sense. Drug companies do not want you to be cured as their income stops as soon as you are cured, they just want you on the Px for ever. I never subscribe to any research, millions of \$/£ are collected around the world, to be used for research (don't forget you have paid for research) then when the drug houses produce vaccinations which our donations have paid for, they then charge you big bucks to buy, then down the line they say MORE MONEY NEEDED FOR RESEARCH!

Merck seem to have a blatant disregard for human life in its quest to make money. It has been responsible for causing deaths and thousands of serious adverse reactions to dogs in the UK with its Nobivac Lepto 4 bacterin which contains Thiomerisal Mercury adjuvant. Vioxx was probably the worst case with estimates varying from a few thousands to an almost genocide level of possibly 3 million deaths in the USA.

Doubt has been cast on the safety and efficacy of the MMR Vaccine. I have seen reports that van loads of test data which showed adverse effects were cleared out the day before a CDC inspection. The German High Court ruled against Zoetis, a co-manufacturer of Merck, concerning the evidence that the measles virus exists and the effectiveness of the Mumps component of the MMR. The CDC produced the confidential data on the long term trial of MMR vs Autism which showed that children injected with the MMR vaccine are 234% more likely to become autistic compared to a matched sample of unvaccinated children.

There is also considerable evidence of poor trial design and selection of test results to prove efficacy. In the Lepto 4 trial the testing involved 32 puppies, two of which died during the trial and were excluded from the test results. The test only lasted for 1 month, not long enough for autoimmune diseases to become apparent. Merck's founders were drug dealers who peddled heroin and morphine on the streets in Germany in the 1600's. I don't think their business philosophy has changed much over the years.

My healthy 18-year old son suffered a 'stroke' of his spine -- transverse myelitis -- three months after getting his 2nd HPV vaccine. At the time he was paralyzed from the waist down. Because transverse myelitis is so rare, our local hospital and neurologist decided he was 'faking' and sent him home. (A different medical malpractice saga) My son regained some sensation and function over the following months, but still has many neurological deficits. Now 8 years later, at age 26, the most obvious sign is that he walks with a decided limp and uses a cane. But the unseen problems are worse. He doesn't have normal bladder and bowel sensations (he is prone to accidents if he isn't careful) and rarely masturbates because he has so little sensation that it isn't enjoyable.

He hoped to have a career in musical theater (he has a great voice) but his ability to move around the stage quickly is limited and he has given up many of his dreams and aspirations. These are huge losses for someone who was a healthy 18-year old boy. He has struggled to (literally and figuratively) get his feet under him as a young adult. His life is definitely divided into pre-spinal injury and post-spinal injury. He has gone from an upbeat, confident outgoing person to someone who struggles with anxiety, depression and PTSD. He has huge gaps in his memories due to PTSD.

As a devoted mother who made sure he got all the mandated vaccines, I blame myself. And it is infuriating to me to be called an anti-Vaxxer, which I am not. I would say I am a cautious Vaxxer. I still think it makes sense to vaccinate for things like Polio, Diphtheria and Tetanus, but there are so many more vaccines now than when I was a kid, or even when my children were kids (in the 90's). Why do we have to vaccinate for Chicken Pox, for one example??? Both of my kids had Chicken Pox with no lasting ill effects. The rationale I have read for that one is that it is disruptive for the family breadwinner to miss work due to having sick children or being sick him- or herself. That is a pretty weak reason to subject millions of children to possible harm

Thank you Dr. Mercola, thank you to all who posted such additional valuable comments. Takes forever to 'like' each one so telling you all right here. With much gratitude. My daughter 40 had the HPV [against my wishes,] has been so ill since. Severe joint pain, some 'undiagnosed' auto-immune disease,, illness, syndrome . Constant pain , at times excruciating==and some days unable to walk, falls. No one knows. My daughter in law immediately gets every vaccine that comes out for my 2 grandsons--including the HPV. I am thanking God they are ok so far, but who can know what the future will hold for them. Thank each one of you for taking the time to share.

The world is fit to bursting, and I have no doubt that the governments have a huge amount of pressure on them to find a solution. How convenient is the vaccination solution?! Immunise against diseases (make money from big Pharma); become the hero for allegedly ending them (win votes); and, BONUS, increase the rate of cancer, and, double bonus, make a bunch of extra cash from family's of victims who dedicate their lives to fundraising. Are they really trying to eradicate diseases or speed up our life spans? I know it sounds cynical but every time I read an article like this I become more and more convinced of the plausibility of this potential silent genocide :(

Thanks everyone, for the detailed comments, I've thoroughly enjoyed reading them.
