I will be refusing the Covid 19 Vaccine. I've avoided meds my whole life! I am now 76 and relatively healthy; I do what's necessary, to keep myself healthy. I do not eat processed food of any kind; I follow the teachings of many doctors and professors, such as Dr. Joseph Mercola, Dr. Eric Berg, Drs. David and Robert Lustig and Dr. John Bergman. We should all, be taking control of our own health; though the majority don't; they eat fake food and hormone ridden meat, they drink Coco Cola and other sugar-laden soft drinks; they smoke! Drink and take drugs! Why should I, put myself in harms way; by taking a vaccine, hurriedly put together, and with no guarantee of its safety (Remember Thalidomide), for others, who do not do the right things to protect their health?

I believe sincerely, and vehemently, that the body is very smart; if you provide it with the correct nutrients, it will do its job, and stay working like a well oiled engine; do the wrong things by it, and it will cause disease of one type or another, possibly ending in death. I also believe, that if one does fall ill; one has to look for the root cause, and fix it; usually, it's a deficiency of one kind or another; but with the correct food; the best being Organic; and the right nutrients; which is why the food needs to be organic; and with at least a half hours walk each day; one can reverse disease by these measures, and by fasting, and ridding you're body of poisonous Sugar! to bring about detoxification. I do not believe in putting chemicals into an already diseased body; and expect that it will survive and flourish. That's my philosophy, it has served me well, till now; so until I'm given a cast iron, written guarantee, that this vaccine will not harm me; I will be saying No Thank You.

There are those in denial who will promote their own immediate gratification by telling you they don't believe the food you eat really matters. Even on the surface of it that sounds dumb. My husband's surgeon actually told me after a bone surgery that diet would not affect healing! At least he was a better surgeon than nutritionist! Then, there are the people who put all their trust in govt and tell you it has to be safe because it is USDA inspected. "Our govt protects us." Or the people who tell you that you soon forget what you had for supper. If it was cheap, you could have saved up the money towards buying a new dress that "shows". Such are the insecure people for whom image is important. Then, there are the dummies that believe everything they hear in the news. "I eat a healthy vegetarian diet. I eat lots of pasta."

Yes, the true path of health should be led by the institutions by avoiding chronic diseases and not promoting them with vaccines, weakening the immune system and causing serious side effects. Like influenza, COVID-19 affects certain people more severely because their innate immune systems are compromised. This is true in the elderly, those receiving chemotherapy, and people with comorbidities such as obesity, diabetes, and heart disease. The comorbidities of chronic diseases cause high levels of systemic inflammation, which causes the "cytokine storm", with clotting problems and hypoxia that in some cases leads to death.

Where are the preventive measures for these diseases and their support for the serious effects of COVID-19? Without a doubt, in the diet and healthy lifestyles, The efficacy of natural compounds in immune health; however, apparently they do not exist in this current debate, it is not in the interest of the Pharmaceutical Mafia and its powerful contributors. Here's the big picture: Nearly 400 Adverse Reactions Listed in Vaccine Package Inserts [childrenshealthdefense.org/news/read-the-fine-print-part-two-nearly-40..](https://childrenshealthdefense.org/news/read-the-fine-print-part-two-nearly-40..) As Dr. Mercila reports 1 in 40 people will be injured by vaccines and COVID-19 vaccine trials show widespread side effects in healthy people. Terrible will be the consequences for the vast majority of the population that has poor metabolic health. Also according to the Federal Agency for Health Care Research (AHR) confirmed these assessments and found that “less than 1% of injuries were reported by vaccination. “That CDC officials were so panicked by AHRC’s revelations that they killed the AI system-wide roll-out and stopped returning phone calls from their sister agency. Today, CDC purposefully continues to use a surveillance system designed to under-count vaccine injuries by over 99%!” [childrenshealthdefense.org/news/vaccine-injuries-ratio-one-for-every-3..](https://childrenshealthdefense.org/news/vaccine-injuries-ratio-one-for-every-3..) (October 10, 2019)

Also consider that you are targeting people at higher rates of COVID-19 by depressing their immune systems. The lockdowns are reversing decades of progress in alleviating poverty and improving health and education. Interestingly, COVID-19 appears to be primarily a disease of the developed world, with 74 percent of the 4.4 million cases and 85 percent of deaths worldwide occurring in North America and Europe. Countries with complete blockades, deaths from COVID in many cases are higher than countries with minimal or no blockades. The dangers of vaccination are obvious and the damage to well-being and the economy has been enormous and will increase if more effective strategies are not established in relation to the real dangers of this presumed pandemic. We cannot allow this to continue any longer. We must protect ourselves and this requires educating the population and demonstrating against institutions and their positions of influence, while pressing for accountability.

Thousands of people have demonstrated in Germany against the future vaccine to end the Covid-19 threat. The government spokeswoman, Ulrike Demmer, has reassured critics by assuring that "there is not and will not be a compulsory vaccine in Germany", but the fact is that to be able to enter a school or a nursery, the stamp on the passbook will be required. Vaccinations and surely there will be many companies that require it from their employees.

Michael Ballweg, a businessman from the telecommunications sector participating in the protests. "I am the owner of my own body and if I don't want to be inoculated with a virus, no one should be able to force me," is the argument of Nina, a 21-year-old hairdressing student. In mid-April, 79% of Germans said in polls they were willing to get vaccinated. A Cosmo poll, however, points out that the percentage had dropped to 63% last week. In April, 74% of survey participants in Germany, the UK, Denmark, the Netherlands, Italy, France and Portugal said they would be willing to get vaccinated. By June, that number had dropped to 68%, the researchers found.

The anti-vaccine movement has enjoyed relative popularity in Germany since 1890, when a group of German doctors signed a manifesto against the smallpox vaccine, in this health crisis their number rises thanks to the platform, founded by psychologist Victoria Hamm, the lawyer from Leipzig Ralf Ludwig, and the otolaryngologist from Sinsheim in the Rhein-Neckar district, Bodo Schiffmann.

They'll have strings attached, such as "health" insurance or aid during the next plandemic. That way the rich will still have choice. If it's mandatory for something like a driver's license (even presuming it's effective I don't see how vaccination relates to driving, except perhaps to control the population by ensuring more impaired drivers), we need to be steadfast in our refusal, like the Indian people who refused to move as the British fired on them, exposing the atrocity. 27% is a large percentage of the population, certainly enough to swing any election. Also, such a law would expose how UNSAFE and INEFFECTIVE the vaccine really is, and backfire in an epic way, like smallpox mandates did in Leicester England in the 19th century after they had their worst epidemic while vaccination coverage was at an all-time maximum. If the dupes and tyrants who do not value health liberty and the right to OPTIMUM health get what they want, they're going to get it good and hard.

Sanvil, I will also be refusing the vaccine. From what I can tell, I'm also the only one who's been refusing from the start to lockdown, quarantine or wear a mask. Believe me I'm paying a price every day, but I refuse to back down to this BS. Now because I refuse to wear a mask (I don't have one and have yet to put one on), I've lost my job, I can't go into most stores with exception of anything Kroger owns (thank you Kroger), I'm refused all services (hair cuts, eye exams), I also can't use my local library unless I agree to contact tracing (sorry). So everyone else is talking up all this "refusal" and yet doing nothing. Yes, it's tough to stand up for what's right. But it has also allowed me to have many conversations (with those not screaming at me) that have made people stop and think. So everyone can puff up and say they're going to refuse, but until I actually see people pulling off their masks and businesses saying "I'm opening anyways", then all this is just a bunch of blah, blah talk and the technocrats won't back down. What the "elites" are witnessing is just what they'd hoped. A society so steeped in fear with no critical thinking skills and so desperate to be accepted that they just bow down and accept the "mandates". From what I'm seeing, this is going full steam ahead and the "control of society" has only just begun. No one I'm seeing is waking up.

This from Spiro Skouros: "Recently, Bill Gates gave an interview to the Rothschild partially owned Economist. In this interview, Gates was asked about how he views the U.S. response to the outbreak. His reply was... 'Aside from the high 'risk money' the US ponied up for vaccine research and development, he think the U.S. is doing a poor job overall.' "Gates proceeded to directly blame the poor response on lack of preparation, but also freedom. Yes, Bill Gates blamed our freedoms for the spread of the virus. "Bill Gates then went on to praise China's authoritarian response and said, despite the fact that people's rights were violated, China's response was really amazing! "This is right out of the 2010 Rockefeller Lock Step document that laid out a scenario for a world of tighter top-down government control and more authoritarian leadership." Many of the top shills for vaccines are afraid of the COVID vaccine. They know for one, a lot of people will get very ill "despite" it; and for another, it will injure multitudes, the survivors and immediate families of which of those it fails and/or injures will become "anti-vaxxers" for life.

I do wonder about your inference that with a "cast iron, written guarantee" that the vaccine won't harm you, then you would consider taking it. No assurance provided by any authority could ever be a "cast iron" guarantee of no harm. I'm never taking it - period. Until forced to. I agree. I will not now, or ever in the future, get another vaccine. I am one of the vaccine damaged, and I am uncouncted in that 1 in 40 number of damaged people because NOBODY believed me. One of my own sons doesn't even believe me! Some of my family and friends do, but hardly all. The 1 in 40 number may be the best they can do, but it's more than that in reality, because there are many like me that go uncouncted. I gave this advice to my son, and I give it here: Please wait, any of you that aren't sure about all this. Just wait a year or so and watch closely to see how this vaccine agenda all plays out. Do not rush to get injected, observe the results first. Even if the mainstream media lies about it, Dr. Mercola's site does not, nor does RFK's site nor NVIC, and others. I caution all to err on the side of safety; you are, after all, gambling not only with your health but also with your own life. Just watch and wait. Be well and be smart!

Well, I'm 83, and I attribute my good health in part to never getting a flu shot. Oh, I've had the flu a number of times, the last time five years ago, which was gone in two days with the help of elderberry syrup and vitamin C. And I'm not about to get this upcoming vaccine. I've never been operated on, never been in the hospital, can walk as far as I could forty years ago, and cut a hilly acre of grass weekly with a stand-behind lawnmower, covering over four walking miles in doing so. And I have been following Dr. Mercola's excellent advice for the past ten years.

The thing is sanvil, what do you do if you're forced to take the vaccine against your will? I suspect there will be many of us who will refuse the vaccine (and that includes me), however if they do what some people have guessed, the powers-that-be will send the vaccine squads door to door and force unwilling people to take it. So, I'm an 84 y/o and presently healthy individual, am I to go like a lamb to the slaughter and submit to the Nazi-like gestapo? I have a dread that citizens, no matter what health condition, will be forced against their will and many will suffer greatly as a result. We all know what Bill Gates' roll is in all this since he makes no secret of his strong desire to see the world's population be drastically reduced.

Very sad that all of the doctors that were part of the group that stood on the steps of the Supreme Court and said there are safe and successful ways to treat the covid virus WERE FIRED. They presented their views and results on July 27 and July 28th and were part of "Americas Frontline Doctors" treating with hydroxychloroquine, zinc & azithromycin. They said those administered at early signs of the virus with this approach were treated successfully. There are some desperate people that see this vaccine as the only way to control us masses and nothing will stop them from giving one and all an injection. We must all resist this vaccine in order to continue life on this earth for our children and grandchildren without the tyrannical one world government they have been and continue to force on us. Unfortunately Trump cannot do anything about taking away the legal liability immunity of vaccine manufacturers from injuries and deaths from vaccines other than getting someone in Congress to sponsor the repeal of the PREP Act that gave vaccine manufacturers liability immunity during a pandemic and the repeal of the 1986 National Childhood Vaccine Injury Act that gave vaccine manufacturers liability immunity for those products on the CDC recommended immunization schedule for children and adults.

Of course, you are right, el-graf, to place your faith in Donald's re-election. Love him or loathe him, he seems to be the only hope that the pseudo-medical mafia will be prevented from infiltrating the political system to make vaccination mandatory or conditional. He was the only one to speak up in favour of the safe and effective drug hydrochloroquine which could have saved many lives, sadly sacrificed for the sake of extreme political motives of deep state about which the mainstream public remain ignorant. How much real power does a president have? Do not know enough about the US system to comment .

We are assuming the children and families of the main gangsters will be the first to volunteer for their unscientific, COVID-19 "vaccination" masquerade or a loophole will no doubt be found for the rich. And now that we know how easy it has been to insert gain-of-function mutations into viruses, this pandemic may only be the first of many. Viruses clearly cannot continue to exist without human hosts and perhaps there will be a truce so that it lies dormant and only comes to the surface when our immune defences are low. The best tactic is to do as Sanvil and others have done and maintain good health without drugs - a whole food, junk free diet, daily movement, restorative sleep, contact with nature, well managed stress and I would add, reduced emf exposure. As in any conventional war, we must strengthen our defences and protect the most vulnerable. But no time to waste - we cannot go on just singing to the choir and preaching to the converted. Organised action is needed to make our voice heard and force governments to listen.

el-graf you are the first I see to post what transpires to be the heart of the matter. If there is no liability involved, the vaccine-aholic panderers can add any unhealthy, but not quickly discernible, component to their vaccine inventions. This lack of liability is what urgently need to be stopped. Here in Canada there are people naively stating that when Moderna comes up with a vaccine that will be the solution for them.

Reinstating liability to vaccine producers and sellers would stop this abuse we are forced to suffer, funded by our taxes and horrendous leadership with, in all probability, hidden agendas. NWO, change of currency, etcetera. "Last month, Public Services and Procurement Canada issued bids to supply 75 million syringes and other vaccine administration supplies like alcohol swabs and bandages, to be delivered by the end of October. The goal is to have enough supplies to give every Canadian two doses of a vaccine. All potential vaccines will require Health Canada regulatory approval. Anand (Public Services Minister) said she expects Pfizer and Moderna to begin delivering their vaccines, if approved, sometime in 2021." (Source: Ryan Patrick Jones, Kathleen Harris · CBC News · Posted: Aug 05, 2020 9:44 AM ET). Over 2,000 comments on this article.

Sadly and just in my opinion, many Canadians appear to be naive as to vaccines and Covid-19. I am high risk category and I will never take a vaccine for Covid 19. It is a numbers' game, smoke and mirrors. I've never taken a flu shot. The Premier, province of Ontario, just ordered five years' supply of masks. What does that mean? Is the government planning for five years extension of the current atrocity? Our current Prime Minister of Canada is a former drama teacher. His first transgression ended with a guilty verdict from the Ethics Commission. In response all Prime Minister Justin Trudeau had to say was, I take responsibility. We have headlines like this: Trudeau admits mistake.

Retsbew, thank you for your question as to the the brand of elderberry syrup I take for the flu. My family has taken Sambucol elderberry syrup for roughly 25 years. The dose for the flu is two teaspoons four times a day in divided doses. If the flu is going around and near you, you might want to take one or two teaspoons a day as a preventive. I have never known Sambucol not to work, usually in between two to three days. A double-blind test in Israel showed it cured 20% of those who took it in one day, 70% in two days and 90% in three days. The placebo group had the flu for an average of seven days. It cured my son of Mononucleosis, a viral disease, in a day and a half. That disease usually takes two to three weeks to get over. Some people are hospitalized with it. My son had it with a fever of 104.5 degrees, and I had to wheel him into the ER in a wheelchair. And then cured in less than two days. Thanks again.

No worries, Stan, if you don't really understand what a figure of speech is. It is not meant to be taken literally - i.e. nobody thinks you are singing or preaching. It just means that commentators on Doc M's website are already in general agreement with each other on the origin of the COVID-19 plandemic and its organisers, which is great but a bit too cosy.

If we want to bring about change in the wider world, stop these evil doers and get a sensible plan from our governments, we really need step outside our comfort zone to reach a wider audience, especially the general public who are unaware and politicians who have the power to stop not only further gain-of-function "research" but also compulsory masks, lockdowns, vaccination, economic suicide, etc, etc. - the "new abnormal" in other words.

If you have any clout with the good doc, it would be great if he could organise a petition to Pres. Trump, or whomever appropriate, for his readers to sign. I would gladly sign it. I have already tried to spread the message in the UK by submitting an article to a publication with quite a wide readership and I intend to contact my MP, local action groups and anyone else who will listen. Time is marching on and we need to educate the rest of the world and make our voices heard.

IMO, Dershowitz has overrun his headlights. These tyrants running around trying to control peoples lives do not understand that what many people want is simply to be left alone. That was the original idea behind the Declaration of Independence, the Constitution and many of the amendments in the Bill of Rights. The constitution was also based on an understanding of natural law and the concept that man is born free. Ultimately, the question is whether you are free or a ward of the state. Who decides? It is many of the well-educated, self-educated and resourceful people who will refuse the vaccine. They may be forced into isolation. Have the bureaucrats really thought this through well?

This would likely result in the best and brightest targeted individuals removing their skills from society. Yet, they are most likely to be self-reliant in their isolation. Let's start with utility engineers for example-- electrical, sanitation, mechanical, etc. How many of them can we afford to do without during a pandemic? Unless there really is no pandemic and the true goal is just to eliminate those who are not malleable and who will not go along? Go ahead and think of how eliminating individuals with other skill sets might also affect society... The fact is that, so far, no vaccine is safe and effective. If it prevented covid without risk, those who are vaccinated would not be so self-righteous and fearful of those who are unvaccinated. The proof is in their response.

Speaking of wanting to be left alone, today I received a letter from my medicare provider saying they are going to keep calling me to schedule an appointment for some kind of practitioner to come out to my house and do a physical. I expect it will be a low-cost provider. I am shocked at how poorly I have been treated by the system and how ignorant employees are. Like I am supposed to be thrilled because it is "free". Naturally, I must wonder what the kickback is as they are never eager to act in my best interest otherwise, so there is some kind of reimbursement or money-making racket going on. These people get paid by the federal government--not me-- and cannot be trusted to act in my best interest.

They know who signs their checks. My response will be to tell them after the shoddy care I previously experienced, I would not let such persons enter my home. These services are contract workers, not even directly employed by the facility itself. You have strangers you know nothing about telling you they want to enter your home! I place this in the same category as allowing Children's Services to walk thru my home and have a look around. Too many elders have been found incompetent and assigned a guardian to manage their financial affairs, who just happens to be a friend of the judge. (Such an attempt was made by govt to take over my father-in-laws estate, even though family was actively involved in seeking the best possible care available for him and he was mentally competent.) It really is about the Benjamins. What could possibly go wrong?

"The right of the people to be secure in their persons, houses, papers and effects, against unreasonable search and seizure, Shall Not be violated, and no warrants shall issue, but upon probable cause, supported by oath or affirmation, particularly describing the person or things to be seized". --4th amendment. Don't open the door or window, that is legally considered consent. Talk to them through the closed door or tell them to hold up their warrant against the glass. The warrant has to have probable cause, or I myself (I am not a lawyer, ask your lawyer about this) would be inclined to say that the warrant is not valid. in 2000 I was diagnosed with peripheral t-cell lymphoma thanks to Round up. 4 separate chemos did no good according to oncologist. I was back to 3 months to live. I went organic, started drinking raw grass fed milk and butter, no hormones or antibiotics, stopped processed foods, soda and trusted in prayer. 1 year later I went into remission, have remained cancer free to this day. when diagnosed with cancer, also diagnosed with type 2 diabetes (sugar was 585) which was not treated for the whole year as they thought I was going to die from cancer. working on getting it under control with diet. also had aortic valve replaced last year. during this "pandemic" I have been healthy. the only problem I have is I got in a hurry, fell and broke right arm. now have uped calcium and started collagen to my diet to strengthen my bones. I spend 1 hour on my deck getting vitamin D. I am 79 going on 80 in November and am in better shape than many younger than I am. I see no reason to take the vaccine. I have not had a flu, pneumonia or shingles vaccine since 2000, do not get colds, flu, pneumonia. last flu shot I had made me sick. If they can prove it is 100% safe I might consider it, but doubt that will ever happen. I also do not trust big pharma. they are in business to make money, not save lives. have sneaking suspicion that this whole thing might be a way to decrease the world population and control what is left. The reframing of freedom as selfishness receives a powerful “booster shot” from current pandemic fears. Vast swaths of populations around the world await their coming savior, the COVID vaccine. If you are a corporation with a product to sell—and that is precisely the situation with vaccine manufacturers—you would rather have your customers clamoring for your product than be in the weaker position of having to force it on them. That way, the illusion of freedom of choice can be maintained. This requires high levels of fear across the population to drive any market resistance down.

Those with the presence of mind to hold that fear at bay, responsibly exercising the freedom to do their own research and thinking, and make their own decisions rather than surrendering that authority to the state or the hysterical mob, are stigmatized as “selfish.” The actual selfishness of those intent on taking your freedom and your money escapes notice, a side benefit of instilling so much fear across communities.

But irrespective of self government and freedom of choice, legal professor Alan Dershowitz has said that the state has the right to forcibly plunge the vaccine needle into the arm of the unwilling. How much of his certainty stems from a nonexistent ideal, a picture absent the corruptions and controversies surrounding vaccination? In the cited debate with Robert Kennedy Jr, he does concede that certain standards must be met, but has so far seemed little informed or concerned about the actual shortcomings in vaccine safety. This is no minor point. Such questions are not merely inconvenient anomalies sully the purity of hypothetical legal arguments; they are systemic. CONT.

## Darzoum

So let's do a little "thought experiment," based on a scenario that more than satisfies the conditions Dershowitz apparently presumes as given. Let's imagine there is a vaccine that is absolutely proven to be 100% safe & effective, that pharmaceutical corporations are completely moral, with the health and safety of their customers as their paramount concern, and that regulatory agencies, politicians and media are working from a standpoint of perfect, impartial rectitude, devoid of posturing, conflicts of interest, hidden agendas or self-aggrandizement. I know... that's a lot to ask of imagination, but do your best. With these conditions met, should we now mandate vaccines? No, not if we truly value freedom and self government; but at that point, why would you have to? There would be no shortage of willing customers and mandates would become irrelevant.

Does this not also reveal the conditions under which mandates do become necessary? Yes, the present conditions: questionable, ineffective, untested and potentially risky vaccines; immoral vaccine makers, all convicted felons; paid-off politicians, regulatory agencies and mainstream media. Under those conditions, mandates—the forceful removal of freedom of choice—become necessary to compel anyone even partially awake, presenting us with a thinly-veiled totalitarianism instated by a unique form of terrorism, the fear of a virus. The plunging needle is then to protect the power and profits of elites, and has very little to do with protecting public health.

Darzoum, don't worry, they will find out the hard way that this is no savior at all. When that happens, then the masses will wake up and learn a powerful lesson. They may never trust and be so gullible again. Alas there may be intense harm done to many people who have vulnerabilities. And if the vaccines are based on nanoparticles, there will be harm to probably almost everybody...I would assume...I am not a doctor but like everybody here and many more society-wide, I can surely think analytically.

Yeah, Dershowitz says don't spread the illness, therefore vaccine mandates, but does he say that the vaccines Shall Do No Harm To Anybody? Is he concerned about that or does he pause to consider the mere possibility, let alone the great likelihood? So he thinks he is saving the world with his "legal" arguments while he is in fact making nothing more, and nothing less, than a FOOL of himself. He is proving himself to be an UNconstitutional scholar, and a violent felon as far as I am concerned. Just go ahead and harm those medically vulnerable...that is not violence? And this protects society? Mr Dershowitz, think again. Sometimes unethical lawyers just practice pure **\*\*rationales\*\***, not law at all.

Hi DARZOOM, Some highlights, respect for the free choice of people, after prior and detailed information on the risks and advantages of vaccination, and request for free access to the results of vaccine trials throughout Europe. " In the field of medicine and biology, the following shall be respected, in particular: the free and informed consent of the person in question, in accordance with the procedures established by law ". For approximately 40% of EU citizens, this right has not been recognized or sufficiently recognized, when it comes to vaccination, which always involves medical intervention. It is a violation of the Universal Declaration of Human Rights, as it implies the violation of personal dignity and physical integrity. [www.europarl.europa.eu/.../text\\_en.pdf](http://www.europarl.europa.eu/.../text_en.pdf) ----

It is estimated that in 2015 some 400 million people living in the EU member states have information for a free choice of vaccines, but around 258 million Europeans do not. We need an appeal to all Europeans to establish free choice about vaccines, with prior informed consent, and that in this sense, there is a harmonization of national laws. The European Charter for Biomedicine and Human Rights clearly states in relation to the application of treatments arising from biology and medicine, "the interests and well-being of people are above the interests of society or science". Therefore, some statements for which vaccination should NOT be mandatory, since each involuntary or forced medical treatment is a violation of: 1. The United Nations Universal Declaration of Human Rights 2. The Charter of Fundamental Rights of the European Union 3. The UN Convention on the Rights of the Child 4. The Council of Europe Convention for the protection of human rights and human dignity in relation to biology and medicine: European Convention on Human Rights and Biomedicine. 5. The European Charter of Patients' Rights 6. The UN International Covenant on Civil and Political Rights

Charles Eisenstein, in his book *Climate: A New Story* says: "Fundamentalism reduces the complex to the simple and demands the sacrifice of the immediate, the human or the personal in the service of a general ulterior goal that triumphs over all." This fundamentalism and the spirit of war leads to a deceptive need for vaccines by means of strategies at any cost.

"Dissenting voices are drowned out by a strawman argument; the virtues of vaccines are used as a response to legitimate concerns without actually addressing the concern at hand. Thereby an insidious form of confirmation bias occurs; the presumptive rationale for vaccines comes from a one-side assessment from the past that is never revisited ". The reality is that it cannot be propagated to physicians to deliberately ignore patients' concerns of increasing vaccination rates and there can be no true informed consent if the patient cannot freely refuse treatment.

There will most likely be plenty of vaccine available as there is limited concern outside of the possible appearances of damage they can not explain away. Being no liability they are protected. You are supposed to believe you have no right to protect your body or rights & to also believe they have an absolute right to do whatever ever they want even if it damages your body or undermines your rights. Then there is this; "The problem is, Anthony Fauci put \$500 million of our [tax] dollars into that vaccine. He owns half the patents. He has five guys working for him [who are] entitled to collect royalties.

So, you have a corrupt system, and now they've got a vaccine that is too big to fail. They're not saying this was a terrible, terrible mistake. They're saying, 'We're going to order 2 million doses of this [vaccine]' ... And, they have no liability ... No medical product in the world would be able to go forward with a [safety] profile like Moderna has. This business model is a wet dream for all the too big to fails. Sadly, they are pretty much there already. Five trillion created for them to buy up what they deem to be winners, and to loan and charge interest to create more debt and wage slaves. Destroy peoples health and they have no chance to pursue freedom or independence.

Just another thought. They are already crying crocodile tears and worry about the upcoming flu season and what are we to do when the 2nd surge of Covid-19 hits along with flu. This situation is showing yearly flu shots are a farce as most people have the flu and or colds but they have enough immune system as to not even know it. "Poorly matched" shots or even perfectly matched shots must most likely have a negative effect on one's immune system. Vaccines at best would seem to be a possible choice for a limited segment of the population. This would be to small an income stream for starving Hungry Ghost for whose appetite more is never enough.

Very much on point, Darzoum. And let's do another thought experiment. What if an all-powerful ruling elite with a God complex were convinced the population needed to be reduced by any means necessary, and had a bioweapon genetically engineered and released to kill millions, and failing that, to get people to clamor for a vaccine that they could spike with anything to further the job? How would things play out?

Hi Mirandola, yes, I was shocked when I first hear the original interview where Dershowitz proclaimed for all of us that we have no rights to refuse... my shock was not so much his ignorance of the controversies surrounding vaccination; that would be bad enough. Rather, it was shock that a Constitutional lawyer would be so bereft of understanding in a clear matter of civil rights!

Hi Guillermou, your various citations highlight what I have maintained about vaccination since well before the COVID affair, and that is that essentially the entire question of the state mandating vaccination is first a civil rights issue. Any state that arrogates to itself that kind of power can just as easily mandate an Elon Musk brain chip; it's a slippery slope and we'd best not stick a foot out to test just how slippery! Also, re "Charles Eisenstein, in his book *Climate: A New Story* says:

"Fundamentalism reduces the complex to the simple and demands the sacrifice of the immediate, the human or the personal in the service of a general ulterior goal that triumphs over all"... I would say that that is also the precondition to any kind of con or scam.

Hi Almond, yep. I've wondered, however, whether money could motivate someone like Gates; then again, his "philanthropy" has been very good to his wallet. Hi juststeve, too big to fail and doubling down on their lies. Suppose they gave a vaccine and nobody came! We're only a more-informed populace away from that becoming a reality. Hi balhawk, another fine thought experiment. Sadly, it seems as though Bill Gates has already been doing some real-world experiments, in India and Africa.

Almond, re your point about the love of money - it cannot possibly be confined to "some people" as you suggest. The present situation is proof that it is in fact enshrined in the very fabric of our culture, political and economic system. We all worship money by virtue of the

amount of power and influence WE bestow on those who acquire it - in direct proportion to the amount acquired. Gates has no other claim to power: he has not been elected by the public to serve in the political arena; he has no personal charisma nor personality of distinction; he has not brought any new insights into the realm of human health and wellness, in fact he is not even medically trained and has no authority to dictate health policy for any nation let alone world populations; he has used the fiscal system to add to his wealth as "benefactor" to influential organisations such as the WHO and the BBC, which should raise suspicions about his motives; and then there are the projects we don't know about. In short, if he did not have money and if we did not worship it too, this insignificant wee man would remain just that and the world would have been spared much distress.

If they mandated vitamin D intake to travel and cross borders, then...? FYI I think ANY Mandate is unconstitutional, government over-reaching control. However, I am making a point here. I think we all can guarantee that they will Never mandate vitamin D as prevention because they scoff. They aren't interested. They just want to Sell Vaccines, aha! Dershowitz is ignorant and alas, in a fairly typical way society wide. To think (who wants to think?) that infectious microbes settle selectively on unvaccinated people, flying over the head of those who are vaccinated, is ridiculous on its face. Further, if vaccinated people are so assured of their immunity, whence the fear of the unvaccinated in their company?

But there is much more. Dershowitz assumes that vaccines are only for good intention and harm Nobody. WRONG !!! What about people with chemical sensitivity, autoimmunity, cancer, other vulnerabilities? What about those with methylation compromise, blood brain barrier compromise? (Dr. Datis Kharrazian points out that the GABA molecule is too large to fit through the blood brain barrier and if the supplement has an effect, then you have a leaky brain, diagnostic! So it is far more common than assumed). Oh and speaking of the BBB, what of the nanoparticles in the upcoming Moderna vaccine? These cross the BBB and considering that the blood bathes all tissues, when the particles cross the BBB I think Any Intelligent Person can figure out that they would embed in the brain. Not too smart! (Personality changes? Severe illness? Seizures?)

so much for the "Greater good". Oh and lest I forget, holistic medicine would NEVER say that there are just some "acceptable casualties" "For the greater good" and that "those are so few and far between". Really??? This is violence, even if it is "only" to ONE person! Shame shame on the unconscionable force-vaccinators, who are committing nothing more or less than violence when against a person's will. If they die, it's murder.

If only the common populace knew that natural medicine is scientifically studied, that there are remedies that support the immune system and other body systems/functions. If they had this empowerment, there would not be the Vaccine Mania that we now have. It is all rooted in fear, and fueled by ignorance and brainwashing. Regarding selling vaccines, during the swine flu era they were invoking "Pandemic" with posters in the bus stops, saying "Rush and get your vaccines!"....when there were 393 deaths to date, listed on the CDC's website! Shameless!

Now they did the same thing again with the coronavirus, this time pumping up the numbers in various ways by the most illegitimate and sometimes even criminal means. Just not okay, a crime against society. (Why aren't people suspicious about the rapid rise in numbers? I always suspected something was wrong with this, all along). By hiding vaccine side effects in studies, false and illegal claims! Then they say don't support your immune system, no proof that it works. NO PROOF??? I saw 13,000+ studies on PubMed for Vit D+ immunity, and about 11,000 for Vit C + immunity, alone. (Ten days later the numbers went down by half! WHAT's going on?)

I just read a NY Times article stating that air purifiers would not necessarily help with the coronavirus. They said that it is because human contact and droplets spread it. Fair enough. However, the droplets are tiny and are airborne. So a good quality purifier should help. It seems the theme is: Don't help yourself! Stay sick, hopeless, with no help in sight! This is what they WANT folks. Can it be any more obvious? So we can only go back to being a functioning society post vaccine. But not post-vit D? So this is NOT about selling vaccines? Come on. To those who are still asleep, I say WAKE UP!! HAVE A THINK!! Moderna vaccine nanoparticles in our brain, Freedom, economy, suicides, The Great Depression Exacerbated, are all at stake. \*\*\*\*Does Everybody Feel Really Safe Now???

I was working in women's health when I was diagnosed with cancer. (It was a wonderful job in a rural area. I loved it. Because they were so short of talent, I was kept on a long leash and actually allowed to help patients and offer natural alternatives. My reviews were outstanding because patients knew I truly cared. Eventually, I had to resign because the toll healing took on my body required all my strength and focus.) They pressured me to get vaccinated. However, I was very fortunate to have a wise and wonderful doctor. She advised me against vaccination of any kind, esp. while I had cancer. She was sort of a maverick, but just her name would intimidate some people. All I had to say is that my doctor advised against vaccination during cancer treatment. When asked why, I pled ignorance and replied, "Because my doctor says so." It worked. Nowadays, it prob would not work . I know a practitioner who lost hospital privileges when she refused to be vaccinated.

It's fabulous, Almond, to hear of your recovery from cancer and it only makes sense that your doctor said don't do a vaccine with cancer. What is wrong with the "doctors" who think a vaccine when a person has cancer is a good idea? Some people are paid to think and have a responsibility to, but they don't. I consider that malpractice. You had a smart doctor! It seems like a no brainer. Toxins injected into the blood + cancer, wowee, good move! Tip the immune system off balance, that really helps cancer healing eh? Stupid doctors. It makes me Really Mad!! People are so brainwashed and really believe what they are told about vaccines. they need to do further research. I was shocked when I read Russell Blaylock MD's report that polysorbate 80, an ingredient in antifreeze, is only one of the stacked poisonous adjuvants in some of the vaccines, not to mention formaldehyde, detergents, thimerisol (mercury) more....[articles.mercola.com/sites/articles/archive/2009/09/19/the-truth-about..](http://articles.mercola.com/sites/articles/archive/2009/09/19/the-truth-about..) They inject that into our blood which bathes all tissues, and into infants whose detox system is less developed than an adult's, and call that not only healing, but the world's saving grace??? Then they deny the autism rates and sweep deaths under the rug, conducting "studies" that are too short to reveal any so-called side effects, better known as health damage. Some people belong in jail.

The NURENBURG CODE forbids any forced medical treatment. Even done in name of this fallacious reason of the greater good. In Nazi Germany , they sent people to concentration camps for the greater good of the Aryan race. They murdered handicapped and mentally ill people in hospitals to purify the race and create their super human race. That's where the greater good leads too ultimately. In the concentration camps they subjected by force humans to horrible medical experiments without their consent. In USSR if you did not agree to communism they would drug you to death with psychiatric drugs in asylums. Beware of the argument of the greater good. When doctors or politicians speak of the greater good, be assured you are about to lose your freedoms.

Refusal of a medical treatment is fundamental right. It's a question of freedom of choice. You cannot use any argument to require any forced act. Infectious diseases can be cured not just vaccines in many cases. Rushed vaccination of an experimental treatment by the way, certainly violates the Nuremburg Code. The essential part here is that no politician of any country can force you to take a treatment that you refuse. Thank God that Americans have their 2nd Amendment. Guns sadly are the last resort here. That being said the CDC and US big pharma are controlled by organized crime. So is the FDA. These people do not care if 50% of your kids or you end up autistic, cancerous or handicapped for life because of a vaccine.

I've heard from a doctor who is very much aware of the truth about vaccines that the US never signed on to the Nuremberg Code. So the US remained fascist after WWII. When something is obviously good, only a minuscule percentage of people won't eagerly seek it out, and not only would compulsion be unnecessary, but they would have to keep people away. That sort of reverse psychology was used by Frederick the Great, putting up (unenforced) signs to keep people from raiding potato fields after people were not eagerly accepting potatoes as food. While potatoes have their problems, eating potatoes beats starvation for most people, so that worked out. But the converse is not true. People can eagerly embrace what is not good for them, or even for the common good, overall. Until recently such an overwhelming majority believed vaccination was so obviously beneficial and safe that they willingly embraced vaccination. But lately too many people have been finding out the truth the hard way.

I like your philosophical outlook on the subject, Balhawk. And who is to decide what "the greater good" is? Hitler, Mao, Stalin, Gates? In the case of a flu or previous corona type viruses, vaccination appears to have been a dismal failure and the greater good could equally well be defined as naturally evolving herd immunity. What would help even more is if we all were determined to keep our general health and immune defences in good shape - but there is no money in that for vaccine shareholders. We certainly cannot allow a latter day demagogue with blood on his hands to dictate the fate of millions. A man made gain-of-function enhanced virus developed in a laboratory and released into vulnerable populations does not detract from the fact that bona fide vaccination has helped reduce or eradicate human diseases such as TB, smallpox and whooping cough but allowing business tycoons, corrupt government officials and vaccine shareholders to dictate national health policy, can only ensure that the anti-vaccine lobby continues to grow.

"we are going to make you make this sacrifice for the greater good". Interesting because the United States is a republic not a democracy. One of the main differences is that in a democracy the majority rules. In a republic you have individual rights and the majority does not get to negate those rights to benefit them. I wish Dershowitz would explain in this context.

Suspect changes go deeper than this...the Plandemic2 documentary starts off with an assumption that during our busy lives, few if any have the time to study and research the history behind some of the products being pushed today. We rely on others, just like Alan Dershowitz relies on his doctor to have a good answer. Its no accident most doctors are not being taught about vaccine ingredients, nor are they taught to detect anything more than basic vaccine reactions. A few have escaped the trap, walked away from the schedule as fast as possible, often with the stigma of being ostracized. The majority are giving vaccines to the trusting, any reactions are mostly not acknowledged or even identified. If 1:40 is a more accurate number of reactions, increased vaccinations in the children's schedule should be eroding trust in current healthcare at an ever increasing rate (referring to unintended consequences plus pushing any older technology too far past its effective date) Parent's voices have been suppressed until now. Add in latest developments using transhuman modifications, turning humans into gmo's, maybe, just maybe, the entire system will break apart?

## Dr. Steven

I suspect that most of us in this forum as well-informed advocates for natural health make the informed decision to forgo the annual flu vaccine and maintain our immune health naturally. In doing so, we exercise our Constitutional civil liberties. The basis for suppressing our civil liberties by dictatorial governors and mayors through "lockdowns" was justified on the basis of the "common good" during a public health crisis. My fear is that the current "mask shaming" (ridicule by the media of those who refuse to wear masks or doubt their efficacy) will soon be ramped up into a "vaccine shaming" campaign that will argue getting vaccinated promotes the "common good" and not doing so is "selfish." Of course, nothing could be further from the truth. We will need to be forceful and vigilant.

Dershowitz uses flawed logic but his simplistic view may well prevail with a "sheep-like" public, frightened by hyperbolic media reporting and trusting in Fauci. I'm a professor and my wife works in church ministry and we both worry about vaccine mandates the consequences we will face for refusing. This "Pandemic" is being used as a mechanism for social control, political power, and corporate profit on many levels. Evil forces use fear as a means for social control. The suppression of alternative views on the virus, alternative treatments, and attempts to suppress sites like Mercol.com are evidence of the truth being spoken here, which threatens their (fill in the blank) falsehoods.

Dr Steven thank you as always for "Getting it" and writing so beautifully and clearly about civil liberties. Much gratitude!!! Without our freedom, we will not so much as be talking about natural health. My concern is that not only is the brainwash affecting health dictatorship, but further this becomes dictatorship at large. Give the government one inch and they will take 22 miles. It affects freedom at large, not only in the health area....or will, eventually. As for them saying that it is "selfish" to refuse a vaccine, turn the tables. How accurately people describe their own shadow is incredible!

In this case, that description "Selfish" (They are the ones who are profiteering against the will of many people) is sparing and kind. In truth they are criminals and bullies. To FORCE someone is a violent act right there, but to inflict medical harm to those who happen to be medically vulnerable, to squirt nanoparticles into the blood which circulate everywhere and cross the blood brain barrier, is violence. And shutting people up by imposing gag orders (no lawsuits, legal immunity granted) is a gag order and leaves the victims unable to say a word about the harm to them. Well, I think it is time for a new kind of action. I think that those who legislated and approved the gag orders for such a violent and forcible act, should be jailed. And those who do the violent act, jailed as violent felons. Consider, according to Dr Russell Blaylock, they are squirting vaccines into our blood, with some of the vaccines containing polysorbate 80 an antifreeze ingredient, formaldehyde, strong detergents, more....why is this not called out as violence? 1. If vaccine research had been done correctly, why would any company need to resort to adjuvants? 2. If pharmaceutical companies realize that both genotype and phenotype apply to a vaccine recipient's reaction, why is the industry so reluctant to test individuals beforehand? 3. At best, the current practice is no better than experiments ordered by Nazi IG Farben industrialist, Fritz ter Meer during WWII. 4. They need adjuvants to have efficacy, but that makes them inherently unsafe. There is no "free lunch".

By getting too greedy, pharma has opened up a Pandora's box of awareness of this unavoidable fact, and is finding more people to value optimal health than the counted on. As for population reduction, Gates should put his money - in the form of a shotgun barrel - where his mouth is, and come first.

Now, THAT would be for the common good.

Read your Bible and let God's Spirit of Truth guide you. Do not put your faith in your preacher or Religion! The Whore of Babylon will be judged, and everyone who is a part of her too. And I heard another voice from heaven, saying, Come out of her, my people, that ye be not partakers of her sins, and that ye receive not of her plagues. For her sins have reached unto heaven, and God hath remembered her iniquities. Revelation 18:4,5 If you don't know what This scripture is referring to, see Rev 17. Would like to know more about the BigTree - RFKJr suit brought against the FDA, to have actual placebo trials run, not using another vaccine as a stand-in for a placebo. My guess is that by publicizing these issues, effectively applying outside pressure on the FDA, it spills over to vaccine developers, to make a safer product. Stumbled across this article outlining recent trial results: apparently Pfizer threw out an earlier version due to higher side effects, and they are testing people in their 60's as well as younger. Even looking at antibody levels in older people, to see if these are developing:

[www.statnews.com/2020/08/20/pfizer-biontech-favored-covid19-vaccine-ha..](http://www.statnews.com/2020/08/20/pfizer-biontech-favored-covid19-vaccine-ha..)

Not that I am interested in taking this, but if publicity keeps rolling in about the negative "Gates Effect" and the lack (dearth?) of adequate vaccine testing, public opinion may determine how these large entities respond when their development work is constantly kept in the spotlight, rather than business as usual behind closed doors.

Thanks ROSE. Hopefully the COVID-19 vaccines. never mandatory The hope for long-lasting natural herd immunity appears to be rising. New research indicates that cells of the human immune system are storing information about the coronavirus so they can fight it again. Scientists who have been monitoring immune responses to the virus are now starting to see encouraging signs of strong, lasting immunity, even in people who developed only mild symptoms of Covid-19, a flurry of new studies suggests. Disease-fighting antibodies, as well as immune cells called B cells and T cells that are capable of recognizing the virus, appear to persist months after infections have resolved – an encouraging echo of the body's enduring response to other viruses. "Things are really working as they're supposed to," said Deepta Bhattacharya, an immunologist at the University of Arizona and an author on one of the new studies, which has not yet been peer-reviewed.

The adverse reaction to vaccines including debilitating, permanent injury and deaths go grossly unreported. I have a debilitating shoulder injury related to the H1N1. I was required to receive the vac or be fired by the hospital in which I worked. I reported the AE to my supervisor and employee health and neither took it seriously or documented it. I also reported it to my PCP who suggested I received the vac in my leg next time and it was never documented in my medical record. The following year I was forced to receive another H1N1 vaccine as required for employment even though the pain and limited ROM continued from the first vaccination. Once again my debilitating reaction to the first vac was disregarded and the second vaccine did further damage and was never recorded. I never formally reported it to the FDA because when I first attempted to I confronted with such ridiculous warnings and penalties that could result and I knew neither my employer or my PCP would support me. In addition to PCPs being encouraged to push vaccines, they do not want to get involved with any AEs as a result. Severe and permanent debilitating reactions are rarely reported due to the lack of support and the way the Vaccine Court has been set up with high profile lawyers and a challenging system that discourages those who have even attempted to document the AE.

I just stumbled across something VERY INTERESTING. A 2013 official German Government document. An 80 page press release that reads like a Blueprint for the current pandemic we are going through. This document has a table of probable statistics on the damage and overall ramifications caused by such an outbreak. This thing lists how it will all play out, and how to react when it happens. I'm not going to list details, but I will provide a link to the .pdf file. Don't be surprised if it doesn't work after I post this! This thing talks about a possible SARS-Corona Virus as the likely cause of the pandemic, incubation time, how it manifests and attacks the body.

Where it will first appear, and WHEN it will first appear. It lists detailed statistics, and even mentions a few things I found very interesting, one of which, the duration: it says 3 YEARS! It listed the exact time and place that the virus would start, and all of the steps that would be taken proceeding forward, including loss of Freedoms and Privacy. Including inside people homesteads. Considering this press release was in 2013, along with the detailed information it holds, it proves to me that this entire thing is indeed a PLANNEDEMIC. I will post the link below, if this interests you in anyway, please download and make copies of the information quickly before it's censored. Then I saw page 5 where they start talking, in 2012 or 2013 (apparently penned in '12 and printed in '13) about a novel SARS coronavirus to infect all of Germany within a 300 day period and how fast this virus would spread. So they were talking a bout it way back then! Woa. It does not specify the SARS Covid-19 illness though nor does it name this particular virus specifically, just as a \*novel\* SARS coronavirus. The determination of the 1905 Supreme Court ruling was Jacobson paid the \$5.00 fine. What the bastards could do in this case would be to charge anyone who didn't take the vaccine \$5,000.00 or \$10,000.00 claiming the inflation factor. So many would not be able to pay the fine and would be forced at that point to have to get the vaccine. What we need is a Black Market of sorts to aid those of us who will NEVER take the vaccine. Dershowitz is touting false information by claiming the measles vaccine ended/dropped the incidences of vaccines. Absolutely false! He's also bringing up antisemitism, Sirhan Sirhan's assassination of Robert Kennedy. This has nothing to do with the topic at hand. What a douche. He talks about polio without mentioning the FACT how Dr Frederick Klenner used intravenous Vitamin C infusions and CURED polio by this means.

Least we not forget how intravenous vitamin C has been used in China and S. Korea to treat and CURE this COVID-19. Masks DO NOT WORK to protect us! What they both miss is that, if there is an actual "virus", there already a cure - the 3 pack combination of hydroxychloroquine, zithromax and zinc. To date NO ONE has followed Koch's postulates to "prove" the supposed Sars-Cov-2 virus causes the "disease "COVID-19". Four criteria that were established by Robert Koch to identify the causative agent of a particular disease, these include: 1) the microorganism or other pathogen must be present in all cases of the disease 2) the pathogen can be isolated from the diseased host and grown in pure culture 3) the pathogen from the pure culture must cause the disease when inoculated into a healthy, susceptible laboratory animal 4) the pathogen must be re-isolated from the new host and shown to be the same as the originally inoculated pathogen So until someone can prove this, any vaccine is BS.

What about our right to OPTIMUM health? Every vaccine I'm aware of contains POISONS that are intentionally persistent in one's body (so the vaccine's effects will be as long-term as possible), and cause immune dysregulation. SO they MUST be causing some harm; at very least mild poisoning and subclinical auto-immune conditions. Even if it is effective against the disease, I regard it as our RIGHT to OPTIMIZE our health and trust our own immune systems, which have proven superior to ANY infectious diseases when healthy. Furthermore, if the track records of other vaccines are any indicator, a COVID vaccine won't even reduce one's odds of death or disability. So for those who aren't already naturally immune, such a mandate would at best be forced poisoning and impairment of people to reduce the likelihood of the inconvenience of being ill. And guess who profits from said auto-immune conditions the vaccine will cause or worsen? Greatest SCAM and cover-up in recorded history.

## PoodleOwner

For a fast tracked, novel RNA vaccine, here is how we will be able to tell if the scientists and doctors actually think it is safe: If the "experts" recommend mass vaccination at the get go then we should be very suspicious. The best way to test the vaccine is to inoculate the masses. If there are red flags with regard to the safety of the first formulations then I predict that we will be told it is perfectly safe and it will be recommended that large groups (maybe by age range) get it immediately. HOWEVER, if there is good safety data up front that looks really good then the vaccine will not be recommended for the masses. Instead, on the important people will be eligible: Beyonce, The Clintons and their friends, Nancy Pelosi and her relatives and friends. There won't be enough for the unimportant people unless they need to use the unimportant people as lab rats. Certainly if the narrative is that the new vaccine is perfectly safe and everybody is required to be vaccinated, mark my words, the important people will not get the vaccine. They will instead advocate for mass, mandated vaccination for the masses including children for the purpose of protecting themselves. We won't, of course be able to find out that the important people declined the vaccine. Just saying.....

"Safe" is of course a relative term/idea. All medical procedures can be categorized as statistically safe or unsafe based on the Risk to Benefit ratio. I am not saying anything is perfectly safe. Before trying to insult my intellect, learn how to properly use the word "then" with respect to the word "than". If I am a poodle brain then you, relatively speaking are a lizard brain. "Important" people are the ones that have the control, the Bill Gates, politicians and celebrities. They hold more cards than most people whether you want to believe it or not. You misunderstood me and assumed that I believe that their lives are more important than the lives of anyone else. I don't believe that. But take a look at my correct use of the word "than"

NO vaccine is perfectly safe. At very least they unnaturally stimulate the immune system, which cannot be healthy. Our immune system has evolved over millions of years. While vaccination was in principle a laudable idea, it has been proven there is no "free lunch" with immunity, and the problems such as the epidemic of auto-immune conditions, mental impairments, and even SIDS that have ensued in their wake have PROVEN that vaccines are inherently UNSAFE. If someone want to be poisoned and impaired to some degree or other to reduce their odds of being ill for a few days to a couple weeks, fine by me. But as far as I'm concerned it is MY right to maintain OPTIMAL health and trust my immune system, which has a much better track record than any vaccines have.

It is a fact that the new farther left Democrat Party is Mandatory Vaccine (Please look at Gov. Gavin Newsom (D) California policy for mandatory vaccination for Public School and his and former Gov. Brown's strong pushing toward eliminating home schooling, private school and charter school. We have a strong teacher's union in CA that wants all government funding to go to the public school and the Dems want to control the narrative for our children absolutely. I'm leading up to the point I want to make and that is that people who do not want more government control and certainly do not want forced vaccination should vote for politicians who advocate less government control and less Federal government control-- The fundamental platform of the Republican Party.

The states with the most regulations including vaccination are dark blue and going very far left. Trump has always said that there is evidence that vaccines might cause autism in certain cases and that the parents should be believed and taken seriously by the American Medical Association. He has a child on the spectrum and so is passionate towards parents. Unlike Obama, he is following the Federalist outline for our country set up by the Constitution in which local governments are considered best suited to understand and serve the needs of their local citizens and so government should work bottom up instead of top down. Look at all his policies from advocating for school choice for parents, local communities having a say in zoning laws (instead of abolishing that completely with the Obama mandate for high density housing in all communities), governors deciding closures for covid19 instead of the Feds, etc. We have a better chance having vaccine choice if Trump wins the election than Biden. Please think about that very carefully before voting if you don't want mandatory covid vaccination for yourself or your children.

Dershowitz in the interview seems to be playing "Devil's Advocate" in order to be a foil to Kennedy - as Dickens put it "the law is an ass" - lawyers will always present counter arguments as is clear in the debate featured video - as "Sophists", this has become their "art" - one of persuading the opposition that rationality is on their side - but Dershowitz did draw a line in the sand with his demand that he shared with Kennedy that a forced observation could only be justified if standards of SAFETY and EFFECTIVENESS have been proven - this becomes a huge ROADBLOCK for the legal enforcement - as it has been accepted by the 1980 Supreme Court Judgement that vaccination is inherently "UNSAFE" - so with this understanding according to Dershowitz finding the vaccination to be SAFE and EFFECTIVE is IMPOSSIBLE

A very close friend of mine's son-in-law was involved in a major clinical study at a prestigious university. The conclusions were: 1) this virus does NOT occur in nature and was created in a lab; 2) there will never be an effective vaccine because the virus is like hepatitis B & C and HIV - we cannot make effective antibodies to it. To date, there has NEVER been an effective vaccine developed for the common cold; HIV, Hep B or Hep C. Amazingly, Kennedy & Dershowitz talk about the polio vaccine. Do they not know about the Simian 40 monkey virus and the cancers/deaths caused by it? Let's talk facts fellows- FACTS.....

I did watch the entire video with Kennedy and Deshovitz and I was disappointed by the utter dismal arguments presented. On one hand Kennedy makes some good point on factual topics while Deshovitz presents the court decision as gospel. The first thing to ask is why mandatory vaccination this is even a point of contention when a 3 years old would see through it. To believe that the organized criminal cartel we politely call government has your interest at hart is; given the history of endless wars is epitomy of delusion. However, the best way to expose a fraud is to initially go along with the "do goody" claim. If (IF) the vaccine works it follows that those WHO TAKE IT ARE PROTECTED. Logic dictates that I the black sheep refusnik like myself can no longer hurt you. Why so much effort is in allegedly put into protecting me? Well, for those of you good at reading between the lines (I'm good at it because I grew up in a communist country where propaganda was king). The answer is invariably in following the money trail. Two statements come to mind from no other than the ultimate economic expert, Allen Greenspan.

1)The "federal reserve" which by the way is neither, can print as much money as is needed. Vocabulary is important. They print CURRENCY (promissory notes) NOT MONEY on future taxes. 2)The organized criminal cartel largest UNFUNDED liabilities are Social Security and Medicare. Translation: They made promises they cannot keep and now are issuing more promissory notes to cover it. The dollar as a reserve currency enabled the criminals to tax the whole world. There are some side issues like Bill Gates and Fauci both in my opinion are dead men walking. The virus and the 24/7 media bullhorn worked initially, convincing the sheep to muzzle up, stay on 6 feet leash and accept house arrest reserved for convicted criminals, in the name of the "law" in blatant disregard for the LAW (CONSTITUTION). The law, ANY LAW has two important components in order to be effective.

I think that poll must be wrong! I think the number that isn't going to get the vaccine (not really a vaccine, because vaccines are permanent. This virus vaccine is going to given year after year after year because viruses such as this mutate.) --The number refusing to be vaccinated is actually much higher. I would sooner go to prison. They give people no credit for having enough sense to stay home if they are contagious or fearful of catching something. Your chances are better of not getting the virus without the vaccine, because the vaccine PUTS the virus in your body! They say it's a dead virus, but that has not been my experience and many others. Platforms who have had medical Dr.s using it with their patients successfully have been taken down. You might want to find a local Dr. Who will give it to you if you get dx with the 'dreaded' virus. I found one - a functional medicine Dr.- in my local area who is willing to use it. I plan to refuse it, but I also plan to remain at home in my country residence for the duration with no outside contact. My husband got Guillain-Barre from a flu vaccine and was temporarily partially paralyzed for over a year, and still has nerve damage and numbness in his feet. He is no longer allowed to have a flu vaccine. He will self-isolate as well. One year, the vaccine was only 1.9% effective and people were injected with possibly dangerous substances for no reason. Viruses constantly mutate as will this one and any vaccine's effectiveness is questionable. Multiple doses will be needed and how convenient and profitable is that for Big Pharma.

Yes, Dr. Mercola is right. However, I have shared this type of info, and people seem to think that if it is countered by some high profile doctor, Fauci, or Mark Siegel, then it is beyond their reasoning ability. I have recently discovered the 60 Minutes program on the 1976 Swine Flu Fraud, done by Mike Wallace--a highly respected program, though a bit dated. He interviewed a lady, paralyzed for life by the vaccine, (previously healthy) who would have died except they inserted a tube into an incision in her throat. Also stated was that 300 people claimed they had a family member die from the vaccine. And a CNN article said that, in the same pandemic, more people died by the vaccine than the flu. Death by vaccine. I still think most do not think it is possible. I try to share this, 1976--death by vaccine event, when I can. Maybe I can get people to doubt the status quo.

A Future Vaccine to Prevent Knowledge of Soul and Spirit From The Fall of the Spirits of Darkness (Bristol: Rudolf Steiner Press, 1993; GA 177), p. 85. October 7, 1917 85 – “The time will come – and it may not be far off – when quite different tendencies will come up at a congress like the one held in 1912 and people will say: It is pathological for people to even think in terms of spirit and soul. ‘Sound’ people will speak of nothing but the body. It will be considered a sign of illness for anyone to arrive at the idea of any such thing as a spirit or a soul. People who think like that will be considered to be sick and – you can be quite sure of it – a medicine will be found for this. . . . The soul will be made non-existent with the aid of a drug.

Taking a ‘sound point of view,’ people will invent a vaccine to influence the organism as early as possible, preferably as soon as it is born, so that this human body never even gets the idea that there is a soul and spirit. “. . . the heirs of modern materialism will look for the vaccine to make the body ‘healthy,’ that is, make its constitution such that this body no longer talks of such rubbish as soul and spirit, but takes a ‘sound’ view of the forces which live in engines and in chemistry and let planets and suns arise from nebulae in the cosmos. Materialistic physicians will be asked to drive the souls out of humanity.” “Funvax” from the Pentagon. If you don't want Federal mandated Covid vaccination for yourself and your children then you need to vote for Trump. He governs with the federalist approach in which local governments decide what is best for local citizens. This is in line with our Constitution. He has a child on the spectrum and he has publicly said that vaccines might cause autism. He, of course, got canned for saying that and various media outlets said that it has been proven that vaccines don't cause autism. It is so disappointing to me that so many people think it has been proven that Vaccines in general in all kids do not cause autism.

The with and without thimerisol study revered as the gold standard of proof tests one parameter. It is known that kids can get autism from severe inflammation from an infection as a small child because systemic inflammation can cause brain inflammation. What better way to induce a huge, systemic inflammation than to give a booster shot with lots of antigen and adjuvant? It's the booster that causes the huge inflammatory response because there are already B and T cells primed to react in a very big way. The poor body gets a the vaccine right into the muscle tissue bypassing all the layers of protection and thinks it is in sepsis and goes for the Hail Mary play.

Many parents said their child had a spiking fever and was screaming in a high pitched cry so was in horrific pain. The doctor tole the parents to give some tylenol. As far as I have read, there have been no specific studies on this specific group of children-- Hospitalize them and determine their blood levels of various inflammation markers and cat scan etc. The inflammation itself and not necessarily one of the toxins in the adjuvant that might be causing major problems with some children but it is purposely not studied. As I said in a previous comment, it would be medically unethical to vaccinate children with a novel, RNA covid vaccine because they don't get covid (regardless if they spread it)

continued These three diversions from natural nutrition make proper and complete digestion and absorption impossible, causing putrefaction in the gut, dysbiosis and subsequent intoxication, and nutrient deficiencies, thus impairing the subtle natural mechanisms of growth, regeneration, repair, elimination of waste and fighting off infections that provide the natural perfect health - the normal state of every living creature. Constantly, throughout life people carry a putrid decaying and fermenting mass in their gut - no one worries about it, it began imperceptibly thousands of years ago. Along with useful nutrients, harmful compounds from this mass enter the bloodstream, poison the whole body, causing inflammation (the reaction to foreign substances), overload the elimination/detox systems, weaken the immune system, eventually damage various organs and wear out the body. Damage to the gut wall from gluten in grains, lectins and today's chemicals and pesticides, especially Roundup is an additional contribution.

Many speak of "boosting" the immune system which implies it's naturally weak, when all it needs is to be rid of unnecessary heavy constant everyday burden and let it use its full natural power. It really takes very little to quickly regain a sufficiently good level of health and stop the tide of disease and infections. Health depends on one's choices, certainly not on chemical drugs/vaccinations. A striking example - Dr. Benjamin Sandler's historically proven, easy and effective "polio immunization diet" which consisted of simply eliminating sugar and starches - during the 1948 epidemic it transformed North Carolina's rate of disease from one of the highest in the country to one of the lowest, proving his statement that after a person stops eating refined carbohydrates, "Within just twenty-four hours, the body can build up sufficient resistance to the polio virus to prevent disease."

It is important to realize the primary reasons that made humans the only sick species on Earth. Diseases did not appear with the industrial era. Three major detrimental nutritional habits were adopted thousands of years ago. Today's toxicities and extensive processing come on top of those and have an ever greater impact. It seems they are better known, but the primary mistakes are especially important:

1. Cooking - this is the first harmful form of processing, proven by many in the past, like dr. Pottenger who in the 30s did a ten-year study with 900 cats divided in groups - some fed raw food, others on cooked food - all those on the cooked food diet developed the entire gamut of diseases that plague humanity. Dr. P. Kouchakoff found that with every cooked meal the number of white blood cells increases - as it happens with infection and poisoning (nutritional leukocytosis). Cooking destroys enzymes, vitamins, alters the structure of food making it foreign to digestion, creates harmful compounds (AGEs, acrylamides....), etc. Processed/dry/cooked food also lacks the naturally occurring and absorbable water in raw foods - extremely important for protein function, immune function, toxins disposal, etc. So drinking enough water is another essential.

2. Mixing incompatible foods in one meal. A century ago dr. I. Pavlov did experiments with dogs - starch by itself stayed in the stomach for 60-90 min; meat chips - about 3 hours, starch and meat chips together - 9 hours. As digestion slows down, putrefaction builds up, giving off toxic products. Unlike carbs digestion of animal proteins requires very low pH; mixing them makes proper/complete digestion and assimilation of nutrients simply impossible. 3. Foods unsuitable for human digestion - meat, grains, dairy - especially cooked. Dr. W. Davis has written extensively on the profound health impacts of modern grains, especially wheat. "Wheat Belly" and other books. (glutens, amylopectin, acrylamides...)

There is a size limit on numbers of letters The letter of the law and the enforcement, depending on your social inclination it goes like “thy shall not kill” followed by else thy shall rot in hell or jail”, the second (enforcement) component is the only reason why the Founding Fathers included the SECOND AMENDMENT. The solutions to the VIRU\$\$\$\$ crises are to: 1) Convince the law enforcement to make good on their oath of office to protect and defend the CONSTITUTION against ALL enemies, foreign and DOMESTIC. Sadly, the enemy is already inside the gates. A good reminder to the enforcement agency is a lesson for history when at the end of WW2 Nazi war criminals used the “I just followed orders” excuse. It did not work for them and would not work for you either. 2) Turn OFF the TV. This is why you are under house arrest so you are stuck in front of the TV and force fed propaganda. Germany was a Republic too BEFORE the rise of Nazi Germany and Hitler. History repeats itself, and calling the United States a Republic is a joke. That's what it's SUPPOSED to be, but look around and you'll realize that the corporations and the Government are always working together AGAINST THE WILL OF THE PEOPLE!!! That isn't a Republic, that's straight up Fascism, the Preferred Government of the Jesuits! What else would expect from a country who has allowed those bastards to have free reign over everything.

I am a vaccine. My immune system is whole and will recognize an invader. It will destroy the invader. The immune compromised which are excluded from the vaccine testing are the ones that will be destroyed by the vaccine. Pfizer's vaccine will convert muscle cells to miniature vaccine factories. That is not God's design that is man's greed!

And he causeth all, both small and great, rich and poor, free and bond, to receive a mark in their right hand, or in their foreheads: and that no man might buy or sell, save he that had the mark, or the name of the beast, or the number of his name. Here is wisdom. Let him that hath understanding count the number of the beast: for it is the number of a man; and his number is Six hundred threescore and six. And the third angel followed them, saying with a loud voice, If any man worship the beast and his image, and receive his mark in his forehead, or in his hand, the same shall drink of the wine of the wrath of God, which is poured out without mixture into the cup of his indignation; and he shall be tormented with fire and brimstone in the presence of the holy angels, and in the presence of the Lamb: and the smoke of their torment ascendeth up for ever and ever: and they have no rest day nor night, who worship the beast and his image, and whosoever receiveth the mark of his name.

Wait a minute. If someone GETS the vaccine they are supposedly immune, right? So, I, who chooses NOT to get vaccinated can't give them COVID19 anyway, right? Those who don't want to get COVID19 should exercise their right to be vaccinated and protect themselves from the "me"s of the world! Take a look at these links and then tell me you want a vaccination.

[www.cdc.gov/vaccines/pubs/pinkbook/downloads/appendices/b/excipient-ta..](http://www.cdc.gov/vaccines/pubs/pinkbook/downloads/appendices/b/excipient-ta..) You will see reference to MRC-5. [en.wikipedia.org/.../MRC-5](http://en.wikipedia.org/.../MRC-5) MERS coronavirus particles found in the lumen of the endoplasmic reticulum in an infected MRC-5 cell MRC-5 (Medical Research Council cell strain 5) is a diploid human cell culture line composed of fibroblasts, originally developed from research deriving lung tissue of a 14-week-old aborted Caucasian male fetus.[1][2] The cell line was isolated by J.P. Jacobs and colleagues in September 1966 from the seventh population doubling of the original strain, and MRC-5 cells themselves are known to reach senescence in around 45 population doublings. This is just one of the many components that are contained in vaccinations that you don't want in your body. Straight from Hell.

Have been thinking about the mention of those 65+ in age are to be given flu shots this year containing 4 strains as opposed to 3 here in the USA. I believe it was Dr. Judy who stated in a prior video/article about a vast majority of the elderly in Italy who were given a 4 strain injection including the highly virulent H1N1 strain. We know just how BAD that country did in the early days of this plandemic, and how so many were far far worse off there in terms of serious wuhan virus (a corona virus) end stage effects/death. Could this be the plan this coming flu season in the states? I think it was Dr.Judy as well who cited several studies showing how those having taken certain flu shots became far more susceptible to having the wuhan virus (corona virus) infect them later. This would of course add far more case #'s to the tally of wuhan virus positives which is what the mongers want I'm thinking and hence the need for the end game covid/wuhan (corona) vaccine doses. This forum has some incredible minds so please do share some thoughts on this concern I have been having.

What happened to asking a higher power to heal us. I do this daily as I have had more medical problems than most. It works for me. When I am healthy in my mind, my body reflects that. I have released my fears and other negative thinking which also brought me sanity from mental illness. When I am honest with myself and depend on the Father of Light for my health who is my Creator, why not be healthy.

If I am born in the image of love in perfection, there is no illness. Pray and raising my energy into that loving energy of beneficence that sustains us, makes the most sense. Life is an inside job. Drugs, vaccinations and other remedies, screw up the monkey works according to Dr. Tilden in his book, "Toxemia the basic cause of disease". I have healed 9 addictions, mental illness, domestic violence, PTSD, depression and more by using loving energy to replace the lower fearful lack of light and love that is my inheritance. I am healthier today at 81 years of age than I ever have been.

I have to take responsibility to clean out the negative in my inner life to manifest the goodness that is the true me. I explain this in my book, "Paradigm Buster, Reveal the Real You" at Amazon. All my work to help others raise their energy into wellness has helped my clients as I am a spiritual counselor, ordained minister, and internationally board certified regressionist, IBRT, to clean out the past harms for living in the moment which is reality. Moving out of the listening to others and listening to your own heart makes the difference. I choose to not listen to fear mongering but my inner wisdom and guidance. Knowing the truth has set me free. Love never fails.

I don't believe anyone will come to your home and force a needle into your arm. What I do believe is that you will be socially isolated. They may not allow you to work, go to school, get a passport, go into many facilities, go to many events, etc, unless you can show that you have had the vaccination. There was a video of an Asian guy somewhere in Asia where that was already happening. They were also tracking everyone with Covid and letting people know on their cell phones how close they were to the infected people. Every place he went, he had to show proof on his cell phone that he was tested negative for the virus, and if he came into close contact with anyone with the virus, he was suspect. It was a horrible video to watch, and now I can't find it. They were tracking everyone and not allowing them entry if they were suspected as a carrier.

I've always felt that people get the flu, shingles, pneumonia, etc shots so that they don't get the infection themselves. If the person already has the shot, they are supposedly protected from getting the infection, so an unvaccinated person with the infection cannot supposedly pass it on to the vaccinated person. So only the people who choose not to be vaccinated would be susceptible to the infection. The same should apply to the Covid infection. If they get the shot, they shouldn't get the disease and will be protected. The ones who don't get the shot should only be the ones to get the infection. That is the risk I choose to take.

I used to get a "free" flu vaccine at work (I was in good health). Once after getting it I became severely ill. I know other people who also had deleterious side effects from it. Most of these cases aren't "officially reported". One can therefore equate vaccine "damage" and vaccine "injury".

If they wanted to slow down the amount of people going into hospitals with a lock down and masks..think what will happen after 1000's of uninformed people get the vaccine. Some of you say you will refuse the vaccine, as I will if there's a choice, but after all that I have been reading, such as the Lockstep document, they will mandate a vaccine! Then what? Watch: Plandemic; Indoctrination documentary - [www.plandemicseries.com](http://www.plandemicseries.com).

You will see clips of B & M Gates smiling gleefully as they are talking about the world being vaccinated. They stand to make billions more along with Fauci who is financially in bed with the pharm companies who are in a race to get out the first ( no safety studies)vaccine. Dr. Mercola is doing his best to wake people up. So is Del Bigtree ( Highwire.com). Unless we have a majority of people who rebel as in revolution...we are being shepherded right now into the depopulation plan that has been in place for many years. It's unfolding just as they wanted it to. They even planned the "second wave". I know it sounds crazy, but watch Plandemic before thinking it's not possible.

The way out? People must be willing to demand their rights in large groups at state capitols, or move to a remote area under the radar as we feel we are forced to do. The Red folks believe that our Pres. Wont let vaccines be mandated...yet he is allowing all state governors to decide what to do re. Covid, and he gave billions to Pfizer to get a vaccine out at warp speed...just saying. I live in a Blue state and Here they passed a law last fall that mandates ALL vaccines for school aged children. Massachusetts just passed a mandate that all school age children must have the flu shot! Dr. Nuewenshwaunder just found a study that flu vaccinated people are more likely to have a harder time recovering from Covid. ( Highwire.com/8-20-20). What can we do? Let all your representatives in your state know you want to have a choice regarding a vaccine. Perhaps petitions would help!

Every Corona virus vaccine attempt has failed since 1970. There are many technical issues unique to this virus that prevents it from being incorporated into a vaccine. Based on the side effects that I'm hearing from individuals in some of the Pharma companies that are working on it covid-vaccine--- they are expecting a tremendous increase in Guillain-Barre syndrome individuals. I truly believe this is a modified virus by human hands. Keep your vigilance up and watch to see if any of these volunteers start dying. Of course the message to the public will be that they died of complications related to pre-existing conditions. Stay healthy

If, according to Gates, only 30-60% need to be vaccinated to achieve herd immunity, I would tend to believe that after the last 5 months of dealing with this virus, we have already achieved natural herd immunity. Therefore, no vaccine is necessary...it's a moot point. They are falsely using climbing positive test numbers as actual "case" numbers to keep fear in the population, and we have seen that the tests are a sham. The curve was lowered months ago yet the mask mandates and quarantine are still in effect and have been tightened in many places. And of course the virus will never go away until a vaccine is produced, probably 2021!! So will the mask/ quarantine mandates stay in place until then? They are "normalizing" masks by having them be a fashion statement. How can you resist one made of fashion fabric and rhinestones?? To those of you that still buy into the "for the greater good" scenario, all I can say is please, wake up!!

## Cabochon

Good summing up, Paisley2 of the present situation. The fact is the "the greater good" is debatable and is a nebulous term reminiscent of totalitarian propaganda or fascist justification of systematic genocide. And who is to decide what "the greater good" is? In the case of a flu or corona type virus, vaccination appears to have been a dismal failure and the greater good could equally well be herd immunity which develops naturally after about 20 per cent of the population becomes infected. The flu vaccine seems to have caused greater susceptibility to Covid-19 infection in Italy and there is no real benefit to my neighbour whether or not I have had the flu vaccine. What would help is if we both kept our general health and immune defences in good shape - but there is no money in that for vaccine shareholders.

We certainly cannot allow a latter day demagogue with blood on his hands to dictate the fate of millions - did we not deal with these kind of people in 1945? On the other hand, Edward Jenner did not make his observations from a man made gain-of-function enhanced virus developed in a laboratory funded by governments but on natural phenomena - that milkmaids did not get smallpox because they had acquired immunity via the less dangerous cowpox. Vaccination has helped reduce or eradicate human diseases such as TB, smallpox and whooping cough but allowing business tycoons, corrupt government officials and vaccine shareholders to dictate national health policy, can only ensure that the anti-vaccine lobby continues to grow.

mRNA vaccines are designed to make your body produce its own viral protein continuously and forever, which your immune system would then mount a response to continuously and forever. Wow this is astonishing because a viral protein that is permanently INSTALLED inside of your body will wreck your immune system and because the viral protein (Nagalase) will bind to your Vitamin D3 receptors forever and eventually render you defenseless against virtually any disease. Vitamin D3 and the viral protein Nagalase competes for the same spot in your genome, and if Nagalase gets there first, say good by to your immunity. This will make you a zombie (a Walking Dead)! Not to mention the fact that it will make your body turn on itself with an auto immune disease forever. No wonder they want protection against any prosecution for this dangerous injection they are creating. This is a diabolical scheme that is straight from the demons from the pits of hell. This is an excellent article from Mike Adams he hit upon just about everything we suspect concerning this Covid 19 in this article: [www.naturalnews.com/2020-08-03-coronavirus-vaccine-final-solution-depo..](http://www.naturalnews.com/2020-08-03-coronavirus-vaccine-final-solution-depo..)

Isn't it about time for real studies looking at the efficacy of vaccines? Is it really good science if 1 in 40 people are harmed by a vaccine? I think not. But I don't just mean that the vaccine might not of been produced well, but the actual science behind vaccination. Is it sound? If any drug on the market had the type of reactions that some vaccines have, it would be pulled. Remember the weight loss drug that killed a few people? Vaccines have killed thousands and permanently injured tens or hundreds of thousands. Do we really know the numbers considering coverups are ongoing by the drug companies? We do know there is strong, supportive evidence that many people are seriously injured by vaccines, usually the youngest among us who have no voice but their parents. Many of those babies and children will never be able to speak.

How many doctors are shrugging off the bad effect attributing them to some other quirk of nature or happenstance? But who is actually looking for the truth? What scientist or doctors are studying the cases of the supposed vaccine injured children and babies and young people? Where are their voices? Are their lives threatened? I think we know the answer, because so much money is made by vaccines and the love of money is the root of all evil. The bottom line behind people who will get this vaccination: fear, not actual science supported by corroborating evidence. I have seen one video interview on Dr. Mercola's site with a researcher looking into the effect of vaccines on the brain and it gave me pause to question the validity of the science of vaccination.

One of the great mysteries of life to me is how "intelligent" people can't comprehend obvious things. Dershowitz thinks drug companies "obviously have a keen interest in not hurting people". Which shows a total lack of understanding of how things work in the real world. If he is speaking of a family-owned business, he is correct. Somehow, he has no clue how corporations operate. Decisions are made by employees, board members, and share holders. They all have short-term interests. They aren't concerned about the value of the company 10 or 20 years down the road. If they can hurt their customers and make more money in the short term, they will do that, take the money and run, and leave the cleanup to their successors. This dynamic is one of the fatal flaws of how our economic system works now with its transition into publicly owned, soulless corporations and away from smaller businesses with accountable, enduring ownership.

Amen. It's probably apt that it was a cartoon character, Pogo, who said "we have met the enemy and he is us". Human beings seem unable to grasp that except for a few like you, Kim (and Pogo's creator). The examples are endless and obvious to anyone with a modicum of sense. For example, regardless of politics, we should all be asking: How do we, in a nation of 330 million, end up with a choice between Trump and Hillary for our elected leader? How do we, in a nation of 330 million, end up with a choice between Trump and Biden? Yet nobody is asking this. I guess it's just accepted we should be led by buffoons, psychopathic liars, or demented incompetents. I don't feel sorry for the public. We are getting exactly what we deserve. Remarkably we were gifted with the best societies to live in ever, or close to it, in the western democracies. I just hope it holds together for the 15 years or so I have left. Why should I care about those coming along - they obviously don't deserve freedom and dignity since they value neither one.

Well said, MSeebeck! God given rights are for individuals, not groups. One of the most basic of those rights is to defend one's own life from harm. What always amazes me is the inconsistent logic of those who want forced vaccination. They say none of us will be safe unless all of us are vaccinated. Huh? I thought the vaccination was to make the individual who was vaccinated safe from that disease. Why would someone fear for their own life if their neighbor was not vaccinated? Either the vaccination works for you or it doesn't. I think the reality is that most vaccinations do not work for people.

Their own immune system keeps them from illness. Attributing protection to a vaccine is ignoring all the other factors that keep a person healthy and giving way too much credit to a vaccination. Then there are those that get the disease for which they were vaccinated. Who talks about that? What about all the kids who get measles when they had received all their vaccinations? The very science behind vaccinations and the efficacy of vaccinations are in question in my mind. I think fear and ignorance is running amuck.

Because children and teens are, statistically speaking, not harmed by Covid19 (The jury is still out on whether or not they actually acquire infection and their immune system very promptly takes care of it or if they never really get an infection in the first place-- Regardless of whether or not there is a bit of replication in their nasal passages and the sensitive PCR test shows a positive) IT WILL BE MEDICALLY UNETHICAL TO VACCINATE CHILDREN. With respect to medical ethics, the Risk to Benefit ratio has to be considered. With a novel RNA vaccine, we don't know how the immune system handles that and how immunity will work short term or long term. Therefore, I believe that it will be medical malpractice to require children to be vaccinated with a rushed and under-researched vaccine. Certainly, the argument for mandatory vaccination of children for the purpose of protecting the 80 to 90 year old crowd is horrific. Well, that will be the official narrative but the truth will be that the global elite who will control the vaccine want to protect themselves and so will have a very strong agenda to vaccinate the masses. Their policies are to protect their health and monetary interests by managing the masses (push for mass abortion, mass inoculation, high density housing, water and energy restrictions for the masses but anything goes for the global elite).

The "one in 40" statistic mentioned in this article is correct, but misstated. Adverse reactions that one in 40 can experience include pain at the injection site, redness at the injection site, and slight fever. Very few people suffer any reactions more serious than that. Since the early 1970s, we have had several serious flu viruses make their rounds. I got no flu shots because I'm allergic to the most commonly used forms of the vaccines. When my doctor insisted I get one, I asked about getting one of two other formulations to which I am not allergic. Neither were available to me. Unless they take my allergies into account with the COVID-19 vaccine, a mandatory vaccination would probably mean my death. I doubt very much even our present domineering government would force me to undergo a lethal procedure.

## balhawk

Those 1 in 40 (actually 1 in 39.4) adverse events were gleaned from medical history, Therefore, they HAD to be significant enough for the person to seek medical treatment. All that will matter is if they believe your allergies are lethal. And if population reduction is part of the agenda, the government certainly would force people to undergo a lethal procedure. Did anybody who boarded the trains to the death camps in WWII know what awaited them? If they did, they'd certainly have bum-rushed the guards and taken their weapons before they could have mowed down any more than a small percentage of the mob. The greatest cover is incomprehensibility. People will not resist what they dismiss. History has its lessons for us. We MUST refuse (or decline, as the case may be) while it is still much easier than bum-rushing guards with repeating weapons.

Fauci does not own the patents for Covid vaccines or drugs. Please stop passing on this type of information. I believe you are endangering his life. Fact check it. Here is but ONE fact-checking source: [www.usatoday.com/story/news/factcheck/2020/05/14/fact-check-anthony-fa..](http://www.usatoday.com/story/news/factcheck/2020/05/14/fact-check-anthony-fa..)

Dr Mercola:

Please help me make some sense of this.

It is interesting that though UV kills viruses, the possibility that the larger hole in the ozone layer lasting more than one week would affect the spread of Covid-19 virus, has not been discussed or considered.

The ozone layer protects Earth from UV rays. A hole in the layer removes the protection over the area that corresponds to the conic shape extending from the hole, thereby increasing the amount and intensity of UV rays over even a broader dispersed range than the opening itself.

The emitted rays should disperse through the hole like a flashlight beam, from higher to lower spaces of concentration.

If Ultra Violet Light kills viruses such as Covid 19, and the virus allegedly originated in the northern hemisphere in Wuhan, China, then it seems that the increase UV rays would have neutralized most viruses to some degree, over a large corresponding portion of the dispersion area of northern hemisphere of Earth, where the "hole" in the ozone layer opened wider.

See the links below.

"Ozone is good at trapping a type of radiation called ultraviolet radiation, or UV light, which can penetrate organisms' protective layers, like skin, damaging DNA molecules in plants and animals. There are two major types of UV light: UVB and UVA."

"The hole fell to less than 3.9 million square miles through September and October, despite hitting a peak of 6.3 million square miles earlier in the year."

Ozone hole three times the size of Greenland opens over the North Pole

Ozone hole three times the size of Greenland opens over the North Pole

Ozone holes open over the South Pole every year. Holes at the North Pole are much, much rarer.

North Pole's largest-ever ozone hole finally closes

North Pole's largest-ever ozone hole finally closes

An unusually strong polar vortex kept the hole open for nearly a month – now, it's finally shut again.

When someone is vaccinated by choice, they cannot get the virus. (I presume). So people who don't get vaccinated can only infect others who have chosen not to be vaccinated.

The risk (by choice) to not get vaccinated is only for the unvaccinated.

So what's the problem?

Vaccinated people are not at risk by unvaccinated people. And unvaccinated people prefer that risk to the risk of the vaccination.

Surely this is a huge infringement of peoples rights?

Get your guns ready. If you want the right to refuse and they try to force something on you, shoot them. Thats your right and thats exactly what they will deserve.

Rudolf Steiner, 1917: "The whole trend goes in a direction where a way will finally be found to vaccinate bodies so that these bodies will not allow the inclination towards spiritual ideas to develop and all their lives people will believe only in the physical world they perceive with the senses." "The soul will be made non-existent with the aid of a drug. Taking a 'sound point of view', people will invent a vaccine to influence the organism as early as possible, preferably as soon as it is born, so that this human body never even gets the idea that there is a soul and a spirit."

"I have told you that the spirits of darkness are going to inspire their human hosts, in whom they will be dwelling, to find a vaccine that will drive all inclination towards spirituality out of people's souls when they are still very young, and this will happen in a roundabout way through the living body. Today, bodies are vaccinated against one thing and another; in future, children will be vaccinated with a substance which it will certainly be possible to produce, and this will make them immune, so that they do not develop foolish inclinations connected with spiritual life – 'foolish' here, of course, in the eyes of materialists."

"...refuse a contagious disease that might spread to others." When was contagion theory proven?????  
When did it become a fact not just a cultural myth? A victim mindset?

Scary stuff. The bigger issue is what ELSE is in the vaccine, like nanobots that receive and transmit information. I think that's the real agenda here. One World Order is just around the corner. Soros, Gates et al are control freaks. I don't want anything in my body that Gates has a hand in creating, especially since he was applying for vaccine patents before the pandemic hit. Vote TRUMP 2020 to preserve our right to refuse this "vaccine" and keep Big Brother out of our lives and bodies, LITERALLY.

You are right to be concerned, Thetalady. The secrecy surrounding the proposed vaccine, the unscientific and unseemly haste with which it is being prepared, the fact that it is being promoted by commercial rather than medical interests should have rung alarm bells long ago. No doubt toxic aluminum and mercury will still come as free samples along with your injection and possibly some DNA messing, who knows - and for what nefarious purposes - such as identity tracing? If this whole scenario brings to mind old movies of the rancher on his horse rounding up his cattle before branding them, that would be the closest analogy I can think of - as cattle are biddable, driven by the herd instinct and easily manipulated by fear and the whip.

The Harvard Law School emeritus professor made the legal case during a web-based show, "Crowdsource the Truth" that was live on Facebook on Saturday. "Let me put it very clearly, you have no constitutional right to endanger the public and spread the disease, even if you disagree. You have no right not to be vaccinated, you have no right not to wear a mask, you have no right to open up your business," he said. The show's interviewer Jason Goodman asked his guest if the government rules "you have to be vaccinated, we have to be vaccinated." Dershowitz's answer, "Absolutely." "And if you refuse to be vaccinated, the state has the power to literally take you to a doctor's office and plunge a needle into your arm," he added. Dershowitz explained that a person can refuse medical treatment if the disease they are infected with isn't contagious. Using Dershowitz's logic, why would he have problems with \*\*\* forcing Jews into Gas Chambers? Hitler declared in Mein Kampf, the Nazi Bible, that: "The Jew is a planetary bacillus." "The Jew is a parasite."... THE SCENARIO: The Nazi guard is forcing Jews into the Gas Chamber, but they don't want to go in. The Nazi guard tells them that it is the law of Germany that you go into the Gas Chamber to prevent the spread of your planetary bacillus! And Jacob Dershowitz replied, "Well if you put it that way, we must obey the law and stop spreading JEWISH 19".

Hitler knew that Jews were less than 1 % of the German population - the Nazi s were cowards - that is why they felt safe in numbers and full of resentment against their defeat in WW1 - the Jews were the educated elite that they as uneducated morons thought were not needed for their military designs except as Slave Labor and wealth confiscation - these BRUTES thought themselves to be the archetypal UBERMENSCH and Hitler was the corporal that generalled Germany into disaster - the disease that Hitler feared most was an educated mind - hence the Goering quote "when I hear the word "culture" I reach for my gun"

I posted the wrong link in my previous comment. Here is one of many links debunking the "Fauci owns interest in a patent for a Covid vaccine" type conspiracy theory. It is amazing that there are so many adult people who trust him with their health. The guy looks so unhealthy himself. He also does strange gestures with his hands exhibiting more than average neurological damage of age. Why would a guy who looks like this wants to live longer? I have always wondered why there are so many old people, as it is normal at the end of life people to give and not take, who are greedy for money, but Gates puts it to a whole new level. Does not make any logical sense. Thank God, Health is not on his side and let's hope he passes soon.

Welp, they can sure try to give me a vaccine, I can't guarantee they'll be alive much after that. Fine me all ya want, your Anthrax vaccine didn't work either! Evil is as evil does! Your day is coming! I can't wait to see your soul getting ripped apart for eternity! Death is only the beginning. I'll be the one eating popcorn laughing at your demise big pharma! Show up at my house, it'll be your bad day. I'll show you what your wars and military have taught me. Mercy is for the innocent of which you ain't.
