THIS IS A WAR AGAINST HUMANITY: THE NAZI MEDICAL PLAN FOR CONTROL OF THE PLANET; WORLD WAR TWO NEVER ENDED. by Jon Rappoport. This is a war against humanity, a system that leads to the grave, that would trudge, during its life, down a bleak path of 40 or 50 diagnoses of diseases and toxic treatments, each treatment giving rise to new symptoms that would be labeled new. diseases that require treatment. It is a story about a virus, a story sold with enough fervor by controlled media and cooperating governments ... that had possibilities, because the solution would be a vaccine. pandemic stories could come up and be sold. And the doctors are the messiahs.

COVID is, of course, the strongest story to date. And vaccines, in the long run, will be the most debilitating and destructive of all. But it is doubtful that COVID is the latest pandemic story. what is beyond human understanding Gui is the blind faith of the public in their acceptance of

many historical examples of their lack of recall as if memory on a public level reflects vaccinological
sciences erroneous claim that immunity has no memory ~ the public has no memory too ~ the mental
focus is always dominated by the latest hoodwink strategy of the oligarchs ~ with all the organ

has been the reawakening of human consciousness ~

the oligarchs have no consciousness and are only driven by childlike impulses to get what they want ~

The explanation, Stan, for my money, was given in Dr M's article on mass psychosis which was compared to ritual witch burning in the Middle Ages but has more recent parallels with e.g. the yellow star effect against ethnic minorities in Na-zi Germany. How did they get away with it and how did the population consent to it? The same tactics as used by Hitler are being employed today - legal chicanery, mass fear mongering, media propaganda and lies. Today's tools are even more effective with TV and internet in almost every home. Subject: MASS PSYCHOSIS - How an Entire Population Becomes MENTALLY ILL <https://youtu.be/09maaUaRT4M>

I am meeting more and more people who are out vaccinated and will not be. Just last night at a wonderful event at my church in normal atmosphere of fun with no fear....I met a lady who's daughter is greatly harmed, injured, from the HPV Vaccine and she now will not put anything in her body or husband's body without thoroughly researching. Her trust of doctors is gone. Her daughter still suffers immensely from the adverse reactions from the HPV shot and she prays that it hasn't damaged her ability to have children. But there are many people out there that have not bought into the hype and fear mongering....they are out there and there are many more than what we think. And yes, I have no idea why so many have just fallen in line. Every parent who allows their child to be jabbed....oh my...I pray they find this page before they do. Then they'll probably believe the main lined media before any clear research.

Quote from a post from another site; "We are living in a dog's world: "we are wearing muzzles, we are required to present our vaccination records, we are allowed to go outside only when our owner agrees. and if we bark, they lock us up." Yet, here anyway, some are barking just the same. Just months ago in a conversation with a woman who was scared to death & all in for the Jab/s and very aggressive and angry when questioned about them. Now, months later it's a complete 180. She's informing me with our information and very P.O'd.

Now, after being Jab'd seeing and hearing the Bull Spit, others in almost a whisper afraid Big Brother is listening, & he is so they should be, that my God, this friend, or family had this disastrous outcome, we lost such & so. So disappointing it's taken the better part of two years to sink in. But, Jab resistance is at the officials levels or greater, because after all this who can begin to trust their data? It looks like a good chunk of those who got the first dose have stayed away from a second. This suggest a reason why they are now pushing for children to get Jab's. Either to hit Dr. Falsey's magic 60% Jab'd for a non-existing herd immunity of the Jab's, or to race the meter as their numbers of cases & deaths plummet daily. If this continues even with their skewed testing protocols the know they are in for way more public heat then they ever imagined.

Hi Gui! Great links! And we know 1.2 million here in the US will be diagnosed with cancer and 600K will pass from it, this seems to be the yearly trend. Will be interesting to see what comes to pass in the next 10 years. Toxic remedies don't help cancer numbers either, the great money maker :(if you listen to Bret Weinstein, he's found out a lot about this and has informed the people behind the FDA who refuse to listen. Almost two years of covid - inflated numbers - no formal covid kit if a person gets a positive PCR, just - good luck, see you in the hospital if you need us. So many who offer hope and understanding of this are censored, which I guess is better than being silenced. If only we can stop the tsunami of ridiculous going on around the world by standing firm against these mandates!

Yes, Stan, the oligarchy does not understand rights and freedoms. They are the elites who see democracy as an enemy, they believe that the people should be managed, not represented. Now it is entering the destruction of humanity, it is being commanded by the Davos meetings. Plato wrote that the oligarchy is a government of "greedy men" who love both money and power. The oligarchs believe that the wealth of a society should be redistributed among themselves and their allies, while the rest of society is reduced to poverty. It seems that Plato's ideas have now been established in the Great Reset.

This false pandemic, cronyism and corruption have been widespread, it has provided cover for the oligarchs of the world to multiply by their wealth, with the greatest transfer of public wealth to private hands. These world masters try to make people feel good and responsible when they do their bidding, and in recent decades they have become increasingly obedient and submissive.

These powers, behind which the money of powerful families like the Rockefellers hides, intend to keep the population in a continuous state of anxiety so that the fight for their survival prevents them from thinking and giving an effective response. They know that the lower the intellectual level and personal security and control in its principles, the lower their ability to resist the lack of formation and fear of the imposed system and, to achieve this, they have their most lethal weapon: the media.

Covid-19 has fostered and promoted the path of domination over the obedient masses, who contemplate their destiny with resignation before the leaders of the planet in almost all spheres of life. This spirit has infiltrated the political, technological, medical or research realms, which simply acts as a thoughtless slave within an increasingly robotic technocracy, a chain of errors that only benefits top executives at the end of that production of suffering and death.

Yes, nothingsound, we need more and more people to reject misinformation and fear of the coronavirus, taking care of their health and seeing the reality of the dangers of "vaccines". American adults who have not yet received the Wuhan coronavirus vaccine say they probably won't, or definitely won't. About 64 percent of unvaccinated Americans have little or no confidence that COVID injections are effective against the new variants. They say: 1. If vaccine launches were truly a benevolent program, then there would be no need to force the public to receive vaccines using propaganda. The truth is that the more resistance the government encounters, the more aggressive it becomes in presenting "facts and evidence" about COVID-19.

2. The government also said that vaccines offer more reliable protections compared to natural immunity, but medical studies from around the world showed that natural immunity offers up to 27 times more protection than vaccines. 3. The government also said that the vaccines are "safe and effective" despite having no long-term data to prove these claims. Several studies have also shown that the efficacy of the vaccine is questionable at best. Thanks mrrobb, for your interesting links. The reality is that between "vaccines", electromagnetic fields, environmental pollution, GMOs with their pesticides, the human race is degenerating. Published and peer-reviewed research shows a variety of effects, the most important of which is DNA damage which is linked to cancer, neurodegenerative diseases, reproductive impairment, etc. Studies that are much more effective in showing effects employ real-life mobile phone (MT) exposures emitted by commercially available mobile phones. The present review, of the results published from 2006 to 2016, compares DNA fragmentation induced by six different electromagnetic fields in the same biological system. www.sciencedirect.com/.../S1383574218300991

More than 54% of American children suffer from one or more chronic diseases. Autism, ADHD, asthma, and allergies have doubled since then, and autism is now one in 34 children in some regions. Pediatric autoimmune diseases are also on the rise. Increasing evidence indicates that environmental toxins, such as heavy metals, environmental pollution, electromagnetic fields, pesticides and herbicides, and vaccines and their toxic ingredients in vaccines are causing an epidemic of disease. childrenshealthdefense.org/too-many-sick-children

Can we quit blaming the German *** for everything? They were heavily staffed by the AshkeNAZIs (oy vay), as are the Globalist Christian haters, so maybe that is why, but Russia and China were not invaded and massacred (125 million, the real Holocausts) by Germans. So, since there is no such thing as COVID-19, I suggest doing nothing with the phony positive test results. I just took an antibody test for fun, and 2 out of 3 items came back red, and were labeled as suggesting presence of something or other, thus a positive test! After a good laugh, I did nothing. No way I would take the phony actual PCR "tests". The illness from "COVID" I suggest are the usual detox from the multitude of poisons the "....***" throw at us in our physical and mental environments and diet, and McCullough's protocol is just normal common sense, not some magic bullet. Or doing nothing and letting the detox take place, like any fever.

Thank you very much Just and Tracy, you have a very accurate approach to the reality of “vaccines”. Yes, the FDA, CDC, Biden and Fauci are supporting the corruption elites who only have their best interests in mind. The moral, ethical and spiritual values that sustain the existence of a healthy society are being undermined by intellectual laziness, material comforts, which violate individual rights. That is what has opened the door to the government of the dictatorship, to a market devoid of freedoms. We have great hope for those who defend natural immunity:

'AMPLE SCIENTIFIC DATA': REP. HARSHBARGER INTRODUCES 'NATURAL IMMUNITY IS REAL ACT. Representative Diana Harshbarger (R-Tennessee) and 10 other members of the House of Representatives recently introduced the "Natural Immunity Act is Real," a supplement to a Senate bill from Senators Mike Lee (R-Utah), Tommy Tuberville (R-Alabama), Mike Braun (R-Indiana) and Dan Sullivan (R-Alaska). It would require federal agencies to "recognize, accept and agree to truthfully present natural immunity related to COVID-19 in accordance with the promulgation of certain regulations."

Harshbarger told NTD's "Capitol Report" that there is much evidence that people who have recovered from the Wuhan coronavirus have protection against reinfection and multiple studies have indicated that the natural immunity among former COVID-19 patients is strong and superior. to the protection of COVID-19 vaccines. www.theepochtimes.com/ample-scientific-data-congresswoman-introduces-n.. Thanks, Glastian. The link is very interesting and expresses the great mistake of Allopathic Medicine in the genesis of diseases. There are many interesting references such as: "A virus comes to life, so to speak, when an active virus (one with an intact exterior protein coating) comes in contact with your bodies' cells. When they touch, that exterior coating forms a connection to our cells called an Isoprin bond. Through that connection the virus latches onto our DNA (yes, a virus IS that small) and it begins to spin off reproductions of itself in outrageous numbers (viral load). Remember the isoprin bond, it will become really important to us in a moment."

Also on proteolytic enzymes. Dr. Mercola has several reports on this. What we are interested in is maintaining a healthy microbiome. The microbiome is a massive ecosystem consisting of trillions of microorganisms. Incredibly, some 40,000 species of bacteria, 300,000 species of parasites, 65,000 species of protozoa and between 3.5 million and 5 million species of fungi. they inhabit the environment that surrounds us and they live in or on the human body. This complex world of microorganisms continually secretes a sea of viruses, which serve as a communication network for bacteria, parasites, protozoa, and fungi. And, as we will discover shortly, these viruses have always been here to help us, not to hinder us. In other words, they affirm life, they do not induce death.

First of all, we must enhance natural immunity, which is what will defeat Covid. 19. For this we must take care of "the terrain", that is, the internal environment of the body, to overcome any external germ. What Béchamp called "terrain" is very close to what modern medicine has now called the innate immune system. When an epidemic occurs. At some point in evolution, the population that is attacked by any pathogen adapts, taking care first of all for good adaptation to natural immunity.

Good advice, allunoisrong. Vaccines and all food and environmental toxins that weaken the immune system create hyperinflammation. We are seeing how these environmental toxins, those that enter the food, as well as the manipulations of biology, environmental pollution, pesticides such as glyphosate and electromagnetic, especially 5G, vaccines and prions, in humans and animals are an attack on health and biodiversity. These toxins accumulate in the body and damage DNA, creating immunosuppressed people where the Covid-19 virus or any virus can mutate, and we are seeing, from the reports of Dr. Mercola sharing analysis with scientists, that they are not subject to manipulations. of the corrupt elites, who are defending true science, as said toxins and especially vaccines favor this process. The controllers have always been super-savvy about mind control & behaviors. It ain't rocket science to trigger fears, confusion, division. There is a documentary, "Caesar's Messiah: The Roman Conspiracy to Invent Jesus". It's on Gaia, & YouTube, if you look for it to find full movie that works. In that, you can see connections to Now. (Apologies if you are of a fundamentalist brand of religion; not trying to start conflict, only, educate). It's well-substantiated by historical artifacts, documents, etc. It really causes one to see, the same controller's fingerprints were all over the Bible, & similar are all over stuff happening, now.

So, here's a scenario...the still living of the faxed, get implants...brain/AI interfaces. Or/and, injectable Nanobots or chemicals controlling them. Those will get shipped to outer space via certain privatized space shuttles 🤖, to a ship where they can have/create their own world. They will be The Borg, predicted by Gene Roddenberry several decades ago.

Dr. Peter McCullough is one of the many brave people fighting this war. I respect him immensely. My personal stand on this, however, based on my understanding of the data is that through medicine, any medicine, we give opportunity to the same people to poison us one way or another. I would not be surprised if they release ivermectin or monoclonal antibodies in the market that do exactly what the gene treatments do. They know that the people that are looking for these options are the people refusing the jab.

I stand by the Zelenko protocol and dr. Brownstein's nebulizer protocol and I am very grateful to Dr. Mercola for presenting us with these options early on. I also don't agree with taking the flu shot as I think that also causes a storm of problems- that exactly like the problems from the gene treatments offered today, can't be easily linked to the shots. Three of my friends, aged 30-40, that took the flu shot have significant problems: early menopause, rashes, connective tissue problems and hernias. It is interesting that although they said last year "there is no reason to believe that the flu shot will not protect against COVID", they never said how many COVID deaths had this shot.

My personal experience from the travel vaccinations I had seven and five years ago is also terrible. I had never made the link to the many problems my husband and I had until I recently started looking into vaccines. Our kids are not thriving. Our pets are not thriving. We need to follow Dr. Mercola's suggestions and be more connected to our food, from seed selection to growing it, to consuming it. Dr. Mercola, thank you for speaking out and letting people know the truth way before it was a "fashion" to grow your veggies in anticipation of supply chain collapse. It's all there. All we ever needed to know- in these thousands of deleted articles of the past 15 years that I have been getting this newsletter. Thank you. Yes, orithea. We are in a market of misinformation and interests of BigPharma and all its government and media allies. Why don't the CDC and Fauci tell us the truth? The lies and manipulations denounced by Dr. Mercola and other doctors and scientists like McCullough and Dr. Zelenko come to light. This should reach all the people who are being viciously deceived, especially the parents of innocent children who are receiving a "vaccine" that will make them slaves of the corrupt Allopathic Medicine. Dr. Vladimir Zev Zelenko called the childhood vaccine mandates "coercive human experimentation" and called for those responsible for such policies to be tried for "crimes against humanity."

"According to the CDC, healthy children 18 years and younger have a 99.998% recovery rate from COVID-19 WITHOUT any treatment," Zelenko said. "There is NO medical need for vaccines. Especially an unapproved, experimental mRNA injection that has been shown to have many dangerous side effects. "" Any government or individual who forces or orders children to receive this experimental injection is in direct violation of the Geneva convention's prohibition against coercive human experimentation. This is a short precis paragraph of Day 3 of Bill Gates court (JAG) hearing and it refers to the global flu shot! 'He presented to the tribunal documents obtained from computers the military had seized during clandestine raids on several of Gates' properties across the country. They offered a view into Gates's secretive dealings with several major pharmaceutical companies, including Pfizer, Merck, and Johnson & Johnson. One email dated August 4, 2001, Gates made a proposal to then-Pfizer CEO Henry McKinnell, and it outlined what any sane and reasonable person would consider a nefarious agenda—discretely tainting vaccinations with an undetectable poison that would slowly dissolve the recipient's cerebellum over many years while simultaneously erode vital organs.

Symptoms, the email said, would not surface for years, and when they did, clueless clinicians would proscribe the illness to other ailments or to a condition called inexplicable organ failure, a prognosis used when physicians cannot accurately identify the cause of a terminal disease. By the times symptoms presented, it would be too late. Gates wrote his "product" could defeat all treatments and remedies'. These transcripts and likely the video's of a great many court hearings of the famous ...and vile beings will be online very soon... prepare for utter shock! Research Adrenochrome ... the supposed drug of choice of politicians , hollywood and more?

I wholly agree with you, orithea. Pharmaceuticals are devised with side effects symptoms (rarely ever a "cure") and thus the need for more pharmaceuticals, making unknowing victims permanent profit making customers of Pharma. My own personal experience has been with the toxin gadolinium, a heavy metal used in MRI contrast. Once it goes in, you can never get it out. After four years of urine testing for heavy metals proving I am still retaining the gadolinium, the fable we are told when receiving an MRI that the contrast is "safe" and is excreted within 24-48 hours is a lie. There are no long term studies proving its safety, and very few studies admitting short term damage.

Like steve49car said, symptoms/diseases/illnesses which occur down the road from these pharmaceuticals are never tied or correlated to the drug. The only way I was able to correlate my newfound symptoms with the gadolinium was reading the actor Chuck Norris's (unsuccessful, of course) lawsuit against Pharma (Nov 1, 2017). Pharma gets away with their drug caused illnesses/diseases/murder, and the FDA and courts assist. I have limited myself to the least amount of pharmaceuticals possible and only take them in an emergency. I have also put gadolinium as an allergen in my medical records in case I am ever in a coma and cannot speak for myself.

Thank you Dr. Mercola for all that you do to inform, educate and support. Thank goodness also for ethical and moral humans such as Dr. McCullough for standing up, and not only speaking the truth but taking actions to help his patients, a true sign what a real doctor does. I had Covid, I am sure of it. Just last week. And I was ready and pre-prepared. I have taken my adequate doses of Vitamin D3, zinc, Vitamin C and another immune supporter for almost a year now. I simply had a runny nose, I lost my sense of smell and taste which I have never experienced before, and it was bizarre, and I was a bit tired. More than that, it was the mildest cold I have ever had.

I stayed home, drank tea, kept busy, was outside every day in the sun, and after eight days, my smell and taste have returned, much to my delight. Our bodies are truly remarkable, and I did not need a swab shoved up my nose to tell me I was ill, did not need someone to tell me how to behave and what to do and what not to do. No one except myself and a few family and friends knew. I believe Dr. McCullough, Dr. Mercola and countless other professionals that this is all a pandemic....frankly, almost no one is speaking about how unhealthy the general population is (worldwide) and how this is truly the reason for the poor outcomes.

That, and the intentional push to deny patients early and safe treatments and jab them instead with toxins that have proven deadly. Like many have been saying, truth is stranger than fiction, and we are living through the worst story ever....when will it finally stop? How many more people will needlessly die and suffer? Insanity! Thank you again to Dr. Mercola and to so many of his regular commenters who have kept me sane and have given me hope. :-) Our bodies though are the true wonder! We need to keep fighting for what is true and right. Rally again today in Zürich,...bring it on! Last one in Bern was over 10,000, some like my daughter that were there say 20.000 easy!

get Colloidal Silver on iHerb, bot drops and a spray. Quercetin Phytosome by Thorne Research. All others are out of stock. People don't buy Thorne's Q. because it is more expensive than the rest. But I think Quercetin Phytosome is superior to all others. You can read people's comments there. I guess you are not in US. That's fine, because iHerb ships by DHL Express and you'll get it in about 4-5 business days. I'm in Israel and on average I purchase 2-3 times a week, since 2012. I get mine in 4-5 days. Superfast! Also ARTEMESININ or Sweet Wormwood.

That was mentioned recently by Mercola last week in the article about it. Another one is LYSINE - stops replication of the virus. It's another Mercola's story also last week. Both are on iHerb as well. Last thing to add to your protocol is extra virgin cold pressed organic COCONUT Oil. My own protocol that I few times mentioned here during 2020 and 2021, when I feel something is not right, is this: Warm up to almost a boil Mineral Water. meantime prepare this MIX in a glass: 1 large Tbsp Coconut Oil, 1 tsp Turmeric powder, 1/4 tsp cinnamon. Pour hot water into glass with a mix, stir well. Turmeric doesn't dissolve anyway, but stir. Let it cool down 10 minutes and add 1 Tbsp of RAW HONEY. Stir. last thing, add 5-6 drops Oil of Oregano(on iHerb too). Now Drink it. Lechayim! It saved me I'm sure many times. Be well!

Thank you Eileenruth, you have defined the current terrible situation of this war against humanity. The culprits of this situation meet in Davos to continue with the strategies of misinformation and manipulation. All this is framed within a psychological strategy to convince people of the goodness of vaccines as a previous step to the mental domination of people on their way to the Great Reset. David Marks, an investigative reporter writing for CHD, was one of the first to notice the similarities between the way the federal government is aggressively pushing for vaccines and a psychological operation.

Marks noted that many of the messages about COVID-19 vaccines are painting vaccine skeptics as enemies of the vaccinated. This despite the fact that the position of those who hesitate to take the experimental, rushed and deadly vaccines are in the exercise of freedom of expression and choice. Marks wrote. "They have made decisions based on concerns about efficacy and risks, but are open to debate." www.wakingtimes.com/is-u-s-response-to-covid-pandemic-an-official-gove..

So-called federally sponsored public health experts had been conducting experiments on how to get people to take the Wuhan coronavirus vaccines six months before they were first available. www.wakingtimes.com/pro-vax-messaging-including-societal-guilt-was-bei.. But the reality is that thousands of health workers, relief officials and workers in general lose their jobs because they do not get vaccinated, causing a crisis that is bringing tragic consequences in the care of citizens and in the distribution chains. It is consolidating the terrain of a fascism that has the previous image of the medical and political tyranny of Fauci and Biden that are infecting the rest of the governments and medical institutions with the worst virus of unconsciousness.

I am beginning to believe that getting outside is the most important. I am beginning to believe that one reason so many are staying sick is that their houses are not aired out! My mother would bundle us in blankets in the dead of winter if we got sick with the flu or a bad cold and make us lay on a chaise outside periodically throughout the day. While we outside, the house was aired room-by-room she did this daily. And I took my clue from her as I did the same for my son. Too many people lock themselves in a closed room with no fresh air ventilation. Get outside everyday that you are able...move, walk, and air out your houses even if you are not sick at least once a week room-by-room no matter the weather. Honestly folks this is free they can't take it away from us!

eileenruth, Yes! I may have said before that earlier in the year the delta variant swept through our coastal town in the UK Westcontry. To say 'swept' is newscaster-dramatic. It was little more than a cold with some loss of taste and smell lasting a few days for those who took no medicines. Taking much the same measures as you mine lasted for a day, with some longer lasting regular minor post-viral effects. Startling media reports of the deadly unprepared-for deadly 'English Delta variant' (originated in India) were simply bizarre.

Quite a few people I know won't touch the vaccine. Masks are in the minority including those for local store checkout staff who were getting skin disorders when they wore them all day. No-one is falling over as per a 'pandemic'. Two people I used to chat to in the local park have disappeared since vaccination some months ago - I have no contact numbers. Your comment regarding related poor health is much to the point. I'm sure there will be a mass uprising here if unnecessary forced vaccination is attempted later.

And yes, much gratitude is in order to Doc Mercola and similar websites mainly on the same page regarding prophylactic treatments, and thanks to commenters here who regularly provide fantastic links to additional information. I think that current reports of increased UK infections and deaths are largely down to PCR-misdiagnosed infections, and ADE which will be covered up to the bitter end surely. Most disturbing of all is the reaction of long-time friends here, in LA, and in Canada who appear to be utterly brainwashed by the MSM and government messages.

Dr. McCullough's testimony before the Texas State Senate was back in March! How many lives could have been saved if the slandering and MISINFORMATION against him, didn't happen? How many lives could be saved if Dr. Mercola didn't have to erase everything his life's blood has gone into for so so many years?! I could see private entities making their claims for censoring, but Dr. Mercola isn't on a private site - he's not communicating from FB, Twit, or YT .. in the sense that they 'can' censor. I have to wrap my head around being censored on one's own site!!!! This is a HUGE RED FLAG (RED)

But with all that said, GA and SC have joined in the lawsuit against the mandate. Wahoo! Texas is still shining. Arizona seems to be rejecting. I wonder how long until our texts get censored? But last night mine was going OFF! Everyone is talking about the lawsuits! If 1500 workers leave the federal nuclear site - and the radiation nurses and health teams walk because they've seen enough injury to say NO to the job - I mean, one thousand five hundred workers are walking from a nuclear site - doesn't that strike fear in anyone? But no news - my town is unaware of the danger looming. I'm sorry - those who work out there KNOW this is dangerous. I hope America stands firm. As Tom Petty spoke it: WE WON'T BACK DOWN

Very well expressed Tracy, even health professionals reject Biden's mandates. The American Nurses Association surveyed nearly 5,000 nurses in the US to learn more about the questions and concerns they had about the vaccine. 25% of the nurses surveyed said they were not confident or sure that the available coronavirus vaccines were safe and effective. Of those who did not intend to get vaccinated, 84% said there was not enough information about the long-term effects of the vaccine.

childrenshealthdefense.org/defender/covid-nw-1-in-8-nurses-havent-gott.. (08/30/21)

It is not surprising that these nurses reject Biden's mandates because they are seeing the reality of these genetic weapons that will have a long road to death and disease. The CHD president has already reported "No state legislature approved bills with COVID-19 mandates. The only COVID-19 vaccine mandates enacted so far were created by private employers, state governors, and state or local officials," he notes. Holland said during the Oct. 16 event in New York: "We are going to a world where legislatures, not the wrong mayors or governors, make the decisions. People's representatives [should] make decisions about things that affect us all."

According to Holland, these "incredibly undemocratic" mandates come from executive branch officials. "They come from presidential edicts, governor's edicts and mayor's edicts. They also come from public health officials, the county executive, or the mayor. They don't come from the legislatures," she says. In fact, the NVIC article states that the majority of legislators in US state legislatures were against vaccine mandates. www.brighteon.com/e16cd958-5359-4eb9-86cc-9acb2c1732f3 ~ childrenshealthdefense.org/defender/state-legislatures-reject-proposed..

Major cities in the United States are in danger of losing a large portion of their police forces due to resistance to the Wuhan coronavirus vaccine (COVID-19) mandates. In Chicago, more than 4,500 employees of the city police department refused to reveal their vaccination status. This resulted in a confrontation between Chicago Mayor Lori Lightfoot and the city's Fraternal Order of Police.

Florida Governor Ron DeSantis wants to reward unvaccinated police officers who will relocate to the Sunshine State in defiance of vaccine mandates. DeSantis told Maria Bartiromo of "Sunday Morning Features" on Fox News that he is working on legislation to help police officers who have challenged vaccine mandates. DeSantis added that he is now "actively working" to recruit police officers from other states who have been fired or placed on unpaid leave for refusing to receive the Wuhan coronavirus vaccines. www.breitbart.com/politics/2021/10/25/ron-desantis-seeks-5k-bonuses-fo.. Gui - thank you! This line: Holland said during the Oct. 16 event in New York: "We are going to a world where legislatures, not the wrong mayors or governors, make the decisions. People's representatives [should] make decisions about things that affect us all..." First, I didn't know NYC, after all they endured, had so many people protesting! I thought with all the deaths they've seen, they would be for the vax! A good many from the conference I went to in Austin were from NYC and my one on one had to be zoomed because I wasn't vax'd - so wild!! I don't like the overreach of government to the states who want to stand for freedom. It's so sad to watch what's going on, they're breaking our country a part - a country fought for and founded on freedom. I will stand firm. This is still America.

Lovestosing6, AZ is rejecting it but sadly our state officials are just trying to stop it for the federal employees, what about the rest of us. I am proud of the state as we have followed in the footprints of FL it's just not in the news as much. My 12 had to be home the first month of school in 2020 but then they gave us a choice to send them back. The kids have been back ever since. This Aug they made masks optional. All last year my 12 yr old would wear it every place we went even though I tried to educate him. Over the summer I think I got through because he stopped wearing it. When the shots came out I educated him that his school should never ever give him a shot for any reason and to never accept one from anyone if I was not there.

At first he was flipped about the shots "I don't see what the big deal is" until I shared videos with him. Sad to have to share such videos with a 12 yr old but he needs to beware and awake. He apparently got the C because he lost his smell a few weeks ago. He simply had a flu, snuffy nose etc. Masks went away for awhile until the news started with the Delta variant then we saw an uptick in their use again. Some stores have the signs that you need to mask up but I ignore them. The only places I have been who say anything was my Dr office and my eye Dr office. Thank you all for your input on here I have truly learned so much since I found this site.

This criminal nihilism by Fauci, "There is no covid treatment, wait for vaxxx," was proof-again of a century long coverup of effective therapeutics and mostly fraudulent pharmaceutical medicine. Any DIY healing skill that was cheap and effective is forbidden by these drug-dealing killers. A case of Trick or Treat where the treat is poison with razor blades; Tricks only. Add NAC to Megadose Vit C, B1, RALA, K2, Mg, Zn, Se...Omega 3s/saturated fats..sunshine, sauna, etc...the items that prevent chronic disease also treat.

After Ivermectin/HCQ; NAC was the most demonized by the liars in charge. I've used NAC orally for over a decade, then while playing with a nebulizer and H2O2 I decided to nebulize NAC and WOW...A dry cough turned wet and productive almost instantly, ejecting pathogens and any other crap I'd breathed. Then I was gifted with this study; www.ncbi.nlm.nih.gov/.../PMC7649937 . (note how dosages/electron inputs increase with symptom severity as with Megadosing Vit. C)... I originally used NAC to boost glutathione (another major antioxidant) and reduce angiogenesis as part of HIF1 response to hypoxia...then I saw how through the cilia/neutrophil/macrophage immune chain (along w Vit C) that holy Oxygen penetration had been affected.....It's Always the Oxygen and the charge terrain that delivers it.

Basically those vulnerable to the virus have low-voltage/acidic systems. Whether from junk diets, toxins/metals or media fearmongering they are dead batteries! Any efforts at actual recharging is thwarted by expert bad-doctors bent on disposal of dead batteries! Who do you trust? Professional extortionists or solid science? You saw 9/11, 1/6, hypersurveillance and censorship of free speech as the public got roofied and raped. People are waking up, protests grow, truth matters!

Yes, Randall, instead of promoting preventive treatments with all the medicines that you indicate, Fauci in association with the CDC only seeks to increase the suffering of the sick with hospitals dictating the protocols for the treatment of COVID-19, and between these protocols These include the use of drugs remdesivir, dexamethasone, and vancomycin, drugs that together can cause serious adverse effects in the body. www.brighteon.com/1f44c6af-2c12-43f9-a4a1-2bc2eab410da

And now poisons for the mentally ill. Knowing already that Covid vaccines can worsen mental illnesses like schizophrenia, depression, and bipolar disorder, almost every major mental health advocacy organization is literally applauding the CDC's new target for Covid injections. Senior executives from more than a dozen leading national organizations are on board to go after the mentally ill and inject them with more neurotoxins (billions of virus-mimicking spike protein), which are known to cause / exacerbate psychosis, myocarditis , blood clots and other deadly "side effects" and adverse events. This is eugenics, to the senile elderly, to the mentally ill and to all autistic children.

Most serious mental illnesses, including bipolar disorder, depression, and schizophrenia, are directly associated with inflammation based on controlled trials and studies showing that dietary interventions improve symptoms, and intake of processed foods with deficiencies of nutrients contributes to elevated systemic inflammation. We know that inflammation brings mental illness to the extreme edge, so this is a crime against suffering people. www.naturalhealth365.com/covid-jab-long-term-conseques-3971.html ~ [www.chop.edu/centers-programs/vaccine-education-center/vaccine-safety/..](http://www.chop.edu/centers-programs/vaccine-education-center/vaccine-safety/) ~ mhanational.org/top-executives-sixteen-major-mental-health-organizatio..

Gui, My bout of corona 2/19 had no cough, had intestinal distress, but most spooky of all was vertigo....A mild annoying headache lingered for a year..and ended a few months ago after nebulizing NAC a few Xs/week....Breathing definitely improved and I'd recommend H2O2/I and NAC neb for all pulmonary conditions fr Cancers to COPD to bronchitis..FDA and Fauchi never would, but warn of DANGER! What kind of healing medicine causes any harm at all...answer one designed to depopulate ! These have been around over 22 years now and yet never trialled or tested safe ...how could you ever test such a device? In FACT this is part of the great reset of the deep state itself simply a global militia of the stinking rich banking families who have stolen 80% of the worlds wealth leaving just 20% to be fought over as they play their nasty games with us as the pawns...just ONE Rockefeller family member was found to have \$15 Trillion ...and the Rockefellers are not even the most powerful ... that lies with the Rothschilds !

Now in 1963 JFK knew what had to be done and devised a new global Financial system know as Quantum that would remove their stolen wealth and bring a more fair world ... its why he was shot ! Today Gold backed Quantum IS in place , is tightly controlled ... if you have a shared account you get told if any money is moved and if your money cannot be tracked then you lose it ! This then stops all the bribes , the laundering and the casino games of world finance! Covid then is the throwback ... they are attempting to retain their power whilst doing as much harm as possible ...the arrests in the millions are ongoing !

Yes, steve49car, it was Rockefeller with his money who fought Natural Medicine, seizing the opportunity to expand his oil business, infiltrating American medicine with highly addictive coal tar drug formulations. Rockefeller bought a German pharmaceutical company that made chemical weapons for Adolf Hitler, and quickly put it to use, infiltrating US drug supplies. With an assembly line of unhealthy immunosuppressive drugs that contribute to infectious disease complications, chronic diseases and cancers that are occurring at a rapid rate today.

The reality tells us that there are scientists and universities of the Rockefeller current that support the dominant paradigms of allopathic medicine that are built by elites based on a domain that only seek their benefit. It is the historical tradition of the billionaire families who run Davos and the new world order, through control of the world's financial systems, the absorption of all monopolies and companies. The tyranny imposed on the world creating this "pandemic" and developing the draconian measures, which have constituted the ideal scenario to give the final coup de grace to the world economy

The pharmaceutical industry now spends billions of dollars a year to influence law, policy, and public perception, perpetuating the John D. Rockefeller way. Covid-19 cannot be completely solved with this system, nor can any infectious disease be erased because the origins of this system are at the root of the problem. www.brighteon.com/b363d052-db0a-441c-85c0-419aff1512fa

Some are seeing the light of truth. American adults who have not yet received the Wuhan coronavirus vaccine say they probably won't, or definitely won't. About 64 percent of unvaccinated Americans have little or no confidence that COVID injections are effective against the new variants. They say: 1. If vaccine launches were truly a benevolent program then there would be no need to force the public to receive vaccines using propaganda. The truth is that the more resistance the government encounters, the more aggressive it becomes in presenting "facts and evidence" about COVID-19.

2. The government also said that vaccines offer more reliable protections compared to natural immunity, but medical studies from around the world showed that natural immunity offers up to 27 times more protection than vaccines. 3. The government also said that the vaccines are "safe and effective" despite having no long-term data to prove these claims. Several studies have also shown that the efficacy of the vaccine is questionable at best. More information in the link.

StanleyBecker: Everybody knows is a reference to the Leonard Cohen song and to the fact that we can easily hear or "know" the truth while denying it with our actions. Denial of what we know is a powerful force at the individual level to help us survive. It is also a powerful manipulative technique at the level of communities. COVID-19 Pandemic is a community disease, beyond the individual body/mind/spirit layers. Our medical systems have little ability to comprehend community diseases scientifically because medicines treat individuals. Marketers, on the other hand, are very good at creating and manipulating community diseases via the "everybody knows" paradoxes.

I think strongly that this doctor is one of the few who have a moral courage to express the truth, this IS a man that should get a bravery award for speaking up against evil. I have made my own saying / slogan: **FREE CONTRACEPTION NOT ANOTHER HOLOCAUST.** My understanding is very clear: we have too many people on this planet and these vaccines are to sterilise the young generations and kill off the old. Why? because the psychopathic rulers cannot control 9.2 Billion hungry people who behave like locust in the environment. Please **THINK** logically before you get upset at the message! **WHY** arent doctors everywhere speaking up about this fact. I think that my message should be viewed and understood to be a **Motto** for those who have the know how to lead the world. Everyone should demand **FREE** contraception and stop the child exploitation world wide.

Why "upset" ??? This is EXACTLY ThePlan that was designed by BG about 17 years ago - to reduce world population in a non-violent way. He probably then already had an idea how to do it - thru an artificially created pandemic involving bio-warfare labs in US and China, and could be in other parts of the world, like in a similar lab in Georgia(Caucasus) or elsewhere. As a starting point. And then by using a vaccine as a tool to slowly and gradually annihilate few millions. BUT on the other hand...looking at this plan now, it makes me extremely skeptical. How 5 or 10 million deaths can affect world population ??? NO effect at all. Even 20 million or 40 million death will have zero effect. Sterilize young generation and the following generations ? this one can have an effect on reducing world population, but not an immediate effect. It will take few generations to see the new world order.

..."Why? because the psychopathic rulers cannot control 9.2 Billion hungry people who behave like locust in the environment. Please THINK logically before you get upset at the message!"... Well said "Ulrika". And even if Gates' et al population control is "nonviolent" as "zino" implies, it is still devious and sinister. We (collectively) have to take responsibility for our own procreative actions, or Gates et al, will do it for us, and it will get ugly.

We, here on the Mercola articles and forum, complain about all the big monopolistic Grocery Manufacturer Association (GMA, now known as Consumer Brands Association, CBA), that thrives on supplying the country/world's ever expanding, never ending, population growth with manufactured dead food grown in toxic chemically fertilized farms. www.organiclifestylemagazine.com/grocery-manufacturers-association-lea.. , So stabilizing and sensibly reducing the global population in a sane and civilized way seems a logical choice. I admire Russia for their (inadvertently) peaceful population reduction, organic agricultural commitment, and their flat and fair, no deductions, income tax system. Similar with Japan, due in part to its robotic technology.

Dr. McCullough remains my preferred expert on the dangers of the "new tech" in vaccines. He is consistently well-informed and extremely articulate about mRNA issues, along with Robert Malone MD, an mRNA-tech co-inventor who has himself pivoted to promote EARLY intervention with combo treatments using approved, safe drugs we already have on hand, rather than promote covid vaccines...

Posted On 10/30/2021

Guillermou

Yes, a great Doctor. McCullough explains that from the beginning of the pandemic, he refused to let his patients "languish at home without treatment and then be hospitalized when it was too late," which was the typical treatment protocol that was discussed, promoted and offered throughout the West. McCullough "assembled a team of physicians" to study "the off-label use of conventional medicine" to treat the disease and published his findings by him in the American Journal of Medicine. "The interesting thing was, (that while) there were 50,000 papers in the peer-reviewed literature on COVID, not a single one told the doctor how to treat it," he said. "When does that happen? I was absolutely stunned! And when this paper was published... it became... the most cited paper in basically all of medicine at that time the world. "

With the help of his daughter, Dr. McCullough recorded a YouTube video incorporating four slides from the "peer-reviewed paper published in one of the best medical journals in the world" discussing early treatments for COVID-19. The video quickly "went absolutely viral. And within about a week YouTube said 'you violated the terms of the community' "and they pulled it down. With such aggressive suppression of information on early treatments and the default policy at COVID-19 testing centers not to offer such resources to those who test positive for the infection, McCullough said: "It's no wonder we've had 45,000 deaths in Texas. The average person in Texas thinks there is no treatment!"

I believe that the average person, who has not had one of these injections, would be hard-pressed to find anyone who has, who did any research about what was being injected into them beforehand. Many simply lined-up, after being told they were "safe & effective". For those who felt they had little choice, I never thought I would see the day when if you did not agree to be a research subject or a trial participant, that your ability to participate in society or to earn a living was threatened.

Posted On 10/30/2021

chk2000

I agree. The propaganda and brainwashing has been extremely effective. I am un-injected, work in healthcare for 40 years, currently part time yet despite being 100% remote, am facing termination as my employer has a federal contract. Makes perfect sense, right? Apparently transmission can occur through a landline phone or cell towers? I have tried to engage with people/family/friends in calm, measured conversation but most look at me with a blank face or they react defensively, putting hands up, some with anger and consternation, how dare I raise questions about the "vaccine" when there are so many deaths!

"I don't want you to die!" One in-law barked at me "You made your choice!!". A retired nurse put her hand up "I'm only interested in what Dr. FauxChee says", she has zero interest in doing independent investigation, declared "I'll leave the research to the experts". She'll happily get her booster when she is told it is time. She admitted "I don't feel comfortable around un-vaccinated people" but she can't really articulate why. Wow! Brainwashing complete. Rendered incapable of independent, free thought and reason. Ready to comply and obey without batting an eye.

One friend said last week this is the safest vaccine ever used, much safer than traditional vaccines, said it was used widely in humans in 2003. Huh? She has a history of health issues, doubly injected with Fie Zer in 2021 yet admits she has never been sicker. Tachycardia, new onset. POTS. Hospitalized with para-influenza pneumonia in July, later told it was Covid pneumonia, tested negative then. This is post-"vaccine" but when I asked if she thought there was any connection? "No". Um, OK. But when I mentioned VAERS reporting 17,000 deaths from the shots, she replied "it's probably more." Ah, a "spark"! Maybe she's not completely gone. So, I've given up. Let the chips fall where they may. I won't get injected and am ready to die on that hill. We are living through worldwide insanity

But, after all the detailed, interlocking & complicated plans, the scrimping & saving, they got blocked from the plane...because, the 1st test was done too many hours ahead of boarding, so, the airline had them run & get tested again, there... but, results (neg) returned TEN MINUTES after the gate closed...plane still parked & silent...they COULD have boarded, IF the airline would have expedited. But, no. Family in shock on floor of SeaTac. Lost all the THOU\$ANDs spent to get to travel. No refund..yet..it's been a couple months. Lost their work, clients, biz. Lost shelter. Lost lost lost. No let up.

They got faxes ONLY due to having to get on plane. Some got the single, one got the double. Scant discomfort after. BUT...they choose vegan, exercise, etc. healthy lives. They're awake. They asked about what they might do to minimize effects. I told them some things. They acted on it. All's well so far.

Others I think are just waking up, & now worrying. The ones who ask, I will offer a few suggestions (never tell all..you don't know if that might get too known by the wrong ones who might try to block access), & those will be related to their individual situation. But yeah...the last one they know who might talk 'em off the ledge! Haven't heard from my family (far-flung, distant), but, some will never admit it was a bad idea, because it means they failed to pay attention, despite their lofty educations, to the signs & symptoms nor to history pointing right at this. People hate admitting they made a bad choice/mistake. This one, can kill them.

This is a war against humanity. I am a veteran that proudly served this country for 8 years, and the oath I took when I volunteered will never wane. This is a war between good and evil, and some claim, with entities not from this world. It will come to a point where humanity will be forced to fight back physically, AKA: 1776 number two, except this time it will be worldwide! As with my love of God and Jesus Christ, I too so love this world and everyone in it, and I, along with millions of people will do what ever is necessary to preserve our world and way of life. Love you all, and judgement day is coming.

Thank you for your service. This IS a spiritual war and as difficult as this is for all of us who stand for truth it is incredible to be alive at the same time. When we were born, God knew each one of us would be here for this point in history and it is a badge of honor to be alive beacons of truth in a sea of evil & deception. Love you too... :-)

Quit acting like being "anti-vax" is a pejorative term. Anyone who has done the tiniest bit of research into vaccines realizes that all vaccines harm. I think A LOT less of Dr. McCulloch knowing he got a flu vaccine.

He has never been against vaccines IF, and only IF they are safe. He knows this is not safe. And acting on the stats indicating this. Of course this is much more than about this vaccine and many are seeing this is true. There is a sinister plot under this. Be well.

Chevron, he admitted early on in this quest (now over a year ago) that he was not an expert at this. He is a cardiologist. He's smart enough to figure it out. I bet in another year he will be calling out the flu vaccine. He's already figured out in 12 months what most people will never figure out in their entire life. He's our only hope. Another great article from brave leaders. Thank you Dr M. I am veterinary doctor/mba'er who has been following the 'successful' and very profitable 3 part vaccine 'problem-effect-solution' business model for many years. It is very clear this model has now been perfected to global levels via collusion and cooperation between mass media, government and medical establishment to be pulling off this massive disease-inducing vaccine scam that clearly induce massive immune compromise as stated and found in many credible sources.

I want to add and share with this wonderful forum of informed, thinking humans, my rising concerns and suspicions that the two bio-weapons in circulation, the release of the lab-created virus ('the problem') and the experimental gene-therapy injections ('the solution') actually share the SAME immune compromising properties causing immune suppression, or even slow degradation and elimination, causing immune function failure (akin HIV/AIDS) in BOTH groups of the population. Seeing we know there's sequences of HIV in the virus (ref Nobel prize winner, Luc Montagnier)

In other words both groups of people who have either had the 'natural' (lab-created weaponised) SARS-COV2 virus (containing sequences of HIV/XMRV etc and other immune-deficiency causing agents) AND those who have received the injections (any brand) and not had a placebo - that I also suspect are widely part of the nefarious plan to keep the truth suppressed long enough - ALL will have severe immune compromise (multitude of chronic disease, cancers...)

Hence the boosters are introduced already (under EUA), to 'reign in' the ones given the placebo, that are most likely and willing to accept boosters too, thus increasing the chances of getting the actual poison in on third or fourth...time around. It's Russian roulette. Anyone here with similar thoughts? Dr Mercola & dear forum, I am curious to hear your thoughts. Thank you from my heart, for this wonderful sanctuary of science & sanity.

I've often wondered if the actual virus, since it has the deadly spike protein, was causing harm that's not immediately apparent. One "good" thing about a natural infection, your body starts fighting it as soon as it hits your nasal passages. If we start treatments soon after realizing we're sick, hopefully, the damage will be minimized. The 'vaccine' enters the body directly into a muscle (if you're "lucky"). It has bypassed the body's early defenses. Then, being encapsulated, your body can't fight it until it starts making your body produce the spike proteins. The body is swimming in the proteins before it's ability to fight has a chance to kick in.

I totally agree with everything you said. Several of the nurses I used to work with at a Chicago suburban hospital (I was voluntarily resigned for not getting the death dart) have said months ago that we believed maybe 50% of the vaxx's were saline. "They" couldn't kill or harm everyone at once... needing part of the vaxxed population to be role models. "We got the shot and nothing happened to us"! It will be interesting to see what happens when the hospitals are short-staffed and winter comes around. It won't be pretty 🙄

Posted On 10/30/2021

I have thought from the start of the mass-vaxination program that most of the "world leaders" were receiving placebos as opposed to the actual poison. Unless they are especially stupid or utterly uninformed I can't imagine anyone accepting the concoction into their body. They also require a significant portion of the recipients (of the vax) to not come down with (fatal) side effects right away. So there are faux-vaxine vials being disseminated. If everybody who received the vax had a terrible side effect immediately people would simply stop accepting it. So they have a large % getting saline or some such so the effects aren't too obvious. By the same token, since the vax does no good saline is as good anything for the presumed purpose. There also may be a two part aspect to this where the first jab is inert until a second, complimentary chemical is added to it... as the second jab or in the form of a booster.

Posted On 10/30/2021

Glastian

I have long suspected that placebos are given to the majority of those jabbed. Makes perfect sense, "they" wouldn't want to kill everyone off in one go, would they?

I did everything in my power to stop SB277 and stand against Pan, and I couldn't stop the tidal wave. There was NO HEART in parents who hadn't had first hand knowledge in the damage vaccines can play to destroy a life. Before my daughter's injury, I let people make their own choices. After my daughter injury, I thought people should know injury happens a lot more often than we know. Especially since so many kids in my neighborhood (in MI) were type one diabetics by age 7? Someone was really wrong with that DPT - and I stopped at 2 months even though they were sure to tell me to bring her back at four months. I said, "Even if she's sick?" You'll be glad to know vaccines are benign.

Well, they never saw me again. But I fought like hell to tell everyone while detoxing my daughter to stop her seizures -with help from a local health food store and Mom's Against Vaccines. It is very well known the DPT can harm the pancreas. But would WE know it? Nope. In researching the pancreas, harming it is probably the goal, along with damaging the myelin sheath at the base of the brain with adjuvants. I think knowledge is power, but what we're up against feels evil. Pan and Offit are wrong. 5 kids here and my unvax'd have nvr had strep/flu/coughs/allergies/autoimmune disorders-everything my vax'd daughter HAS and/or fights.

Senator Pan wants all the mandates, people have tried to recall him. He could have done the right thing and investigate what whistle blower William Thompson said back in 2004. I was there for all of it, and now when you read about it IT'S BEEN TWISTED!! OH MY GOD! But look at what they did to Dr. Wakefield. He wasn't even an antivaxxer. All he said about their IBD search (and the ten others who came to the same conclusions) is, "I think more research needs to be done to see if there's a connection." And that was just the childhood vaccine fight. Eek!

To Ingab51: In my neck of the woods I can reach the most people with a bumper sticker that I could put inside my rear car window. But it must be INFORMATIONAL ONLY: brief (not distracting driving drivers); factually true, non-judgmental--nor attempting to force my will on others. It must also have in smaller print a research article link beneath it that can be accessed by cell phone for readers, who can immediately go to a "friendly" (not so technical research site) for more info. All dog walkers, and school kids that walk near my house carry cell phones and could read research link immediately.

Parking on street or in driveway at home and at business parking lots or waiting lines could result in a dozens of reads.

But the few brief words to print it is worthy of further discussion, evaluation and discernment (for grammar and possible unintended effects) and by, for example, Mercola's reader base. Then, as a follow up, I could get verbal comments when I return to my vehicle, so I had better have "a little something verbal to say"; and a list of self-imposed "self-rules" about what to never say to a stranger to avoid being "offensive" (bad PR). Advertising is "big business". But I am not advertising trained.

And it has been over 20 years since I tried to print a "banner" on an old printer using Windows 3 era 1990s software. I don't know technical issues: like best size and color of print to easily read from 20 feet away.

Any rear window bumper sticker must not obstruct traffic vision for me and cars following; and not distract-anger driving readers. Probably professionally printed bumper stickers would be best, but who does this and location? If I bought a dozen such bumper stickers, two for me, and I gave 10 away to like-minded friends then MY INITIATED ACTION (and the banner publishers) could reach 250 people a day with me parking on the street and driving for errands.

My phone just informed me that "Halloween tomorrow"; but we have been living with the monster's all year, we recognize them even with our eye's shut. We no longer fear the 'boogie man' because we know there exists a multitude of real doctors galloping though the waste land's as Lone Ranger's. Integrity, morality and a host of other characteristics that define a true human being.

And, what more can add to the pain of feeling you are on the correct side of understanding and unable to extend a hand to help a friend or loved one from drowning. I have read other's comment's that say they keep forwarding the truth to others; but do they even read or for that matter 'care to read' which would entail an open mind. No, it is almost as if you are a victim on the Titanic, drowning yourself and cannot even offer your own body to help another stay buoyant. This is a tale that will be told by grandparents to grandchildren if any actually do survive. I can hear the elitists tale to their offspring "we are the chosen ones". Far more deaths than are recorded in VAERS, which historically has been shown to only report 10% of adverse incidents. Doctors have reported that they can spend half an hour doing up a report only to have a system problem and all their work is lost. Others have reported they are discouraged from reporting deaths. We are now in a situation where no one really knows how many. Public health agencies are taking the position there are none, because causality can't be proven. Even though the warnings of serious side effects were in the vaccine producers own submissions for EUA's. THAT IS MALFEASANCE.

They were more than happy to count shooting deaths as Covid-19. Motorcycle accident deaths as Covid-19. Cancer deaths as Covid-19. No need to show causality there. Any death by any means was recorded as Covid-19 if there was even a suspicion that the deceased was possibly in contact with someone who was Covid positive. And now we know that the Covid-19 PCR Testing was so flawed in terms of producing false positives that it was worse than useless. If I were to design policies, programs and narratives to produce nothing but wildly DISPROPORTIONATE FEAR in the public, I wouldn't change a thing done by these corrupted individuals, public health organizations, government bodies and media organizations.

IT IS NOW OBVIOUS THAT RULES were DESIGNED very carefully to grossly OVERSTATE the numbers of Covid-19 CASES AND DEATHS and grossly UNDERSTATE the numbers of "Vaccine caused" deaths. Politically motivated narratives of BIG MONEY now drive our media, our governments, our universities, our schools, our science and our medicine. All roads lead back to the same relatively tiny group of Globalist billionaires and multinational corporations.

OrwellKnew. The latest fatality figures from the UK Yellow Cards reporting site show 1,838 deaths since December. The last ONS (office for National Statistics) showed 30,305 deaths within 21 days of vaccination. The figures are now so high as to be considered delusional when mentioned to the sleepwalking vaccinated. They are likely far higher of course. The total European fatalities total must be pretty horrific.

Posted On 10/30/2021

Glastian

And here in the U.K. since April 2020, the Office of National Statistics has been running a survey of up to 240,000 households. This is open to anyone in the household from 2 years old upwards. A team will visit the household, participants are given a voucher for £50 for the first PCR test. Participants can stop the programme at any time, but if they want to continue, the team will visit once a week for 4 weeks, then once a month for 11 months, each visit worth a £25 voucher. So £425 per pop, work out the potential cost for yourselves. Given that the flawed PCR tests result in 97% false positives, it is no wonder that the U.K. "cases" have remained consistently high, a veritable continuing source of propaganda, and people jump at the chance of a few extra bucks with no thought of the motive behind it all. And all of these inflated figures are reported on the good old BBC every day, along with "deaths for any reason, after testing positive in the last 28 days". You cannot educate pork, as an old friend of mine used to say.

I have one comment.....any medical facility ,hospital, nursing care home, are saturated with massive amounts of 5G type of RF Radiation.." 5G" is the "politically correct" for what the militaries worldwide know as "Directed Energy Weapons" so DEWs are used by every hospital and medical "Dungeon of Doom"....vertually killing people with what the STUPID medical facilities call "Covid 19" .or some even MORE ridicules.."Mutations" RF Poisoning....in other words Directed Energy Weapons.....its basic overdoae of Radio Frequency radiation.. Radio Frequencies over 100 Mg hertz can be "detrimental"to something living.....as in insects ,some plant life,effectively altering the plants RNA.

and on up the Radio Frequency bands....the higher the Frequencies the smaller the radio waves become and more frequent ...and the higher up the RF becokme more detrimental to other living things...notice insects are less...bees are dying other bugs die..and they are the food source for birds , smaller animals , bats etc.....so mankind came up cell phones(deadly)...direct cause of brain cancer....and with the cells came more towers and MORE Irradiation from and much more Radiated POWER OUTremember 4G and 5G are directed energy weaponsand they are world wide and will be 'THE Top Choice' as the population 'Culling Tool'.....

Observe this with your own eyes...fact...the world bird population is down 95% in the last 30 years..total insect populations are down 95%..and whats NEXT??? YOU and your kids and most animals and pets ...when 5G powers are pulsed more....and when your 'smart meter' starts pulsation more frequently..as in RF HighPowered Pulses are as deadly as lower powered steady waves RF poisoning....actually any RF Poisoning is dangerous !!! But today its increased thousand of % and its slowly killing you... Use a RT Detecting Meter...put it in you car.and notice the massive amounts of RF Radiation your body is absorbing..and its killing cells in YOU.

Posted On 10/30/2021

mrrobb

And dying cell in you are being collected by you body defence system....the immune system..over working it just by riding in your car. now its everywhere..virtually IRRITATING YOU...cooking you as within a Microwave oven..... around 2.45 gigahertz ...same as, whats comming in PULSES from 5G , DEW, Towers.....and 5G is universally in Hospitals along with massive amounts of RF Radiation from X-rays and MRI and a dozen other radiation sourceskinda like putting out a fire with gasoline... Most medical people have NO IDEA what RF poisoning is .and have no idea that they are the victims ..simply because all these people KNOW.....is what they have been EDUCATED TO KNOW!!!!!!

they go to school to learn to be a medical person..dr , nurse etc.....they have no education on Radio Frequency poisoning or how it can and does effect the body.... Only they are taught Medication is with "DRUGS"most don't question...because all thye really KNOW i8s what thye are TOLD TO KNOW.....like 90% the world people...only KNOW what some book or magazine , newspaper or TV or internets 'News" tell them to KNOW...But do you really KNOW????? probably not..... Its generally....follow the Bouncing Ball....like a puppy..following along.....or spiced up by : ITS FREE!!!!!! or get a Free Coffee along with your "Jab" "Hey Biden got his Jab "(Faked) so everyone must get a Jab....yess Follow' Da Leader"much like "Monkey See--Monkeu Do !!!!!

Yes, mrrobb, hospitals are a factory of disease and death from the FDA-approved treatments, remdesivir, dexamethasone, and vancomycin, drugs that together can cause serious adverse effects in the body. Antibiotics that are not necessary for Covid-19 in most cases, and ventilators that cause serious lung damage, and we can add electromagnetic fields. 5G and 4G wireless technologies are linked to acute and persistent oxidative stress in the body. Prolonged exposure to 5G and 4G radiation can damage cells, tissues, proteins, and DNA, as well as suppressing natural immunity. These effects could explain why the Wuhan coronavirus (COVID-19) has been particularly devastating in areas where these technologies are prolific. North America and Europe are among the highest number of new "cases," which could be the result of their populations being fried by 5G and 4G throughout the day. www.thebigwobble.org/2020/12/5-and-4g-is-linked-to-cell-and-tissue.htm..

The biologist Bartomeu Payeras, is an expert in 5G and Covid. Payeras, a researcher at the University of Barcelona, has studied the relationship between coronavirus and the location of 5G networks. The microbiology specialist links the technology of these telecommunications networks with the enhancement of COVID-19. He claims that there is a cause and effect, as a result of extensive research.

Payeras drew up a map of the countries, regions and even small communities with low and high incidence of the coronavirus. And he specified if these locations had 5G equipment. In an extensive report, he assures that the results "demonstrate a clear, compelling and irrefutable relationship between the rate of COVID-19 cases and the location of 5G technology." The hypothesis also ensures that this technology weakens the immune system and makes its inhabitants more likely to be infected. www.change16.com/biologo-espanol-vincula-equipos-5g-con-la-potenciacion..

In this link several scientific articles on the effect of electromagnetic fields and blood clotting. The result of the studies carried out allowed me to draw the following conclusions: 1) Professional contact with electromagnetic fields had an influence on the changes in the coagulation and fibrinolytic systems in the people examined. 2) The increase in the activity of the plasminogen activator inhibitor (PAI-I), the main factor that inhibits fibrinolysis, is verified in both groups investigated. 3) The precise knowledge about the influence of PEM in the examined systems has its prophylactic and epidemiological importance". pubmed.ncbi.nlm.nih.gov/11320559

Over my head how RF energy is harnessed into slow-kill weapons but I think it can involve satellite dishes. Excerpt: "Both military and maritime users are also at the risk of what Santamarta described as "cyber-physical attacks": repositioning the antenna and setting its output as high as it will go, to launch a "high intensity radio frequency (HIRF) attack". "We're basically turning Satcom devices into radio frequency weapons," Santamarta said. For all those who envied us in New Zealand for her stance on Covid think on! She has now changed yet another law that doesn't suit, make the Pfizer jab mandatory, NO CHOICE unless you can prove you had anaphylactic shock from a previous vaccine. No danger, no deaths, no injuries we are told, perfectly safe, ALL LIES! Every Dr/clinic has been issued with this letter. My Dr has just been before the medical council for prescribing Ivermectin to a patient and making a short video where he emphasised he had taken the Hippocratic oath. When has a Govt ever done such a thing, not since Hitler. Hate towards non-vaccinated is increasing, even encouraged because Auckland in particular is suffering so much under such long lockdown. Godzone this used to be called, he must be weeping to see what we are doing to each other all over the world.

Stanley "the blind faith of the public in their acceptance of propaganda ~ the naivety and gullibility of the public is disconcerting and puzzling..... The truth is that the majority of people have questions and are not naive, IT IS THE RELENTLESS COERCION AND REALITY OF JOB LOSS that forces people to give in. Without this evil tactic, without mandates, I believe the majority would not take the Jab. One other factor is that despite having read of the dangers of the vax, people are not seeing deaths, injuries, on the contrary, where I live, a small town, population of 6,000 with 85% vaccination rate, no deaths, minimal side effects. People then feel "oh well..."

By the way, the question should not be, which vaccine? The question needs to be why have they not been all pulled off the market when Ivermectin, a safe, approved drug has far greater efficacy than any of them . According to the FDA regulations, EUA drugs cannot retain authorization for use if an effective approved drug is available. UTTAR PRADESH PROVED BEYOND A SHADOW OF A DOUBT THAT IVERMECTIN IS THAT DRUG. By the way, it would be insanity to trust the criminal public health organizations and politicians who have been lying to us and committing Crimes Against Humanity. THESE ORGANIZATIONS AND OUR GOVERNMENTS ARE WILFULLY KILLING US WHILE IGNORING OUR LAWS AND OUR RIGHTS UNDER THE CONSTITUTION. THEY ARE USING A BIOWEAPON THEY CREATED AND RELEASED AND FURTHER BIOWEAPONS CALLED VACCINES TO JUSTIFY THEIR ACTS OF TYRANNY.

The elephant in the room of course is what happened in Uttar Pradesh. A real life trial of Ivermectin in a population of 240 million people experiencing a very serious breakout of a Delta variant. Their concern was the more that people were vaccinated, the worse the breakout became in terms of cases and new deaths. Their decision was to switch from vaccines to treating everyone with Ivermectin. The breakout was literally stopped in its tracks. Within 2 weeks the steep upward graph had not just been halted, it was completely reversed to next to zero new cases and new deaths. The immediate effect on the graph was like a jet in a nose dive.

This was not a small sample, it was a major application of Ivermectin against a huge Covid Delta variant breakout in a population 2/3 the size of the USA. DISREGARDING ALL THE IRREGULARITIES AND MALFEASANCE THAT GOT US TO THIS POINT AND THE OBVIOUS CRIMES AGAINST HUMANITY, THE QUESTION IS WHAT SHOULD BE DONE GOING FORWARD? THE PUBLIC MUST BE OFFERED PROPER PRESCRIPTIONS FOR IVERMECTIN, BITH AS A PROPHYLACTIC AND AS AN EARLY TREATMENT FOR INFECTION. THIS ENTIRE COVID PANDEMIC COULD BE OVER IN A MATTER OF WEEKS. ALL THE OTHER DRACONIAN EDICTS (MASKS, VACCINE MANDATES, PASSPORTS, TRACKING ETC.) CAN BE TOSSED IN THE GARBAGE WHERE THEY BELONG AND THE INDICTMENTS FOR CRIMES AGAINST HUMANITY CAN BEGIN.

W/the last couple years, I don't think 3 or 4 generations are needed to depopulate. If it was, I think it would have already got done. OR, maybe, all wars, genocides, & disease decimations thru time were also part of the reductions? (Because, there's basis for that). Keep in mind, this was planned, @ THIS time slot; seems obvious: this decade, there'll be a massive die-off of:... ..billion(s) of Chinese from "Mao's 1-child policy" ..andthe baby boomers (many millions in all the industrialized nations except China & Russia?).....& billions from the accumulated yakxes

One estimate said, just those 2 old groups dying off, will reduce the world population down to about what it was in about 1990. Added to "viral" death list/depopulation drop, & a serious chunk of population is gone. The ongoing push for more & sooner boosters, looks like the technocrats are sweating-it, if they are doing it fast enough. They push boosters faster/harder, because, they know how they have messed-up the world, & the bad stuff they've done, & The Truth Will Out! If they don't depopulate, they cannot control the narratives.

People have only gotten 2 pokes, & maybe 1 booster. But, didn't 1 article say, the 1st 2 or 3 vaccines will ruin immune responses, make all those depend on getting ea.new vac, the rest of their lives?..That the boosters will be gradually making them sicker, because, diseases are coming back worse, after the vaccines? Then those die, & the ones left, can't reproduce. If they survive all that, will be allowed to live out their miserable lives, only by continually getting more vaccines?!

Far more & varied puzzle pieces are painting clearer pictures of what's really going on, & has been for untold millennia. Georgia Guidestones warned. It really does look like that. Science based, too. They want us to trust blindly...LOOK!....They want us deaf to truths...LISTEN!....They want us confused & in fear....THINK! RESEARCH! COMMUNICATE! ASK.HARD.QUESTIONS! I am an 80 yo obese woman with a history of asthma and COPD who has had Covid twice. The first time was in December of 2019 and the second time was this past month. The first time I was treated with a z-pack and my usual inhalers. My pulse-ox went down to 86 the first time, but of course, we didn't know that it was Covid. This last time I had a z-pack on hand, hydroxychloroquine, and Ivermectin in addition to my vitamins including D3, K2, C, along with zinc and a multi. This time it lasted longer and I had to get an order for steroids to get rid of the cough and wheezing, as I have had to have when I have had bronchial pneumonia 5 or 6 times before. However, my pulse-ox stayed above 93% during the first week and has returned to 97-98% since. Still not getting any vaccine.

A grain of salt ... I read comments questioning, which is good. It best we question, question everything. In these past 2 years we have realized the powers that confront us. They read everything and we as tax payers pay for this service to protect their power. Is there any doubt? If there is any doubt, it should be in everything; at least in everything you read. We have realized the abilities of BIG tech, BIG media, BIG government; but one of the tip's of the spear is BIG tech. It has the ability to transform every web page to content based upon the reader. So what makes everyone so comfortable to think that what they read from a page is exactly the same, word for word, as what your best friend reads from the same page, article, digital book etc? So if you doubt, question or pause on anything, it is a good thing. But, before you debate or argue a read, sit with the other and re-read the debate from printed word. There is a reason that the telephone was transformed into a digital device and the printed word also transformed into this miracle digital ghost. A ghost that can transform itself into whatever shape its master so wishes. Remember, it is near the bewitching hour. I didn't mean to scare anyone; but I too have my doubts. BOO!

Just saw an article where the CDC is saying that the shots are WAY better than natural immunity - total lies and of course ignoring all the dangers. I am almost 72 and follow the things recommended to keep immune system up. Early September I was sick - fever for 3 days, tad of congestion, headache at first - no big deal compared to what used to happen before I started keeping D levels above 80 and other things. But it was a different experience. I did nebulize peroxide and saline a few times. Husband cared for me and he is 72 and has CAD, MS and metal in his back from having a raging spinal infection undiagnosed due to sheer idiocy and incompetence while no one would listen to me - almost died. He was tired one day - not even a fever.

So - October 11 I got the tests for covid antibodies. It was positive. I'm pretty confident I had it. I am so sick of hearing the outrageous agenda and ignoring of the dangers of this shot and now wanting to risk our children. My daughter's entire family had it - it was no big deal for them either. I have known four people who died since this covid thing started - NONE from Covid. And I've known at least 6 (there are probably more that I just don't communicate with that much) that had the shots and got it anyway and were quite ill and one was given monoclonal antibodies. The two totally conflicting reports we get on this are completely outrageous. I know two people who had the shots that are experiencing long term side effects. I have some I suspect are but they wouldn't believe it if we suggested it may come from the shots. It is all so unreal!

"DIVERSION, THE PRIMARY STRATEGY Experience has proven that the simplest method of securing a silent weapon and gaining control of the public is to keep the public undisciplined and ignorant of basic systems principles on the one hand, while keeping them confused, disorganized, and distracted with matters of no real importance on the other hand. This is achieved by: (1) Disengaging their minds, sabotaging their mental activities, by providing a low quality program of public education in mathematics, logic, systems design, and economics, and by discouraging technical creativity. (2) Engaging their emotions, increasing their self-indulgence and their indulgence in emotional and physical activities, by:

(a) unrelenting emotional affrontations and attacks (mental and emotional rape) by way of a constant barrage of sex, violence, and wars in the media - especially the T.V. and the newspapers. (b) giving them what they desire - in excess - "junk food for thought" and depriving them of what they really need. (3) Rewriting history and law and subjecting the public to the deviant creation, thus being able to shift their thinking from personal needs to highly fabricated outside priorities. These preclude their interest in and discovery of the silent weapons of social automation technology. The general rule is that there is profit in confusion; the more confusion, the more profit. Therefore, the best approach is to create problems and then offer the solutions." (source - "Silent Weapons for Quiet Wars")

My wife and I are un vaccinated and we both had covid the first 2-3 weeks of September 2021. I've taken a specific regimen of supplements for at least 10 years. My wife not so much. She's had both knees replaced in the past 5 years and does fine. My history is over the years since a kid, I would get sinus and upper respiratory infections that would get pretty intense. Maybe once a year or skip a year but as I got older, now 71, sometimes I would get hit twice a year, this back before 2012.

Then I started with a bad cold in 2010 that would not break, so did erythromycin packs, 2 over a six week period and finally got over it, but 1 month later I'm breaking out in a rash on the scalp and upper shoulders and back. I later realized I had Leaky Gut with a self exam. Was at a dermatologist but she never diagnosed it as a gut issue. I ended up with my self diagnosis. So be careful with antibiotics as they will damage the small intestinal lining. Dr Guidry's Total Restore has helped me alot, but I still have to stay away from foods high in gluten. To me, the gluten issue is because your gut lining is damaged,

So moving on, we both got thru covid. My wife tested positive at the drive thru, I did a at home test which was positive but this test is not reported, so an undocumented result not in the data. Symptoms were, fever and the creepy skin feeling, totally exhausted daily for a minimum of two weeks so slept 14 hours a day, coughing and lots of phlegm, no head congestion. We used Tylenol for fever and then dropped it after a week and then used Mucenix Extra Strength the next week or so.

All the while I took Jigsaw Vitamin A as cod liver oil, Jigsaw Methelated B, Innate Response whole food Vitamin C-400, vitamin (hormone) D3, Vitamin E, Jigsaw Magnesium 1250 mg a day, calcium and potassium in food, salt and vitamin K2. Reason to not get vaccinated is lack of trust in an untested vaccine (your playing with fire) and religious beliefs. We both now have the antibodies.

Go get yourself some chlorine dioxide, also known as MMS mineral miracle solution. It oxygenates your body and will completely prevent you from getting sick from Covid. Also boosts energy levels as a nice bonus. Also wanted to mention that saline nasal flushes on a regular basis is probably all you need to fix your allergies. Gluten is always blamed for the causes behind every gut disorder, but I think the truth is That glyphosate is causing most of the issues. They are spraying roundup on crops such as oats, wheat, corn, etc...as a desiccant in order to more easily be able to harvest them. These are then used in just about everything that you will find in a grocery store nowadays. Don't even get me started on the government subsidizing Corn, wheat, and soybeans.

Anyone wanna take a guess why? Because they are all genetically modified. These foods when tested on mice, made the 2nd generation sterile!!! Do you still think your government isn't trying to kill you? Look up into the sky, doesn't matter where you live... there's probably chemtrails above your head. I don't recall the people ever giving the government permission to start spraying unknown chemical cocktails into the skies on a daily basis. There is clearly a depopulation agenda going on. It isn't an accident that our air, water, and food supply are poisoned.

Now we have a medical mafia trying to force their poisons into our own bodies. These apparently make us sterile too. Notice how all of the governments on Earth right now are united against their own citizens? This is the New World Order coming onto the scene. The Bible calls it The Beast System, which means the Mark of the Beast will be enforced soon, and everyone who refuses the Mark, won't be able to Buy/Sell, and will be hunted down and slaughtered like animals. There is still time to get right with God. Repent and make Jesus Lord today!

By it's own very definition the expression "Crisis" has a beginning, middle, and end. A quick look in the Holt Intermediate Dictionary says... Possible turning point of life or death. Also included in the very same column of the letter "C" words in less than 6 inches is criminal, crimp, cringe, cripple, criss cross, and critical. All good words that fit right in with word "crisis". On the more humorous side of this, on the very same page is crock, and croak. Both very fitting. And that's the "Word" o the day! I got to know an elderly guy when I moved into the neighborhood and over the years I got to be great friends with him, and as time passed, I started to help take care of him and spent a lot of time with doing house and outside chores so that he could stay at home and out of a care facility. I think that he knew that his time was coming to an end and needed to get a whole bunch of things off his chest, and his trust in me grew over the years to a point that he needed to talk about his past. He told me that he had worked for a "government agency" for 20 years that President Eisenhower warned about in his final speech as president warning about the "military industrial complex".

What he told me shocked me! (to this day) He said that the world is slowly being destroyed by evil off world entities from "Orion", and have been involved with mankind for thousands of years. He said that these evil off world entities are what he called the "shadow government" that works with evil humans. He said that their end goal was to make mankind go extinct and change Earth's environment so that it was suitable for them to exist in and they would eventually inhabit the Earth. He said that they have been mining minerals AND taking human beings off world to their worlds for slave labor and nutrition, AND harvesting "Adrenochrome" for their pleasure as it is like a drug to them! I was with him when he passed, and his last words were "may God save our world".

These beings he referred to are Fallen Angels. They technically could be called Aliens from outer space, because In the beginning God created the Heavens and the Earth. The First Heaven is the air above the earth, or our sky. The 2nd heaven is above the Firmament. This is what we call Outer Space. This is the domain of the Angels. One of Satan's titles was Prince of the Power of the Air. The word Power is a specific type of Angel. The Air referred to in this title could very well be both the first and second heaven. God's throne is the 3rd heaven.

Lucifer was here in the garden with Adam and Eve in the beginning, and the Prince, and his Powers (fallen angels) have always been here with us. They absolutely are running the shadow government, but then again...they always have been. Back in the days of Jesus, when He was fasting in the desert for 40 days, Satan approached Him, and offered Him the Kingdom's of this world if He would bow down and worship him. So apparently Satan already had full control of the Kingdoms of this Earth 2,000 years ago. There is so much I could say on this topic... Did you know that the phenomenon called Sleep Paralysis can be broken by calling out the name of Jesus? Did you know that Alien Abductions come to a swift halt by calling out the name above all names? Why is that? Because they aren't aliens, rather they are demons and fallen Angel's, and there is power in the name of Jesus.

Ladies and gentlemen....We have a Winner. Weighing in at 175 in medium grey suit... Dr. Peter McCullough! Go Peter! The Americans asking the question of #NOTABOUTYOURHEALTH is it? Are your biggest fans. What a Data Pep Talk! Ps. Take your New World Order and choke on it.

Starting to suspect the mRNA story. It looks like a red herring in order to divert attention from the real poisons and parasites in the lethal injections. While the technology exists since its inception in the early 1980s in the Soviet Union, even the Soviets put a stop on its application, because (if it works as described,) there is no way to stop the extermination of of all mankind. This means that the injected pose no danger to the uninjected; that is simply a psyop, introduced for turning the two parties on each other. And, of course, CV doesn't exist.

Never allow anything to be injected, eat the carnivore diet, avoid wireless frequencies and electric fields ... and you will be healthier than the other 99%.

Trevor2522: They steal your DNA and poison you with the fraudulent tests. There are carcinogens in the muzzles, effectively enhancing their detrimental effects. Even simple blood tests are likely used for stealing your DNA and only Goodness knows what's in the dentists' swabs and injections... Once they have your DNA and you have graphene oxide in your body (most of us do, probably from the chemtrails), they can directly attack you: they can make you hear and see things, they can make you feel pain (they can also turn off the pain receptors of their zombie "soldiers"), they can make you sick, or just flip the kill switch.

My wife, myself, my 19 yr old son, and our 12 year old daughter got COVID back at the end of August. I can say it did suck like a bad flu for the 3 older of us. Our daughter got through it in about 4-5 days. We all loaded up with D, C, and some of the protocols I found here.

Out of all of us, I still can't taste or smell. Wife is fine, daughter is fine with those senses. My son's has come back somewhat. Any suggestions for getting that back? I'm also still having some off/on lung stuff.

None of us are vaccinated!

We can't be that much of a minority in all this, can we? We know how they love to inflate numbers! I know soooo so many people who are walking out and stepping forward. But I feel like MSM thinks if they inflate all the numbers, we'll feel like the minority. I hope and pray that everyone sees how many are willing to walk - and then we'll know who the majority is!!! When I saw the fight against childhood vaccines my first thought was - "It won't be long until they're telling you to come in for the jab." And there's those who would take the flu shot every month if they could - not even realizing their body is breaking down each time they get injected with more viruses and substances. It's insane!

While CV cannot be diagnosed, especially because it doesn't exist, last year, "diagnostic symptoms" started with the 5G installations worldwide, executed under the guise of the lockdowns that were also meant to kill off small and medium-sized businesses. Still, in 2020, fewer people died than in the previous seven years, so there was no "pandemic." Once the lethal injections started, the injected flooded ERs and the trend has been continuous since then. After about two million deaths and about a hundred million life-changing injuries, many still believe in CV... As Schwab announced in 1981, "first we will kill the elderly, then the stupid." Apparently, stage 2 is now in motion. I hate to break it over and over, but complying on ANY level or even "only" using the official terminology turns even well-meaning people into accomplices in the genocide.

Because according to all Allopathic doctors emf, toxic water, toxic air, toxic food and toxic emotions don't make people sick...it just has to be a virus! SMH!!!! Kudos to the very few who are emphasizing the Terrain! 5g has not yet been fully activated. All phones have to support 5g after October 31st. Once they get the children inoculated and more adults then we will see the big effect on human health when it's fully turned on. I traveled (drove) from Delaware to Florida and 5g is everywhere...towers 5 miles and less apart...towers of death. Then there's the thousands of satellites. But don't look anywhere else other than a virus.

Stanley Becker you rock! But I know a lot of woke people unfortunately....the MSM media owns them! They unfortunately still haven't heard the truth. 13 people in our family were stool pigeons. Omgosh..praying everyday for these folks and all who took jab. So sad. They trusted easily the monster of lies.

It's true - even now, they rely on MSM for info - and their little bubble of 'safe and effective' won't be burst! Ugh!!! So sad.

It seems then that, according to Dr McCullough, after almost two years debate, the virus does exist as a distinct entity, is not influenza although it can be as serious, if not more so, to the vulnerable, elderly and those with co-morbidities by means of two potential but unpredictable responses:-(1) cytokine storm or exaggerated immune response causing collateral damage; (2) exaggerated blood clotting response in both veins and arteries.

Interesting details to note in Dr McCullough's schedule of treatment: (1) while zinc does help prevent viral replication, quercetin is not recommended instead of hydroxychloroquine because "it is not potent enough to replace HCQ for treatment of COVID once you have symptoms, and it does not adequately get into lung tissue unless you take massive doses (3-5 grams a day), which cause significant GI side effects such as diarrhoea." (2) Only Zinc sulfate, gluconate or citrate are recommended . Zinc sulfate 220 mg provides 50 mg elemental zinc, the recommended anti-viral dose. Zinc picolinate form is not recommended "following reports of liver damage and tumours."

Watching Dr. L Merritt, she talks about the initial covid bioweapon release and then how it fizzled, but got us to the flu season where they could still up the numbers and all... I know type A had a track record (2/20) for putting people into the hospital with pneumonia. Then, of course, improper treatment for those with 'covid' and how will they redefine ADE? It will be a new 'super bug' I know, sounds like a sci fi story!

Most doctors don't know about "Opti-Zinc" - L-OptiZinc® is a unique mineral chelate that pairs zinc with the amino acid L-methionine. Research studies show that L-OptiZinc® is better absorbed than other forms of zinc and that plasma levels remain higher compared to other zinc forms. Also, if one cannot get an Rx for HCQ, quercetin is the only option and better than nothing. Nebulized H2O2 (3% or less in saline solution) can take care of the lungs, as Dr. David Brownstein's study found. So there are many options. Happy that Dr. McCullough has his protocols but there's plenty of room for others that are equally effective, particularly if what you have is REALLY SARS-Cov-2 and you have to deal with a spike protein in your body. Dr. Ealy has a protocol in which an enzyme is used to eat the spike protein to detox the body of it... I wish all these guys would get together to put out a panel of treatments and protocols and reinforce one another!

Dr. Mercola, thank you for your concerted and dedicated work in your daily blogs. It is a blessing to have so much verified and fact-checked evidence, regarding the dangers related to the injections, that you provide for your readers, everyday.

And this information is being shared greatly within Canada.

At this time, Canada's Federal Government has chosen their National Police force, the Royal Canadian Mounted Police (RCMP) to be used as an example in Canada to enforce injections into everyone.

Through intimidation, threats and coercion, the RCMP have given over 20,000 police officers an ultimatum - get injected against their will, or be forced on LWOP - leave without pay. Many police officers have now made life altering and regretful decisions, without informed when getting injected. They are left feeling they have to choose between their job, or an injection.

These actions, have spurred a large group of active duty police officers into protecting the rights & freedoms of choice for every Canadian and their fellow officers.

MOUNTIES FOR FREEDOM are both vaxxed and unvaxxed, police officers who are not choosing sides or being divided like the government is trying to do. These courageous members are standing united to ensure that Canadians have the right to choose.

You can read their Open Letter to the RCMP Commissioner, if you would like to learn what these brave men and woman are doing for all future generations in Canada.

A WAY OUT: Is there a lawyer, a judge, a health authority, a single ^%\$ U.S. politician, or journalist willing to attack and destroy the FRAUDULENT TESTS!!!!? Sorry for shouting, this stupid thing should have been over in May 2020 if Trump had a 1/2 a brain. I think this is our only way out, and if it's not done, there will be Covid and any other FRAUD disease forever. P.S. To Dr. Mercola and readers, the things you should do if you get "COVID" is chicken noodle soup, OJ, and sleep ... LIKE %\$@# ALWAYS!!! Don't let them give you Remdesivir, you'll be 99.74% %@\$# fine. Have a nice day :)

Remdesivir is deadly for our kidneys. Not sure why it was ever approved. Politics?????

To mjnelson: The disastrous NIH Remdesivir trials in Africa in 2018 showed the Event 201 players a way to make patients much worse with 'treatment'. It's not politics, it's assault; it's evil. They think we're all Fauci's beagles now. Sadly most people have no clue Remdesivir was instrumental in the spring of 2020 to magnify illness and fear exponentially. Pure greed and evil. Why was it approved? That's easy: Our regulatory agencies, many decades 'captured', are now completely weaponized against the public.

Don't worry, the Boards usually don't have any authority over public discourse. Some may complain trying to control the narrative, but nothing can really be done. They have the right to their medical opinion.
