Globalization means hunger and misery for many that causes migratory movements to grow supported by drug cartels and drug trafficking. Globalization has encouraged constant information from social networks and the media and the increasingly dynamic operation of illegal immigrant trafficking mafias, which is a phenomenon that grows more every day, according to the needs of people. that invites people to emigrate within a phenomenon driven by globalized markets. Over the past decade, the smuggling of illegal immigrants into the United States has grown from a loose network of independent, self-employed people smugglers known as coyotes to a \$13 billion-a-year organized crime-controlled business.

For years, coyotes paid cartels a "tax" so they could move immigrants through the territories they controlled along the border. A report by the Tech Transparency Project (TTP) has revealed that many illegal immigrants were lured to the United States by people posting misinformation on social media platforms such as Facebook. These individuals promised to help illegal immigrants enter the United States, only to steal their money or abandon them in dangerous situations. wpde.com/news/nation-world/cartels-making-13-billion-a-year-off-smuggl.. from Robert Frost's 'Mending Wall' '.....Before I built a wall I'd ask to know What I was walling in or walling out, And to whom I was like to give offense. Something there is that doesn't love a wall, That wants it down. I could say 'Elves' to him, But it's not elves exactly, and I'd rather He said it for himself. I see him there Bringing a stone grasped firmly by the top In each hand, like an old-stone savage armed. He moves in darkness as it seems to me, Not of woods only and the shade of trees. He will not go behind his father's saying, And he likes having thought of it so well He says again, Good fences make good neighbors.' Sorry but Frost's poem won't print here as written. Nothing is what it seems...as in all things follow the money and always ask Qui bono?

US HOUSE REPUBLICANS WIN IMPEACHMENT OF BIDEN'S TOP BORDER OFFICIAL The Republican-controlled U.S. House of Representatives on Tuesday narrowly voted to impeach Democratic President Joe Biden's top border official, as immigration shapes up to be a major issue in this year's elections. By a vote of 214-213, the House approved two articles of impeachment accusing Homeland Security Secretary Alejandro Mayorkas of not enforcing U.S. immigration laws, which Republicans argue led to record flows of migrants across the U.S.-Mexico border, and making false statements to Congress. A record number of migrants have illegally crossed the border from Mexico since Biden took office in 2021, and former President Donald Trump has made it a major focus of his campaign against Biden.

Tuesday's vote reversed an embarrassing legislative defeat that Speaker Mike Johnson suffered last week when a similar effort fell short. Republican Representative Steve Scalise, who missed last week's vote while he received treatment for cancer, provided the deciding vote on Tuesday.

suecross, Robert Frost is my absolute favorite poet. I had a blind eye to this art till I homeschooled my daughters and they were required to memorize poetry (that was not required when I was in grade school). I especially love "Stopping By Woods on a Snowy Evening," and "The Road not Taken." I have committed them both to memory. I admit I am not too fond of "Mending Wall." Not because of the content, but to me a poem has to rhyme and have cadence, kinda like a song. Every time I break out in a poem around my husband, he rolls his eyes. :)

Lee, having poems in your head, is definitely the antidote to the white noise of 'clown world'. There is more reality in works of 'fiction' than most of present day scientific literature which smacks of fantasy, fakery, a hint of sulphur and a lot of money. Poetry is the distillate of literature, raw emotion that speaks to us all if we let it. When as a child, I wanted to learn about World War 1, I turned to the War Poets not the 'history' books. With all that richness from the brains and pens of humans, who needs the sterile nothingness of what's on offer from technocrats.

I think it's brilliant that Steve brought up Robert Frost's poem in relation to this article. Every generation, going back through millennia, has been subjected to this same arrogant nonsense and our 'unacceptable views' are repeated down the ages, in that we neither need nor want to be told what to think, nor are we, as per the rhetoric, infantile minds to be gaslit into tyranny.

The reality is that Biden's cabinet and justice system are unconstitutionally aiding the US invasion. International war journalist Michael Yon and Mike Adams discussed the role of President Joe Biden's Cabinet members, Department of Homeland Security (DHS) Secretary Alejandro Mayorkas and Secretary of State Antony Blinken, as well as the Supreme Court on the current regime's strong push to encourage illegal aliens, which could lead to a major civil war. www.brighteon.com/3f994502-76ee-4d62-be0d-a5ea02e22918 (2024).----- CBS reports that the Chinese-owned social media platform TikTok is also being used to aid and abet the US invasion.

We also have a "border invasion" in the report. But that's exactly what it is. And it's not just the Chinese. These men come from the Middle East, parts of Africa, and many other regions that are not known for their love and affection for America or its people. Rep. Greg Steube (R-FL) has criticized the Biden administration for its reluctance to address the ongoing border crisis on the US-Mexico border: Joe Biden could have taken corrective action long before the situation reached his state current. "I could close it today, yesterday, three years ago. But they don't want that. It does not coincide with their political objective, so they are going to try to subvert and blame the Republicans.

Correct Gui, the dominant image forever has been peoples south of our border being those crossing illegally. Currently there are those coming in from all over the world. Just and everyone, President Joe Biden says a bill from Sens. James Lankford (R-OK), Chris Murphy (D-CT), and Kyrsten Sinema (I-AZ) is simply a precursor to imposing amnesty for millions of illegal aliens in Congress. During a speech at the White House on Tuesday, Biden praised the Senate bill that would expand general immigration to the United States by codifying its parole process that has released hundreds of thousands of people crossing the border into the interior of the United States. country. The bill would also increase legal immigration to the United States, even as Biden has raised the foreign-born population to nearly 50 million, the largest in U.S.

Also Just: CASH IN ENVELOPES': HOW THE US AND A ARE FUNDING THE BORDER CRISIS. The Biden administration gave the UN migration agency nearly \$1.3 billion in 2023, which it uses to help migrants on their journey to enter the US illegally. The United States is financing its own "invasion" by funding the United Nations and its partners, who, in turn, give hundreds of millions of dollars in cash and aid to migrants who eventually cross the US southern border illegally. While the UN has helped migrants for decades, the scope of its operation has expanded dramatically as the number of illegal immigrants (from at least 160 countries) to the United States has increased. A SMALL ARIZONA TOWN PREPARES TO FIGHT STATE OVER ILLEGAL IMMIGRATION Three hundred miles from the United States border, residents of a remote Arizona town were ready to take up arms against the governor's actions. The governor of Arizona studied the possibility of temporarily locating illegal immigrants. But the people acted against it. On July 19, 2023, the Springerville City Council passed a binding resolution, signed by the mayor, saying "no" to the city footing the bill for immigrants, whether illegal or legal. Yes to Michael Yon and others who have traveled to Panama to document what is going on there. As the story goes, Agenda 2020 and now Agenda 2030 were drafted by the Rockefeller Foundation and finalized by the UN. Their goal is to hasten the economic destruction of developed countries and destabilize their cultures, by flooding the zone with illegal migrants. The other word for this is dragging down the nation's economy and the middle class. Not clear, however sometime during 2015 in the Obama administration, VP Biden got together with Alejandro Mayorkas to plot 6 or 7 South American countries whose people were in dire straights, to enter the US.

This has been going on for some time, that's how you end up with 22 million plus illegals inside this country, with little screening or knowledge of who has been allowed in. On Day 1 of the (stolen) Biden administration, an Executive order went out to dismantle the "remain in Mexico" agreement that Trump administration had, thereby opening the border to migrants. Epoch Times has been doing a series of stories on the UN funding of up to 63 affiliates in Panama, (some are religious organizations) facilitating illegal migrants path to the US border. Looks like a large amount of US taxpayer funds, donated to the UN are then used against US citizens to organize illegal entry.

Estimates are in the past 2 years, \$20 Billion US has flowed to Panama to assist these efforts. And then inside the US, HHS and the State Dept are funding the travel, housing and flights to location of choice. Former "sanctuary cities" are now cutting their budgets for supporting their citizens, yelling they cannot handle the costs of housing and feeding the large numbers arriving. Here's the financial aspects: States Start Giving Taxpayer Money to Illegal Immigrants - -

api.theepochtimes.com/epochtv/states-start-giving-taxpayer-money-to-il.. - - The US currently has \$33 to 34 Trillion in national debt. This is roughly equivalent to \$100,000. in debt for each citizens. All these additional funds are simply being printed and added to the US debt burden.

SEE these video to understand the large scale of economic destruction occurring: US taxpayer dollars are being used to assist the migration, pay Mexican cartels, then shelter and feed these illegals, allowing them to fly, undocumented, to any US destination. Once there, taxpayer funds are again being used to shelter and feed these illegals. ~ ~ ~ ~ ~ ~ ~ ~ The best overview I heard on the economics: "BREAKING NEWS: Rand Paul Assails Foreign Aid Bill He Says 'Puts Ukraine First And America Last' - - youtu.be/dHluINVQrvl - - We have no money!!

Thanks for the links, rrealrose. Our mistake is to think of war in conventional terms - armies on battlefields fighting each other until one side is declared the winner. But modern warfare employs other tactics as we have seen - genocide through social isolation, suicide, medical interventions such as injections and ventilators, low traffic neighbourhoods leading to 25 minute prisons, impoverishment by fining legitimate travelling, energy and food price hikes, homelessness, and now uncontrolled invasion sanctioned by government traitors seeking to replace the population using taxpayer funds.

National cultures will be morphed into one - the only distinguishing feature - subservience to our globalist overlords. No other explanation fits the pattern of social and economic breakdown, fake wars, denial of nature, poverty creation, crackpot theories about climate, as well as the corruption of young minds into believing arrant nonsense about their gender. In our part of Treasure Island (otherwise known as the UK) it's not just boat loads of invaders (often at the mercy of criminal gangs), but passport-holding Chinese "students", housed in local authority sanctioned apartment blocks going up at breakneck speed in spite of well organised taxpayer objections.

Families arriving at the airport from who knows where calling the number of the local authority demanding benefits and housing, while the indigenous citizens languish years on waiting lists. The one world government conspiracy to invade our lands will never cease until we start resisting.

Yes? Conditions are baaad in any country flooded with young men. Saw a video of a man pushing a French girl on her phone, down the Paris metro steps at a station, the title read: "deported". The US has allowed in gang members, supposedly Venezuela emptied out their jails and sent their prisoners north! Ivor Cummins was complaining about buildings being taken over in Ireland. - - - Spent time online, finally found a few US Congresspeople calling for a bill to de-fund the UN's migration agenda. It may have been posted over the weekend, still losing my place in TwitterX., Whatever, the actual UN protocol is identified and called out by its number.

Conditions in the US did NOT start in 2021 with Biden's inauguration. Illegal immigration was going on during the 8 year term of our Community Organizer Pres Obama. This explains how and why migration camps were already set-up in Panama, the 61 odd NGOs offering assistance, instructions and payment systems were already in place by the time Biden took office. Assuming a similar set-up may be true for the HHS, State Dept and Homeland Agencies. My feeling is de-funding a UN agenda may not be effective as we may need to de-fund the entire UN, ask it to move out of the US. Will look for more specifics.

Senator Rand Paul is a bit like the UK MP Andrew Bridgen exposing the lies that have been spun by WEF puppets in governments and misappropriation of tax payer funds to foreign wars. I fear for the safety of brave critics such as Paul and Bridgen. Is there not something in the Constitution that prioritises how state money should be spent? Exactly the same thing on a smaller scale is happening in the UK. Local authorities have the responsibility of funding education and preventing homelessness. There is an almighty row just now about penny pinching budgets that fail to provide for children with special needs who are crammed into state schools with no learning support, no extra funding.

Special needs children numbers are continuing to increase while funding remains static or is under threat. How about removing subsidised canteens for MPs and reducing their inflated salaries to help fund these children's needs? In conversation with Joe Rogan, Brett Weinstein theorises on the (military?) agenda behind that other level of enforced "immigration" aka replacement of indigenous populations with Chinese immigrants who in the UK go by the name of "students" at woke Universities, presumably doing worthless Mickey Mouse degrees and for whom our glorious Council has provided numerous city centre blocks of flats, after ignoring both local tax payer objections and the homeless wandering the streets.

Will these apartments be the future urban prisons in the new age of serfdom in former republics and democracies? Rand Paul speaks on behalf of millions. youtu.be/aH4FNrJJhYk

yes, was looking at the massive spending in the trillions here, for combating climate change with little to show for it. Then massive spending on the UN and illegal migrant entries and subsequent housing and feeding. More massive spending on Ukraine for a war that cannot be won by Ukraine. Seems a recurring theme: spend spend spend, with no intention of repayment. Then wonder why infrastructure is falling apart, the mistreatment of war veterans. Haven't even gotten to kids, why the covid-19 shot is now on the childhood schedule, or how this is freaking out young parents. What happens if a black swan event occurs. Out of nowhere, fear mongering showed up about the San Andreas fault opening or some geyser in Yellowstone Natl Park erupting or a thin asteroid heading towards earth. Are these also attempts to distract attention each time something negative occurs to Biden's regime in Washington DC.

But what people really need to know is we are turning America into South America. Latinos are loud and the worst neighbors ever. I live next door to a smuggling ring as well. They live 30 to a house and like to party 17 hours straight with music turned up to concert levels. They seem nice to your face til the next morning you wake up to beer bottles strewn across your lawn. They do NOT want to learn English, they want AMERICA to be Mexico with all the American benefits. So let's now call America...Amexico. I am a Veteran, served my country and these non-English speaking people are forcing me out of my home because I do not want to live next door to the noise, the music. Imagine 15 kids every day starting at noon screaming and throwing a ball. EVERY DAY...or music 17 hours straight EVERY WEEKEND. I am not rich but the homes range from \$250,000 to \$500,000 and they managed to buy one. I am in KENTUCKY, Mitch McConnell's state.

It should be obvious to everyone that Biden is compromised. It's not a conspiracy! The reason The US Government is sending 3 times more money to protect Ukraine's border's than the USA's is because of Biden's money laundering with the corrupt government of Ukraine. Ditto with China. The reason he gets by with this is because the corruption is deep seeded! Most of the Democrats are in on it. Nearly every unelected official is in on it. All the so-called RINO's (Republicans In Name Only) like Mich McConnell are in on it. They all have one thing in common. THEY ALL HATE TRUMP! Seriously, 91 indictments? The US Government is a Joke! If Trump had committed even one of the crimes Biden is guilty of they would have brought back the firing squad and executed Trump in a North-Korean-Style firing squad and posted videos of it on YOUTUBE, and TikTok!

It really sad to see how far our country has fallen. We are in such decline I don't recognize once thriving cities. Our government is controlled by deep state global slaves. We think we have control after we see them fake a pandemic and a police killing to steal the 2020 election with a demented government lifer. Lord only knows what they have in store for us this election year. Grab your popcorn and enjoy the end of times for America. The most disturbing fact hidden in plain sight, a direct result of the open border, is slavery. We have more child sacrifice and human slavery in the world today than we did before the time of Christ. Yet all we are told to focus on is the discrimination. Question is who is being discriminated ?

Slow motion, accepted invasion by China. They are mostly military-aged men, very few women and almost no children. They are also building a bridge in Panama through the jungle, for which the purpose of is unknown by the locals, including the forman of the project. As conspiratorial as it sounds, sleeper cells are being planted in the country. We should expect an attack at a sporting event, concert or public gathering within two years. If you think covid restrictions were draconian, the new security measures that will be put in effect in the aftermath will make 2021 seem like playtime at kindergarten.

Fear of immigrants has always been a tool of power-hungry politicians. It's so easy to get people to fear "the other". As a longtime lover of liberty and small government, I have come to the realization that freedom is something that you cannot have unless you give it to others. That means everyone, no matter where they are from. All humans are born with the innate right to freedom of speech, freedom of religion, freedom of association, and every other freedom that does not impinge on the freedom of others. Freedom to move across borders is one of those freedoms that every harmless human owns along with life, liberty, and the pursuit of happiness. The border patrol tramples on private property as they claim to be protecting that property. They set up checkpoints one hundred miles into what is supposed "US territory" - the "Land Of The Free". They raid businesses even farther into that "free" land. It's National Socialism.

I could say so much about this ... First, I've been calling Abbott a coward for two years with his inaction on immigration when the Texas Constitution requires him to "Repel Invasion". Now he passes a state law to allow the arrest and immediate deportation of illegals. Why not two years ago? Second, for any company who hires illegals, the owners/CEO's should be stripped of their American citizenship and deported to Venezuela or El Salvador. Third, all these illegals who find work here are sending remittances back home through Western Union or other services (on Fridays you will see them in line at Walmart).

Those transfers should be taxed at 25 to 30%, just like our incomes are confiscated by the IRS. Fourth, and most important ... STOP GIVING ANY ILLEGAL BORDER-CROSSERS ONE SINGLE DIME OF TAXPAYER MONEY, STOP GIVING THEM FREE HOUSING, STOP TRANSPORTING THEM ANYWHERE, AND STOP THE NGO'S WHO ARE FUNDING AND COORDINATING THIS ATTACK ON AMERICA!! Fifth, chickensh*t Abbott must STOP aiding and abetting the invasion by putting the illegal aliens on busses and sending them to other cities. Ok - that's enough for now. Grrrrrrr.

If you notice the migrants coming from south of the border like Mexico and especially Venezuela the vast majority are in their 20's with kids in tow and many women are pregnant. How many elderly or 50-80 are crossing the border? In other countries you see many elderly making the journey but in all the photos on the evening news they are young. In my home state of Illinois there are busloads and plaes filled with migrants coming from Texas since Illinois is a sanctuary state but the citizens never got a chance to vote for becoming one. Here in Rockford, Illinois a plane full landed in Rockford last December and the migrants were shipped to Chicago immediately.

www.nbcnews.com/news/us-news/migrants-housing-crisis-chicago-eviction-.. Why is it that the 20-30 years olds are coming from Venezuela but the elderly in their 60's and up are not. How do they survive but the younger members cannot? Are those countries emptying their prisons and mental health facilities to come here? How many gang members from the cartels are getting here to start a new illegal drug supply chain? www.msn.com/en-us/news/us/chicagoland-criminals-expanding-enterprises-.. RFK is another bleeding heart...he has no idea the magnitude of damage of allowing millions of Hispanics into this country. People say, "But we were immigrants" but now there is a housing crisis in America, we are struggling to make it. What amazes me is, instead of helping our own citizens that are here, that were born here, we are housing people who belong in another country. We have 87 million Hispanic immigrants since 2010 and that was in 2020, we've gotten a lot more millions since then.

The over-medicated over-sexed, poisoned and dumbed-down American people no longer have any power or will and their elected officials no longer have any power, so to appeal to a cadre of bought-and-paid-for "leaders", whether high or low, is a lesson in complete futility! Sad to say, this has been going on for many decades, even before the World Economic Forum raised its ugly head. The shortsighted-ness of liberal politicians is bloodcurdling. They are self destructive and want to take us all with them. For instance the "solution" ventured by long term San Francisco politician Matt Dorsey... "It's time to withdraw the protection of sanctuary from undocumented immigrants trafficking fentanyl on our streets," Supervisor Matt Dorsey said Tuesday. Dorsey is proposing legislation to change San Francisco's sanctuary city policies to exclude undocumented immigrants who are arrested for dealing the powerful opioid. The legislation would deny sanctuary' to adults who have been convicted of a fentanyl-dealing felony within the past seven years, and re-arrested for another fentanyl-dealing crime or violent felony crime." San Francisco already stopped enforcing laws they have on the books and excluded several categories of crime from arrest or prosecution.

Where are gang members, psychotics and unemployed people desperate for any kind of income going to go once they step outside of San Francisco limits, if in fact that ever happens? Will legal residents continue to sell drugs and have it delivered to them by illegals who live outside of city limits. Will people evicted from San Francisco be causing problems elsewhere in the state(s). Thousands of unemployable people are living on the streets of California and unaccountable NGO's continue pumping hundreds of thousands more illegal immigrants across the border.

Where do you think they are going to go? Dorsey is a goofball democrap of that particular San Francisco variety (think Pelosi) and has been active in SF politics for decades. He's one of the guys that created the problem and will now attempt to shift the blame and the cost onto taxpayers struggling to make ends meet in an increasingly inflationary economy. Robotics, artificial intelligence and growing foreign manufacturing economies are turning the U.S. economy upside down. Be prepared for money printing and inflation.

Take a look at the interview that Tucker Carlson did with Brett Weinstein. Brett is a prominent biologist and early COVID vaccine skeptic who travelled to the Darien Gap to see the immigration crisis firsthand. The Darien Gap is a lawless 66 mile stretch of dangerous jungle and mountains that sits between Panam and Columbia. It's the only gap in the Pan American highway that runs the length of the American continents. The journey for most non-Latino migrants starts in Ecuador, because they don't require visas for anyone coming into the country. From there they head north and eventually encounter the Darien Gap. No one makes it through the Darien Gap unscathed.

Everyone is beaten and robbed, and the women are raped multiple times before making it through. There are massive camps on the Panama side of the Darien Gap for people to recover before continuing their journey north. Who pays for these camps? You don't need to look any further than the water tanks and toilets to see that they're provided courtesy of the U.S. government and a U.N. agency. The lucky people at these camps can contact relatives to send them more money by Western Union. They can then take a bus right from the camp to the U.S. border. The unlucky ones have to continue their journey on foot. The most interesting thing though, is that there are separate camps for Chinese people.

Unlike the other camps where Brett was allowed to go in and talk to people, he wasn't allowed to go in and the few Chinese people he encountered on the street wouldn't talk to him. Also unlike the other camps, the Chinese camps were almost exclusively filled with "military age men". There were hardly any women and absolutely no babies. The Chinese people also hadn't been brutalized the way traditional migrants were, because they could afford to take boats around the Darien Gap. So why are these Chinese men coming into the U.S. and why are they taking this indirect route when there are more efficient ways to get here?

I'd say he's correct. Think if all Americans were like him, we could all say it's all good and mean it. Generosity is the sign of an advanced spirit.

Yes but the Chinese men will need to find some kind of women.

I have a friend who was a very wise US Army Colonel, who directed the Egyptian forces during Desert Storm. One of the things he said to me was that the U.S. as a country has never exported democracy. We import and export products but not the concept of democracy. I do understand the heartache of those who wish to come to this country and live under oppressive conditions. But if our democracy is so enticing, then global change needs to happen and democracy needs to be exported as a concept, taught, and implemented. This reminds me of another friend who volunteers at 2 food pantries. One is a small operation and scrapped together by the church volunteers.

The other is a well run operation and is big with a few paid employees and connections within the community. He would rather work at the larger one because it was nicer with more resources. I challenged him and said "the larger one can survive without you, so why don't you do what you can to help the smaller one who really needs it?" People gravitate to where things are good. There is no incentive for people to stay in their own countries and try to implement humane democracy. The US could be a mentor to other nations but we are also seen as a bully. Is there a solution?

Mayhem and war are big business for the psychopaths running the show, and they're a growth "industry".

The question has to be WHY... The answer is based on " an offer you cant refuse "...Code cliché not for The Godfather, but for The Nine Eleven Cabal.

Bigfletch - not even a question anymore - clearly it is the replacement of the original (or second set of original...) population. They are thinking these newer immigrants will be a more pliable population willing to do their bidding...without questioning anything....Why would they?? when they get money for free - so later when government will cease to provide the free money....anybody guess what these people will do....certainly not working diligently. Just need to read the news from Europe, knifing robbing in broad daylight attacking peaceful (local) people on the street just...out of boredom? just because they can? or because drugs.... Australia as well - knifed a grandma in front of her grandchild in broad daylight in a shopping center parking - just for fun...and so on.

Watch the Tucker Carlson interview with Brett Weinstein to get knowledge of what is really going on. Brett and his son went to ground zero of the border crisis, the Darien Gap in Panama.

Every one of these scumbag politicians allowing our country to be INVADED, including that illegal occupier of the White House should be tried for treason & upon conviction, the most extreme punishment should then be carried out. No mercy for any of them. That video made me want to vomit all over them. Check out Muckraker.com & follow Michael Yon for more complete updates, & the nausea that comes with it.

Within the last week Dan Bongino stated that Jobydin is just an evil person overall, period. Always has been. The hair sniffing is just the tip of the iceberg. Keep in mind he met Jill when he was 30 and she was 12 babysitting his children. Also keep in mind Bongino worked for Secret Service and FBI and still has friends there with reputable stories to report to him.

Has anyone reported on US passports being given to these migrants? I had an encounter recently on a plane with a clear FOB, couldn't speak English, couldn't figure out how to find his seat on the plane. Yet in his possession was a clear file folder with some papers and a United States passport. I have yet to hear of anyone looking into this besides the fact that these migrants are getting money, flights, clothing, food, housing provided at taxpayer expense.

USA is the laughing stock of other countries that can see what's happening but our citizens can't or don't see what going on! Our country is being destroyed by our own people (crime) and inviting immigrants illegally in droves to add to social problems (drugs/crim) what does that tell you? Our states can't even solve many of its own social issues and given free services to these illegal immigrants (with our taxes) without having given priority to US citizens how crazy is this? What's wrong with President Biden and all his supporters? All he cares about is his legacy that he became a US president and given the Democrats all the advantage it wants (votes). Some sanctuary cities (in New York) are now realizing they can't handle the situation! Biden still can't see what he's doing!!! Doesn't Jill see it?

Biden has destroyed the U.S. as a "sovereign" country with his open border that has killed a quarter million American citizens from the Chinese made fentanyl flowing across that open border. And how many will be killed in the inevitable terror attacks from the jihadists walking across that open border? Hundreds on the terror watch list. And that's just the ones we know about. How many in the million plus "gottaways". Over 73,000 "special interest" muslims from countries that hate us. Now tens of thousands in a cadre of single military aged Chinese men. What are they here for? Then there's the once eradicated diseases like smallpox and tuberculosis increasing rapidly and Venereal Disease and, of course, more COVID from the 10 million unvetted and unvaccinated, uneducated illegals walking in.

Then there's the 120 Billion dollar cost every year for their housing, their medical and their children's education. A cost that will only increase exponentially as the illegals will be have children at 3 to 4 times the rate of the existing population. Destroying the country all because the Democrats believe that the immigrants will keep them in power in perpetuity. Have you had enough yet America?

This is probably being orchestrated at a very high level, for a set of purposes. To start with, Biden is likely a wef puppet, and he does what he's told. Greed seems to be activating the human trafficking, which is to be expected in a fallen world such as our own. But Pride (on the part of the wef) looks to be coming more prominent: they don't like the US, culturally; so they're drawing in all these people ("immigrants") in order to weaken the cultural foundations. They are attacking on many fronts.

Well it is obvious where most of the responders to this message stand. I think Texas is wrong, wrong wrong. I sure don't want to see people including children dying because help was restricted by Texas law. Aren't you all fortunate that you don't live in a country where torture, poverty, random killing for thinking differently etc. are so dire that you seek a safer place to live. Why on earth did the immigration bill written by republicans get a rebuke. Don't tell me they really want immigration reform especially when their crazy mentally unstable leader says don't consider it because it won't help me win in November.

There's a reason our country is safe. We historically didn't allow criminals in. Now people like you want to change that. Stupid.

Wow! Do you actually believe these invaders are the meek, innocent downtrodden??? Wait until you see the evil they will wield against Americans. But I guess that will be ok as long as it's not in your backyard, right?

Unfazed by an armed border agent standing nearby? How about the 2 Border Patrol Checkpoints near me that have been closed for 2 years. Or the largest one which opens every now and then. The rest of the time, there are over 100 empty parked DHS cars just rotting away. A crisis would be if the Border Patrol was doing their job and were outnumbered and overwhelmed. Not even being on duty is defined as a travesty. Also, it is not an invasion when the red carpet is rolled out and everybody is welcomed in. That's the definition of an invitation.

I guess they've been told to look the other way. Half of the politicians are Hispanic so they want to be the majority in America.
