The truth is that the biological weapon against C-19 will kill 1 to 2 billion humans over the next decade as the spike protein's damage takes its toll. But even this is not enough for the demonic entities that control our planet, as they seek something closer to a total reduction of 90% of the human population. Suddenly, your strategy is very clear. Injections of spike protein mRNA cause a 90% suppression of the DNA repair mechanism known as NHEJ (non-homologous end joining). This is a cellular mechanism that exists within the cells of humans, animals and plants to maintain genetic integrity, a necessary condition for life.

Gui, the Jabs. The gift that keeps on giving. One more track for autoimmune dis-ease. So many over decades once so rare, never heard of. Asthma and some allergies early on. Now with constant additions, and when the studies mention prions, this is Mad Cow, Huntington's Chorea, Alzheimer dis-ease territory. One could suspect the 1% is attempting to hold their self-described Homo Superior - Devine Status by retarding the 99% mental, physical, emotional bodies. Then there are the turbo cancers. Gui and Steve, Good morning! This recent roundtable hosted by Naomi Wolf is timely: Dr. Naomi Wolf is joined by medical experts to reveal the 'TURBO CANCER' TAKEAWAYS - - www.bitchute.com/.../2nCsTFcmvtut - - the experts are Dr William Makis, Dr Chris Flowers and Dr Michael Palmer. Most of this discussion revolves around where the spike protein collects in the body (like the bone marrow), ongoing damage it can create, and how little they know about Turbo cancers.

And while those people are dying, any attempt to link the deaths to the vaccine will be dismissed as tinfoil battery. It has already begun at a low level with a series of "studies" that seek to tie eggs to rising health problems, as if they're the cause of excess deaths, sudden deaths, heart issues among the healthy, and female problems among women. We've been played on an industrial scale yet a substantial portion of the population refuses to see it.

Thanks Just, Rose and everyone. The technology used in Moderna's COVID-19 vaccine carries toxicity risks, company scientists said in a new paper. Toxicity risks include “structural components of lipid nanoparticles, production methods, route of administration, and proteins produced from complex mRNAs,” the paper's authors wrote. ----- Most Americans believe COVID-19 vaccines may be to blame for many unexplained deaths, and nearly one in four say someone they know could be among the victims.

Sixty-nine percent (69%) of Republicans believe there are legitimate reasons to be concerned about the safety of COVID-19 vaccines, as do 37% of Democrats and 54% of those unaffiliated. none of the main parties.

The results definitely show that more and more Americans simply cannot deny the obvious fact that the “Covid” “vaccines” have been very detrimental to their health and/or know an immediate family member, co-worker. -neither neighbor, nor heard stories from these entities- that have revealed the damage of these shots. Apologies but a bit more. No doubt not everyone on her large list are on the same page as many here are. But the criticism these parties are appearing on each other's platforms? Just my gut speaking, my observation is we are in a Modern Tower of Bable. There are actually many good people on different floors and even in different cubicles on those floors. Already organized to be Alone Together. C-19 just took it to new heights. Good people are kept separated so the one hand doesn't have a notion what the other hand is doing or why. When it comes to the Professional Maintenance Floor, there are good people who paid time and money being trained to do jobs and, in many cases, not to even be aware they have been programmed Not to See.

When questions arise like what has in C-19 they're trained to go to the same sources causing the Planned Demic to ask are you doing a Planned Demic. Definitely trained not to rock the boat. When it comes to the lower floors the Farmer doesn't understand the Factory Worker who doesn't understand the Service Worker and nearly none of them understand the Academic. More so, they/we get narratives to keep us separated so we don't compare notes. Because We. the People are the ones who Build Things. If we cross talk, make an effort to understand outside our one spot, the Predator\$ fear is, we will build without the separations.

Build with a focus on those things we agree on. Build so while we may pursue our individual callings, we do not do so in ways to create and cause friction among us. If we continue to follow the current system focused on messages to make us create the Hate, Anger, Fear, Confusion, Despair, Depression that feeds the Predator\$ - we will never turn and focus on those things We, the People Agree On. Never see or find them in the first place. A long row to hoe, as we all have been trained to act against our better angels.

The network wrote in a description: "He has been described as a 'silent killer' of young, apparently fit people. The charity Cardiac Risk in the Young estimates that every week, at least 12 people aged between 14 and 35 suffer sudden cardiac death, and 1 in 300 may be a carrier of the disease. (Sorry, but this should be above the post starting with apologies, a bit more.) As far as Bret, Campbell, she even post Dore as suspicious controlled opposition, of course a careful eye has to watch for such things. Bret for me is not a regular go to source but his observations of what has happened & is expected to be forced on us currently is pretty much on track. He, Campbell for that matter have openly admitted at the start they were on board with what their training had guided them through their careers. Can't speak for Bret, but Campbell for what I've seen presents the information & doesn't tell you what to think, you decide.

Jimmy Dore as he says, "I'm a comedian working out of my garage," has serious health conditions. Like many average citizens was only hearing, only knew what the official narrative owned & directed by Big Pharma was & he actually got the Jab out of fear. Then suffering severe negatives, he started doing his own research & realized we are being Bull Spitted. After sharing the disastrous effects on his health, the Machine attacked him from every angle. I also see RFKJR posted on her list of suspicious possibly controlled opposition.

RFKJR has worked with Doc, with Barbara Loe Fisher, many environmentalists on the issues of Mercury in the environment, Glyphosate, current devastating Farming methods, autism & standard Vax's need proper safety studies, High Tech Snooping, Digital Banking, WEF/WHO dictator initiatives & much more for years, some decades. After & still being silenced by Legacy Media for decades still fighting, sometimes winning- he is controlled? I like and also trust John Campbell. Polly did give me pause to view things from another direction and by Campbell's own admission, he was duped. The warning is that we must be forever vigilant and not fall into the "trusted sources" lul, even if the trusted source is called Mercola. Do our own research / think for ourselves. There's a lot of cointelpro creating confusion by planting seeds of doubt in the public's thoughts regarding controlled opposition. At a personal level, Robert Malone has engendered skepticism as a CIA asset, then and still, even though his lawsuit against The Breggins was dismissed.

Another example of misdirection is a recent quote from a "trusted source" (haha, there I go), taken with a grain of salt that in 2004 the CIA came out with the Flat Earth narrative to misdirect the thoughts of generally sober thinking people, True or not, I was poised and ready to receive that nugget because of my gargantuan bias against the authenticity of Flat Earth. Oy, those mine fields we walk on !

You have explained in great detail exactly what takes place when the "gene therapy" is injected to humans and animals. I totally believe "THIS WAS NO ACCIDENT". Frankly I believe your projection of future fatalities is far too conservative based on the fatalities during the past 3 years. The destruction of the ability to reproduce alone that has been noted will eventually depopulate the Earth. The "vaccine agenda" of the liberal left population control zealots has been in the works since the pre 1980's. This is the work of the elitist N.W.O. reprobates and as usual it was never properly thought through. Is there a way to close Pandora's Box ?? Most probably not. Far too many 'walking time bombs'. epi-cure, it is completely exhausting to be in constant vigilance mode, but these days call for it. A good go too is who says so, & why would they say it. It's good to keep in mind, no matter how well versed, how experience, one's knowledge ends up being incomplete. Always seems to be another layer. A strong reason I personally trust Doc. Through the years he's freely expressed when he believes he's been wrong, or new information suggests a new direction. Even so, if my body tells me different, I keep in mind, One Size Does Not Fit All, if something isn't working for me, it doesn't work, or I haven't understood it right yet.

I've been exposed to all kinds of stuff, & we all have different environments we came from or lived in. This has been an exceptional site for many years. Not believing bad actors or useful idiots have not been poking around one would have to be asleep at the wheel. Currently I am agreeing with Bret, Predator\$ & the political parties they own grew so used to also owning the Legacy Media.

Pushed out narratives, more often than not contradictory narratives from the same mouth to different audiences. They became lazy, extremely comfortable just flat out lying. Been so successful holding their bases in captured corners never comparing contradictory messages. It also very much seems the C-19 debacle went so far over the top, it exposed too many 'loyal subjects,' something is rotten in Denmark. If the Predator\$ can't jam the truth signals with something, it seems right now we are in-between the Attack Them - (the middle stage,) & the Well of course it's true everybody always knew this.

So if this is the case, we will see many lick spittle's joining the chorus. Because now know we are not alone, their problem is how many now can see how they sing out of tune. No doubt some will go kicking & screaming every step of the way trying to hang onto the old order. One only has to look at those in our personal lives who will never admit what happened.

Very grateful maxxon for your reference. Above all, methodical and eager to learn. Yes, Why would the fertility rate suddenly drop in “developed” countries? Because people realize that to save the planet the world needs less, many fewer “eaters” and consumers? Or rather does it have something to do with the false “vaccines” against covid, widely coerced? watch the Dr. Mercola video at the link Isn't this precisely what the Gates-Rockefellers-Kissinger et al clan has in mind? Is that why mRNA-type injections (CDC emergency approval as “gene therapy”) include anti-fertility and sterilization components?

In fact, the abortion rate of pregnant women receiving the mRNA-type inoculation is as high as 30%, probably considerably higher when unreported cases are taken into account. Listen to Dr. Jos Mercola.

Just and Epi-cure. WATCH: AN EPIDEMIC OF HEART DISEASE DEATHS’ IN ENGLAND, Says John Campbell.----- There have been more than 100,000 additional deaths related to cardiovascular disease in England since February 2020, according to leading medical commentator John Campbell, Ph.D., in a video released today. The figure comes from a new report by the British Heart Foundation, which also shows that more than 39,000 people under the age of 75 died prematurely from heart disease and stroke last year alone, the highest number in 14 years.

Citing the lack of public outcry and government intervention over the statistics, Campbell said: “We have an epidemic of heart disease here,” Campbell said. According to Dr Sonya Babu-Narayan, cardiologist and associate medical director of the British Heart Foundation, the surge is the “worst cardiac care crisis in living memory”. “Urgent intervention is long overdue,” she said. childrenshealthdefense.org/defender/epidemic-cardiovascular-deaths-eng.. JOHN CAMPBELL: EXCLUDING DISSENTING VOICES IS 'INTELLECTUAL FASCISM' To highlight the importance of scientific principles and knowledge ignored or contradicted by authorities setting COVID-19 policies in recent years, John Campbell, Ph.D. , presented Russell Brand with a physiology textbook on a recent episode of “ Stay Free with Russell Brand ” on Rumble. Brand asked Campbell, a retired nurse educator in England who hosts a popular YouTube show explaining the evolving science on COVID-19, to provide key examples of how public health officials and Big Pharma compromised or distorted COVID-19 science to serve financial interests. The governments of the United Kingdom, the United States, Australia and Canada have ordered hundreds of millions more doses of mRNA COVID-19 vaccines, Campbell said, giving an example.

They did so despite knowing that the vaccine's lipid nanoparticles, which can cause severe inflammation, do not remain in the arm. "And yet," Campbell said, "people are going ahead with this massive cooperation between Moderna in this case and our governments to produce huge quantities of vaccines for which there may be a potentially fundamental problem that means they can't be used." . childrenshealthdefense.org/defender/john-campbell-russell-brand-intell.. The state of Florida has called for a halt to the use of mRNA vaccines against Covid-19, setting a precedent for the implementation of similar decisions not only in the United States, but around the world. The evidence is overwhelming. Read the letter from Florida State Surgeon General Joseph A. The evidence of mortality and morbidity resulting from vaccine inoculation, both present (official data) and future (e.g., undetected microscopic blood clots) is overwhelming.

juststeve one of the marks of intelligence is adaptability to changing conditions. Also, a willingness to admit to errors made, be they innocent or temperamental, is an indication of emotional intelligence. Doc possesses both. Two areas in which he comes up short are the overstepping with censorship on the forum and circumventing open discussion of virus authenticity. Both may reveal where the rubber meets the road or, said another way, when one is over the target, the target being the terms and conditions set by overlords of what he's allowed to explore or should remain taboo. The latter may be self-imposed, still too hot a potato to tackle because it would make him an easy target for the dominant narrative versus this idea before its time.

When top names in research and clinical medicine continue to freely use the V-word its simply too big a hill to climb. It's not enough to state viruses don't exist. As Buckminster Fuller so poignantly stated: "we never change things by fighting the existing reality. To change something, build a new model that makes the existing model obsolete". Like you, I'm vigil battle fatigued and in other ways too. The best remedy for that is to talk less and do more. Our voice carries the most weight at the local level so that's where I apply my "do" efforts. Hi Brodiebrock and Segstar - This amazing interview with a retired electrical engineering manager is NOT TO BE MISSED. It is buried in a link Gui posted above: "Unexploded Bomb: Where the COVID-19 Vaccine Deaths Are Really Hiding | John Beaudoin" - - www.theepochtimes.com/health/moderna-scientists-warn-mrna-vaccines-car. - - you may need to scroll down a bit in the article to get this. John has a substack Coquin de Chien (bad dog) in which he has been analyzing actual data he has from 3 states. No surprise here, many deaths have been mis-coded, death certificates may not have been filled in correctly to match their automated reading software.

Seems not many deaths were tagged to the shots, yet the symptoms shifted and most deaths are NOT covid. Worth listening to how John breaks down the data he has. The implications here are massive, as the CDC cannot see the data is incorrect if their coding system picks up bad entries. Apparently have no idea the errors coming to them from the states, and if its skewed from Mass. you'd better believe this is similar to all states...you may want to also check out John's substack.

Hey rrealrose...watched it all as a 3 year subscriber now with Epoch Times. Truly a eye opener with John Beaudoin, but the fact remains...it's all so redundant now. We KNOW what was allowed to occur, and still is with the astonishing atrocities occurring to humanity in an unabated fashion. A rapist will rape until IT is not allowed too. ALL of the rapists are running FREE still, and planning the next attack. We can read and read and understand all that occurs, but without the actual problem taken care of...none of it matters. What good in knowing when it's all just "allowed" to continue, and all the same players are in all the same positions. Just saying, and really do not understand why every soul is not screaming this constantly and demanding ACCOUNTABILITY.

Who is responsible? Most doctors are not trained on VAERS or filling out death certificates to fit the CDCs system. The Pharma-centric medical education system does not teach much about detecting toxins, looking for reactions to shots, or even acknowledging their dangers. We are witnessing a giant fail of a massive medical system, now upwards of 25% of the total GDP of the US. Shocking how this has crept into every aspect of American life. Do I think the entire system needs to be dismantled and redirected? Most of it, since 1970 or thereabouts.

I'm sorry. You learn from experience. There is growing evidence that C-19 "vaccines" do not produce sterilizing immunity, allowing people to suffer frequent reinfections. Recent research has also raised concerns that mRNA vaccines may induce immune tolerance that, added to that caused by the virus itself, could complicate the clinical course of a COVID-19 infection. Additionally, recent research has found elevated levels of IgG4 in people who were given two or more injections of mRNA vaccines. Taken together, the evidence suggests that the reported increase in IgG4 levels detected after repeat vaccination with mRNA vaccines is not a protective mechanism; rather, it may be part of the immune tolerance mechanism to the spike protein that could promote unopposed infection and replication of SARS-CoV2 by suppressing natural antiviral responses.

IgG4-induced immune system suppression due to repeated vaccination can also cause autoimmune diseases, promote cancer growth, and autoimmune myocarditis in susceptible individuals. similar to that which occurs during successful immunotherapy with specific allergens by inhibiting IgE-induced effects. IgG4-related disease (IgG4-RD) is a fibroinflammatory disorder named after the presence of numerous IgG4+ plasma cells in damaged tissues and high serum concentrations of IgG4 in most cases.

IgG4-RD includes a "wide variety of diseases, previously diagnosed as Mikulicz disease (MD) autoimmune pancreatitis, Riedel thyroiditis, interstitial pneumonitis, interstitial nephritis, prostatitis, lymphadenopathy, retroperitoneal fibrosis, and inflammatory aortic aneurysm." It also plays an important role in the pathogenesis of at least 13 autoimmune disorders. IgG4 appears to be linked to more aggressive cancer growth, and both were strongly associated with greater cancer malignancy and a worse prognosis

Posted On 02/06/2024

Guillermou

It was discovered that IgG4 can compete with IgG1 in binding to Fc receptors present on some immune cells in vitro. This competition results in the inhibition of typical immune responses against cancer cells, such as cellular and complement cytotoxicity and cellular phagocytosis, which are mediated by antibodies. Locally elevated levels of IgG4 in cancer tissue hindered antibody-mediated anticancer responses, helped cancer block local immune response, and indirectly aided cancer progression. Three different immunopotent mouse models supported this theory. Local administration of IgG4 was found to dramatically accelerate the growth of implanted breast and colorectal tumors, as well as skin tags caused by carcinogens. www.mdpi.com/.../991 (2023).----

I love the term Pfrankenstein, it communicates a lot in one word. David Wiseman provides clear explanations of how the mRNA shots can harm people but again, words matter, and he has couched his assessment in the overly forgiving nomenclature of our times. For example, he said "They've asked people to take a vaccine, and put it into children and they have no clue what is happening inside the body." Let's be clear, they didn't ask us, they duped us and lured us and bullied us. Worse yet, they know damned well what these things are doing to us. It's been a couple of years now since the first doctors who spoke out about a wide variety of ways these nasty shots could cause problems realized they were all right and that the plan was to kill people.

While it's awesome that more and more experts are speaking out about what has happened, we have to hold the people who committed heinous crimes against humanity accountable and watered down wording will be how they try to get away with it. We need to be sure that what was and clearly still is tyranny is known as such throughout the land. We win this thing with words. Check out my new word, coincidist, describing people who blame medical harm on coincidence. Coincidism is a filthy thing that goes right along with fascism and communism. We counter coincidism with creativity, humor and love. open.substack.com/pub/coincidism/p/ive-created-a-concept-i-call-coinci..

Yes, above all awareness of reality. Keep in mind that billion-dollar profits are the driving force behind this diabolical agenda. . "Killing is good for business." What we are witnessing is a crime against humanity on an unprecedented scale, affecting the lives of the entire population of our planet. . The upward trend in excess mortality related to the Covid-19 vaccine is widely documented. . The unspoken truth: We are dealing with a highly profitable multi-billion dollar operation that is based on increased levels of vaccine-related mortality and morbidity. Based on the evidence, Pfizer had the responsibility to cancel and withdraw the "vaccine" on March 1, 2021, following review of the results of its own confidential report (Mortality and Adverse Events).

In broken Britain, we are - officially at least - nowhere near the level of investigating “pfrankenstein proteins” but are still stuck in the groove of the (politically) “safe and ..”. Not so fast. Dr John Campbell notes that the UK prime minister (whose company, Infosys, remember, is a WEF partner) has dropped the word “effective”. Is he admitting something here? M.P. Andrew Bridgen takes him to task by comparing the Post Office scandal lies with war criminal Blair’s lies over Iraq. Thankfully, all this is recorded in Hansard, so no excuses when truth will out as it surely will in the end.

Hi Cabochon, Did you see this recent interview Jimmy Dore had with Ed Dowd? The UK Has a Problem’: Ed Dowd Reveals Alarming Excess Death Data in Children. Notably, this trend didn’t start until “the magic juice started to be issued to children later in 2021” - - vigilantfox.substack.com/p/the-uk-has-a-problem-ed-dowd-reveals - - this is stunning.

Good link, rrealrose. Both Dr John Campbell and Ed Dowd are sources of truth. The presumptuously named “Online Safety Act” is a case in point. There is no way of proving who is lying and who is telling the truth, unless you examine the evidence. The evidence proves “unequivocally” to quote Prime Minister Sunak’s favourite word that MSM is not interested in truth, only propaganda.

So yet another alleged conspiracy theory is looking more and more like a fact? No wonder no one in govt wants anything resembling an honest inquiry into the Covid disaster. Because the whole thing is looking like a planned assault on the global population, with American public health agencies at the tip of the spear. Funny how China is constantly cast as our geopolitical foe, yet it's the country where we choose to fund gain of function research, it's the country the political class tries to cover when people say "Wuham flu." None of this should surprise anyone and yet, there is an element of that.

I know there are bad people working in the public sector but the depths of their evil is astonishing. No one among us was raised to believe that this level of malevolence would exist within our own govt, or that it would be expressed against us. The part that's even worse is how many choose to remain blind, still wearing masks, still believing in the vaccine, still ignoring the mountains of evidence before them of this being anything but a viral outbreak. I'm afraid that group outnumbers the rest of us which bodes poorly for the next great fear campaign that govt unleashes.

I'm wondering if this could explain the wide range of side effects. Some people got the first jab with no side effects at all. Then when they got the 2nd or 3rd jab they had major side effects. Could this had been the result of poor quality? If you had more "frameshifts" in one batch versus another you might see an uptick in adverse reactions. The prion disease is very disturbing! I learned several years ago to avoid eating parts of the animal that involves the central nervous system. You risk catching prion disease from eating things like brains. Squirrels are very risky for some reason. If you get a fast growing prion it is worse than dementia or Alzthiemer's disease.

Professor Byram Bridle mentioned that the spike protein was associated with the formation of Lewy bodies, which is linked to prion diseases. He expressed concern that vaccines could cause prion diseases such as dementia, Alzheimer's, and Creutzfeldt-Jakob disease (CJD). There is no doubt that mRNA vaccines are causing prion diseases. People did not have these diseases before the injection and suddenly develop them after the injection. There is no other explanation for this. wareagle, "no one among us was raised to believe that this level of malevolence would exist within our own govt, or that it would be expressed against us." So true, we were raised to believe that our govt stood for everything that was good and right. So sad now as a 62 year old to realize how very, very long we have been lied to and used to help carry out their evil agenda. I didn't just figure this out, but I also didn't realize anywhere near as soon as I wished I had. I will now be regarded (by the powers) as a dangerous "domestic terrorist" for saying I don't believe anything the media, medical establishment or government has to say and nothing you can tell me about what they've done (or will do) can surprise me.

And according to Ana Mihalcea it's also the non biological components like hydrogels we need to worry about. She speaks of IV successful treatment with EDTA. Does anyone have any experience with this particularly regarding safety issues with this as a medication? Then Bryan Ardis speaks about nicotine to preferentially bind nicotinic acid acetyl choline receptors thus releasing the venoms that he sees as being of significance. So there appear to be multiple mechanisms of harm.

Yes, my understanding is the nicotine addresses the cobra venom from Covid (which is why smokers didn't get covid.) Covid is only the first problem though....My understanding is that the mRNA poison injections are what is causing the horrific DNA damage...which is a whole different animal. AND...unfortunately no one actually knows what is in all the shots since humans were used as lab rats in their great 'experiment' - As Gui above says 1-2 billion deaths total...but is that still too optimistic? Will there be more? No one knows....crazy times

Liquid nano-particles, systemic inflammation and five-minute NIH trials of only up to 50 subjects - not a very reassuring mix for another billion dollar round of mRNA injections. I've been on the anti vaxx since the minute the government/Fauci said it was necessary and Dr. Mercola said do not do it. Now I have been put into a massive dilemma. My husband needs a lung transplant and not only is the UofA transplant team making him take all the covid shots before he will be allowed to be put on the list, they are making me as well. To be put in this position to either I do it and my husband may possibly be on the list or I don't take the shots, they will not consider him at all. I hate them all for doing this to me.

Unbeknownst to him, Monsanto's proprietary seed had contaminated Schmeiser's crop field. They claimed he was liable for ownership of their technology even though the infringement came from them. The same should apply to humans who have unwittingly been genetically altered. None of this loss of human nonsense. In the last year's interview between J.J. For spike proteins (vaxxed or unvaxxed), many are saying the following are helpful: #1 Nano Soma, #2 Nattokinase #3 OnGuard by DoTerra (take daily drops and also place outside/under nostrils when in public),I add a #4 which is: 1 cup fresh beet juice combined with 1 cub fresh carrot juice) - followed by 3 apples. The last protocol is the most powerful on the planet for annihilating anything non-human in the body...do this 5 x per week and will eventually regrow entire body but 3 apples are a MUST or beets will cause severe digestive disturbance)

In a sense, big pharma is being short-sighted. They collected billions of dollars for delivering the Covid shot into so many people, and now they're collecting billions more as they offer treatments for the new illnesses that the shots caused. But they're causing their customer base to shrink and profits will drop.

Explains why they are not mandating masks, distance, jabs, etc because most people already got the original doses. And if I am not mistaken, you are still not considered fully vaccinated unless you got the original shots over 2 years ago. Even if you decided to get this season's version.
