Kennedy, Jr.'s record for many years going up against Corp Corruption and WINNING tells me he will do what he says. I don't agree with him on everything but there is no one I agree with on everything. He does come closest to my views. He has made it CLEAR he is totally against the WEF's agenda including against their Climate Control agenda. He is risking his life exposing some things. Biden will not even give him SS protection which IMO is pathetic. Of course some in his family are against him with some of them working in the Biden Administration. Kennedy, Jr. is the only one I'm voting for!

We don't even have people in Washington who even pretend that you're supposed to." tell the truth," Paul said during a recent interview, shared by Jones, about the true state of the union. Paul would continue in the segment criticizing congressmen for lying on their resumes to get hired for public office, as well as lying while swearing to defend the Constitution, which almost none of them do.

"I think there has been a coup d'tat and it has been assumed," Paul added, clarifying that he believes the real coup occurred "the day Kennedy was assassinated by our government, by the CIA." Kennedy was threatening the deep state at the time with promises to return the country to sound currency, i.e. no more usurious fiat currency controlled by a cartel of private central banks, i.e. the Federal Reserve. To this day, that blow has persisted and has only become more direct as more and more Americans throw up their hands in apathy.

"Event 201 was a pandemic simulation, a coronavirus pandemic simulation, that took place in October 2019. No one had heard of the coronavirus until January, so three months later," RFK Jr. explained. The American people and the entire world need governments to defend freedom of expression. This freedom of expression has achieved a great victory for the Canadian trucker demonstrations. In a statement provided to The Defender, lawyers for Canadian Frontline Nurses said: "We are proud to be the party that initiated the application to the Federal Court challenging the government's invocation of the Emergencies Act in response to the Freedom Convoy protest.

childrenshealthdefense.org/defender/canadian-truckers-big-victory-trud.. (01/24/2024).---- Strange experience watching the House hearing where Robert F. Kennedy Jr.

was testifying. The topic was censorship and how and to what extent federal government agencies under two administrations forced social media companies to remove posts, ban users and limit content. The majority stated their case. The strange thing was the minority reaction at all times. They tried to shut down RFK. They proposed going into executive session so the public couldn't hear the proceedings. The effort failed. They then yelled at his words when they questioned him. They savagely slandered and defamed him. They even started with an attempt to prevent him from speaking, and eight Democrats voted for that. This was a hearing about censorship and they were trying to censor him.

Think about that for a second. Just made the point clear. It's in the First Amendment for a reason- It became so dire that RFK was forced to give a brief tutorial on the importance of freedom of expression as an essential right, without which all other rights and freedoms are in danger. Even those words he could barely say given the rancor in the room. It is fair to say that freedom of expression, even as a fundamental principle, is in serious trouble. We can't even reach a consensus on the basics. dailyreckoning.com/kennedy-schools-dems-on-free-speech (2023).----

to ZTFZTF. RFK Jr. is PART of the Deep State. He may reverse a few issues, but he cannot crush the Deep State since he is part of it. A few good views don't offset his promotion of gun control, to remove OUR only means of protecting ourselves against the Deep State, nor his schizophrenia supporting the right of SOME children to be free of deadly vaccines while throwing OTHER children in the trash by supporting the "right" of abortionists to slice them apart with knives. It has always been the case that some human beings are found to be less than human so we can oppress, enslave, and kill them. RFK Jr has proven that he is not exempt from this. It is no better than if he said people with dark skin are not fully human.

He thinks the tiniest children are not fully human. That makes him ineligible to run for DOG CATCHER, let alone President of the United States. WEF and the Deep State want to cut the population in half. How can he oppose WEF while supporting one of their main means of carrying out this goal? Finally, RFK Jr is not interested in protecting children from being mutilated in service of the myth of being born into the wrong body. He denies the fact that one's gender is in the DNA of EVERY CELL OF THE BODY and that no amount of surgery and DRUGS (yes, drugs!) can change that fact. Ignorant of basic biology. We don't need someone with that fundamental level of ignorance in the White House.

MMaster Bobby's views on gun control he said IF BOTH Republicans and Dems pass a bill he would sign it which I doubt would ever happen and he probably thought the same when he said it. You did hear when Trump said out of his own mouth when he would take their guns FIRST and due process second! It's easy to find. As far as abortion seems like you are wanting to make Bobby look like he supports abortion when he supports choice which is a big difference. He has made it clear he thinks abortions are a travesty! But the government shouldn't be making that decision. Are you okay with making a woman bring to term a baby that the doctor said will not live once born because there is no heartbeat or other medical problems.

I think that's just as cruel and exactly why the decision should be made between the doctor and the expecting mother. Someone can be totally against abortions for themselves but not want to make that decision for others. Trump puts out a lot of hate to those that disagree with him as well as parts of his record I do not support. I sure don't support Biden's record, either. There is not a perfect candidate but Bobby's record for many years fighting corruption is one I support and why I will vote for him!

It seems anything uniquely American and has once worked has been shut down or turned upside down. What is causing this? Please forgive me as this was listened to, copied and written on the fly. From a citizen of Poland and survivor of Hitler & Stalin, no way I could hope to spell this name. "If someone is honestly 55% right, that's very good & it's no use wrangling. And if someone is right 60% it is wonderful, it is great luck & Thank God. What is to be made about 75% right, why do people say this is suspicious? What about 100% right? Whoever says he is 100% right is a fanatic, a thug & a rascal." RFKJR has worked with Doc, with Barbara Loe Fisher, many environmentalists on the issues of toxins in the environment, Glyphosate, devastating Farming methods, autism & standard Vax's needing proper safety studies, High Tech Snooping, Digital Banking, WEF/WHO dictator initiatives & much more for years, even decades.

Yet after & still being silenced by Legacy Media for decades still fighting and Winning. RFKJR who knows and understand the Corporate Capture of Gov'ts, both Political Parties, watchdog institutions, Legacy Media, Trade Journals and more. Is there any candidate who has a background wading through the Deep Tangles of Weeds with Actual Awareness of much or any of these things, and addressed them in real meaningful ways?

He while is not our Saviour and all depends on his shoulders. He is our best chance for We, the People, of bringing all these issues out and in front of all the Bull Spit issues spoon fed to Divide & Conquer to Rule us. His efforts reflect the need to reach and find those issues we agree on, not to focus on issues designed to divide us. Then many of those divisive issue dry up and blow away. Much if not most of the Power & control has a chance to get challenged & diminished. Even hopefully, replaced with sanity.

Yes Just, great cooperations from RFKJr with people who want freedom of expression and fight for a better world. CAMPAIGNING FOR THE FUTURE OF AMERICAN HEALTH AND FREEDOM A SPECIAL INTERVIEW WITH ROBERT F. KENNEDY JR. BY DR. JOSEPH MERCOLA

mercola.fileburst.com/PDF/ExpertInterviewTranscripts/DrJosephMercola-R.. .---- WILL WE SEE ANOTHER KENNEDY IN THE WHITE HOUSE?- INTERVIEW WITH ROBERT F. KENNEDY JR.

www.bitchute.com/.../nZw8jd3cJQOD .---- A great independent president is needed to fight for freedom. As long as we have the lobbies there will be corruption. The rules of the game have not changed much, in fact they have been strengthened: influencing so that the information is what fits the pharmaceutical lobby and dictating laws that benefit those in power.

Therefore, any interest group longs to hire those who achieve “results.” People who dedicate their lives to seeking political rents represent an enormous opportunity cost. The most important lobbies correspond to influential economic sectors. We know a lot about the health/pharmaceutical lobby: one of the items with the highest spending in any public budget is Health and it is where corruption is caught with transfers of large sums of money as we are seeing with the “vaccines” in the decisions of the mandates and recommendations and as has been seen in many decades with drugs and all types of medications while alternative medicines were evicted by the Rockefeller school.

Large technology and media companies contribute to and manage the advancement of society, with enormous amounts of money to invest and managing billions of data. Not only do they cause tremendous damage with their interventions, which most of the time sabotage the market and competition, it also means giving up a productive contribution to the material progress of society.

Lobbies try to influence politicians to change the laws in their favor, and many times their work consists not so much in directly pressuring, but in generating a state of opinion in society that causes political authorities to be inclined to what they want. they look for. In short, the function of these lobbies, their business, is to remove those at the bottom to give the money to those at the top. It is clear that the way corporations influence our US government is having a terrible effect on the health of humanity. Robert F. Kennedy Jr. (RFK Jr.) accused the mainstream media (MSM) of acting as "propaganda organs" for government agencies.

He made this accusation during an appearance on the "Lex Fridman Podcast," adding that the MSM played a major role in an "organized conspiracy" by censoring anyone who questioned the narrative. "In fact, I think the entire field of journalism has been embarrassed in recent years," he told Fridman. "If you look at what happened during the pandemic, it was the opposite of that type of journalism." "The major press organs of this country... were broadcasting propaganda.

They became propaganda organs for government agencies. In effect, they were censoring the speech of anyone who disagreed, of those who have no power." According to the presidential candidate, the role of the media is to speak truth to power and safeguard the freedom of expression guaranteed by the First Amendment. When the media colludes with powerful entities to manipulate public opinion, they become an instrument of authoritarian government. This, RFK Jr. added, undermines the essence of journalism in a democracy. www.zerohedge.com/political/rfk-jr-blasts-medias-organized-conspiracy-.. (2023)

Also. In an exclusive interview with freelance news anchor and former Fox News host Tucker Carlson, presidential candidate Robert F. Kennedy Jr. warned the public that there are 36,000 full-time "death scientists" developing deadly pathogens as possible biological weapons throughout the United States. RFK Jr. pointed the finger at Dr. Anthony Fauci, former director of the National Institute of Allergy and Infectious Diseases (NIAID). He accused Fauci of being responsible for the development of biological weapons. (Related: RFK Jr. on Fauci's role in developing bioweapons and how Bill Gates profits from COVID lies.) "In 2014, 300 scientists wrote to President [Barack] Obama and said, 'You have to shut down Anthony Fauci because he is going to create a microbe that will cause a global pandemic,'" RFK Jr.

said during the interview. . He added that, as a result, Obama had signed a moratorium that led to the closure of 18 biological weapons experiments, most of which took place in North Carolina under the direction of scientist Ralph Baric. However, instead of obeying the moratorium, Fauci moved most of his operations overseas. RFK Jr. said that most of the "operations ended up mainly in the Wuhan laboratory, which is a military laboratory [...] and many of them went to Ukraine." RFK Jr.

told Carlson: "We have biological laboratories in Ukraine because we are developing biological weapons." The Democratic presidential candidate gave more details about the connection between the development of biological weapons and the creation of vaccines. "When you develop biological weapons, you need a vaccine, so they are developed in parallel because in 100 percent of the cases, when a biological weapon is deployed, there is a blowback. Their side also gets sick," he said. slaynews.com/news/rfk-jr-death-scientists-developing-killer-bioweapons.. (2023)

"It seems anything uniquely American and has once worked has been shut down or turned upside down. What is causing this?" Some years ago, during a different administration, I came across this thought process: when the usual explanations for why an idea, action, or policy did not work as stated are not satisfactory, you have to consider alternative explanations, no matter how 'out there' they may originally appear. Because those explanations are all that's left. The usual reasons are incompetence, stupidity, bad advice, poor implementation, and some others. That's well and good once, maybe twice. But when failure occurs at scale, that can only be achieved by intent.

In other words, what normal people see as bugs, the people behind the action see as features. The cause of what you see happening is people working to achieve that result - to tear down everything that once defined America as unique. No other explanation works. I've tried to make the usual ones work. They don't. It is statistically impossible to be wrong as most of us would define it on the border, Ukraine, inflation/economy, crime, the miseducation of our kids, attempts to silence opposing voices, etc. Any one of those probably could be explained in one of the usual ways, but not all of them.

We may refer to people in DC as morons but they're not stupid; they're typically not affected by the consequences of their own ideas. Just look at the current freakout in former sanctuary cities who are living with the results of their own preference. Sorry to be long-winded, but your question caught my eye and it's one many people ask. The cause is the one thing no one wants to hear, the one thing we are programmed to not expect. Who wants to think that the country's leadership is actively working against its constituents, but that's the only possible answer left.

My concern with Kennedy is who he would appoint to his administration and who he would appoint to the SCOTUS. If he brings in establishment Democrats, then we can stick a fork in the US. They will stab him in the back, just like the established RINO's did to Trump. Whoever Kennedy chooses, will need confirmation through the Senate. A Republican Senate will not confirm outside choices. A Democrat controlled Senate marches in lockstep with their party's far left agenda. They will force him to take from within. Personally, I would like to see Trump win, and bring Kennedy into his administration. Trump has the experience as President, and the background in economics, while Kennedy has the wisdom and legal background in the medical, pharmaceutical and environmental fields. Together, they could do great things for the American people.

"It seems anything uniquely American and has once worked has been shut down or turned upside down. What is causing this?" - I believe it's happened because there is no longer any authentic accountability for *any* agency/anyone who leaves the moral pathway, especially in regard to the unelected bureaucrats. On top of which so many people these days have no problem breaking the law if they know that they're dealing with someone who can't afford to protect his/her rights via litigation. And let's face it, most of us can't afford it.

- Yet another reason I support Kennedy. He knows how to litigate and by doing so speaks for all of us.
- I like to see his serious lawyerly look which reminds me a bit of Abe Lincoln's portraits because along with the intelligence, confidence, and determination there's also a sorrowful element, no doubt due to RFK's traumatic losses during his childhood. His life experiences - both the tragic episodes and those of good fortune - have thankfully inspired him to work for the good of humanity and in bettering the world.

Robert Kennedy Jr. reports: “Even if the Ukraine war ended today, we’re still going to spend half a trillion there rebuilding the country. The contracts to rebuild it are even bigger than the war contracts.” But get this: Mitch McConnell has essentially admitted that the money is not going to Ukraine but to military contractors. Juststeve, I hear you. I feel the same way every time a good Republican loses to a bad Republican simply because of their stance on abortion. During the 2000 Republican Primaries, John McCain was ahead in all the poles and was winning. Bush was a DISTANT second place! McCain had right at 50% and Bush had like 30% and the remaining candidates were below 20%. I don't recall if it was 20/20 or 60 minutes or Meet The Press. It was probably MTP because I actually watched that program 24 years ago.

There were rumors going around that McCain supported abortion. I believe Tim Russert asked him to explain his position on abortion. Rather than just immediately answering with "I DON'T SUPPORT IT" he hymn-hawed around and basically dodged the question. The next polling came out just days before the end of the Republican Primary and suddenly Bush was ahead! Bush eked out the win for the Republican nominee as a result. It would behoove RFK to let go of some of the Left/Right partisan political sticking points.

If you're a Republican you won't vote for anyone who supports gun control and climate change is another problem. It's a very divisive topic. I've done years of research on CO2 and there's absolutely nothing dangerous about it. All life on this planet ceases to exist without it. Plants grow exponentially better and bare more fruit when CO2 concentrations are above 800ppm (that's a fact). Our current level is a plant starving 410ppm! Core samples show that for the past 550 million years the average CO2 level of the planet has been over 1,000ppm.

They also show that we have an ice age every 150 million years. It is literally like clockwork. The reason we think the planet is warming is because we are coming out of an ice age. Rather than call it global warming or climate change, why not call it what it really is: "The End of the Quaternary Ice Age". Look it up. We are in the Quaternary Ice Age. If RFK would call it what it is he might get more votes.

Posted On 02/23/2024

Naplam

On that last note, the next time you see a High School or College student, ask them what ice age we are in. I guarantee you that 99.9% of them won't know the answer. That's the problem! Not only do they not know we are in an Ice Age, they are all brainwashed into believing all life on this planet will end if CO2 isn't brought to net ZERO! That's INSANE!! It is well documented that when CO2 levels fall below 150ppm, all life on the planet ends. We are at 410ppm and RFK wants to lower it??? WOW! We could solve the food shortages around the world by simply raising the CO2 levels above 600ppm.

If he's as educated on the environment as he claims to be and he is still on the CO2 bandwagon, then he has serious issues. I've been researching this topic too. I was a climate activist until I actually got educated on the topic. It is nothing but activism. It's being used by the left to capture the influential minds of those under 30. RFK is old enough and smart enough to call climate change the hoax that it is.

Spot on analysis Dr. Mercola. I watched this interview when it aired and cringed for Mandel and his daughter. I have watched RFK junior stay calm in the face of hysterical ignorance on other occasions too. He is truly masterful at keeping connection to his heart, brain and memory bank while under fire. On all occasions the other party, by their ignorance, has only helped him illuminate his points. The only time I have seen RFK jnr lose his cool slightly was on the topic of Israel and it did him no favours. I for one can learn from him about keeping calm and connected when discussing highly charged issues. I wish I was American so I could support his campaign. What a gift to the world his presidency will be!

The hopeful reality is that RFK Jr., intends to destroy the Deep State and hold Big Pharma responsible for the "vaccines" that killed and harmed people around the world. The war against Covid was in many ways an action of the national security State, something similar to a military operation promoted and administered by the intelligence services in close cooperation with the administrative State. War and censorship go together because it is wartime that allows ruling elites to declare that ideas alone are dangerous to the goal of defeating the enemy. RFK, Jr., also urged the public to sign a petition against the imminent takeover of the World Health Organization (WHO) through the amendment of the International Health Regulations (IHR) and the closely related Pandemic Treaty, which seeks to assume power and dominance in all health matters above the sovereignty of its 194 member states.

Kennedy's CHD's #TheGreatFreeset campaign provides an opportunity to resist the centralization of power by the WHO and the World Economic Forum's "Great Reset" initiative. It is an opportunity to disrupt the WHO's ongoing plans for global consolidation of power. "The world we leave to our children depends on us rolling back the WHO's global governance agenda. We cannot overstate the importance of resisting this ultimate consolidation of power in a few sinister hands that have no regard for our health or our best interests. ". read the campaign description!

I watched Kennedy answer a question about how he could stay calm and focused in the face of such ignorance, vitriol, and actual danger. I'll horribly paraphrase it, but his answer was something to the effect that he is striving for truth and peace, and he would do his part and the chips would fall where they would. He was only responsible for doing what he is called to do. I try to remember that in conversations with angry, ignorant people.

Being respectful isn't enough. He is outright wrong on some issues. He believes humans cause global warming. We all know that this belief is leading to all sorts of inhumane practices and practices that are destroying life on earth. He only wants to protect SOME children. He is OK with legal abortion. He wants to protect children from vaccines, but not from the abortionist's knife. Nor does he want to give us women legal protection from abortionists. Given that abortion is an atrocity also committed on mothers, this is unacceptable. We women need and deserve legal protection from abortionists, and people who coerce us into abortion; we deserve better than abortion.

RFK Jr. is a socialist, and his stance on "rich uncle" is a demonstration of that. Who is going to pay for all those "rich uncles"? The taxpayer, that's who. Just like the fiasco with student loans, where leadership is trying to stiff everyone else for someone's failure to pay off their student debt. Being right on two issues (vaccines and Ukraine) is not enough. Nobody's perfect. But you have to choose the person who supports the most rights for us.

And hope that you can educate him on the remaining issues. Even if that person doesn't have a civil tongue. JFK Jr. is basically a Democrat who gets it right on one critically important issue, but is wrong on nearly everything else. Don't vote for the "attractive" candidate. That's what dumb voters do. Be a smart voter. Vote for the person who will preserve as many of our liberties as possible and who won't rob us blind. As far as vaccines go, at least most of us are still alive to fight against them, unlike unborn children. And that is important.

Just to post the entire context what Kennedy, Jr said is IF BOTH SIDES BOTH Republicans AND Dems passed a bill on gun control he would sign it. I do not think that will ever happen and he probably doesn't think so either. Why don't you add your views on when Trump said out of his own mouth he would take their guns FIRST and due process second?? I am voting for Kennedy, Jr based on his record of going against corp corruption and I agree with his views on not polluting our air and soil just like I will not vote for Biden or Trump based on their record of the things they did that I do not agree with!

Posted On 02/23/2024

Naplam

Countrysme, RFK means well, but I can't support anyone who supports the current climate change narrative. He's also against the use of fossil fuels for energy and he supports electric vehicles. Then he backs gun control. Those are like the top 4 reasons I would NOT vote for someone! The whole vaccine thing is controversial. He will tell you he's not anti-vax. He and all his family are vaccinated. He simply doesn't believe in mRNA jabs as vaccines and he has serious issues with vaccine manufacturers not having any liability. That's a strong/good reason to vote for him, especially if you agree with climate change and gun control.

I don't know who he will pull votes from. The never Trumpers will definitely vote for him. Those who are tired of the mumbling/fumbling Biden will vote for him. That maybe 15% of the vote? Approximately 45% of people call themselves Independents now. If he got half of those voters that's another 23%. That's 38%. He might could pull that off! My biggest fear is the Dems will pull a slick one and replace Biden with Newsome. He is a Marxist.

Posted On 02/23/2024

So Naplam I guess you are not voting for Trump, either, since he said out of his own mouth when he would take their guns first and due process second. That's reason enough to never trust him on that issue if that's a priority issue for you. He is also against the WEF climate control agenda so that's the main thing to me is that he is not going to ban meat or stoves or anything like the WEF would. I agree with not polluting our soil and waters! Yes, he's had some vaccines but he's for CHOICE. Too many people love the vaccines for them to ever be banned so the main thing to me is someone that's for choice and I do believe he wants better safety testing. He had a mother visit him with a lot of information about vaccines and told him she would not leave until he looked at it so before that is when he had so many vaccines. After he saw all the information is when he started promoting better testing and he was definitely against the Covid vaccine!!!

Yes, in Plymouth UK where we had 110 mature trees removed by the council at night, from our unique city centre, the public were under the impression that it was for (completely unnecessary btw) 'regeneration.' Now we see the quirky new plan includes high intensity street lighting every 30 yards with 5G connected cameras, treating us all as potential criminals, with facial recognition, and also turning supermarkets and now-empty shops into tiny apartments . Sound familiar? A council smear campaign has been adopted towards a group 'STRAW' that legitimately acquired an injunction to stop the work after a polling showing clear public disapproval for the changes and was was completely ignored. You have to wonder how so many dishonest players have gotten into power in so many places.

"I sure hope I live to see the day that vaccines and 5G are banned." In view of the recent news item that Russia (or any other country) is planning a nuclear strike that would decimate the orbiting satellites, as well as yesterday's ATT "minor" outage, (who I indirectly rely on for my Consumer Cellular Home Phone service), I wholly concur. People should try to opt fom satellite telecom outfits and subscribe where ever possible to those telco companies that rely on buried fiber optic cable, at least for stationery applications. And of course I object to those vaxxes as well.

The level of ignorance displayed by the interviewers was stunning. RFK, Jr. did a good job responding but it didn't seem like they really listened or that he was able to educate them about anything. Rather, they seemed to stick to their pre-interview misconceptions as they regurgitated the false talking points the global health establishment has pushed for generations. Mandel started by saying he spends much of his time on the internet. It seems he thinks doing so is making him an informed citizen when in fact it's clear from his interaction with RFK, Jr. that he has been brainwashed by the false narrative propagated for so long by pharmaceutical, public health, and government actors more generally. I fear he is representative of a huge portion of the public. The interview shows how difficult it is to turn this ship around.

Although those will be the kind of arguments put forward in the tv campaign debates, I imagine. You can see they had trouble with the Cutter reference and were a bit shaken by the corporate benefits to so-called regulators. The MSM has a lot to answer for, including many deaths.

Posted On 02/23/2024

Yes, watching them quote the CDC at him speaks volumes! However, the balance does appear to be changing. I know several vaccine- injured people, plus their friends or relatives, who swear never to take another jab for example, or to trust anyone in a position of power without a much more thorough assessment than from the MSM. They seem to have woken up finally. I notice much more support on platforms such as Facebook when referring to the influence of the WEF/Davos crowd on our politicians rather than previous accusations of 'conspiracy theory.' Change is happening. Of course the WEF manages to regularly shoot itself in the foot by publicly discussing plans such as 'halving the world population', 'implanting workers with chips for increased productivity' or the possibility of introducing 'expiring universal digital incomes. Hopefully these clown groups contain the seeds of their own eventual demise.

"Mandel tries to say that health officials never said COVID-19 shots would prevent COVID," Set aside for a second the breathtaking lie that Howie told and ask this: if the vax does NOT prevent the virus, then why would any sane person want to take it? That is, after all, the whole point of being inoculated against something. No one takes the polio or measles or other vaccine because it might "make their cases less severe," which is what the original talking point of efficacy devolved into. It is beyond baffling that, even at this point in history, there remain people who refuse to critically think and reason based on the evidence at hand.

It's one thing to disagree with Kennedy on policy positions, and I am in that camp. There are certain views he has that do not square with mine. Still, that doesn't make him a horrible person, nor does it make him someone to be silenced. It just makes him someone with a viewpoint different from mine, the sort of thing we encounter every day. Maybe he can persuade me, maybe not. Either way, I'm not going to dismiss him or ignore any points where we might agree, because who does that?

"They don't like me because they get their news from TV. And people who get their news from TV are going to have a very low opinion of me because the television networks are, you know, uniformly against me." RFK Jr. on Baby Boomers. I'm a Baby Boomer and I stopped watching TV "news" four years ago and I vet every word from the inter web. I don't hold a "low opinion" of Mr. Kennedy. But the opinion I do have is firm; RFK Jr. is a socialist. The very type of a person his uncle and father fought against. How do I know that? Because I'm a Baby Boomer. NOR do I trust entertainers to provide policy guidance on anything other than how to entertain. I am most certainly not going to trust Mr. Mandel or his daughter on public health policy.

Germaphobes have missed the point all together and for 30 years I was responsible for formulating public health policy for workplace chemical and biological exposures. So neither of these guys have much to offer in this arena. IF it took you FOUR YEARS to figure out that SARS-COV-2 was man made, not lethal for the healthy, not a threat to children, that government agencies, pharmaceutical companies, and hospital all profited from this debacle and kept you from obtaining treatments that worked. You've got a bigger problem than choosing sides in a debate between two entertainers: the politician and the comedian.

Please consider signing the petition to enable Secret Service protection for Robert F. Kennedy, Jr.'s safety. The Biden administration has denied Secret Service protection to RFK, Jr. 3 times now! It is **totally unprecedented** to deny an application for protection! The U.S. has granted SS protection to all major Pres. candidates up to a year prior to an election. The other major candidates have been granted protection, so it is only fair for RFK, Jr. as well! NBC's own recent poll shows RFK, Jr. at 34%!!

Nikki Haley has just been granted SS protection, and her polling is a fraction of RFK, Jr.'s. This post is not to ask you to vote for him; this is simply an appeal to the reasonable nature of people who follow a site on wellness. Go here, it only takes a minute to do: security.kennedy24.com "It may not seem very significant what you do, but it's very important you do it." The difference is that the establishment is promoting Haley and wants her to win the Republican nomination because she is one of them. RFK Jr defected from the Democrat party. They do not want to even acknowledge that RFK Jr. is running.

It is likely that the Secret Service is responsible to some degree for the deaths of both JFK and RFK. As a survivor, why would RFK Jr. want their protection? He is wealthy enough to provide his own.

Posted On 02/23/2024

artist.jill

Denying Secret Service protection is likely a strategic move on the part of the establishment: the more spent on private security, the less available for the campaign. The cost of his private security runs to 6 figures per month. RFK Jr doesn't pay for this out of his pocket, it comes from the campaign which is funded by small donations by citizens not PACs. Most are unaware of this issue due to the media's misrepresentation or outright lack of coverage. This link explains a little more about the need: security.kennedy24.com

Hazardous vaccinations are not the only political issue. The US is running almost exclusively on false government sponsored mass media propaganda promoting nearly every evil imaginable as if it were the truth, and the way people should think. Demented Joe has been a complete disaster. He wasn't elected, and has sponsored and fueled costly wasteful wars all over the planet. He was put in place by the Deep State. I don't think much of RFK Jr. either. While more coherent, he's still a Democrat at heart, and the undemocratic Democrats actually rejected him. I see him as being lost in the swamp. His message is too confused to be effective or even beneficial.

It would be different had he rejected the undemocratic Democrats from the outset. I am a registered Independent and neither major political party represents me. At the present moment in time the undemocratic Democrats are the most horrific. 3rd parties don't have a chance given a massively ignorant and fully brainwashed electorate. Any Republican who constantly refers to the Democrats as the "democratic party" is a complete moron. That would include Steve Bannon - a chronic loud mouthed offender, somewhat similar to Najarata Haley, the Countesse Dracula, a truly venomous viper.

It's not practiced much anymore. We learned it in debate class. There was a time when someone who couldn't debate respectfully would never get elected. It didn't matter how good, smart, ethical, or right they were. If you couldn't engage in debates without throwing curse words or insulting people you would have a short career as a politician and/or leader in anything. Sadly, those days are almost gone. If you can't grandstand and throw fits on the stage like Omar or AOC you don't win elections, especially in blue states. It is disappointing to see our politics going down this path. There are others like Kennedy that still live by the ethical code of "they serve the people " and they did it eloquently.

Tulsi Galbert of Hawaii and Harold Ford Jr of Tennessee (he's no longer in TN) are 2 that are still politically active but neither hold any position because they are not radical enough. They both can have intelligent and civil debates, but they don't grandstand or put on a freak show like AOC or Omar do. This is a crisis! Public mental health is at stake. If something or someone doesn't do something soon turn this ship around we will lose our country to the radicals. It will always be the Biden's vs Trump's if something doesn't change moving forward.

One additional point about "abortion" a word that rolls so easily and without concern off the tongue of many. It still has not dawned upon those who howl "a woman's right to her own body", that the real issue is not the rights to her body, but the right of life to the unborn human life in her body. It is supposed to be protected by the Constitution, so consider this. If the U.S. Constitution can be so interpreted to allow one category of human life to be terminated without cause or due process, it is just a matter of time till other categories of human life will also be terminated without cause of due process. Why are we surprised at all the deaths that have been orchestrated through the covid fiasco, the Ukraine fiasco, the Israel fiasco and on and on??? Those who support the typical abortion on demand will be stupidly wondering why their own life has such little value, as the great reset closes in.

I'm born in 1966 and technically a boomer. What is it with boomers not seeing the Great Poisoning that is so obvious? They should be the ones able to see the difference in our children. Watch any old movie and see how healthy and fit children and people in general were, with bright, curious eyes. Look at our children today: obese, dull, confused, medicated, staring at their phones, dark circles under their eyes.....except for the unvaccinated. The parents who do/did not vaccinate their children, raise them in general good too: with healthy organic foods, lots of time outdoors, limited screen time. It is so obvious.

This is for Country_Me on his comment on mcportaro True may not be the best man for the job, but he is what the country needs. 60 million Republicans believe that the election was stolen. Probably many Democrats feel the same way and are happy about that. It is hard to gage a number on the Democrats, but anyone who says 2020 was the most "fair and free election" you can be sure that he/she thinks it was stolen. Clearly many people tried to steal the election. Whether they did or Biden legitimately won has yet to be determined. The courts refused to look into this. But those who tried to rig the election cannot feel that they got away with it. If Trump returns to office, then they failed.

Our country cannot survive if many or most people feel that the election system is not fair. We certainly can't have people who are empowered to cheat in the elections. Trump made mistakes, but the economy was good and he didn't start any foreign wars. It wasn't so much as he was divisive, but the news media and Democrats claimed he was divisive. Actually, they were the ones being divisive and still are. Racism was nearly finished in 2008, but Obama and now Biden have brought it all back again. The country will survive Trump as president. RFK has no chance. That is being realistic. However, if Trump does not get back in then I am afraid our election system is at risk.

I like RFK Jr and would vote for him even over Trump if he would move to the right on abortion and run on securing our borders. Kennedy was doing superbly until he was asked his position on abortion. He stated that he views this decision is entirely up to the woman. So my question is "What decision is up to the woman?" Is it the decision on whether to kill her unborn baby or not to kill it? Regardless of all the mirrors and smoke screens that may be employed to get around this simple question, it still remains the final, simple question. What grows in a woman's womb is not a cat, a snake, a grapefruit or an insect. It is either a human life or a tumor.

Howie, I like you. I saw you 50 years ago when you were just starting out in music in small town Ontario, Canada. Bobby knows what he's talking about. I know you can see that. So check your attitude and listen. Ignorance, beliefs and cultural consensus are not virtues. So don't try to use them in a confrontation with knowledge and truth. What a great demonstration of the persistence of bias. I wish I had RFK's composure.

No way would RFK choose Rand Paul. RFK is a socialist. Moreover Rand Paul would never agree to run with him.

My problem with the 2024 election is ALL of the candidates! I never in my life thought I would have to choose between a geriatric lying fool (Biden) who thinks the US Presidency is a dictatorship, a full-blown Narcissist who thinks he's God or something (Trump), and a climate activist that appears to have suffered a nervous breakdown (Kennedy). No offense/insult intended for Kennedy. I know his mind is sound, but the POTUS has to have a showing of strength. He/She must be sharp as a tack and quick to respond. Our adversaries see disabilities as vulnerabilities. Biden and Kennedy are disabled. Unfortunately, that leaves a 4-year candidate the only option. That's a very bad option. I've been saying it since 2000. Every election year gets worse. Will we ever have viable/legitimate presidential candidates to vote for again? Will we ever have another Ronald Reagan?

Posted On 02/23/2024

Naplam not sure how you can think Kennedy, Jr doesn't show strength after all the years he has fought corp corruption literally and WON. Someone would have to be mentally sharp to go up against them and win.

Now, if this interview would/could be on, say 60 Minutes or another legacy media outlet, that would be GREAT... instead of wasted on Howie Mandel and his daughter. Of course, we know that will never happen. Besides Event 201, the plandemic preview.....the definition of vaccine was changed to suit the prevailing narrative.....as was the number of cycles the PCR tests were run through

From what I've been able to piece together, the # of "cycles the PCR were run through" barely begins to scratch the surface of the corrupt and devious psy-op involving it's deployment against humanity.

Mandel is a well-known germaphobe so naturally he's going to have a pro-vaccine bias. the human race has managed to survive thus far because of the natural immune system and i believe that vaccines are compromising this miraculous feature.

So-what do we do? Trump and RFKjr are both running against Biden, whom we HAVE to get out of office. But a vote for either splits the "conservative " vote in two and dilutes it. Add in voter fraud which I'm sure will still play a part in our elections even though I've read of a few cleanups. So are we doomed again?

Posted On 02/23/2024

WillieBe

We are not doomed. The problem I have with RFK is who he would surround himself with in his cabinet, or who he would select to the Supreme Court. When Trump was elected in 2016, he going to bring in Kennedy to be over healthcare but was talked out of it. I think Trump 2.0 will no longer listen to those voices, and will understand what is necessary to push the Senate to confirm pro America choices for his cabinet.

Posted On 02/23/2024

WillieBe you think? There is no reason to trust Trump ever again after he failed to drain the swamp and fast tracked those vaccines saying they are safe and great and signing to continue sec 702. I don't have to think. I know I don't trust him!

Will any of the laws change? Everyone should have an expiration date. It could always be renewed. Pass a law that all laws nine years or newer will disappear on their tenth anniversary. Every other law has 1 -10 years of life left, depending on decades on the books. It will give the legislatures something worthwhile to do.

"Russia has long been very clear about the fact that it will not allow Ukraine to join NATO, for the simple fact that it would place a NATO military presence right on its border". That has never held water. There's at least 4 NATO countries already bordering Russia. There's 5 or more if a few miles of water is overlooked. Alaska is very close to Russia!

Posted On 02/23/2024

Arlen1

Don't quote me on this. Since yesterday's article on AI was such a hit I decided to ask Bing's AI bot (Copilot) "why does Russia want Ukraine?" I got 3 answers. #1: Reestablishing a Russian Empire, #2: Preventing Democratic Encirclement, #3: Domestic Russian Politics (Russia is captured/ran by Oligarchs). Some or none of this maybe true. Maybe it is true. I disagree with all 3. I already explained why the NATO argument doesn't hold water. That's why we have debates. In my opinion, the reason Putin wants Ukraine is so he can have more control over the energy sectors in that region. Again, the energy thing is just my opinion and I'm probably wrong. If it really is about NATO, that's bordering on insanity seeing how there's at least 4 NATO countries already bordering RUSSIA (6+ if 100 miles of water doesn't count). Seriously, define what a border is. Tennessee and Arkansas are separated by the Mississippi River, but they are considered border states.

We need someone that is actually for the people running this country. I wrote twice to his office on asking how to vote for him, but got no response. I know they are busy but this is important to get out there. Does anyone have this info for me?

I think RFK, Jr. is right on regarding the vaccines and the endless wars. I enjoyed hearing his discussion on this subject with all his knowledge of the inner workings and people involved in the NIH, etc. He is an articulate man. His voice has gotten better since he began to run for office. Probably become stronger. The discussion on censorship was troubling, but at least Kennedy believed it was govt who should not be involved in censoring speech. Individuals should be allowed to give their opinions, even when they are dead wrong. Censoring opinions cost many people their lives in regard to the covid vaccines, or their health. He is dead wrong regarding abortion, which is the ultimate human right to life.

No mother should have a right to destroy/murder her unborn baby. That decision, to not have a child should be a moot point after pregnancy. From that point on it is to care for and protect that child, even if you give it up for adoption. Abortion is 100% murder and always against God's law concerning human life. Those who have done it are not guiltless and will be held accountable - if not in this life, in the life to come. We should make them accountable in this life, including all the justices and lawmakers and presidents and so on who have gone along with this holocaust for generations.

Beware of the army of trolling nay-sayers that has been deployed by the powers-that-be that fear RFK Jr, whose mission it is to smear him and spread doubt and falsehoods and misconstrued opinions about him in any way they can. Are some of the commenters here letting themselves be influenced by them, or are they perhaps part of this deployed army? Biden & Trump are complicit in the crimes of Dr. Fauci and his cronies. Biden & Trump stood idly by, doing nothing as Fauci destroyed lives and the economy, and carrying out the pandemic planners' agenda. Biden & Trump endorsed Fauci time and again, abdicating any leadership that Americans entrusted to them.

And to date, neither Biden nor Trump have called Fauci to account for his historic crimes against millions of people worldwide, and they likely never will since they were active participants. RFK Jr never endorsed Fauci & Trump's "Operation Warp Speed" jab plan, or the reckless gain-of-function (read: gain-of-harm) research both Trump & Biden enabled. Unlike Biden & Trump, RFK Jr. will hold Fauci & Co accountable for their crimes, and he is the only one with the skill, independence and determination to do so. As discussed in *The Wuhan Cover-Up* (a must-read book), both Biden & Trump betrayed humanity by carrying out depraved demands by the military pharma bioweapons complex: Trump lifted a moratorium on gain-of-function research (which is a lipstick-on-a-pig term for bioweapons development whose sole purpose & end result is to kill & maim large numbers of human beings, with zero actual historical benefit to humanity despite hyped-up promises), & Biden signed an executive order continuing this risky activity, ensuring that billions more taxpayer dollars are siphoned into these senseless endeavors.

Inevitable lab leaks now happen daily from the hundreds of such labs, whether by accident, theft or deliberate release, some with potential far worse than the weaponized C-19 virus.

Both major political parties are active participants, concealing their corrupt complicity from a woefully uninformed public via the paid-off media. The only way out of this is to have an awakened public willing to see the current system for what it is and elect a president with not only the ability to stand up to the cabal, but the prowess to root out the underlying corruption that enabled the Covid debacle in the first place. He has the savvy, determination and skill to hold those responsible accountable, to bring everything out into the open, and to clean up the captured, corrupt and ineffective agencies so it doesn't happen again.

He has the wisdom and wherewithal to carry out his promises. Let's look at what he'll do as president: Re-build the gutted middle class; get corrupt corporate influence out of government so our agencies protect the public rather than enriching corporations; breathe new life into the dying American Dream with new housing and low-interest loans for young people to be able to get their foot in the door of home ownership; hold Fauci & Co accountable; fix immigration by stopping the flood of illegals, sealing the border and facilitating an appropriate level of lawful, orderly immigration; reduce corruption and coercion in the media and social media; and end the forever wars and have no new wars on his watch.

Just consider that last one. It's the epitome of being a peace candidate. That alone would stem the current siphoning of America's wealth that's now funding wars and bioweapons and enable us to fix our crumbling infrastructure, reduce chronic disease in children and adults, clean up the toxic food supply and environment, invest in jobs and education, and more.

If he can be heard on a national scale in debates, and if he can be added to the ballots, I think a critical mass will vote him into office, hopefully for two terms. We can all benefit tremendously when he restores our democracy and brings integrity back into the mainstream. Perhaps it is hard to find a perfect candidate in some people's eyes, and I think many are taking a tiny snippet out of context deliberately to cast doubt. Please, everyone, don't believe the nay-sayers, and counter them with truth whenever you see them.

If one is an advocate for health freedom, period, RFK unfortunately doesn't cut it. He is a PRO-vaxxer and the only reason he isn't for covid shots is their safety record. If RFK is satisfied that a shot is "safe" be ready to roll up your sleeve in a mandatory jab campaign. If I don't want to be a pin cushion I shouldn't be forced to be one, period. AN INTERVIEW WITH DR. HOWIE MANDEL: "On the "AGT" set, Mandel says his fellow judges are understanding and considerate of his condition and everyone he works with is "so open about mental health." He also praised his co-judge Simon Cowell, 64, for recently revealing he went to therapy to help treat his depression. Mandel says it can be especially intimidating for people of his and Cowell's generation to share their mental health struggles."

During an interview at the 2014 People's Climate March, he said that "treasonous" billionaire businessmen Charles and David Koch "should be enjoying three hots and a cot at The Hague with all the other war criminals." Fantastic video, love JFK jnr.! What drives him is his religion/God, he's said. Many may be interested to know he went to Japan for surgery on his vocal cords, which was very successful with significant improvement, and without surgery he would have been in big trouble with his voice, or words to that effect. His condition does not cause him any discomfort or pain when speaking, which from the way it sounds, people may presume it would.

“They weren't treating people. It's the first time there's been a respiratory illness in history – if you go to hospital with a flu, they'll give you something for all your symptoms – they said no nothing [for COVID]. Why were they doing that? What RFK Jr, has uncovered in this one sentence should shake the foundations of the entire healthcare industry (or is that 'healthcare conspiracy'). It is an ethical travesty beyond all comprehension that hospitals would refuse to give COVID patients Tylenol or Motrin, the two over-the-counter medications that are the current standard of care for patients with flu, and both of which are in most people's home medicine cabinets. I'm confident that RFK Jr. knows how to fix this, and I'm even more confident that he will.

At 20+minutes into the interview, having trouble listening to it because of the host/daughter team who ask a few reasonable questions but seem too ignorant of history and other issues (now they're on to "vaccines", don't think I can continue to endure this) to qualify to be interviewing an important figure like RFKjr. A big part of Howie Mandel's comedic fame was based on sounding like a moron (while pointing out ironies). As the interview goes on now, he is clearly an obnoxious, ignorant (phucking) moron. And now I realize the apt title of the article (which is not the descriptor used in the news letter, per practice) which I hadn't paid attention to initially--so I'll cope w/ the moron(s) and continue tentatively w/ the interview. My question: is Howie powered by his own idiocy and ego alone, or subsidized like so many BS loudmouths by the cabal?

Great interview. It confirmed my resolve to NOT support Kennedy due to his belief that it is ok to murder pre born babies. He says it's a woman's choice. No, she makes her choice when she spreads her legs. Pregnancy is always a possibility, therefore, choose to NOT get pregnant before you engage in an activity that can guarantee that possibility. If a country has no regard for human life inside the womb, how can it possibly care about those who are already here. Regardless of my agreement with him on literally every other issue, the right to life will always win. So Trump has retained my vote.

Bobby's World, no kidding !. . . . was the 40-plus years ago Howie Mandel prescient? In the world of what-ifs, one of the greatest of all might be what if RFK became president. Might Julian Assange become the V-P after Biden exonerates him in an attempt to curry favor with the electorate (www.kennedy24.com/assange-petition). Then Tulsi Gabbard should head the state department so in the future to avert this type of extortion diplomacy www.thegatewaypundit.com/2024/02/bipartisan-group-us-senators-flies-hu.. And while I'm dreaming, RFK at his inauguration speech tells America, "don't look to me for your answers. No president can save America. It's not our job. Invigorate your citizenship, study and apply our Constitution and realize government was always intended to be most potent at the local level. Hold your local and county officials accountable. Ask not what your country can do for you but what you can (in this manner) do for your country".

MMaster that's your take on what I wrote, not mine. That quote by his Uncle JFK was intended for a national audience. The quote as in my "dream" is aimed at first a local, then county, then state and finally national level, in that order. If you don't work in D.C. nor are a federal employee then you don't owe any federal wage taxes. But I get your point because I'm cynical too and, above all, want accountability which is still within reach in local government.
