In China, you cannot change the party, but you can change the policies. In Western democracies, you can change the party, but you cannot change the policies. (Pinched from a comment section on different site.) Today's report explains why this is most likely so. You can take their 'medicine' off of the Left Side of tray, or off the Right Side of the tray, but it is all the same medicine coming out and from the same source. (On a personal level the Gut isn't so sure about the China changing much on policies though.

Seems like things change there only if there are no choices left.) Here the Power Brokers, Legacy Media are crowing this one or that one rose the most money today. No real effort to engage in policies to heal, or improve anything to Earn your vote. Lot's of money to buy your vote so you can get the same policy bought and brought to the Political Lick Spittle Lap Dogs from 'different sides' promoting the same thing but sounding and looking different while delivering the same results.

Yes, Just, neither red nor blue, the Big Capital lobbies run the world. Everything as a consequence of the “fake news” campaign is about establishing a news network commanded by the state, as Dr. Mercola has expressed “the truth of the state” a deep state full of interests for a devastating technocracy . Despotism can only stay in power by hiding the truth of what they are doing from the people they rule. There can be no meaningful democracy if there is only one centrally managed and tyrannically controlled source of information. Missouri Attorney General Eric Schmitt alleged that the FBI colluded with Big Tech giants to suppress the Hunter Biden laptop story and “put their thumb on the scale” of the US election.

“This is a story of the federal government, with all its vast power and authority, colluding with some of the largest companies in the history of the world to censor Americans, to put its thumb on the scale... of what is out there, what people can actually read and know before an election,” Schmitt said. [www.theepochtimes.com/fbi-colluded-with-big-tech-to-censor-americans-a..](http://www.theepochtimes.com/fbi-colluded-with-big-tech-to-censor-americans-a..) (12/2022). As long as we have the lobbies there will be corruption. Lobbies try to influence politicians to change the laws in their favor, and many times their work consists not so much in directly pressuring, but in generating a state of opinion in society that causes political authorities to be inclined to what they want. they look for. In short, the function of these lobbies, their business, is to remove those at the bottom to give the money to those at the top. It is clear that the way corporations influence our US government is having a terrible effect on the health of humanity.

Edward Dowd talked about serious injuries and more in a recent interview. Dowd recently wrote a book called "'Cause Unknown: The Epidemic of Sudden Deaths in 2021 and 2022," with a foreword by Robert F. Kennedy Jr. and an afterword by Gavin De Becker. This book lays out what Dowd said to Adams during his final speech, which he can see below. Yes Gui, it is why it has mattered very little throughout the ages whatever 'ism' was in play on the surface. Globalist Puppet Masters are pulling the strings off stage, out of sight. Then in those occasions when SHTF the puppets are the ones to be served all the heat, and the Puppet Masters sit quietly until the next round to advance their desires.

To the question how are we to know what is or may not be just more psyops? A good place to start is what they say is less important as to what they actually Do. A case in point. Here is another example of the forces engaged in another way but similar to the Amish Amos Miller Case. The narrator sounds like he may not have yet made the connection of Corporate Takeover - Fascist Takeover of Gov't's, along with Central Banks, Hedge Funds, WEF and other shadowy organizations. What is of most importance is watch how chapter and verse rules and regulations supposedly making large industrial Factory Operations product safer, to protect the public are being piggybacked - High Jacked, to actually destroy the real, honest competition of the Small Farmer, Market Farmer.

When those who grow small, locally, especially Biodynamic Regenerative actually repair, regenerate, clean, help prevent the problem the enormous CAFO operations produce. Industrial Farm Operations can not compete with Quality Human Scaled efforts and resort to legal maneuvering, large Quantities of product Subsidized, to shut them down.

In the clip is shown how many farms have been shut down. What may also be occurring is the Big Money Outfits have cannibalized the small ones so for shareholders the claim is more market share, when the actual number of dinner plates hasn't changed at all. Oregon urgently shuts down small farms in masse "to Protect the People" [www.youtube.com/watch](http://www.youtube.com/watch) Pay attention to what they do, what they do not say, look for lack of context.

More, this time Maine Shuts Down Over 50 Farms for invisible hazard, then buys land at "Fair Price." <https://.../watch> The little guy, the small farm has to bow down, the biggest offenders get a free pass. Small Farmers were encouraged to spread Biosolids on their lands, now they are a hazard. Who would have thought? Here in New York it was reported by a family farm they were shut down, literally Lost the Farm because of biosolids. Also Robert F. Kennedy Jr. (RFK Jr.) accused the mainstream media (MSM) of acting as "propaganda organs" for government agencies. He made this accusation during an appearance on the "Lex Fridman Podcast," adding that the MSM played a major role in an "organized conspiracy" by censoring anyone who questioned the narrative. "In fact, I think the entire field of journalism has been embarrassed in recent years," he told Fridman. "If you look at what happened during the pandemic, it was the opposite of that type of journalism." "The major press organs of this country...

were broadcasting propaganda. They became propaganda organs for government agencies. In effect, they were censoring the speech of anyone who disagreed, of those who have no power." According to the presidential candidate, the role of the media is to speak truth to power and safeguard the freedom of expression guaranteed by the First Amendment. When the media colludes with powerful entities to manipulate public opinion, they become an instrument of authoritarian government.

This, RFK Jr. added, undermines the essence of journalism in a democracy.

Presidential candidate Robert F. Kennedy Jr. hosted an insightful food and agriculture roundtable with regenerative farmers who are working hard to develop an alternative agricultural model for the United States. According to Kennedy, passing laws protecting factory farms, manipulating subsidy programs, and forming crucial partnerships with factory farmers helped greedy companies like Smithfield dominate the pork and chicken industries. In turn, these companies gradually turned the remaining family farmers into “indentured servants on their own lands,” Kennedy added.

Wayne Swanson, owner of Swanson Family Farm and small farm consultant, explained why it is crucial to grow localized agricultural economies and make small farms economically viable. He said for the project to work, the public must be educated about how to value agriculture that is not always high-yield or aesthetically beautiful. Instead, Swanson said the focus should be on valuing relationships and environmental and community health. What are we to make of the 1% with all the resources at their fingertips cannot abide the general population to observe, discuss, share as best we can among one another as best we can with what we have lived, known? Are they that fragile they cannot stand a strayed different opinion? More than one insightful mind from decades or centuries ago called today's happenings. "After having thus successively taken each member of the community in its powerful grasp and fashioned him at will, the supreme power then extends its arm over the whole community. It covers the surface of society with a network of small complicated rules, minute and uniform, through which the most original minds and the most energetic characters cannot penetrate, to rise above the crowd. The will of man is not shattered, but softened, bent, and guided; men are seldom forced by it to act, but they are constantly restrained from acting. Such a power does not destroy, but it prevents existence; it does not tyrannize, but it compresses, enervates, extinguishes, and stupefies a people, till each nation is reduced to nothing better than a flock of timid and industrious animals, of which the government is the shepherd." —French historian Alexis de Tocqueville (1805-1859)

If individual #1 bans everything google or android, that is no protection unless every other single person that individual #1 comes into contact by phone or digitally with does the same. One would have to become an anti-social, non-functioning hermit to get protection by boycotting google. The genie has been let out of the bottle. There have been many times that a customer service person for one essential service or another that now conducts business only online has told me a particular computer problem I am having is because I am not using google chrome and to try that. When I tell them I do not use chrome for security reasons, they respect that but sound baffled.

Are corporations really going to stop using chrome because customers and first level customer service people cannot fix a computer communication problem because chrome was not being used. Think of every phone call made, every keystroke made, daily. Everyone on the other side would have to boycott google at the same time to not infect each other. The same for vpn's. If individual #1 uses one but the person on the other side of any communication does not, what is the use, person #1 is not protected.

Problem is, people feel being a hermit or anti social is giving up on the internet and living in the woods. Think about all of us who lived in the 80-90s, not much internet. When we wanted to get a point across or tell people about a candidate, when we wanted to play a "game", when we wanted to chat with someone. We did so by either meeting up, asking them for dinner, meeting at the park or local field to play. No one wants socializing to be face to face. They want it to be all online, via phone, facebook, emails, texts, etc. maybe we just need to start talking with people face to face and this would definitely slow their agenda down. Imho

Good point, Liz. My all time favourite cartoon is one depicting the Amish being asked how come they are not affected by the "plandemic". The reply was "we don't have television" - the implication being, that without the media, nobody would even know about the supposed pandemic. Mainstream media became a weapon of war. That virtual cabin in the woods now looks ever more attractive. Without the world wide web, the whole psyops agenda would be a non-starter. Poor old Adolf had only radio, newspapers, public marches and thuggery to enforce his ideology. Divide and rule, divide and conquer, fear-mongering about anything from deadly viruses to climate change will keep the population controlled, compliant and confused. But the best weapon of all is lies. The mantra "keeping you safe" is everywhere from banking websites to railway stations. [www.youtube.com/watch](http://www.youtube.com/watch)

I was sick and tired and exhausted trying to figure out the truth from the lies. I came across a systems science course which I completed to satisfy a personal development goal for my employer, but it turned out to be quite an eye-opening experience, an epiphany of sorts. What I learned is that system's science is what the shadow government uses to effectively manipulate people. People like Kissinger and Soros use systems science. Soros wrote the reflexivity theory that is a detailed account of how systems work. Once you understand the principles of a dumb vs.

smart system, you can no longer be fooled. It becomes crystal clear and it is elegantly simple. The shadow government uses a smart system composed of 9 parts. One of the key parts to understand is "disturbance" because that is the psyop part you refer to. The elegant part of system's science is how it breaks things down into their component parts in a scientific, non-emotional way, to reveal the truth. Truth = Freedom from the mind-f&^k psyops. There is a way to ferret out the truth from the lies and once you see it, you cannot unsee it.

Lizschneider53, I agree with your suspicion that this "Shadow Gate" so called documentary is a fake for the following reasons: 1. It is full of generalities without evidence. 2. The narrative talk is interspersed with irrelevant video snips and background music meant to support an emotional response. 3. There is something fishy about the practiced demeanor of the two whistle blowers, Tore and Patrick. 4. None of the assertions are backed up by evidence. Could be as you write that this a false flag psyops tactic. Disappointing that the comments so far were so positive about this film.

We are way ahead in Thought Police activity here in the UK. From April 1st (All Fools Day) it will become illegal to think wrongly even in the privacy of your own home, which of course is not private anyway, depending on Alexa, Facebook and your personal internet devices. Local police have received training on how to deal with the heinous crime of voicing an opinion, just when we thought the Snowflake generation were growing up and learning how not to be offended by words. Meanwhile, real crime investigation such as burglary is said to be at an all time low, as police are overwhelmed arresting egg carrying bystanders at Royal processions. Not clear who will report you to the police for wrong-think - your own kids perhaps?

Shades of Nazism everywhere. Should I report (retrospectively) Humza's rant against white people, which Musk described as "blatantly racist"? <https://youtu.be/NcqOE6sspmA> . "Quitting Facebook is a simple enough affair. Just cancel your account." Not so, I'm afraid. I hope the police do come to my abode with a search warrant. I will be pleased to inform them and show damning evidence and a long list what I am offended by:- (1) I am offended by two unelected leaders in power (elected only by their comrades) whose culture is at odds with that of their constituents, one of whom is openly racist, the other an associate of an openly hostile NGO whose main agenda is depopulation.

(2) I am offended by a series threatening and abusive letters from a branch of government known as the Licensing Authority on behalf of British Broadcasting Corporation because I do not have a licence to watch television. (3) I am offended by my local government authority turning a once beautiful city centre into a tourist theme park, hamburger joint, tacky fun fair, discouraging tax-paying local residents from the city centre (4) I am offended by written penalties in the unrelenting efforts of local UK governments to criminalise and penalise bona fide motorists who have paid their road tax and ensured their vehicles are roadworthy.

(5) I am offended by local government building control riding roughshod over well organised petitions to stop over-concentration of student apartment blocks. (6) I am offended by the first Minister of Scotland's racist rant against white people. White lives matter. (7) I am offended by uncontrolled immigration and allocation of resources to illegal immigrants. (8) I am offended by the infiltration of governments by NGOs. Need I go on?

Thanks, rrealrose. The link to the Climate b.s. movie has appeared on various websites and I had included it in my reply to Lizschneider53 below. But the more the merrier! if as many as possible view it. The climate lie is the basis for all other lies about your "carbon footprint", CO2 driving climate change, Nut Zero and all the other made up "science" that is swallowed by the gullible and misinformed hangers on wishing to keep in with the establishment as well as of course the supermarkets etc trying to make an extra buck or two. When you tell a lie, you must make it a really big one in order to capture the majority. I was horrified to find it is accepted by some very influential companies/educators selling natural health products, but I suspect they are just following the narrative to keep officialdom happy and off their backs. Let's spread the link far and wide. I will be sending it to the IPCC for starters.

It is so hard to understand how so many people believe everything the major news media says no matter how much of it is proven wrong! And it's not just the major news. Some Independent channels that use to talk about how much of what the news media tells us is not true or not the full context given that NOW believes what comes out of the major news especially about Covid and seems to be great fans of them now. You would think once it was proven that they were wrong telling us the vaccines stops transmission and people can't get the virus if they get the vaccine would wake more people up but too many still think all was right with the vaccines.

Even Trump still talks about how great it is. Not the only reason I don't support him but sure is one of them. I am not a Biden supporter, either. My vote goes to the one that has fought corp corruption for MANY YEARS AND WON! A correct vote. A great independent president is needed to fight for freedom. As long as we have the lobbies there will be corruption. The rules of the game have not changed much, in fact they have been strengthened: influencing so that the information is what fits the pharmaceutical lobby and dictating laws that benefit those in power. Therefore, any interest group longs to hire those who achieve "results." People who dedicate their lives to seeking political rents represent an enormous opportunity cost. The most important lobbies correspond to influential economic sectors. We know a lot about the health/pharmaceutical lobby: one of the items with the highest spending in any public budget is Health and it is where corruption is caught with transfers of large sums of money as we are seeing with the "vaccines" in the decisions of the mandates and recommendations and as has been seen in many decades with drugs and all types of medications while alternative medicines were evicted by the Rockefeller school.

Large technology and media companies contribute to and manage the advancement of society, with enormous amounts of money to invest and managing billions of data. Not only do they cause tremendous damage with their interventions, which most of the time sabotage the market and competition, it also means giving up a productive contribution to the material progress of society.

Lobbies try to influence politicians to change the laws in their favor, and many times their work consists not so much in directly pressuring, but in generating a state of opinion in society that causes political authorities to be inclined to what they want. they look for. 40+ years to be exact. You are right ;it is what they do & not what they say. RFK jr knows the political games and has fought the corporations successfully for the benefit of the people.He is fit and sharp minded and pulls no punches. Nobody really likes either choice we have for this election which is why we want to overturn the apple cart and give people another choice by getting Bobby on the ballot in all fifty states. I am collecting signatures in SC which is a red state but most of those under age 45 are excited to support him which is encouraging. We can all do this if we get involved even a little bit. Biden will not give him secret service protection despite several attempts on his life already so he is also brave to do this but feels it is his duty. The establishment [deep state] is terrified of him. You cannot even mention his name or website on any social media or yahoo comment boards or you are banned; truth be damned.

With technology the censorship has increased, but the power structure has always employed propaganda and censorship to maintain power. RFK jr talks about how in the fifties and sixties everything was better we had real democracy. He sees the assassination of Kennedy as a turning point. Well Linus Pauling was way before Kennedy . When he was demonstrating against the testing of the nuclear bombs he had his passport taken away. Linus Pauling was one of the few men to receive two Nobel Prizes on his own , no collaborators. Well I knew someone who was Walter Cronkite's assistant and he told me he was sitting next to Walter Chronite when Walter Chronkite told in a broadcast to the CBS affiliates "Don't let Pauling on the air , if you do you will be dropped from the network".

Linus Pauling started ortho molecular medicine way before Doctor Mercola ever got on the internet. It is now called functional medicine. In Japan they know their history and they have 30,000 ortho molecular medicine doctors. In this country there are less than 500. Again many of Paulings concepts (no drugs) have been taken over by functional medicine doctors Walter Chronkite was called the most trusted man in America \_ what a joke.

Every newspaper in the country supported the war in Viet Nam . The lie was only exposed when I F Stone published how the United States provoked the War in the Bay Of Tonkin incident. Stone got the Pulitzer Prize for his work. Numerous books have been written about the propaganda and censorship in the past. The only difference is now the media is more consolidated and the technology is much more powerful

Don't be fooled by the deep state hates trump. Probably everything in the documentry is basicaly true but this is not the top of the food chain . Remember the game is divide and conquer so Trump is perfect as he has divided America more than ever. He talked against vaccines in his debate and he brought in RFK jr but he had to bow to the higher power. So he brings in Bill Gates (Gates Is not the higher power) and in the end he had military ready to deploy the vaccine at Warp Speed. The Deep State referred to in the documentry is just another pawn.

The banking cartel has been trying to destroy America ever since the revolutionary war. We have all been brain washed with no taxation without representation, but check it out - what was last act decreed by England before the revolutionary war? it was the currency act, which forbade the colonies from printing their own money. Printing people's money backed only by taxes always results in war or assassination . The British captured american sailors to cause the War of 1812 and then in chaos a central Bank was formed.

Andrew Jackson destroyed the central bank by not renewing its charter. Andrew Jackson was assassinated at point blank range. The guns blew up in the assassins hand. Lincoln print Greenbacks money only backed by taxes and not central bank and you know what happened to him . This was not the end. Presidents all the was from Garfield to McKinley opposed a central bank. Garfiled and Mckinley were both assassinated. Finally in 1913 a central bank was established in the US See Secrets Of the Federal Reserve by Eustace Mullins ( Creature From Jekyll Isalnd is a ripoff of Mullins) But neither book describes how Teddy Roosevelt was brought of retirement to split the vote and allow the Dupe Woodward Willson to become president.

Under Wilson the federal Reserve was established. All through the 1800s the valus of an ounce of gold 10-20 dollars. No inflation. 1913 ounce gold \$20 - today \$2000 - Bank Cartel Destroyed US

Unfortunately, it's way bigger than our intelligence community in league with the Democrats starting with Obama. It's ultimately all about power and control of the populace; witness all the authoritarian overreach starting with the COVID lies and lockdowns which have ultimately corrupted our entire election process with all mail in balloting, massive unregulated absentee voting and ballot harvesting. Big Business, in general, is now in collusion with the Democrat Party. And that's why we now have a cabal between the Democrats and Big Business; that the Democrats used to abhor.

And that's why we see so many big companies going "woke". Small businesses are being crushed by taxes and government overreach and over regulation but the Big International Corporate businesses (Coca Cola, Pepsi, Starbucks, Hershey's, Nike, Disney, Amazon, Google, Meta etc., etc) get to keep their tax breaks, their near monopolies and get all the cheap labor they can dream of from our completely open border. If you don't believe me, just look at how the S&P 500 is doing in comparison to small businesses and everyday America that is being crushed by inflation.

In return, Big Business financially supports the Democrats and all their "woke" policies and agenda. So now you see the Democrats moving towards complete control of the media and the flow of information while weaponizing the power of the state against the political opposition. That's the Chinese totalitarian working model and the Democrats love it and are aggressively replicating it here.

Lets remember who fast tracked those vaccines to start with AND said how "great" and "safe" they are. Still talks good about them. That would be Trump. Many on both sides have the same corp donors! By the way, I have never been a Dem. I did leave the Republican party and went Independent.

They have been OPENLY talking about the "New World Order" since George Bush senior [former head of the CIA and CFR member] was president. Look at the old speeches. Remember Kissinger [the original author of the Great Reset and mentor to Klaus Schwab] was advisor to presidents since Nixon ; serving as secretary of state and other capacities. The 100 year old reptilian is gone but his evil vision lives on; about to be fully rolled out after 60 years of preparation if we don't wake up and take action. Eisenhower wasn't kidding about the military industrial complex and RFK jr wants to break the corrupt corporate control of America which is why they are fighting so hard to censor him.

BTW it is the military & globalists that are CREATING global warming [and sickness to boost pharma profits and depopulate the chosen] with the poisons & metals they are constantly spraying us with . Check out the Dimming movie by Dane Wiggington who has been documenting this for decades. Maybe that's where the trillions of \$ the Pentagon can't account for went?

I voted in the primaries in my state. I would be away on vacation on the day, so I did "early" voting. It used to be called an absentee ballot. I had to show my license and sign my form. The woman compared my signatures. How does that get done with mail-in ballots? It doesn't. So anyone can steal a ballot from someone not voting (or someone who goes in to vote, only to find out they already "voted"). Or a bunch of ballots get printed up and dropped off with handwriting that matches across many ballots. Why are we still doing mail-in ballots? The voters have a traditional option if they can't make it in on the day. In some states, it's illegal, but they still do it.

The comments and responses here are fascinating. I can almost bet which main-stream sources are being followed. I fear our takeover is being accomplished systematically on a much larger, darker, evil scale. Steve and Guillermo addressed it more eloquently than I could. I demonstratively call it: Shaking up the Ant Jar. It works like a charm.

You got lost going down the rabbit hole Mercola. US politics is irrelevant and a smokescreen hiding the real evil who controls this deep state and more... The world's controlling evil elite who want a totalitarian one-world government.

Thank you, Dr. Mercola for featuring the groundbreaking work of Ms. Millicent - so true, so scary, and so psychotic what the shadow state is doing to all of us. After watching it several times and committing almost the entire screenplay to memory, I decided to try my functional medicine team's potent IV chelation cocktail of 2,3-dimercaptopropanesulfonic acid (DMPS), dimercaptosuccinic acid, thiamine tetrahydrofurfuryl, alpha lipoic acid (ALA), and quetiapine fumarate to remove all of the COVID-19 vaccine-introduced heavy metal transmitters in my blood and cerebrospinal fluid. They think it should stop all the direct cortical transmissions and 5G effects, and I can only hope that this will be available to everyone here as an oral supplement sometime soon.

Yup, looks like they are going to stir up a war to divert attention away from the awareness that 30 million killed worldwide by the shots alone, and to stimulate economic growth before the fall election. Wish this were not so however Martin Armstrong was predicting war starting this year, never posted the latest interview link...

The Democrats will do everything and anything to Prevent Donald J.Trump to win the next election. After seeing this video, we all suspected that Trump did win the 2020 Election! Now we are certain that Donald J. Trump Absolutely did win the 2020 Election! There is NO Way in Hell that Criminal Biden would get 81,000,000 votes! Americans are smart! There aren't 81,000,000 "Stupid" Americans who would vote for Biden!!!

Matrix, There were no wars started while Trump was in office. What other president can say that? He fixed our border. There are many other things he did, but they all got reversed the first day Biden illegally took office. Nobody is perfect, but Trump loves America and doesn't want the takeover that is rolling out. We need incremental steps to return to the country we should be. It took a hundred years to get here. It will take decades to turn it around.

A couple of questions/inquires. Is Alphabet(dot)com -- the parent company of Google obviously off limits, correct? I noticed Microsoft isn't mentioned. Is it because there's no getting around not being able to avoid them? And the Tips for Privacy graphic when clicked on states: "404 Not Found The resource requested could not be found on this server! How long before they realise that the same methods being used on the general public to achieve whichever foul ends sought, are and will be used on them also. Sad, sad, sad!

Have a funny/inspirational story about Twitter X. As soon as Dr. Mary Bowden tweeted the win against the FDA on Tuesday or Wednesday, with the court forcing the FDA to take down their falsified Iverm. info, strange articles showed up about how going into the sun will cause cancer, how Ivermectin is dangerous, and a sad story about recent measles outbreaks (showing a 1970s photo of a kid with chicken pox). Looked and felt like an IQ test of twitter readers. Many MDs and independent reporters jumped on these tweets to point out their silly advice. Community notes also went rogue, often inaccurately posting information under different topics, causing a few good laughs. Appears the paid trolls lost, at least for now.
